Notice of Development of Proposed Rules and Negotiated Rulemaking

DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Division of Agricultural Water Policy

RULE NOS.:	RULE TITLES:
5M-1.001	Definitions
5M-1.008	Implementation Verification
5M-1.009	Best Management Practices Implementation Assistance
5M-1.010	Temporarily Inactive Operations

PURPOSE AND EFFECT: The purpose of the proposed rules is to consolidate rules common to the various FDACS Best Management Practices Program manuals into a single Chapter, define “Equivalent Program” to prevent duplicative regulation, and adopt language allowing agricultural Producers and Landowners enrolled in the FDACS Best Management Practices Program to apply additional fertilizer if impacted by an emergency event that results in an unmarketable, destroyed, or flooded crop.

SUBJECT AREA TO BE ADDRESSED: The proposed rule revisions bring requirements from the various, commodity-specific rules that are applicable to all FDACS Best Management Practices Programs—chapters 5M-2 through 5M-14 and 5M-16 through 5M-19, F.A.C.—into Chapter 5M-1, F.A.C. and makes all enrollments in any of the FDACS Best Management Practices Programs subject to the requirements of Chapter 5M-1, F.A.C. The common elements include an “Equivalent Program” definition, enrollment requirements, Equivalent Program enrollment terms, enrollment effectiveness terms, and implementation verification site visit requirements. An addition to the rule provides conditions under which agricultural Producers and Landowners enrolled in the FDACS Best Management Practices Program may apply additional fertilizer if impacted by an emergency event identified in a Governor-issued Executive Order under chapter 252, F.S., to re-establish or recondition a crop that is unmarketable, destroyed, or flooded. Application of additional fertilizer as authorized by this rule shall not constitute improper implementation of any Applicable Best Management Practice for implementation verification purposes. The rule also adopts two additional forms used to modify the enrollment without impacting the effectiveness status, and revisions to the Generic NOI form and the Nutrient Application Record Form.

The Board of Pharmacy hereby gives notice:
of the issuance of an Order regarding the Petition for Waiver or Variance, which was filed on March 18, 2024, by Waleed Kelada. The Notice of Petition for Waiver or Variance was published in Volume 50, Number 59, of the March 25, 2024, Florida Administrative Register. The Petitioner was seeking a waiver of the requirement of subparagraph 64B16-26.2031(2)(b)2., Florida Administrative Code, entitled, “Licensure by Examination (Non-U.S. Graduates); Application” which requires that in addition to the requirements of subsection (1), the applicant must demonstrate proficiency in the use of English by passing the Test of English as a Foreign Language Internet-based test (TOEFL ibt) with scores of: Listening – 18; Reading – 21; Speaking – 26; and Writing – 24. PATEL, GREENE AND ASSOCIATES, PLLC

The Florida Department of Transportation (FDOT), District One, announces a workshop to which all persons are invited.

DATE AND TIME: June 13, 2024, 5:00 p.m. – 7:00 p.m.

PLACE: The Bridge Church, 4000 75th St W, Bradenton, FL 34209

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Florida Department of Transportation (FDOT), District One, invites you to an in-person design workshop for the SR 55 (US 19) from 23rd Ave W to 39th St E project.

The Florida Department of Transportation (FDOT), District One, has identified the need for improvements along SR 55 (US 19, US 41, S Tamiami Trail). This project involves milling and resurfacing SR 55 from 23rd Ave W to 39th St E to extend the service life of the pavement and implementing safety improvements along the corridor. These improvements include guardrail replacements, sidewalk repair, lighting updates, pedestrian signal replacements, and two median modifications. Generally, the corridor is a multi-lane, divided urban roadway with a design speed ranging from 45 to 55 mph. This corridor passes through suburban residential, commercial, and urban contexts.

Median Modification 1: 21st St

SR 55 has two through lanes in both directions at this location. A safety analysis has identified that a significant number of crashes involving left-turning vehicles occur at this intersection. The proposed median modification will convert the existing full median opening to a directional median opening and will prevent left turns from 21st St onto SR 55. By preventing left turns, the directional median opening will eliminate the safety issues for those looking to cross the road.

Median Modification 2: 11th Ave

SR 55 has three to four through lanes in both directions at this location. The corridor experiences high traffic volumes and the intersecting legs along 11th Ave are offset. A safety analysis has identified that a significant number of crashes involving left-turning vehicles as well as fatal pedestrian crashes occur at this intersection. The proposed median modification will convert the existing full median opening to a directional median opening and will prevent left turns from 11th Ave onto SR 55. By preventing left turns, the directional median opening will eliminate the safety issues as well as provide a pedestrian refuge in the median for those looking to cross the road.

You can participate in the SR 55 (US 19) from 23rd Ave W to 39th St E Design Workshop in-person on June 13, 2024, anytime from 5 p.m. to 7 p.m. at The Bridge Church, 4000 75th St W, Bradenton, FL 34209. The same materials will be displayed both in-person and online which will be posted by June 13, 2024, on the project webpage.

After reviewing the SR 55 (US 19) from 23rd Ave W TO 39 St Design Workshop materials, and/or participating, you may submit comments in three ways: 1) through the project webpage <https://www.swflroads.com/project/447379-1>; 2) email the FDOT Project Manager Scott McCall at scott.mccall@dot.state.fl.us; or 3) mail comments to Scott

McCall at FDOT District One, P.O. Box 1249, Bartow, FL 33831-1249. While comments about the project are accepted at any time, please note that comments must be received or postmarked by June 27, 2024, to be included in the formal workshop record.

A summary of the workshop comments and responses will be available on the webpage approximately 30 days following the close of the comment period.
