RULE NOS.:	RULE TITLES:
69L-7.730	Health Care Provider Medical Billing and Reporting Responsibilities
69L-7.740	Insurer Authorization and Medical Bill Review Responsibilities

PURPOSE AND EFFECT: The proposed rulemaking will clarify the medical reimbursement and utilization review requirements regarding physician dispensed medication. Previous Informational Bulletin DWC-01-2020 was rescinded retroactively to the date it was published. This rulemaking adopts billing, notification, and payment processing requirements for workers' compensation insurance carriers and participating physicians.

SUMMARY: The rules update procedural requirements regarding physician dispensed medication.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

A summary of the SERC follows:

- The rule is likely to directly or indirectly have an adverse impact on economic growth, private-sector job creation or employment, or private-sector investment in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.
- The rule is not likely to directly or indirectly have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.
- The rule is likely to directly or indirectly increase regulatory costs, including any transaction costs, in excess of \$1 million in the aggregate within 5 years after the implementation of the rules.
- The number of individuals and entities likely to be required to comply with the rule is approximately 891 administrators including 407 insurers, 385 self-insurers and 99 third-party administrators.
- The Department will not incur costs for implementing or enforcing the proposed rule.
- The cost to any other state and local government entities of implementing the proposed rule and the anticipated effect on state and local revenues is anticipated to be none.

- The total estimated transactional costs to the individuals and entities that are required to comply with the rule is \$8,600,000.00 per year.

- The rules are not anticipated to financially impact small businesses, small counties, or small cities.

The Agency has determined that the proposed rule is expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Department conducted a SERC analysis of the proposed rule utilizing a cost analysis of estimated regulatory costs. The cost analysis of proposed Rules 69L-7.730 & 7.740, F.A.C., indicates that the proposed rule will result in an estimated overall increase in Florida workers' compensation system costs of \$8,600,000.00 per year.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
