THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Christopher Ferguson at Christopher.Ferguson@flhealth.gov.

THE FULL TEXT OF THE EMERGENCY RULE IS:

64ER21-6 CMTL Waste Management and Disposal

(1) As used in this rule, the term “Marijuana Waste” includes the following materials:

(a) Testing Waste, which means spent solvents, lab wastes, and similar materials used in the testing of Usable Whole Flower Marijuana or Derivative Product that is ready for disposal;

(b) Product Waste, which means Usable Whole Flower Marijuana or Derivative Product ready for disposal;

(c) Other contaminated materials ready for disposal. “Contaminated materials” mean any item, object, utensil, or tool that contained or came in contact with Usable Whole Flower Marijuana or Derivative Product and has trace residuals of marijuana thereon. A CMTL may clean contaminated material using any method that completely eliminates any trace marijuana residuals from the material. Once the material has been cleaned of all trace marijuana residuals, the material may be recycled or disposed of like any other non-marijuana waste that falls outside the scope of this rule.

(d) Notwithstanding the foregoing, Marijuana Waste does not include hazardous waste or universal waste, as those terms are defined in Rule 62-730.020, F.A.C. (10/31/2020), which is incorporated by reference herein and available at <https://knowthefactsmmj.com/rules-and-regulations/>.

(2) A CMTL shall comply with all applicable federal and state laws and regulations for solid and liquid wastes and any applicable local regulations or ordinances.

(3) Marijuana Waste must be rendered unusable and unrecognizable or irretrievable at the CMTL’s department-approved Testing Facility before it is transported offsite as provided for in paragraphs (5)(a) and (b).

(a) Marijuana Waste is unusable and unrecognizable if it is incapable of being salvaged and consumed through any means and all components are homogenous and indistinguishable.

(b) Marijuana Waste is irretrievable if it cannot be transformed to a physical or chemical condition or state as marijuana or a substance with a chemical structure or effect that is similar to marijuana.

(c) At least two employees of the CMTL, one of whom must be a Manager, shall be present when rendering the Marijuana Waste unusable and unrecognizable or irretrievable. Steps taken to render Marijuana Waste unusable and unrecognizable or irretrievable shall be conducted under video surveillance.

(d) Until such time that the Marijuana Waste is rendered unusable and unrecognizable or irretrievable, the Marijuana Waste shall be stored in a waste receptacle(s) that is:

- 1. A securely locked, enclosed container;
- 2. Securely fastened to a permanent structure so that it cannot be removed; and

3. Located in a secured area of the facility.

(4) Prior to disposal, in accordance with subsection (5), Marijuana Waste shall be:

(a) Rendered unusable and unrecognizable by grinding and mixing the compostable Marijuana Waste with at least an equal amount of other compostable materials (e.g., food waste, yard waste, vegetable-based grease or oils);

(b) Rendered unusable and unrecognizable by grinding the Marijuana Waste with at least an equal amount of other compostable materials (e.g., food waste, yard waste, vegetable-based grease or oils) or non-compostable materials (e.g., paper waste, cardboard waste, plastic waste, or oil), or both; or

(c) Rendered irretrievable by permanently altering the physical or chemical condition through irreversible means.

(5) After Marijuana Waste is rendered unusable and unrecognizable or irretrievable, any remaining Marijuana Waste shall be disposed of via one of the following methods:

(a) Delivered to an appropriate solid waste management facility, as that term is defined in Rule 62-701.200(112), F.A.C. (02/15/2015), which is incorporated by reference herein and available at <https://knowthefactsmmj.com/rules-and-regulations/>;

UF-606 Whitney Laboratory for Marine Bioscience

NOTICE TO PROFESSIONAL CONSULTANTS:

The University of Florida Board of Trustees announces that Professional Services in the discipline of architecture will be required for the project listed below:

Project: UF-606, Whitney Laboratory for Marine Bioscience, Marineland Campus, St. Augustine, Florida

The project consists of a new scientific facility to replace the 45 year-old existing laboratory. The new facility will be approximately 36,000 GSF and will house 12 faculty research laboratories with students and postdoctoral staff in a more modern "open-lab" like setting. It will leverage the world class, and recently upgraded, circulating sea water system, and allow

for more collaborative and interdisciplinary spaces housing cutting edge technology including but not limited to mass spectroscopy, high resolution optical microscopy, single cells sorting/sequencing.

In addition, a public interface to the laboratory’s research and conservation efforts is an important component. A public facing Sea Turtle Hospital and Discovery Lobby to share the scientific and conservation goals of the Whitney Laboratory is a key component to the planned facility.

The estimated construction budget is approximately \$21,600,000, including site improvements and all utilities to support the building. The project will be delivered using the Construction manager at Risk delivery method. Gold LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council, or other equivalent, is mandatory.

The selected firm will provide design, construction documents and construction administration services for the referenced project. Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.

Blanket design professional liability insurance will be required from the architect, mechanical, electrical, plumbing, fire protection, structural, and civil engineering consultants for this project and will be provided as a part of Basic Services. The selected applicant will also be required to provide insurance coverage for General Liability, Automotive Liability, and Workers’

Compensation.

Applicants will be evaluated on the basis of their past performance, experience, personnel, design ability, references, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant and its landscape architectural and engineering consultants must possess current design licenses from the appropriate governing board and be properly registered to practice its profession in the State of Florida. If the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida.

Applicants desiring to provide professional services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the PQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant’s understanding of the scope of services, design intent, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
 2. A completed, project-specific "Professional Qualifications Supplement" (PQS) proposal with signed certification. Applications on any other form will not be considered.
 3. Resumes, sustainability accreditation, and other pertinent credentials for all proposed staff (applicant and consultants).
 4. Proof of the applicant’s corporate status in Florida (if applicable) and copies of current licenses for applicant and all engineering and landscape architecture consultants from the appropriate governing board.
 5. Proof of the applicant’s and all engineering consultants’ ability to be insured for the level of professional liability coverage demanded for this project. As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected professional must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.
- Incomplete proposals will be disqualified. Submittal materials will not be returned.
- Additional information to assist the applicant in preparing a complete proposal – including the project-specific PQS forms, instructions, Project Fact Sheet, facilities program, UF Design and Commissioning Services Guide, UF Design and Construction Standards, standard University of Florida Owner-Professional agreement, and other project and process information – can be found on the Planning Design & Construction website.
- Finalists may be provided with supplemental interview requirements and criteria as needed.
- Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Planning Design & Construction office by 3:00 p.m. local time, on Tuesday, May 18, 2021. Facsimile (FAX) submittals are not acceptable and will not be considered.
