Proposed Rules

DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Division of Aquaculture

RULE NO.: RULE TITLE:
5L-1.003 Shellfish Harvesting Area Standards

PURPOSE AND EFFECT: The proposed rule amendments will reclassify some shellfish harvesting areas to protect the health of shellfish consumers and to provide access to renewable shellfish resources. The proposed rule amendments will also correct errors and formatting inconsistencies in the incorporated Shellfish Harvesting Area Classification Boundaries and Management Plans. The effect of these amendments is to maximize the amount of shellfish harvesting waters available and to maximize the times those waters will be in the open status while continuing to protect public health.

SUMMARY: The following shellfish harvesting areas and management plans will be amended: Choctawhatchee Bay (#06), Alligator Harbor (#18), Citrus County (#37), Tampa Bay (#48), Gasparilla Sound (#58), and Duval County (#96). The effect of these amendments is to maximize the amount of shellfish harvesting waters available and to maximize the times those waters will be in the open status while continuing to protect the public health.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency. The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: As part of this analysis, the Department reviewed the proposed classification changes and predicted days closed for each shellfish area resurveyed and found no adverse financial impacts to the industry. In instances where the predicted number of days closed increased it was found that this will not impact the industry as those shellfish will be available for harvest on an open harvest day. Classification/management changes were shared with Industry with no negative feedback to date. The proposed rule changes do not require additional fees. Additionally, no interested party submitted additional information regarding the economic impact.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 597.020 FS.

LAW IMPLEMENTED: 597.020 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

SUMMARY: Rule 69A-37.503, F.A.C., establishes the procedures and criteria for participating in the Firefighter Cancer Decontamination Equipment Grant Program. SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:
The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Department’s economic analysis of the potential impact of the proposed rule amendments determined that there will be no adverse economic impact or increased regulatory costs that would require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
