(d) **“Early Learning Coalition”** or **“coalition”** means the entity charged with administering the VPK Education Program pursuant to ss. 1002.53, 1002.68(2), and 1002.73, F.S. **“Early Learning Coalition”** or **“coalition”** includes applicable Florida Department of Education (FDOE) contractors.

(e) **“Negative Climate Score”** means the measure of the level of expressed negativity shown by teachers, children, or both in a classroom.

(f) **“Observer”** means a certified reliable prekindergarten observer that meets the requirements outlined by the vendor to conduct a classroom observation with validity and reliability.

(g) **“Program Assessment”** refers to the measurement of the quality of teacher-child interactions, including emotional support, classroom organization, and instructional support for children ages three (3) to five (5) years in accordance with Section 1002.68(2), F.S.

(h) **“School-year program”** means a school-year prekindergarten program consisting of five-hundred and forty (540) instructional hours delivered by a private provider under Section 1002.55, F.S., or by a public school under Section 1002.63, F.S.

(i) **“Summer program”** means a summer prekindergarten program consisting of three-hundred (300) instructional hours delivered by a private provider or public school under Section 1002.61, F.S.

(2) **Program Assessment Requirements.** Beginning with the 2022-2023 VPK program year, all private and public school VPK providers must annually participate in a program assessment of each VPK classroom for both the school-year and summer VPK programs. All program assessments must occur during VPK instructional hours and with the ELC-approved lead VPK instructor present. All program assessments must occur with at least one (1) enrolled VPK student present.

(3) **Program Assessment Administration.** Early Learning Coalitions shall be responsible for the administration of the program assessments.

(a) All program assessments will be conducted by coalition observers or approved FDOE vendor observers.

1. For school-year programs, program assessments shall be conducted no earlier than fifteen (15) instructional days after the program start date.

2. For summer programs, program assessments shall be conducted no earlier than five (5) instructional days after the program start date.

3. Each coalition must ensure all program assessments, including second program assessments, are conducted before the scheduled program end date.

(b) All observers shall have a current certification required by the vendor to conduct a classroom observation with validity and reliability. Only coalition staff, FDOE vendors, or coalition designees may conduct classroom observations. Observers shall have the ability to speak, understand, and write in the language of the classrooms they are observing.

(c) Observers shall enter and save all dimension scores and notes into the FDOE-approved vendor system within three (3) business days of conducting the classroom observation.

(d) The FDOE shall notify private and public school VPK providers via the Provider Portal of their score for each observed VPK classroom within fourteen (14) calendar days of the observation being completed. An observation is considered complete, when the observer has entered the classroom observation data into the FDOE-defined system.

(e) VPK classrooms organized as a multi-class group, as defined in Rule 6M-8.400, F.A.C., shall have one (1) classroom observation completed, and the resulting classroom observation score shall be duplicated for each classroom in the Composite Program Assessment Score calculation.

(4) Contract Minimum Threshold. The minimum Composite Program Assessment Score a VPK program must achieve is 4.00. School-year and summer VPK programs are considered separately. For private and public school VPK provider's programs that score below the Contract Minimum Threshold, the private or public school provider may not participate in the VPK Education Program beginning in the consecutive program year and thereafter until the private or public school provider meets the Contract Minimum Threshold.

(a) Private and public school VPK programs below the Contract Minimum Threshold based on their Composite Program Assessment Score may request from the Early Learning Coalition a second program assessment within the same program type and year at the provider's expense. Providers must provide payment to the Early Learning Coalition for the second program assessment prior to the program assessment being conducted.

(b) A single classroom will be observed, and its score will replace the previous score to calculate a new Composite Program Assessment Score if the VPK instructor previously observed is still actively teaching in the classroom being observed. If the previously observed instructor is not active in the classroom and the newly assigned instructor is hired after the previous program assessment was completed, the single classroom will be observed, and its score will replace the

previous score to calculate a new Composite Program Assessment Score.

(c) A second program assessment must be requested from the coalition in writing within thirty (30) days of receipt of the Composite Program Assessment Score.

(5) Frequency.

(a) In the event of a change of ownership, sale, sale of assets, conveyance of ownership, or other transfer of ownership interest that requires a private or public school provider to execute a new VPK Provider Contract per Rule 6M-8.301(9), F.A.C., the provider may request to retain the existing Composite Program Assessment Score if at least 50% of VPK classrooms and their assigned instructor who were previously assessed remain the same. If the provider elects not to retain the existing score, the provider is required to obtain a program assessment pursuant to subsection (2) of this rule. If 30% or fewer of the VPK program hours remain at the time of the ownership change, a program assessment is not required until the consecutive program year.

(b) Observations conducted in VPK classrooms during participation in the School Readiness Program Assessment in accordance with Rule 6M-4.740, F.A.C., that meet requirements as defined in Section 1002.68(2), F.S., may be used for meeting contract minimum threshold requirements, provided the observation was conducted within the VPK program hours.

(6) Composite Program Assessment Score Calculation.

(a) All the active VPK classrooms registered in the Provider Portal for each private and public school provider must be observed to calculate the Composite Program Assessment Score.

(b) The Composite Program Assessment Score shall be calculated using the combined average of the dimension scores, excluding negative climate scores, from each VPK classroom's observation and will be rounded to two (2) decimal places.

(7) Program Assessment Administration Notifications.

(a) Early Learning Coalitions or their designees shall provide notification via email to private and public school providers of upcoming program assessments at least two (2) weeks prior to the scheduled program assessment date.

(b) If the provider experiences a temporary closure, as defined in Rule 6M-8.204, F.A.C., on the day it is scheduled to be assessed, the provider shall request to reschedule the program assessment within two (2) weeks of the original program assessment.

