Section II
Proposed Rules

DEPARTMENT OF HEALTH

Board of Medicine

RULE NO.: RULE TITLE:
 64B8-35.002 Standards for Protocols

PURPOSE AND EFFECT: The proposed rule repeal is intended to delete an unnecessary rule.

SUMMARY: The rule is being repealed. Recent statutory amendments have made this rule unnecessary.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule repeal will not have any impact on licensees and their businesses or the businesses that employ them. The rule repeal will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

DEPARTMENT OF LAW ENFORCEMENT

Criminal Justice Standards and Training Commission

RULE NO.: RULE TITLE:

11B-35.002 Basic Recruit Training Programs for Law Enforcement, Correctional, and Correctional Probation
 NOTICE IS HEREBY GIVEN that on August 18, 2017, the Florida Department of Law Enforcement (“FDLE”), received a petition for a temporary emergency waiver of paragraph 11B-35.002(2)(a), F.A.C., from Sergio Fernandes Martins. Petitioner wishes to temporarily waive that portion of the Rule that states: Within four years of the beginning date of a Commission-approved Basic Recruit Training Program, an individual shall successfully complete the program, achieve a passing score on the applicable State Officer Certification Examination pursuant to Rule 11B-30.0062, F.A.C., and gain employment and certification as an officer. In justification of his petition for waiver, Petitioner asserts that he began a commission-approved Basic Recruit Training Program in March of 2013 and passed the State Officer Certification Examination (“SOCE”) in August of 2013, but, due to family hardships, he was unable to apply for employment until May of 2017 when he submitted an application to the Holly Hill Police Department (“HHPD”). The HHPD made Petitioner a conditional offer of employment and completed his pre-employment screening but is now unable to activate Petitioner’s certification because, unfortunately, Petitioner’s four-year employment window expired in March of 2017. However, Petitioner asserts that the HHPD hopes to officially hire Petitioner on August 25th, 2017, should the emergency waiver be granted. Petitioner also alleges that, should the waiver not be granted, Petitioner will suffer a substantial hardship as he would have to undergo another Basic Recruit Training Program and pass another SOCE, resulting in both a financial burden and stress for his family. However, after a review of the Petition, FDLE determined that the Petition is not an emergency and that it shall be reviewed by FDLE on a non-emergency basis.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Dana Kelly, Agency Clerk, Florida Department of Law Enforcement, P.O. Box 1489, Tallahassee, FL 32302 or by telephone at (850)410-7676.

DEPARTMENT OF EDUCATION

University of Florida

University of Florida Landscape Master Plan

NOTICE TO PROFESSIONAL CONSULTANTS:

The University of Florida Board of Trustees announces that professional services in the disciplines of landscape master planning are required for the project described below.

Project: PL-00012, Landscape Master Plan (Gainesville)

A member of the prestigious Association of American Universities (AAU), the University of Florida (UF) is a major public, land-grant research institution that was established in Gainesville, Florida in 1906. The campus is situated on approximately 2,000 acres in the middle of the Gainesville Metropolitan Area. The campus includes approximately 448 acres of conservation lands including open water bodies and an additional 88 acres of designated open space. The campus is truly a city-within-a-city with its roughly 50,000 main campus headcount enrollment, nearly 30,000 employees including the medical complex, 11,000 on-campus residents, and untold numbers of daily visitors.

The University of Florida recently completed a Strategic Development Plan (SDP), and is finalizing Campus Design Guidelines (CDG). The SDP describes a broad framework for the long-term development of campus and its environs with an emphasis on community collaboration. Recommendations to develop five important civic squares, a north-south “main street” along Newell Drive, and an east-west corridor along Stadium Road are key to the SDP’s framework for the physical campus. The Campus Master Plan for 2015-2025 (CMP) provides further site assessment, policy and design guidance, but will require some amendment to make it consistent with the

SDP. The Campus Design Guidelines provide a unifying vision for the physical assets of campus including architecture, landscapes, natural areas, parking and circulation that are consistent with and support the SDP framework. The proposed Landscape Master Plan (LMP) would delve further into developing the details supporting this vision in terms of civic spaces, streetscapes, landscape concepts, signage, gateways, plant and material pallets that brand the university and mark its preeminent place in the community and in higher education. This campus-wide landscape vision will build upon concepts developed in the SDP and CDG, and operationalize these concepts to landscape policies, projects and priorities.

The selected firm will provide landscape architecture and civil engineering design services, and policy planning for the referenced project. Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes. The selected applicant will be required to provide insurance coverage for General Liability, Automotive Liability, and Workers’ Compensation.

Applicants will be evaluated on the basis of their experience, personnel, design ability, references, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

Prior to execution of any agreements between applicant and University relating to the project, the applicant entity must be authorized by the Florida Department of State to transact business in Florida.

Applicants desiring to provide professional services for the project shall submit a proposal only after thoroughly reviewing the Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the Professional Qualifications Supplement (PQS) Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant’s understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet.
2. A completed, project-specific PQS proposal with signed certification. Applications on any other form will not be considered.
3. Resumes and other pertinent credentials for all proposed staff (applicant and consultants).
4. Proof of the applicant entity’s corporate status in Florida, or an affirmative statement that it will be authorized to transact business in the State of Florida prior to execution of any agreements between applicant and University relating to the project.

As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the

convicted vendor list for a public entity crime committed within the past 36 months. The selected professional must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list. Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific PQS forms, instructions, Project Fact Sheet, UF Design and Commissioning Services Guide, standard University of Florida Owner-Professional agreement, and other project and process information – can be found on the Planning Design & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Planning Design & Construction office by 3:00 p.m. local time, on Thursday, September 28, 2017. Facsimile (FAX) submittals are not acceptable and will not be considered.
