**Section II
Proposed Rules**

DEPARTMENT OF HEALTH

Board of Medicine

RULE NO.: 64B8-1.007 RULE TITLE: List of Approved Forms; Incorporation

PURPOSE AND EFFECT: The proposed rule amendment is intended to implement Section 458.3151, F.S., by incorporating the application for a temporary certificate for active duty military and veterans to practice in areas of critical need.

SUMMARY: The proposed rule amendment incorporates the application for a temporary certificate for active duty military and veterans to practice in areas of critical need.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that because the rule and form in question will enable active duty military and veterans to practice in areas of critical need, this rule will not have any adverse impact on licensees and their businesses or the businesses that employ them. The rule will not increase any business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This rule will permit active duty military and veterans to practice in areas of critical need. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 64B8-3.002
 RULE TITLE: Application, Certification, Registration, and Licensure Fees

PURPOSE AND EFFECT: The proposed rule amendment is intended to incorporate a licensure fee in the amount of \$424 for active duty military and veterans practicing in areas of critical need.

SUMMARY: The proposed rule amendment implements a licensure fee in the amount of \$424, and allows this fee to be waived if the applicant is not compensated for his or her services. The rule amendment also deletes duplicative language in subsection (2) of the rule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that because the proposed amendment will apply to a very limited number of applicants, the licensure fee will not negatively impact licensees and their businesses or the businesses that employ them. Additionally, the rule permits the licensure fee to be waived in instances where the applicant is not compensated for his or her services. The amendment to this rule will not increase any business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not have any direct or indirect regulatory cost impact. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

5I-2.006	Open Burning Allowed
	NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 40, No. 136, July 15, 2014 issue of the Florida Administrative Register.

5I-2.003 Definitions. No change.

5I-2.006 Open Burning Allowed.

(1) No change,

(2)(a) through (d) No change.

(e) Burn Manager Certification Process. To become a Certified Prescribed Burn Manager an individual must complete the required training and conduct a successful certification burn.

1. The Florida Certified Prescribed Burn Manager Training Course is approved by the FFS to meet the required training. It is offered in two formats:

a. The distance learning format is intended for experienced burners and students must meet the following criteria prior to taking the course; have obtained authorizations, as provided in subsection (1), from the FFS and conducted a minimum of

three broadcast burns in Florida or participation in five broadcast burns in Florida with recommendation from a current Certified Prescribed Burn Manager, or hold a current prescribed burner certification in another State or hold a current Prescribed Fire Burn Boss Type 2 Certification.

b. The classroom format is open to individuals of all experience levels. After taking this course trainees must obtain direct experience in three broadcast burns prior to conducting a certification burn. If the student meets the criteria for the distance learning format, then the three burns after the course are not necessary.

2. Certification burn process. Within three years of completing the course (either format), applicants must submit a completed prescription for the proposed certifying burn to their local FFS office prior to the burn for review and approval. After the prescription has been approved the burn described in that prescription must be reviewed by the FFS during the burn operation. The local FFS Center/District Manager (or their designee) will recommend FFS Prescribed Burn Manager Certification to the Forest Protection Bureau upon satisfactory completion of both the prescription and the review of the actual burn.

3. In order to continue to hold the FFS Prescribed Burn Manager Certification the burner must comply with paragraph 5I-2.006(2)(f), F.A.C., or Florida Forest Service Certification will terminate five years from the date of issue.

(2)(f) No change.

(g) Decertification. A Certified Prescribed Burn Manager's certification shall be revoked if the Burn Manager's actions constitute violations of Florida law and agency rules which equal or exceed 15 points within any two year period using the Certified Prescribed Burn Manager Violations – Point Assessment Table, Version 2.0, June 9, 2014 ~~September, 2008~~, which is hereby adopted and incorporated by reference and is available at: <http://www.flrules.org/Gateway/reference.asp?No=Ref-04183>. A decertified Burn Manager must complete the Burn Manager Certification process outlined in paragraph 5I-2.006(2)(e), F.A.C., in order to be recertified.

(3)(a) through (d) No change.

(4)(a) through (e) No change.

(f) The burning will not exceed 6 months on the same site from the date of the initial authorization from the FFS, unless the FFS is notified of an exemption by the Department of Environmental Protection (DEP), or unless the authorization is for agricultural citrus spot burning as defined in subsection 5I-2.006(9), F.A.C.

(5)(a) through (d) No change.

(6)(a) through (l) No change.

(7) No change.

(8)(a) through (d) No change.

(e) Decertification. A Certified Pile Burner's certification shall be revoked if the Certified Pile Burner's actions constitute violations of Florida law and agency rules which equal or exceed 15 points within any two year period using the Certified Pile Burner Violations – Point Assessment Table, Version 2.0, June 9, 2014 ~~September, 2008~~, which is hereby adopted and incorporated by reference and is available at: <http://www.flrules.org/Gateway/reference.asp?No=Ref-04184>. A decertified Pile Burner must complete the Pile Burner Certification process outlined in paragraph 5I-2.006(8)(c), F.A.C., in order to be recertified.

(9) Citrus spot burning is a Florida Forest Service program that includes both certified and non-certified pile burners. In order to participate in this program a burner must submit an application to the local FFS District or Center office and have the site where the burning is to be conducted inspected by the FFS prior to any pile burning authorizations being issued for that site. The application must include a map of the burn sites. The person responsible for the burning must also attend a training session that addresses Florida's open burning rules and regulations as they pertain to citrus pile burning. Citrus spot burns are required to have a setback of at least 400 feet from combustible vegetation (brush or wildlands).

