(n) Persons who adjust workers' compensation claims who are also licensed as a life, health, property and casualty, industrial fire, surplus lines, or title agent, bail bond agent, or

as a customer representative or limited customer representative shall earn, in addition to the hours required for the agent or customer representative license, the total required hours for:

a. The adjuster license, and

b. The bail bond agent license.

(o)1. If a dually licensed agent or customer representative earns all the hours in one line of business, the Department will not assume that the licensee intends to drop the other license.

2. The licensee will not be in compliance unless the Department is notified to change the license status, using Form DI4-501, Appointment Form, rev. 1/92, which is adopted in 4-228.180.

(p)1. If an agent or customer representative has qualified for exemption from the requirements of these rules due to employment with a governmental course provider (other than agents or customer representatives employed by the Department of Insurance), the individual shall declare that status to the Department on Form DI4-1106, Statement of Government Status, rev. 6/93, which is adopted in 4-228.180.

2. The agent or customer representative shall notify the Department within 30 days of any change in that status pursuant to Rule 4-228.250(3).

a. Being licensed for at least 6 years in Florida, or

b. 25 years of experience, and

c. Status as a CLU or CPCU, or

d. A college degree in insurance with at least eighteen semester hours of credit in subjects pertaining to their license.

2. The licensee shall earn the number of hours required for the type and class of licensure by the next compliance date after the date that the license to which those qualifications apply has expired.

(r) Credits earned by adjusters to satisfy the workers' compensation requirements shall earn a total of 24 hours of credit as follows:

1. Two hours of ethics;

2. Ten hours in workers' compensation law and policy;

3. Twelve hours in optional approved workers' compensation subjects or additional hours in workers' compensation law and policy, or ethics.

5.a. Workers' compensation law and policy courses shall cover the requirements for benefits as found in Florida Statutes or Florida Administrative Code.

(s)1. All lines adjusters who handle workers' compensation claims are required by section 626.869, Florida Statutes, and this rule chapter to earn 24 hours of continuing education credit in Florida approved classroom courses.

2. Any adjuster to whom this rule applies who also holds an agent's license shall meet each requirement separately.

3. Credits shall not be credited to both requirements from the same course.

(t)1. Credit hours in courses which are generic in nature will not be split between the substantive categories related to the applicable particular classes of licensure.

2. As used in this subsection, the term "generic" means credit hours which are not classified as a property and casualty, life, health, or title insurance, or customer representative or limited customer representative, or adjuster courses, and which may be used for credit in either category.

3. An example of a generic course would be a course on communication.

(u) Section 626.2815(3)(d), Florida Statutes, allows excess hours to be carried forward to the next compliance period. Excess hours may be used to satisfy part or all of the requirement for the next compliance period.

(v) Agents shall not earn more than 50% of their required credit hours in courses described in paragraphs 4-228.080(4)(a), (b), and (c).

(w)1. Agents may earn courses classified as basic if they have been licensed for less than 6 years in Florida as of the beginning of their compliance period.

2. Agents shall take courses classified as intermediate or advanced if they have been licensed and appointed, with respect to the type of course being taken, for 6 years or more.

(x) Section 626.2815(3)(d), Florida Statutes, allows a reduction in hours from 28 to 20 per compliance period for certain licensees who have been licensed in Florida for 6 years or more. If the license expires, is surrendered, canceled, revoked, or otherwise no longer exists to which the experience applies, the reduction in hours is no longer in effect for the remaining licenses.

(y)1. Section 648.385(2)(a), Florida Statutes, requires a bail bond agent to earn 14 hours of continuing education credit beginning in January, 1997.

2. The first compliance date for which the hours shall have been earned will be December 31, 1998.

3. Credits shall be earned in subjects relative to the line of authority for the license.

(z) If the bail bond agent also holds other insurance licenses for which continuing education is required pursuant to ss. 626.2815 and 626.869, F.S., the agent shall earn the credits for the bail bond agent in addition to the required hours for the other licenses held.

(6) CLU/CPCU/College Degree + 25 Years Experience.

(a) A letter requesting credit for either the CLU or CPCU designation or a college degree, and applicable experience or Form DI4-1109, Application for CLU/CPCU/ College Degree + Experience Status, rev. 7/96, which is adopted in 4-228.180, shall be submitted with all written documentation to qualify a licensee prior to the birth month in the year in which compliance is due.