(c) If a VPK instructor has an extenuating circumstance which causes an absence from a classroom on the day it is scheduled to be observed, the observer shall reschedule the program assessment within two (2) weeks of the original program assessment date. A provider should notify the observer as soon as the provider is aware of any circumstance which

would cause an instructor to be absent from a VPK classroom that the instructor is scheduled to be in for an observation.

NOTICE TO DESIGN/BUILD TEAMS REQUEST FOR QUALIFICATIONS - USF Health College of Nursing Tampa Expansion

Notice to Design/Build Teams

Request for Qualifications

The University of South Florida (USF), announces a Qualifications-Based Design/Build Services selection process for design and construction services for the project listed below.

PROJECT NUMBER: USF515

PROJECT AND LOCATION: USF Health College of Nursing Tampa Expansion, University of South Florida Tampa Campus, Tampa, Florida.

PROJECT DESCRIPTION:

The purpose of the project is to repurpose existing space (some vacant, some occupied) to provide a superior physical environment for the expansion of the College of Nursing enrollment with concurrent growth in faculty and staff, and to develop an innovative, integrated learning environment that allows students smooth transitions from didactic to simulation education, and allows an environment highly conducive to student, staff, and faculty success. It is anticipated that this project will likely be limited to the first floor of the USF Tampa Health Services Complex, which is comprised of the MDC original construction (Phase 2 of original building development) and renovations to areas within the MDN building and possibly the MDA building. Additional information is available within the Request for Qualifications documentation.

The project is anticipated to include the construction of didactic classroom spaces and an auditorium space, student support study and gathering spaces, academic & student affairs support spaces, faculty and staff offices, a highly-flexible experiential learning lab, skills acquisition labs, technology training labs and clinical training spaces, high-fidelity simulation suites, storage and support areas. The actual SF to be renovated and the spaces to be provided will require evaluation and balancing between the project funding, spaces available and programmatic priorities. The project will require installation of fire sprinkler systems throughout areas of existing buildings not currently covered by fire sprinklers and the project will require building infrastructure improvements that may or may not be accommodated as a part of this project.

This forecasted budget for this project will be adjusted and validated during the Programming, Schematic Design, Design Development, Construction Documents and GMP Development phases as requirements are clarified. Phasing of this project will likely be required in order to minimize disruption of existing operations, to commence utilizing some spaces as early as 2024-25 and to meet the requirements of increasing the number of graduating nurses by 2028.

The Design/Build Team, also known as the Design and Construction Services Team (DCST) shall be responsible for the management of the process and project to meet project scope, budget and schedule requirements. The DCST services contract shall be in compliance with the Qualifications-Based Design/Build selection provisions in Section 287.055, Florida

USF will contract with a single contract entity DCST who shall provide all services including, but not limited to development of the Facilities Program, site analysis, professional services, budgeting, cost estimating, construction services, construction materials testing, commissioning, labor, materials, and equipment required to design, construct, and furnish the project. The selected team will be required to provide computer drawings according to the standards of USF, including computer record drawings reflecting as-built conditions. Blanket professional design liability insurance will be required for this project in the amount of \$2,000,000.00 and will be provided as a part of Basic Services. The respondent must be capable of bonding at 100% of the value of the contract (possibly exceeding \$20-million) with a surety licensed to do business in the State of Florida with a Best Rating A, Class IX. Project development, including professional services, is contingent upon availability of funds. If additional funding is realized, USF has the option to incorporate additional scope/funding under this contract. SARASOTA COUNTY PUBLIC HOSPITAL BOARD
REQUEST FOR QUALIFICATIONS FOR PROFESSIONAL
CONTINUING CONSTRUCTION MANAGEMENT
SERVICES FOR SARASOTA MEMORIAL HEALTH CARE
SYSTEM [SMHCS]

The Sarasota County Public Hospital District d/b/a Sarasota Memorial Hospital and its governing board (collectively, “the Hospital”), located in Sarasota County, Florida, announces that continuing professional services are required for the following discipline:

Construction Manager, minimum of three (3), with the ability to service the Sarasota Memorial Health Care System (SMHCS). These services may be used for projects anywhere in the buildings and spaces owned or operated by the Sarasota Memorial Health Care System.

PROJECT DESCRIPTION: The construction manager will be a single point of responsibility for performance of multiple construction contracts up to \$4,000,000.00 individually, functioning as an independent contractor, publicly bidding trade contracts. Three construction management contracts will be awarded, for a period of three years.

Typical projects assigned under this contract may include new construction, renovations, remodeling, alterations, equipment

installation, additions, and code compliance corrections. Per Florida Statute 255.103, the maximum per-project construction cost is \$4,000,000. Given that the magnitude of some SMHCS projects have construction costs less than \$500,000, businesses specializing in delivering smaller scope, high-quality, healthcare-related projects are encouraged to apply.

Continuing Service contracts for these projects provide that the Consultant will be available on an as-needed basis for a period of three (3) years. This selection is based upon construction manager at risk services only. Other services (including architectural and engineering project design) that may be required for specific projects shall be provided under a separate agreement with those consultants. Continuing Professional Service contracts for these minor projects provide that the Consultants receiving the awards will not have exclusive contracts to perform services for these projects. SMHCS may have additional consultants under contract during the same time period.

The Applicant, and all future sub-consultants, must be properly registered to practice its profession in the State of Florida at the time of application. If the Applicant is a corporation, it must be properly chartered by the Florida Department of State to practice its profession in the State of Florida at the time of application. It is the Sarasota Memorial Health Care System's responsibility to negotiate a fair, competitive and reasonable compensation on a per project basis. Compensation may vary between projects.
