The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Department's economic analysis of the adverse impact or potential regulatory costs of the proposed rule did not exceed any of the criteria established in Section 120.541(2)(a), Florida Statutes. WATER MANAGMENT DISTRICTS

Southwest Florida Water Management District

RULE NOS.:	RULE TITLES:
40D-3.037	Rules, Publications and Agreements Incorporated by Reference
40D-3.041	Permits Required
40D-3.045	Water Use Permit Required
40D-3.060	General Permit for Monitoring Wells
40D-3.492	Violations of Permits
40D-3.507	Casing and Liner Pipe Standards
40D-3.517	Grouting and Sealing
40D-3.531:	Abandoned Well Plugging

PURPOSE AND EFFECT: The purpose of this rulemaking is
 to update the District's water well regulation rules to reflect
 recent statutory amendments for water well contractor
 licensing, incorporate by reference updated versions of related
 rules adopted by the Department of Environmental Protection
 (DEP), directly incorporate by reference certain materials that
 are already incorporated into DEP's well construction rules and
 adopt a new general permit for certain environmental
 monitoring wells. The effect of these amendments will be to
 make the District's water well regulations consistent with
 DEP's related rules and with recent statutory changes for water
 well contractor licensing, and reduce costs associated with
 certain environmental monitoring wells that are part of a
 contaminated site assessment, remedial action plan or pilot
 study approved by the DEP pursuant to Chapter 62-780, F.A.C.
 SUMMARY: Rule 40D-3.037, F.A.C., is amended to
 incorporate updated versions of related DEP water well rules in
 Chapters 62-524, 62-528, 62-531, 62-532, and 62-555, F.A.C.
 The Water Well Construction Disciplinary Guidelines and

Citations Dictionary adopted by DEP in June 2014 is also
 incorporated by reference. To address concerns raised in earlier
 rulemaking by the Joint Administrative Procedures Committee,
 publications that are identified in DEP's related rules will now
 be directly incorporated into the District's well regulation rules.
 These materials are already contained in DEP rules and do not
 represent new requirements for water well contractors.
 Amendments also incorporate updated versions of the District's
 Application for Water Well Contractor License and Renewal
 License Application forms, to reflect recent statutory changes.
 Rule 40D-3.041, F.A.C., is amended to reflect the fact that
 under a new general permit rule, certain monitor wells will not
 require application for a well construction permit. Rule 40D-
 3.045, F.A.C., is amended to limit the rule's requirement to
 wells for which an individual water use permit is required, in
 recognition that the District's water use permitting rules now
 allow for general water use permits by rule. Rule 40D-3.060,
 F.A.C., establishes a new general permit for the construction,
 repair, modification or abandonment of certain monitoring
 wells that are part of an environmental site assessment,
 remedial action plan or pilot study approved by DEP pursuant
 to Chapter 62-780, F.A.C. Rule 40D-3.492, F.A.C., is amended
 to make more complete the list of actions, omissions or conduct
 that constitute violations of Chapter 40D-3, F.A.C. Rules 40D-
 3.507 and 40D-3.517, F.A.C., are amended to correct a citation
 to DEP rules. Rule 40D-3.531, F.A.C., is amended to adopt a
 revised version of the District's Well Grouting/Abandonment
 Form.

SUMMARY OF STATEMENT OF ESTIMATED
 REGULATORY COSTS AND LEGISLATIVE
 RATIFICATION: The Agency has determined that this will not
 have an adverse impact on small business or likely increase
 directly or indirectly regulatory costs in excess of \$200,000 in
 the aggregate within one year after the implementation of the
 rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not
 expected to require legislative ratification based on the
 statement of estimated regulatory costs or if no SERC is
 required, the information expressly relied upon and described
 herein: There are no costs to the regulated public as a result of
 the proposed amendments. There will be some cost savings
 resulting from the new general permit for certain environmental
 monitoring wells. Therefore, this rulemaking will not result in
 any adverse economic impacts or regulatory cost increases that
 require legislative ratification.

Any person who wishes to provide information regarding a
 statement of estimated regulatory costs, or provide a proposal
 for a lower cost regulatory alternative must do so in writing
 within 21 days of this notice.

RULEMAKING AUTHORITY: 373.044, 373.113, 373.118, 373.171, 373.309, 373.337 FS.

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 40, No. 247, December 23, 2014 issue of the Florida Administrative Register.

The following sections of the Notice should be corrected to read:

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

Statements of estimated regulatory costs have been prepared for proposed rule revisions in Rules 59A-26.002, 59A-26.007 and 59A-26.019, F.A.C., and are available from the person listed below. The following is a summary of the SERCs:

For proposed Rule 59A-26.002, F.A.C., license fees are increased by the Consumer Price Index pursuant to Section 408.805(2), F.S. The biennial license fee will increase by \$21.88 per bed. Based on the number of currently licensed facilities, the total regulatory impact for a 5 year period is \$159,286.40.

For proposed rule Rule 59A-26.007, F.A.C., subsection (7) requires the licensee to ensure that 50% of its staff on duty at all times are certified in cardio-pulmonary resuscitation (CPR) and received basic first aid training. Section 483.420(d)(3), C.F.R., mandates the staffing ratio for ICF is 1 to 3.2 residents. The average number of beds in an ICF is 28 beds; this averages out to 9 staff per ICF of which 50% or 5 staff that must receive

training. The CPR/First Aid training is \$58.00 for a two-year certification so the average cost is \$290 per facility. Based on the number of currently licensed facilities, the total regulatory impact for a 5 year period is \$73,225.

For proposed Rule 59A-26.019, F.A.C., construction and physical environment standards for intermediate care facilities for the developmentally disabled are being updated to bring the requirements for any newly constructed facilities or changes in current facilities in line with the standards for nursing homes which are a similar facility type housing similar residents that receive chronic, skilled/acute nursing or medical care. subparagraph 59A-26.019(2)(h)2., F.A.C., increases area required for each bed by 25 square feet and subparagraph 59A-26.019(7)(b)5., F.A.C., requires exterior units to be impact-rated according to the high velocity hurricane zone (HVHZ). The cost to comply with the new standards is \$168,000.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: A SERC has been prepared by the agency for Rules 59A-26.002, 59A-26.007 and 59A-26.019, F.A.C. For rules listed where no SERC was prepared, the Agency prepared a checklist for each rule to determine the necessity for a SERC.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
