Section II  
Proposed Rules

FISH AND WILDLIFE CONSERVATION  
COMMISSION

Freshwater Fish and Wildlife

RULE NO.:	RULE TITLE:
68A-6.007	Possession, Transportation, Exhibition and Caging Venomous Reptiles and Reptiles of Concern

PURPOSE AND EFFECT: The proposed rule revision would provide an additional option for internal viewing panels which would increase safety of venomous reptile facilities' current enclosures to an acceptable level and would allow them to come into compliance with current regulations. This amendment will allow for the use of a safety / security film to satisfy the requirements for secondary containment.

SUMMARY: This would create an option of adding a safety/security film to satisfy the requirement for secondary containment for facilities with internal viewing panels. The application of a safety / security film over the existing interior viewing panels would meet the requirement of "secondary containment" and allow exhibits to have another option by which to meet safety requirements. Secondary containment is intended to provide a secondary means of containing wildlife that has escaped its primary containment. Safety / security film would create an additional barrier for a primary enclosure and is designed to maintain the integrity of glass when struck.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described

herein: the nature of the rule and the preliminary analysis conducted to determine whether a SERC was required

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
