 RULE TITLE: Requirements for Programs and Courses Which are Funded Through the Florida Education Finance Program and for Which the Student May Earn Credit Toward High School Graduation

PURPOSE AND EFFECT: Establishes the requirements for public K-12 student course and program enrollment to generate funding through the Florida Education Finance Program (FEFP). The requirements established in this rule must also be met for the student to receive credit toward high school graduation for a course or program. The amendment will incorporate the 2023-2024 Course Code Directory and Instructional Personnel Assignments, which catalogs the courses and programs that will generate FEFP funding and apply toward high school graduation requirements for the 2023-2024 academic year.

SUMMARY: The programs and courses listed in the “Course Code Directory and Personnel Assignments,” which is incorporated in the rule, are updated on an annual basis for the upcoming academic year.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Implementation of the proposed rule is not expected to have any adverse economic impact and costs of administration will be absorbed by current staff. No requirement for a SERC was triggered under s. 120.541(1), F.S., and the adverse impact or regulatory cost, if any, do not exceed nor would be expected to exceed any one of the economic analysis criteria set forth in

s. 120.541(2)(a), F.S., and will not require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: RULE TITLE:

6A-6.0576 CAPE Industry Certification Funding List

PURPOSE AND EFFECT: To specify the procedures and timelines for implementation of an industry certification process and adoption of the CAPE Industry Certification Funding List changes. This rule amendment will: 1) adopt an updated CAPE Industry Certification Funding list which will impact funding calculations associated with industry certification attainment; 2) adopt an updated Master Credentials List (MCL); 3) adopt the updated Form FCAPE-1: Registration of K-12 Career and Professional Academies; and 4) clarify certification requirements for K-12 instructors.

SUMMARY: Rule 6A-6.0576 specifies the procedures and timelines for implementation of an industry certification process for K-12 and postsecondary institutions and includes adoption of the annual CAPE Industry Certification Funding List for use in funding and accountability calculations. This rule will affect school district (K-12 and postsecondary), and Florida College System institutions. These changes will impact the list of funding eligible industry certifications and implementation procedures for the Florida Career and Professional Education Act.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within

one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: This is because the rule authorizes industry certifications through which school district technical colleges and FCS institutions earn performance incentive funding. These certifications have been evaluated to be rigorous and tied to the statewide occupational demand in Florida. Based upon the nature of these changes and experience with similar changes in the past, no adverse impact or regulatory cost is expected and certainly none that will exceed any of the criteria of s. 120.541(2)(a), F.S. and will not require legislative ratification. Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
