65H-2.013 Purpose

(1) The purpose of this rule chapter is to establish the minimum standards and procedures for batterers’ intervention programs to obtain certification from the Department of Children and Families.

(2) The purpose of a certified batterers’ intervention program is to provide the justice system with standardized programming to further the safety of victims and their children, and to hold the perpetrators of domestic violence accountable for their acts. communication within 24 hours of the batterer's discharge from the program, and the reason for discharge: completion, termination, or transfer. PLACE: SFWMD Headquarters, B-1 Building, Auditorium, 3301 Gun Club Road, West Palm Beach, FL 33406

Members of the public may participate and provide public comment in-person or via Zoom, a media technology free for the public to use. https://sfwmd.gov.zoom.us/webinar/register/WN_DV0kUGV1QH66NmZ1UhvsqA

GENERAL SUBJECT MATTER TO BE CONSIDERED: This public workshop will present the recently launched South Florida Water Management District Flood Impact Assessment Tool (SFWMD-FIAT) to assist in developing cost benefit estimates of flood adaptation alternatives. The SFWMD-FIAT was designed to run quick, consistent, and well-founded flood damage and risk calculations, utilizing an advanced exposure database being built in-house. This Tool will support the District Resiliency and Flood Protection Level of Service (FPLOS) Programs in deciding on appropriate courses of action and to help underpin the benefits of flood mitigation and adaptation measures when recommending priority

infrastructure investments. The SFWMD-FIAT enables non-modelers to evaluate the damage and risk-reduction benefits of flood mitigation and adaptation measures once the hydrodynamic modeling of these scenarios, and respective flood inundation results, are completed. It evaluates and outputs damages per building, road segment, and utility, and aggregates to specified aggregation scales. The SFWMD-FIAT Tool might also support local flood vulnerability assessments, as the exposure database is fully developed districtwide. This meeting is for technical experts and researchers, planners and water managers, and is open to the public.

The public and stakeholders will have an opportunity to view and comment on the workshop in-person or via Zoom by utilizing the following link:
