DEPARTMENT OF REVENUE

Sales and Use Tax

RULE NO.:	RULE TITLE:
12A-1.0143	Manufacturing and Spaceport Investment Incentive Program Tax Refunds
12A-1.070	Leases and Licenses of Real Property; Storage of Boats and Aircraft
12A-1.087	Exemption for Power Farm Equipment; Suggested Exemption Certificate for Items Used for Agricultural Purposes
12A-1.097	Public Use Forms

PURPOSE AND EFFECT: Section 288.1083, F.S., previously provided for a refund of tax to certain manufacturing and spaceport entities under an investment incentive program. This program expired July 1, 2013, and taxpayers are no longer eligible for a tax refund. The purpose of the proposed repeal of Rule 12A-1.0143, F.A.C., is to remove obsolete provisions related to this incentive program.

The state sales tax rate is set by the Legislature and is subject to change from year to year. The 2018 Legislature reduced the state rate for leases of real property from 5.8% to 5.7%. The purpose of the proposed amendment to Rule 12A-1.070, F.A.C., is to adjust the state sales tax rate to match the statutory change.

Section 36, Chapter 2018-118, L.O.F., made three changes to applicable aquaculture businesses. First, the exemption for butane gas, propane gas, natural gas, and liquefied petroleum gas was expanded to apply to the production, packing, or processing of aquacultural products, either on or off the farm. Second, the exemption for electricity was expanded to apply to packinghouses where fish are packed or prepared for shipment. Third, a new exemption was added for industrial machinery and equipment purchased for use in aquacultural activities. The purpose of the proposed amendments to Rule 12A-1.087, F.A.C., is to provide guidance on how businesses can document and receive these exemptions.

The purpose of the proposed amendments to Rule 12A-1.097, F.A.C., is to adopt, by reference, changes to forms currently used to administer sales and use tax. Chapter 2018-6, L.O.F., established two new sales tax scholarship programs under

Chapter 212, F.S. Changes to existing forms provide a method for taking a credit under the new tax scholarship programs. In addition, a new form is being promulgated to administer the exemption provided by Section 56, Chapter 2018-118, L.O.F., for equipment used to generate emergency electric energy at nursing homes and assisted living facilities.

SUBJECT AREA TO BE ADDRESSED: Rule 12A-1.043, F.A.C., is repealed based on obsolescence. Rules 12A-1.070 and 12A-1.087, F.A.C., are being updated to reflect changes made by the 2018 Legislature. Rule 12A-1.097, F.A.C., contains updates to sales and use tax rules and forms based on statutory changes made by the 2018 Legislature.

Section II Proposed Rules

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Board of Cosmetology

RULE NO.: RULE TITLE:

61G5-18.007: Endorsement of Cosmetologists

PURPOSE AND EFFECT: The rule amendment clarifies the rule by removing redundant language.

SUMMARY: The Board proposes the development of a rule amendment to remove the phrase “and passage of a written examination”.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

THE FULL TEXT OF THE PROPOSED RULE IS:

61G5-18.007 Endorsement of Cosmetologists.

The Department of Business and Professional Regulation shall issue a license to an applicant without examination who:

(1) through (2) No change.

(3) Demonstrates the applicant is currently licensed to practice cosmetology under the law of another state having completed at least 1200 cosmetology school or program hours substantially similar to, equivalent to, or greater than the qualifications required of applicants from this state; Demonstrates that the applicant has passed a written licensure examination to obtain a license substantially similar to, equivalent to, or greater than the qualifications required of applicants from this state; and passage of a written examination.