~~(10)~~(9) Open Burning for Non-Certified Pile Burners. The FFS will issue authorizations for one day only for all pile burning, except for those burning citrus. Citrus pile authorizations will be issued for up to three days. Non-Certified Pile Burners must comply with normal hours of operation listed in this section on a daily basis. A three day authorization does not allow for night time burning. Burns for Non-Certified Pile Burners must be completed by one hour before sunset. In smoke sensitive areas the piles must be completed with no visible flame or emissions one hour before sunset.

~~(11)~~(10) Recreational Open Burning. Nothing in this chapter shall be construed to prohibit the legal open burning of vegetative debris and untreated wood in a campfire, outdoor fireplace, or other contained outdoor heating or cooking device, or on cold days for warming of outdoor workers. Furthermore, nothing in this chapter shall be construed to prohibit the open burning of vegetative debris or untreated wood in a recreational or ceremonial bonfire, as long as the fire is attended at all times and is completely smothered with no visible flame, smoke or emissions if the area is to be left unattended. The person or persons responsible for the recreational fire shall ensure compliance with any applicable open burning rules adopted by the FFS.

~~(12)~~(11) Open Burning Exceptions. The Director of the FFS is authorized to grant exceptions in furtherance of public health, safety and welfare, to the open burning rules within Chapter 5I-2, F.A.C., in the event of an emergency that would require the destruction of vegetative debris or animal carcasses

in the most expeditious means possible. Examples would include the burning of vegetative matter or animal carcasses resulting from an insect or disease infestation, or resulting from storm damage e.g., hurricanes or tornados.

RULE NO.: RULE TITLE:

61C-1.004: General Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice:

On June 2, 2014 the Division of Hotels and Restaurants received a Petition for a Routine Variance for paragraph 61C-1.004(1)(a), Florida Administrative Code, and Paragraph 5-202.11(A), 2009 FDA Food Code, Paragraph 4-301.12(A), 2009 FDA Food Code and subsection 61C-4.010(5), Florida Administrative Code, Subparagraph 3-305.11(A)(2), 2009 FDA Food Code, subsection 61C-4.010(1), Florida Administrative Code from Portable P360 Popcorn located in St. Petersburg. The above referenced F.A.C. addresses the requirement that each establishment have an approved plumbing system installed to transport potable water and wastewater; that dishwashing facilities for manually washing, rinsing and sanitizing equipment and utensils are provided, and that each establishment have areas for food preparation and storage. They are requesting to utilize holding tanks to provide potable water and to collect wastewater at the handwash sink and to share the dishwashing, food preparation and food storage areas with another licensed food service establishment under the same ownership and on the same premise.

The Petition for this variance was published in Vol. 40, No. 110 of the F.A.R. on June 6, 2014. The Order for this Petition was signed and approved on June 23, 2014. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the wastewater holding tank for the handwash sink is emptied at a frequency as to not create a sanitary nuisance; and potable water provided must come from an approved source and be protected from contamination during handling. The Petitioner shall also ensure that all the handwash sinks are provided with hot and cold running water under pressure, soap, an approved hand drying device and a handwashing sign. The dishwashing, food preparation and food storage areas within Catering Kitchen Main (SEA6214214) must be maintained in a clean and sanitary manner. These areas must also be available to the Portable P360 Popcorn during all hours of operation. If the

ownership of Catering Kitchen Main and Portable P360 Popcorn (Volume Services Inc.) changes, a signed agreement between the two establishments for the use of the shared facilities must be provided to the division immediately.

The Department inadvertently filed the petition with a date stamp of June 11, 2014, when the petition was actually filed on July 11, 2014. The Department then re-filed the petition with the correct date of July 11, 2014. Comments on this petition should be filed with the Board of Medicine, 4052 Bald Cypress Way, Bin #C03, Tallahassee, Florida 32399-3053, within 14 days of publication of this notice.

RULE NO.: RULE TITLE:

64E-6.009 Alternative Systems

The Department of Health hereby gives notice: on July 15, 2014, the Department of Health issued an order in response to a petition for a variance filed on March 25, 2014, by Don Orr, representing Advanced Drainage Systems, Inc., regarding the "Septic Stack". Petitioner sought a variance from subsection 64E-6.009(7), and subparagraph (7)(a)4., subsection (7)(d), and subsection (7)(e), Florida Administrative Code, which provides

the standards for the approval, design and use of alternative treatment systems; requires prior innovative testing; requires sizing equal to gravel drainfields; and requires components to be labeled. Notice of the petition was published in the March 31, 2014, edition of the Florida Administrative Register.

The Department found that the Petitioner demonstrated that the underlying intent of the statute could be achieved by alternative means and that strict application of the rules would violate principles of fairness and would create a substantial hardship in the Petitioner's particular circumstance. Therefore, pursuant to the requirements of section 120.542(2), Florida Statutes, the Department granted with conditions Petitioner's request for a variance.

A copy of the Order or additional information may be obtained by contacting: Agency Clerk, Department of Health, Office of the General Counsel, 4052 Bald Cypress Way, Bin A02, Tallahassee, Florida 32399-1703.