(b) Documentation may include achievements attained in the birth month.

(c) The years of experience shall be in the same line of business as the designation.

(d) Years of experience in the opposite line of business will not qualify for the reduced continuing education requirement.

(e) Within 30 days of a status change which disqualifies the licensee from the reduction, the licensee shall notify the Department.

(f) On the next compliance date after the status has been changed for at least 24 months, the requirements will apply for that type and class without the reduction.

(7) Non-Resident Certification.

(a)1. Non-resident licensees who reside in a state that requires continuing education and that has a reciprocal agreement with Florida for continuing education may comply with Florida's continuing education requirement by meeting their home state's requirement and by submitting a properly completed Form DI4-463, Nonresident Agent Certification, rev. 7/97, which is adopted in 4-228.180, with supporting documentation attached as prescribed in the form.

2. Non-resident licensees who do not reside in a state that requires continuing education or that does not have a reciprocal agreement with Florida, but who are licensed in another state that does have a continuing education requirement and a reciprocal agreement with Florida, may comply with Florida's continuing education requirement by meeting that state's continuing education requirement and by submitting a properly completed Form DI4-463, Non-resident Agent Certification, rev. 7/97, which is adopted in 4-228.180, from that state with supporting documentation attached as prescribed in the form.

(b) Nonresident adjusters who handle workers' compensation claims shall complete the total required hours of credit in Florida approved classroom courses or seminars for workers' compensation adjusters.

(8) Licensees are not required to file certificates of completion with the Department unless requested to do so by the Department for audit purposes or to correct discrepancies in Department records.

(9)(a) Licensees who use the qualifications from a license type and class which is required to earn continuing education credits to qualify for a non-continuing education type and class license, and who do not continue an appointment for the license type that is required to earn continuing education credits, will not be required to earn continuing education credits during the time in which the non-continuing education type and class license is held.

(b) Licensees may not change the status of the license type and class which is required to earn continuing education credits, and cannot receive an appointment for that type and class license, unless in the 24 months prior to the request the licensee has earned the required number of hours of continuing

education credit for the license type and class that qualified the licensee for the non-continuing education type and class license for agents, customer representatives, bail bond agents, or persons who adjust workers' compensation claims.

(c) If the non-continuing education type and class license is held for more than 24 months, only the number of hours of credit required for one compliance period will be required in order to change the status of the license and to receive an appointment.

(10) Licensees who have changed type and class prior to the effective date of this rule will have their compliance date set by the last status date for that particular type and class unless some other license date exists for another type and class which is required to have continuing education which pre-dates this last status date.

(11)(a) All lines adjusters shall declare their status as adjusting workers' compensation claims, as defined in 4-228.030, on Form DI4-1108, Statement of Adjuster Status, rev. 6/93, which is adopted in 4-228.180, and notify the Department within 30 days of any change in that status.

(b) Signature date on the form will be used to establish the compliance date for adjusters whose status was changed from "not handling workers' compensation claims" to "handling workers' compensation claims".

(12)(a) Licensees who surrender one or all of their licenses shall surrender their photo identification card to the Department and submit a letter specifying which type and class of licensure they wish to surrender along with a statement indicating their intention not to meet applicable continuing education requirements for the specified type and class of licensure.

(b) If a licensee does not surrender all licenses held, the licensee shall also submit \$5.00 to the License Control Section, c/o Revenue Processing, P. O. Box 6000, Tallahassee, FL 32314, with a request for a new photo identification card.

(b) "Good cause" means an incident or occurrence which is beyond the control of the applicant and which prevents compliance.

(c) Examples of good cause include: Disabling accident, illness, call to military duty, or declared national emergency.

(d) It is the licensee's responsibility to request an extension on Form DI4-460, Request for Extension of Time, rev. 7/97, which is adopted in 4-228.180.

(e) The person's license and appointments shall remain in effect during the extension period.

(2) Requests for extensions should be submitted to the Department or its designee in writing at least 30 days prior to the applicable compliance date and shall include appropriate documentation of the good cause for extension.

(3) When an extension is granted, a new compliance date is temporarily created for that compliance period only.