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 44 No. 57, March 22, 2018 issue of the Florida Administrative Register.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. Following the submission of a lower cost regulatory alternative, a SERC has been prepared by the agency and made available to the public on the Department's website at <http://www.floridahealth.gov/environmental-health/onsite-sewage/rule.html>, in accordance with section 120.541, Florida Statutes.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The proposed rules allow for property owners who will be affected by the Department of Environmental Protection's remediation plans for Outstanding Florida Springs to select less-costly alternatives to other nitrogen-reducing systems currently approved for use in Florida. The SERC evaluates the current costs to property owners who elect nitrogen-reducing systems permitted under the existing rules and the costs to those property owners under the proposed rules. The result of that evaluation was a reduction in regulatory costs to the estimation of more than 10 million dollars.

University of Florida

Advertisement for Construction Management Services

The University of Florida Board of Trustees announces that CM-At-Risk services will be required for the project listed below:

Project: UF-632, Data Science & Information Technology, Gainesville, FL

The project consists of two co-located, semi-autonomous interconnected building wings. The University is considering the incorporation of the atrium, auditoriums and other common spaces to interconnect the two wings. Each wing with four or five levels with an approximate total size of 260,000 GSF, state of the art multidisciplinary facility that would be engaged in the engineering, healthcare and bioinformatics programs.

The Data Science and Information Technology (DSIT) building site is a prominent location in the heart of UF campus, both by location on campus and its high grade elevation. The architectural challenge for this building will be weaving the outward design to fit both within the fabric of campus and with the innovative research that the building will facilitate. Being

such a large building, at the high point on campus, this will require the CM team to work closely with the design team, UF constituents, and other representatives. UF will challenge the CM team to programmatic objectives while keeping it on budget and meeting our sustainability goals.

The estimated construction budget is approximately \$96,000,000. The contract for construction management services will consist of two phases, pre-construction and construction. Construction will also be phased. Pre-construction services will begin at the Advanced Schematic Design stage and will include production of cost studies and estimates; value management; analysis of the design documents for constructability, coordination, detailing, materials, and systems; development and maintenance of the construction schedule; production of detailed jobsite management plans; development of strategies for the procurement of trade contracts; and development of at least two Guaranteed Maximum Price (GMP) proposals, including site work, foundation, structure and the building based on 80% or 100% Construction Documents. If the GMP proposal(s) are accepted and executed, the construction phase will be implemented. In this phase, the construction manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts. Include participation of the selected project manager throughout the design and construction administration and required estimators during the pre-con work. Attendance at the Art-in-state-Building selection process is required. Construction is scheduled to be multiphase and shall begin by June 2019, unless otherwise directed by the Owner.

Gold LEED (Leadership in Energy and Environmental Design) accreditation by the US Green Building Council is mandatory, but the design and construction management team shall work with the University to analyze the possibility of achieving a higher level of certification. At the Owner's discretion, UF may elect a nationally recognized sustainability rating system other than LEED. Applicants are encouraged to suggest and support possible alternatives.

Applicants will be evaluated on the basis of their past performance, experience, personnel, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, all applicant firms (not individuals) must be licensed to practice as a general contractor in the State of Florida and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida. The selected applicant will also be required to provide insurance coverage for General Liability, Automotive Liability, Workers' Compensation, Builder's Risk insurance.

Applicants desiring to provide construction management services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the CMQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific "CM Qualifications Supplement" (CMQS) proposal. Applications on any other form will not be considered.
4. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff.
5. Proof of the applicant's corporate status in Florida (if applicable) and a copy of the applicant firm's current contracting license from the appropriate governing board.
6. Proof of applicant's bonding capacity and liability insurance coverage.

If the applicant is a corporation, it must be chartered by the Florida Department of State to operate in Florida. As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected construction manager must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will be archived.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific CMQS forms, instructions, Project Fact Sheet, facilities program, UF Design Services Guide, UF Design and Construction Standards, standard University of Florida Agreement for CM Services, and other project and process information – can be found on the Planning Design & Construction website: www.facilities.ufl.edu.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide submittals as prescribed in the Project Fact Sheet. Submittals must be received in the Planning Design & Construction office by 3:00 p.m. local time on Thursday, August 2, 2018. Facsimile (FAX) submittals are not acceptable and will not be considered.
