RULE NO.: RULE TITLE:

69L-6.025 Conditional Release of Stop-Work Order
and Periodic Payment Agreement

PURPOSE AND EFFECT: The proposed amendment to paragraph 69L-6.025(4)(b), F.A.C., will allow employers an additional opportunity to remain compliant with their payment agreement schedules by increasing the number of times the Department will rescind an Order Reinstating Stop-Work Order from two to three in any one case. The proposed amendment to paragraph 69L-6.025(7)(c), F.A.C., will allow employers

whose Reinstatement of Stop-Work Orders have been rescinded, the opportunity to enter into new payment agreements after making three monthly payments of the original agreed amount. Currently, the employer is required to make six monthly payments of the original agreed amount after the rescission of the Reinstatement of the Stop-Work Order prior to entering into a new payment agreement. Reducing the number of payments required from six to three will shorten the timeframe for entering into a new payment agreement.

SUMMARY: Qualification for Special Inspector certification and update the incorporated form.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and

Conform to all applicable environmental laws and regulations, as well as Executive Orders;

Solve a problem independently or constitute a functional part of a solution;

Benefit a National Flood Insurance Program (NFIP) participating community that is not on probation or suspended from the NFIP; and

Meet all applicable State and local codes and standards.

Cost-Share Requirements

Under the HMGP, FEMA will contribute up to 75 percent of the total amount approved under the grant award to implement eligible, cost-effective mitigation measures. The applicant must provide the remaining 25-percent non-federal share. Contributions, cash, and in-kind services are acceptable as part of the non-federal share. Requirements for in-kind contributions can be found in 2 CFR §200.306. In-kind contributions must be directly related to the eligible project cost and are those personnel, materials, equipment and supplies

owned, controlled, and operated by the applicant or a third party contributor.

Applicants may use the Global Match concept as part of the 25-percent non-federal share. Global Match permits a potential applicant to meet the non-federal share match by receiving credit for state and/or local government funds that were committed to a similar type of project(s). These similar, non-federally funded projects must meet all of the HMGP eligibility requirements. This means that if Global Match is approved, the applicant may receive up to 100 percent federal share.

Pre-Award Costs

Prior to receiving a grant award, pre-award costs may be requested. Pre-award costs include items such as engineering, environmental study, permitting, and other "soft" costs associated with a construction project. Construction activities are not considered pre-award costs. Pre-award costs must be requested in writing. Guidelines for pre-award costs are included in Attachment A.

Project Management

Administrative costs are eligible and available upon request. The amount requested must be included as a line item in the project budget of the project application and labeled as "administrative." Be advised that the inclusion of administrative costs will affect your overall benefit-costs score.

County Funding Allocation

To ensure funds are distributed equitably, designated counties have been assigned a portion of the total HMGP grant. The amount is based on a calculation of the proportional share of the total federal assistance under the Public Assistance (PA), Individual Assistance (IA), and Small Business Administration (SBA) programs as of January 2018. Commitment of project funds by the Division is contingent upon receipt of appropriate Legislative Budget Authority.

These figures are shown in Attachment B and represent the estimated amount of HMGP funds currently available. HMGP funding is available only to those counties that have a current FEMA-approved LMS. Project applications will be considered only if:

The application is accompanied by an endorsement by the LMS Chairperson or Vice-Chairperson stating that the project is included in the current LMS; and,

If more than one project is submitted, the endorsement indicates the prioritization. A sample project submission letter is shown in Attachment C.

The Division will attempt to fund each submitted project in priority order until the county's allocation has been exhausted. In accordance with Florida Administrative Code (F.A.C.) 27P-22.006, the Division uses the following tiered allocation system up until the State application deadline with FEMA:

Tier 1 The available HMGP funds are allocated to counties included in the relevant Presidential Disaster Declaration in

proportion to each county’s share of federal disaster funding from the Public Assistance (PA), Individual Assistance (IA), and Small Business Administration (SBA) Disaster Loan Program as of 90 days after a Disaster Declaration as reported by FEMA. Eligible projects submitted by each county included in the relevant Presidential Disaster Declaration will be funded in order of priority as outlined in the LMS until the allocated funds are exhausted or all eligible projects are funded.

Tier 2 Any allocation remaining after all eligible projects in any declared county are funded shall be re-allocated to those counties included in the relevant Presidential Disaster Declaration whose allocation was not sufficient to fund all submitted eligible projects. The order of priority for re-allocating funds is detailed in Attachment D.

Tier 3 In the event funds remain after the Tier 1 and Tier 2 processes, any remaining funds will be offered on a statewide basis as described in Attachment D.

Please see Attachment D for a detailed explanation of funding tiers.

Funding Availability and Notification

FEMA notifies the State of HMGP funding availability at the following milestones:

1 Initial 90-Day Estimate

This is an early estimate only and not an actual commitment of funding by FEMA. Funding may increase or decrease based on actual disaster claims during the declaration period. These estimates are provided for planning purposes and to jump-start the HMGP application process.

2. Obligation prior to 12 Months

Prior to the 12-month lock-in, FEMA will only obligate funds up to 75% of any current estimate. This is to eliminate the risk over obligating funds for any given disaster in the event the 12-month lock-in is lower than initially estimated.

3 12 Months from the Date of Declaration

This represents the State’s Lock-in Amount. It is the maximum amount available the state can expect to receive from FEMA. In rare occurrences, FEMA may conduct a subsequent review 18 months after the declaration, but only at the request of the State. The estimate from that review may cause the final lock-in to fluctuate up or down depending on the findings.

It is important for potential applicants to recognize that HMGP funds are contingent upon FEMA’s reexamination of the disaster figures at the given time intervals. A county’s funding allocation can increase or decrease after it has submitted an application.

Technical Assistance

Due to the large impact of Hurricane Irma across the state, the Division is in the process of scheduling HMGP application development workshops webinars, as opposed to the standard in-person workshops. The webinars will focus on a handful of counties at a time so that project-specific concerns can still be addressed by state staff. The Division is in the process of scheduling these webinars and will be in touch with each county in the next few weeks to finalize dates and times. Please check the Division’s website www.floridadisaster.org/dem/mitigation/hazard-mitigation-grant-program for additional technical guidance. The Division will provide technical assistance throughout the application process. This includes assistance with the application process, Benefit Cost Analysis, Engineering Feasibility and Environmental/Historical Preservation Compliance. If there are any questions regarding the allocation of funds or the project review and selection criteria, please call Bureau staff at one of the following numbers:

Program Eligibility: (850)815-4503 or (850)815-4537

Environmental: (850)815-4575
