PURPOSE AND EFFECT: The proposed rule amendments are intended to address a penalty range for the violation found in Section 458.331(1)(tt), F.S., and to also set forth a citation penalty for the violation.

SUMMARY: The proposed rule amendments set forth a penalty range for the violation found in Section 458.331(1)(tt), F.S., and sets forth a citation penalty for the same violation.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. FISH AND WILDLIFE CONSERVATION COMMISSION

Marine Fisheries

RULE NO.: 68B-4.019
 RULE TITLE: Prohibition of Trap Pullers on Recreational and Certain Commercial Vessels

PURPOSE AND EFFECT: The purpose of this rule amendment is to clarify existing rule language in Rule 68B-4.019, FAC, related to the possession of trap pullers aboard certain commercial vessels by updating references to applicable commercial fishing licenses and endorsements, and to incorporate a recently approved prohibition on the operation of a commercial spiny lobster bully net vessel with a trap puller on board.

Trap pullers are mechanical devices that are used on commercial vessels to aid in the tending and retrieval of traps used in saltwater trap fisheries. In Florida Waters, trap pullers are prohibited on all recreational vessels, and are only permitted on commercial vessels that are properly licensed to operate in the commercial spiny lobster, stone crab, blue crab, and black sea bass trap fisheries. Existing language in Rule 68B-4.019, FAC, referencing the commercial licenses and endorsements that are required to participate in these trap fisheries is either outdated or unclear and should be updated.

At the Florida Fish and Wildlife Conservation Commission’s February 2017 meeting, Commissioners approved a final rule

that modified the Commission’s spiny lobster rules (Rule 68B-24, FAC) as they relate to commercial bully net harvest of lobster. These changes included prohibiting the operation of a commercial spiny lobster bully net vessel with a trap puller on board. This rulemaking will incorporate this prohibition into the Commission’s trap puller rule, Rule 68B-4.019, FAC.

The effect of this rule amendment will be to clarify existing rule language related to the possession of trap pullers aboard certain commercial vessels by updating references to commercial fishing licenses and endorsements, and to incorporate a prohibition on the operation of a commercial spiny lobster bully net vessel a trap puller on board.

SUMMARY: This rule will clarify existing rule language related to the possession of trap pullers aboard certain commercial vessels by updating references to commercial fishing licenses and endorsements, and will incorporate a recently adopted prohibition on the operation of a commercial spiny lobster bully net vessel with a trap puller onboard.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: the nature of the rule and the preliminary analysis conducted to determine whether a SERC was required.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
