AGENCY FOR HEALTH CARE ADMINISTRATION

Cost Management and Control

RULE NO.: RULE TITLE:

59B-12.001 Bone Marrow Transplantation

PURPOSE AND EFFECT: The Agency is proposing to amend Rule 59B-12.001, F.A.C., to update procedures based on recommendations from the Bone Marrow Transplant Advisory Panel.

SUMMARY: The proposed amendments include coverage for cellular therapies which include cellular immunotherapies, chimeric antigen receptor (CAR) T cells, cancer vaccines, and other types of autologous and allogeneic cells for certain therapeutic indications. The language mirrors that of the Food and Drug Administration’s language for approved cellular therapy.

New language adds to the specific conditions for which the use of cellular therapies is necessary. The amendments also adjust the conditions in sections one through three to add or move conditions to the proper section.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

59B-12.001 Bone Marrow Transplantation

Bone marrow transplant refers collectively to hematopoietic stem cell transplantation using stem cells that are collected from peripheral blood and cord blood as well as bone marrow following a conditioning regimen. As used in this rule, the term “appropriate oncological specialty” means that where a particular kind of tumor or disease is usually treated by a subspecialty group within the general discipline of oncology, those who practice within that subspecialty have had specific input into the decision making process. Cellular therapies therapy products include cellular immunotherapies, chimeric antigen receptor (CAR) T cells, cancer vaccines, and other types of both autologous and allogeneic cells for certain therapeutic indications. Human gene therapy refers to products that introduce genetic material into a person’s DNA to replace faulty or missing genetic material, thus treating a disease or abnormal medical condition.

(1) Upon the recommendation of the Bone Marrow Transplant Panel, each of the following procedures meets a minimum level of evidence based on high quality systematic reviews of case control or cohort studies, high quality case-control or cohort studies with a very low risk of confounding bias, or chance, and a high probability that the relationship is causal, and is considered accepted within the appropriate oncological specialty and not experimental for the purposes of Section 627.4236, F.S.

- (a) Autologous bone marrow transplant for acute myelogenous leukemia (stem cells collected in remission);
- (b) Allogeneic bone marrow transplant for acute myelogenous leukemia and myeloid sarcoma;
- (c) Allogeneic bone marrow transplant for acute lymphoblastic leukemia;

(d) Allogeneic bone marrow transplant for chronic myelogenous leukemia;

(h) Allogeneic bone marrow transplant for non-Hodgkin lymphoma;

(i) Autologous bone marrow transplant for Ewing sarcoma, chemotherapy sensitive after first relapse;

(j) Autologous bone marrow transplant for neuroblastoma;

(k) Autologous bone marrow transplant for germ cell tumor, after failure of first therapy but not progressing on salvage therapy;

(l) Autologous bone marrow transplant for multiple myeloma (including double bone marrow transplant), Waldenstrom macroglobulinemia and primary amyloidosis;

(m) Allogeneic bone marrow transplant for myelodysplastic syndrome;

(n) Autologous bone marrow transplant for primitive neuroectodermal tumor (PNET), (including medulloblastoma and pinealoblastoma), chemotherapy sensitive after first relapse;

(r) Allogeneic bone marrow transplant for sickle cell anemia, thalassemia, and other severe red cell disorders; and,

(s) Allogeneic bone marrow transplant for severe combined immune deficiency disorder and other severe immune deficiency disorders.

(t) Tisagenlecleucel, a CD19-directed, genetically modified autologous T cell immunotherapy is medically necessary for patients up to 25 years of age with B-cell precursor acute lymphoblastic leukemia that is refractory or in second or later relapse.

(u) Axicabtagene ciloleucel, a CD19-directed, genetically modified autologous T cell immunotherapy is medically necessary for adult patients with relapsed or refractory large B-cell lymphoma after two or more lines of systemic therapy, including diffuse large B-cell lymphoma not otherwise

specified, primary mediastinal large B-cell lymphoma, high grade B-cell lymphoma, and diffuse large B-cell lymphoma arising from follicular lymphoma.

