FISH AND WILDLIFE CONSERVATION COMMISSION

Freshwater Fish and Wildlife

RULE NO.: RULE TITLE:

68A-6.007 Elephant Rides

PURPOSE AND EFFECT: The purpose of the proposed rule amendment is to clarify rule language and increase public safety of elephant rides. The effects of the proposed draft rule will be clarified application requirements, improved enforcement, and increased public safety.

SUMMARY: Current rules governing elephant rides in Florida lack clarity and allow for ambiguity in enforcement action. The proposed draft rule clarifies application requirements such as animal identification and safety records. It also requires licensees to notify the Commission in advance when an elephant ride is to occur outside of a licensed facility. Handlers will be required to have free contact experience hours specific to each elephant, thus increasing public safety. Currently, rules do not establish specific barrier requirements for elephant rides, which has the potential to impact public safety. The proposed draft rule modification would require a boundary and barrier during public elephant rides. The boundary would form the ride delineation and the public barrier would prevent unauthorized contact from bystanders during public elephant rides. The draft rule provides specific requirements for public barrier height and material. Licensees who have been continuously licensed and authorized for elephant rides at the time the rule becomes

effective would be grandfathered and authorized to conduct private elephant rides.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The nature of the rule and the preliminary analysis conducted to determine whether a SERC was required.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

(Substantial rewording of Rule 68A-6.007 follows. See Florida Administrative Code for present text.)

68A-6.007 Elephant Rides

(1) No person, firm, or corporation shall use elephants for rides without first obtaining written authorization from the Commission. Such authorization shall be applied for annually with the license issued under Section 379.3761, F.S.

(2) Definitions: For the purposes of this rule, the following shall be defined as:

(a) Safety incident - any incident involving the elephant that causes injury or death of any person or animal.

(b) Free contact - contact in which there are no barriers between a person and the elephant

(c) Ride area - area where the elephant walks while conducting rides

(3) Qualifications for elephant ride authorization

(a) Identification: Applicants for elephant ride authorization shall include in their application identifying information including photographic identification and other information that clearly identifies the elephant(s) to be used in the rides. The identifying information must allow the Commission to identify the individual elephant(s) being used in the rides so as to be distinguished from other elephants. Photographs of each elephant must be updated at each application and shall include a full view of the front and both sides of the elephant.

(b) Safety record: The application shall include a notarized statement which details the complete safety record and documents all of the known safety incidents or escapes involving the elephant identified in the ride authorization request. No elephant that has ever caused a safety incident shall be used for rides. In addition, licensees are required to notify the Commission immediately if an elephant escapes containment or is involved in a safety incident subsequent to the approval of the application. Any elephant involved in a safety incident, regardless of location, shall not be allowed to have any contact with the public in Florida and all ride authorizations will be immediately suspended until an investigation and review of the incident by the Commission is completed. After reviewing the findings of the investigation, the Commission shall render a determination concerning the continuation or termination of such ride authorization or the authorization of any qualified handler or assistant to operate the elephant ride. Such determination shall consider the following:

1. If the safety incident was not caused by the elephant, it shall not result in termination of the elephant ride authorization or public contact.

2. If the safety incident was not caused by and could not have been prevented by the handler or assistant, it shall not result in termination of the handler or assistant's authorization.

(c) Notification: Licensee shall notify the Commission no less than 24 hours prior to conducting elephant rides at a location other than a facility authorized to possess elephants. Notification shall consist of an itinerary which shall include dates, times, and locations that elephant rides will be conducted. Licensees shall not be required to notify the Commission if these rides were previously submitted on the itinerary required as part of their application for licensure under Section 379.3761, F.S.

(d) Emergency response: A tethering device and firearm shall be present at all sites where elephant rides are available. Applicants shall have a written emergency response plan to ensure public safety. This plan shall be available onsite and at all times elephant rides are occurring for inspection by Commission personnel. Emergency response plan and preparation shall include:

1. Measures for protecting the public which specify what to do in case of an elephant safety incident, including where tethering devices and firearms are kept. If the plan includes tranquilizing equipment, their location must also be included. The plan must also include a list of onsite personnel authorized to use the tethering devices, tranquilizing equipment and/or firearms, and when such equipment, devices and/or firearms shall be used to capture, control, or destroy escaped or out-of-control animals. All tranquilizing equipment, tethering devices and/or firearms are subject to inspection by commission personnel to ensure all equipment and/or firearms are operable and sufficient for the intended purpose. The tethering device shall have the ability to be anchored and be within 50 feet of the elephant while conducting rides. The minimum acceptable caliber for the firearm shall be .375 H & H magnum. Personnel authorized in the plan to utilize tranquilizing equipment, tethering devices and/or firearms shall be an employee 18 years of age or older and trained in the use of such devices, equipment and/or firearms.

2. When an elephant is available for or conducting rides, personnel, equipment, devices and/or firearms shall be on the premises, in close proximity and able to be accessed within 5 minutes. Use and possession of firearms specified in the plan shall be in compliance with Chapter 790, F.S.

