DEPARTMENT OF STATE

Division of Elections

- RULE NO.:** **RULE TITLE:**
 1S-2.043 Electronic File Reporting Relating to
 Absentee Ballot Request Information,
 Voting Activity, and Election Results

PURPOSE AND EFFECT: The rule needs to be amended to provide for expanded data fields in absentee ballot request reports and changed timing of early voting periods for reporting statistics on early voting activity. These changes are prompted by Ch. 2013-57, Laws of Florida, which affected some

reporting and file upload requirements relating to early voting and absentee ballot request information, and which became effective January 1, 2014. Further, some of the data fields are being removed from this rule and being put into Rule 1S-2.053.
SUMMARY: This rule relates to elections and electronic file reporting by the supervisors of elections.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Legislative ratification will not be required pursuant to Section 120.541(3), F.S., because the rule applies only to election-related activities. Based upon past experiences with rules of this nature, this rule will not have an adverse effect on businesses or private-sector economic growth, job-creation, employment or investment; nor will it increase regulatory costs in excess of the threshold mandating legislative ratification. No other statute requires legislative ratification for this rule.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

LAW IMPLEMENTED: 98.0981, 101.62, 101.657, 102.141 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW (IF NOT REQUESTED, THIS HEARING WILL NOT BE HELD):

1S-2.053 Election Results and Precinct-Level Reporting.

(1) General provisions. This rule establishes file format specifications, timelines and other content requirements for the electronic compilation, transmission, and reporting of election results and precinct-level election results. The Supervisors of Elections are responsible for ensuring that the files required under this rule are created or converted into the prescribed format and that the files are transmitted successfully and timely to the Division of Elections.

(2) Definitions. For purposes of this rule:

(a) “All ballots cast” means cast by voters who cast a ballot whether at a precinct location, by absentee ballot including overseas absentee ballots, during the early voting period, or by provisional ballot.

(b) “Supervisor” refers to the county Supervisor of Elections.

(c) “Division” refers to the Division of Elections.

(d) “Election” means primary and general elections (held in even-numbered years), presidential preference primary elections, and special primary and special elections held pursuant to Section 100.101, F.S. This rule does not apply to municipal, local referendum, or special district elections.

(e) “General election” has the meaning set forth in Section 97.021(15), F.S.

(f) “Primary election” has the meaning set forth in Section 97.021(28), F.S.

(3) Election results reporting.

(a) Compilation. For each election as defined in subsection (2), the Supervisor may use the supplemental export utility for the county’s voting system to create the summary election results in an XML format. If a supplemental export utility has not been created for the voting system used by the county, then the county can use the voting systems export function to create the summary election results.

(b) Submission. After the polls close on the day of the election, the county canvassing board shall submit the election results to the Division at the times set forth in Section 102.141, F.S., by entering the results at the website, <https://enightsoe.elections.myflorida.com>, or uploading the file via the Division’s enight SOE web service after obtaining user credentials from the Division. For all voting systems that have XML capability via a supplemental export utility, the election results reported to the Division must be in the format prescribed by this rule.

(c) XML File specifications.

1. For any election before July 1, 2015, the county canvassing board may use the specifications for reporting election results defined in DS-DE 137 (eff. 07/2014) (insert hyperlink), entitled, “Florida Election Results XML Schema Reference, Version 2.1.” The election results may be reported in the XML format as specified in DS-DE 138 (eff. 07/2014) (insert hyperlink), entitled, “XML Schema for Election Results Reporting, Version 2.1” or may be reported in the format used to report the election results for the 2012 general election.

(4) Elections results database export file.

(a) Compilation. For each election as defined in subsection (2), the Supervisor shall use the file export function in the county’s voting system to create a file that includes the results from the database of the county’s voting system used in the election.

(b) Submission. The Supervisor shall file with the Division a copy of the results export file for the applicable election by transmitting the file at the same time that the official results of the election are certified. The file shall be submitted using the file transfer utility website at <https://soefileutil.elections.myflorida.com/>. If the site is not

available, then the file may be uploaded to the secure file transfer protocol (SFTP) at: <sftp2.dos.state.fl.us> or emailed to: BSVC.Reports@DOS.MyFlorida.com.

(5) Precinct-level election results reports.

(a) Compilation. For each election as defined in subsection (2), the Supervisor shall use the supplemental export utility for the county’s voting system to create the precinct-level results in the prescribed format. The Supervisor shall aggregate and record for each precinct the total number of ballots cast by all voters voting in the election, with subtotals for each candidate and ballot type. RULE NO.: 62-302.800
RULE TITLE: Site Specific Alternative Criteria

PURPOSE AND EFFECT: On May 10, 2013, Pace Water System, Inc., submitted a petition to initiate rulemaking to establish a Site Specific Alternative Criterion (SSAC) for pH in the Simpson River and adjacent wetlands (Pace Swamp) in Santa Rosa County. The Department conducted a public workshop on November 12, 2013 in Pace, Florida. The Department determined that a SSAC was not needed in the Simpson River, but that there was justification for the SSAC in Pace Swamp. The proposed rule amendment establishes a SSAC for pH in Pace Swamp and replaces the Class III default criteria for pH in Pace Swamp. The proposed SSAC is fully protective of the Class III designated use of Pace Swamp.

SUMMARY: The proposed rule amendment establishes a SSAC for pH in Pace Swamp in Santa Rosa County of not greater than 7.0 standard units in more than ten percent of the measurements collected in a calendar year nor vary below natural background conditions. The proposed SSAC replaces the Class III default criteria for pH in Pace Swamp. A public hearing will be held before the Florida Environmental Regulation Commission as detailed below.
SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: the proposed SSAC for pH fully protects the designated use of Pace Swamp and Pace Water, Inc., will not need to provide additional treatment to meet the SSAC because it's discharge currently attains the SSAC value.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
