The vision of the Florida Resilient Coastlines Program (FRCP) is that Florida’s coastal communities are resilient and prepared for the effects of rising sea levels, including coastal flooding, erosion, and ecosystem changes. This will be accomplished by synergizing community resilience planning, natural resource protection tools, and funding.

FRCP announces the availability of state and federal funds for innovative coastal projects under its RPG (Florida state funds) and AAI (NOAA 309 federal funds) applications for fiscal year 2019-2020. Eligible applicants include Florida’s 35 coastal counties and the local governments within their boundaries that are required to include a coastal element in their comprehensive plan. Florida regional planning councils, national estuary programs, colleges, community colleges, and state universities may also apply, as long as an eligible local government agrees to participate as a partner. Non-profit groups are not eligible as applicants.