(e) Experienced supervision: All elephant rides shall be supervised by a minimum of one qualified handler and one assistant. Both the qualified handler and assistant shall be a minimum of 18 years of age and not have any unsafe captive wildlife conditions or animal neglect or abuse related violations within three years. Applicants shall provide a notarized document at the time of application showing the qualified handler meets the standards below:

1. A minimum of 1000 hours of free contact experience with the specific animal that he or she will be handling.

2. The experience must be gained by working with a qualified handler who is currently authorized as a handler for that specific elephant.

3. The experience hours must include the dates, times, and locations of the training and identifying information of the currently authorized handler. The currently authorized handler must sign the provided experience hours certifying all claimed hours were gained in their presence and with the specific elephant for which they are requesting authorization.

4. Individuals authorized as qualified handlers on the effective date of this rule are not required to provide additional documentation of experience for the elephants for which they are currently authorized.

5. Once a handler has been approved for an elephant, they may request additional elephant authorizations by providing an additional 250 hours of free contact experience with each additional elephant in the same manner as stated above.

6. In their initial and renewal application and upon every change of personnel, applicants shall provide the Captive Wildlife Office with the following information for the requested qualified handlers and assistants:

a. Name,

b. Date of birth, and

c. A copy of a valid government-issued photo ID.

7. Qualified handlers and assistants shall be approved by the Commission in writing prior to conducting the activity. Such handler shall be in the immediate presence of the elephant at all times when the elephant is in position to be in direct contact with the public. Such handler is determined to be in the immediate presence of an elephant if the handler is in close physical proximity to the elephant and able to instantly exert direct control, if necessary.

(f) For elephant rides open to the general public there shall be a ride area and public barrier as defined below:

1. The ride area shall be clearly identified with a ring curb or other easily identifiable boundary delineation.

2. The public barrier shall be a minimum of 44 inches tall from the ground up with gaps no greater than six inches to prevent bystanders from having contact with the animal. The barrier shall be constructed of a manufactured material which creates a continuous and uniform barrier which is anchored or otherwise secured in a manner that maintains the integrity of the barrier. The public barrier shall be no less than five feet from the ride boundary and have clearly visible signs posted every 10 feet which state "Keep Out" in at least 2-inch letters.

(g) Licensees who have had continuous annual authorization for elephant rides since the effective date of this rule shall be allowed to conduct private elephant rides. A private elephant ride shall be prearranged and must have a written contract in place at least 24 hours in advance and not be open to the general public. Only guests or hosts of the contracted event are eligible to engage in elephant rides. Such ride shall utilize two qualified handlers and adequate assistants to prevent bystanders from coming into contact with the elephant and are not required to have an additional barrier.

(4) It shall be a violation for any person to intentionally attempt to weaken or breach the integrity of any boundary or barrier.

(5) No person, except the ride participants, qualified handler, or assistant, may come into contact with the elephant while it is conducting a ride.

(6) Full contact is only allowed by the ride participants during the elephant ride. Ride participants shall only come into contact with the elephant's back and sides.

UCF - 598 Arecibo Observatory Cable Replacement

NOTICE TO CONSTRUCTION MANAGERS

The University of Central Florida, announces that services in the disciplines of construction management will be required for the project listed below:

Project No.: UCF - 598

Project and Location: Arecibo Observatory Cable Replacement. Arecibo Observatory Route 625 Bo Esperanza Arecibo, PR 00612

The project consists of the replacement of a 3" diameter stranded cable at roughly 700-foot length, one of nine cables on the Arecibo telescope, located in Puerto Rico. The project will be managed in its entirety by the Construction Manager, including (but not limited to) the sourcing of a replacement cable, purchase, delivery, and install – including all temporary shoring, craning, and/or rigging required to complete the work. The anticipated window of construction activities is between December and June, due to hurricane season.

The total project cost will be approximately \$3,000,000 for planning, design, permitting, construction, commissioning, and furnishings/equipment. The project budget may be changed at UCF's discretion, and this project is subject to the availability of funding.

The contract for construction management services will consist of two phases:

- Phase one is pre-construction services - the Construction Manager will be compensated a flat fee of \$30,000. Phase one services includes site visits as required, value engineering, constructability analyses, development of a total project cost estimate, research on material sourcing and logistics, and the development of a Guaranteed Maximum Price (GMP) proposal at 100% Construction Documents for the delivery of the entire project scope. If the GMP is accepted, phase two, the construction phase, will be implemented.

- Phase two, construction services - the Construction Manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts.

Instructions for submitting a proposal can be found on the Project Fact Sheet. The Project Fact Sheet and Construction Management Qualifications Supplement Form may be obtained on our website, www.fp.ucf.edu, or by contacting: Gina Seabrook, email: gina.seabrook@ucf.edu, phone: (407)823-5894.

We are accepting only electronic submissions, to be uploaded at: <https://ucf.bonfirehub.com/opportunities/20888>

Submittals must be received by 5:00 p.m. local time December 6, 2019. Late submissions or additional documentation will not be accepted.
