DEPARTMENT OF EDUCATION

Florida International University

FIU-Engineering Building, BT-919 CM

NOTICE TO CONSTRUCTION MANAGERS - BT-919 Engineering Building

The Florida International University Board of Trustees announces that construction management services are required for the project identified below:

Project Name and Number: Engineering Building, BT-919

Project Location: Modesto A. Maidique Campus (MMC), Miami, Florida

Project Description: The building will be located on the Modesto A. Maidique campus to facilitate and enhance ongoing and future collaborations between the College of Engineering and Computing and the health sciences colleges of medicine, nursing, and public health. Many of the most significant breakthroughs in health sciences will increasingly be at the interface between these disciplines and engineering and computer science. The project budget includes costs of upgrading and extending existing central campus infrastructure to the project site.

In anticipation of the growth expected through the FIU 2020 Strategic Plan, the Department of Defense engineering needs projection for the next decade, and the President's Jobs and Competitiveness Council call for 10,000 additional engineers,

FIU will commit E&G funding for over 100 new engineering and computer science faculty. The proposed engineering building will provide laboratory and classroom facilities for these new students and faculty. Through this new facility, faculty and students, FIU will graduate an additional 350 engineers and computer scientists annually, increase its externally funded research expenditures by \$30 million annually, create 550 new jobs in the community, submit an additional 27 patent applications annually, and create one FIU intellectual-property-based company every other year by 2025. The Florida Legislature appropriated \$10,000,000 for this project in 2017-18 and \$20,641,537 in 2018-2019, which funded planning and partially funded construction for this important and critically needed facility. The 2020-2021 State appropriation includes \$8,266,104 which brings the balance of funding to \$38,907,641 for Phase 1 construction and equipment and partial funding for Phase 2 for planning. Private fundraising and research indirect funding will comprise \$15 million of \$54 million of phase I total project cost, 28% of the total budget, to complete 67% of building shell space to be built primarily for research labs.

FIU is committed to producing buildings that comply with sustainable energy conservation strategies and standards (minimum LEED Silver Certification).

The project scope may be modified by FIU, in its sole discretion, to reduce scope, or to include additional spaces or square feet should a funding source for such scope increases be identified prior to project completion. The project is planned to be designed and constructed in two or more phases. The first phase would include the project described in the approved Program dated June 22, 2020 as Phase 1. The second phase would include additional areas as generally contemplated in the description of Phase 2 in the approved Program. With required approvals, components of Phase 1 and Phase 2 may be revised due to funding changes and/or changing program needs. The selected Construction Management firm may be instructed to proceed with Phase 2 of the project if funding becomes available prior to completion of Phase 1. However, FIU may elect to initiate a new selection process for CM services for Phase 2 even if the CM firm for Phase I has done preliminary work for Phase 2, and the selection of an CM firm for Phase 1 is not a guarantee of any work for Phase 2. Further, if funding for Phase 2 is not available prior to completion of the construction of Phase 1, a new selection process for CM services will occur.

INSTRUCTIONS: Firms desiring to provide construction management services for the project shall submit a letter of application and a completed Construction Manager Qualifications Supplement (CMQS) form. Proposals must not exceed 80 pages, including the CMQS and letter of application. Pages must be numbered consecutively. Submittals, which do

not comply with these requirements or do not include the requested data, will not be considered. No submittal material will be returned.

Submit Nine (9) bound copies of the required proposal data and one electronic copy of the complete proposal in Adobe Acrobat PDF format of the above requested data bound in the order listed. Applications that do not comply with the above instructions will not be considered. Application material will not be returned. The University reserves the right to suspend or discontinue the selection process at any time and to return or reject any or all submissions of qualifications without obligation to the respondent. The award of this contract is subject to availability of funds.

The Construction Manager Qualifications Supplement (CMQS) form and the Project Fact Sheet, which describes the selection process schedule for this Project and additional information regarding the Project scope, may be obtained from the web-site <http://facilities.fiu.edu/projects/BT-919.htm>. Applications on any other form will not be considered. Requests for meetings by individual firms will not be granted. Once the firm acquires the required forms, questions may be directed to Facilities Planning at (305)348-4090 or via email to griffith@fiu.edu cc: angpaz@fiu.edu.

GENERAL REQUIREMENTS: All applicants must be licensed to practice as general contractors in the State of Florida at the time of application. Corporations must be registered to operate in the State of Florida by the Department of State, Division of Corporations, at the time of application. As required by Section 287.133, Florida Statutes, a person or affiliate may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected construction manager must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of the threshold amount provided in Section 287.017 for CATEGORY TWO in connection with this project for a period of 36 months following the date of their being placed on the convicted vendor list.

FIU HAS CREATED STANDARD CONTRACT FORMS, GENERAL TERMS AND CONDITIONS OF THE CONTRACT FOR CONSTRUCTION AND STANDARD INSURANCE REQUIREMENTS APPLICABLE TO CM SERVICES TO PROVIDE FOR AN EFFICIENT AND EFFECTIVE PROCESS. THESE FORMS ARE AVAILABLE FOR REVIEW, AND CAN BE FOUND AT <http://facilities.fiu.edu/formsandstandards.htm>

ALL APPLICANTS SHOULD REVIEW THE APPLICABLE FIU CONTRACT FORM AND STANDARD INSURANCE REQUIREMENTS CAREFULLY PRIOR TO MAKING A DECISION AS TO WHETHER OR NOT TO RESPOND TO THIS ADVERTISEMENT.
