DEPARTMENT OF TRANSPORTATION

RULE NO.: 14-60.012
 RULE TITLE: Diesel Exhaust Fluid Safety Mitigation and Exclusion Plans

PURPOSE AND EFFECT: To address development of a uniform industry standards form for the diesel exhaust fluid safety mitigation and exclusion plan based upon recommendations provided by the workgroup of public airport representatives on specified requirements contained in and authorized by Chapter 2021-61, s. 1, Laws of Florida.

SUMMARY: The rule is being adopted to address development of a uniform industry standards form for the diesel exhaust fluid safety mitigation and exclusion plan.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Department used an itemized checklist to conduct an economic analysis and determine if there would be any adverse impact or regulatory cost associated with this rule that exceeds the stated criteria. Upon review of the proposed rulemaking, the Department determined that the proposed rule will not exceed any one of the economic analysis criteria in a SERC as set forth in s. 120.541(2)(a), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal

for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

(1) Each public-use airport at which:

(a) Aviation fuels receive onsite treatment with fuel system icing inhibitors;

(b) Aviation fuel is delivered by a publicly or privately owned fixed-base operator; and

(c) Any aircraft fuel delivery vehicle or ground service equipment that uses diesel exhaust fluid is operated within 150 feet of any aircraft, shall require a diesel exhaust fluid safety mitigation and exclusion plan for each fixed-base operator that performs onsite treatment of aviation fuel with system icing inhibitor.

(2) Public-use airports meeting the above criteria shall make their Diesel Exhaust Fluid Safety Mitigation and Exclusion Plan available for inspection by the Department of Transportation by completing an interactive internet-based application indicating which fixed-base operators are subject to diesel exhaust fluid safety mitigation and exclusion plan using a Department electronic aviation facility data system or completing and submitting Department of Transportation Form Number 725-040-36, May 2022, which is incorporated herein by reference at <http://www.flrules.org/Gateway/reference.asp?No=Ref-14203> and available electronically at <https://www.fdot.gov/aviation/flpub.shtm>. The form shall be submitted to the State Aviation Manager, Aviation Office, Florida Department of Transportation, 605 Suwannee Street, MS 46, Tallahassee, Florida 32399-0450. The application should be updated:

(a) Prior to the annual airport inspection conducted pursuant to Rule 14-60.006, F.A.C.; or

(b) When the criteria for any fixed-base operator changes.

(3) Each diesel exhaust fluid safety mitigation and exclusion plan executed between the airport and the fixed-base operator shall include the following:

(a) A full inventory of all the fixed-base operator’s diesel exhaust fluid on the premises of the airport.

(b) Designation of specific areas where the fixed-base operator’s diesel exhaust fluid may be stored on the premises of the airport. To the extent practicable, such areas may not be located within or on a vehicle operated for the fueling or servicing of aircraft or at any aviation fuel transfer facility or bulk aviation fuel storage facility.

Board of Nursing Home Administrators

RULE NO.: RULE TITLE:

64B10-12.0001 Fees

PURPOSE AND EFFECT: The Board proposes a rule amendment to update the text to remove subsection 10 from the fees.

SUMMARY: Update the rule language to remove subsection 10 from the rule regarding fees.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within

one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: RULE TITLE:
68D-23.109 Additional Specifications for Information, Danger, and Regulatory Markers

NOTICE IS HEREBY GIVEN that on May 13, 2022, the Fish and Wildlife Conservation Commission, received a petition for a variance from the Additional Specifications for Information, Danger, and Regulatory Markers rule (subsection 68D-23.109 (3), Florida Administrative Code), which requires that the size of signs used as information, danger, or regulatory waterway markers shall be no smaller than three feet by three feet. The petition was submitted by Russell Walters, President; Southern States Land and Timber, LLC. and seeks a variance from the size restriction for signs posting Trail End Mitigation Bank, which is situated on Tsala Apopka Lake in Citrus County, Florida. The proposed informational signs read, "ATTENTION NO GROUNDING NO ANCHORING WATER BOTTOM IS PRIVATE PROPERTY". The Petitioner states that a majority of the markers will be positioned adjacent to relatively narrow airboat trails that extend through relatively tall vegetation. The Petitioner states that the standard 3-foot minimum width specified in the rule is likely to be partially obstructed by the relatively tall vegetation that exists where the markers are

proposed and that a narrower sign would allow the sign to be placed closer to the airboat trail for better readability while still providing adequate clearance for any passing airboats.. The Petitioner requests that a permanent variance be granted allowing for smaller information signs of 24” wide by 18” height to mark Trail End Mitigation Bank.

Any interested person or other agency may submit written comments within 14 days after the publication of this notice.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Thomas Arrington, Florida Fish and Wildlife Conservation Commission, Division of Law Enforcement, Boating and Waterways Section, 620 South Meridian Street, Tallahassee, FL 32399-1600, (850) 617-9530, waterway.management@myfwc.com.