(v) Cellular therapies that are Food and Drug Administration (FDA)-approved for a specific indication and are medically necessary, accepted within the appropriate oncological specialty and not experimental for the purposes of Section 627.4236, F.S.

In cases where treatment for any of the above conditions includes a clinical trial that conforms to subsection (6) routine care costs associated with the bone marrow transplant will be covered.

(2) Each of the following procedures is considered accepted within the appropriate oncological specialty and not experimental for the purposes of Section 627.4236, F.S., provided that the bone marrow transplantation procedure is performed in the context of a well-designed clinical treatment trial as described in subsection (6).

Routine care costs associated with the bone marrow transplant will be covered for the following procedures:

(a) Autologous bone marrow transplant for chronic lymphocytic leukemia;

~~(b) Autologous bone marrow transplant for plasma cell dyscrasias other than multiple myeloma (e.g., Waldenstrom);~~

The amendments to Rule 64B8-30.015 set forth revised penalties for prescribing medicinal drugs or controlled substances which demonstrates a lack of reasonable skill or safety to patients; and set forth a penalty for failure to consult the prescription drug monitoring system.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or

the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. In lieu of the disciplinary procedures contained in Section 456.073, F.S., the offenses enumerated in this rule may be disciplined by the issuance of a citation. The citation shall include a requirement that the licensee correct the offense, if possible, within a specified period of time, impose whatever obligations will correct the offense, and impose the prescribed penalty.

(1) Pursuant to Section 456.077, F.S., the Board sets forth below those violations for which there is no substantial threat to the public health, safety, and welfare; or, if there is a substantial threat to the public health, safety, and welfare, such potential for harm has been removed prior to the issuance of the citation. Next to each violation is the penalty to be imposed. In

addition to any administrative fine imposed, the Respondent may be required by the Department to pay the costs of investigation.

(2) If the violation constituted a substantial threat to the public health, safety, and welfare, such potential for harm must have been removed prior to issuance of the citation.

(3) The following violations with accompanying penalty may be disposed of by citation with the specified penalty:

(1) Purpose. Pursuant to Section 456.072, F.S., the Boards provide within this rule disciplinary guidelines which shall be imposed upon physician assistant applicants or licensees whom it regulates under Chapters 458 and 459, F.S. The purpose of this rule is to notify such applicants and licensees of the ranges of penalties which will routinely be imposed unless the Boards find it necessary to deviate from the guidelines for the stated reasons given within this rule. The ranges of penalties provided below are based upon a single count violation of each provision listed; for multiple counts of the violated provisions or a combination of the violations the Boards shall consider a higher penalty than that for a single, isolated violation. Each range includes the lowest and highest penalty and all penalties falling between, including continuing medical education (CME). The purposes of the imposition of discipline are to punish the applicants or licensees for violations and to deter them from future violations; to offer opportunities for rehabilitation, when appropriate; and to deter other applicants or licensees from violations.

(2) Violations and Range of Penalties. In imposing discipline upon physician assistant applicants and licensees, in proceedings pursuant to Sections 120.57(1) and (2), F.S., the Board shall act in accordance with the following disciplinary guidelines and shall impose a penalty within the range corresponding to the violations set forth below. 64B15-13.0025	Requirement for Continuing Education Course on Prescribing Controlled Substances

PURPOSE AND EFFECT: The proposed rule amendments are intended to set forth additional entities approved by the Board to provide the prescribing controlled substances course for licensure renewal and to add additional entities to the recent new rule requiring the course for prescribers prior to January 31, 2019.

SUMMARY: The proposed rule amendments set forth additional entities approved by the Board to provide the prescribing controlled substances course for licensure renewal. Additionally, the amendment adds additional entities to the recent new rule requiring the course for prescribers prior to January 31, 2019.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