(4)(a) If the minimum continuing education requirement is not satisfied by the extended compliance date, the Department will notify the person and the person will be assessed \$50.00 for additional administrative efforts necessary to process this notification and other materials in connection with this non-compliance, pursuant to section 624.501(20)(c), Florida Statutes, for non-compliance with sections 626.2815 and 626.869(5), Florida Statutes, and this rule chapter.

(b) If the minimum continuing education requirement is not satisfied by the last day of the extended compliance period, the Department shall refuse to renew the licensee's appointments and refuse to issue new appointments.

(c) Failure to be appointed for a particular type and class of license for 24 months will result in termination of a person's license for that type and class.

(5) Permanent conditions are not eligible for indefinite extensions of time to complete the requirements.

(6) A maximum of four (4) 90-day extensions may be granted for each compliance period if acceptable documentation is received by the Department.

(3)(a) After the first compliance year is established, a licensee shall continue to meet the applicable continuing education requirements every 2 years thereafter regardless of when additional licenses or appointments are added.

(b) As subsequent licensure is granted for other lines of insurance requiring continuing education, the licensee's compliance date will remain the same.

RULE CHAPTER TITLE: Shrimp

RULE TITLES:

Purpose and Intent; Repeal of Certain

General and Special Acts; Designation of Shrimp as Restricted Species

RULE NOS.:

68B-31.005

Statewide Recreational Shrimping Restrictions 68B-31.007  
Statewide Food Shrimp Production Restrictions 68B-31.009

Southeast Region: Biscayne Bay (Dade County) Food Shrimp Production Season and Weekly Closures 68B-31.0135

PURPOSE AND EFFECT: The Fish and Wildlife Conservation Commission is in the process of developing a management plan for shrimping in Biscayne Bay. As for other regions and certain bay systems, the goal of these management plans is to eliminate hard-to-enforce minimum size regulation, but replace it with closures or effort limitations that protect nursery areas and juvenile shrimp and boost escapement of adult shrimp for spawning purposes. The primary purpose of this rule development effort is to implement a management plan for Biscayne Bay that will accomplish this goal. Additionally, the Commission proposes to establish shrimp as a restricted species statewide. The purpose of such designation, as in other fisheries where the technique has been employed, is to assure that, as much as possible, persons harvesting shrimp commercially, either as a food shrimp producer or as a live bait shrimp producer, are full-time, professional commercial fishers. The effect of the measures being developed for Biscayne Bay and the statewide designation of shrimp as a restricted species should be the protection of the health and abundance of shrimp populations as a renewable resource for the benefit of Florida citizens.

SUBJECT AREA TO BE ADDRESSED: Food shrimp production in Biscayne Bay (Dade County) and restricted species status for shrimp statewide.

SPECIFIC AUTHORITY: Art. IV, Sec. 9, Florida Constitution. LAW IMPLEMENTED: Art. IV, Sec. 9, Florida Constitution.

THE FISH AND WILDLIFE CONSERVATION COMMISSION WILL CONDUCT A RULE DEVELOPMENT WORKSHOP AT THE TIME, DATE, AND PLACE SHOWN BELOW:

THE FULL TEXT OF THE PROPOSED RULE IS:

3F-10.002 Disbursement from the Preneed Funeral Contract Consumer Protection Trust Fund.

The purpose of the Preneed Contract Consumer Protection Trust Fund is to provide restitution to preneed contract purchasers and their estates due to a Certificateholder's or otherwise covered provider's failure to provide the benefits of a preneed contract or failure to refund the appropriate principal amount by reason of cancellation thereof. All restitution to be paid from the Preneed Funeral Contract Consumer Protection Trust Fund shall be subject to review and approval of the Board. Amounts disbursed from the Preneed Funeral Contract Consumer Protection Trust Fund shall be determined in accordance with the following criteria:

(1) The Board shall determine to its satisfaction that the Certificateholder or otherwise covered provider ~~preneed contract seller~~ does not possess the financial means to deliver or provide the prearranged merchandise or services. Such determination will be based on information the Board will require for review and may include the following if applicable ~~shall include the following:~~

(a) Review of delinquency proceedings pursuant to Chapter 631 against a Certificateholder or otherwise covered provider;

(b) Review of bankruptcy proceedings in Federal court;

(c) Review of Trust Accounts held by or entered into by the Certificateholder or otherwise covered provider;

~~(d) Review of any the funding source used for the preneed contracts for the preneed contract to determine if the Certificateholder utilized Section 497.417, Section 497.429, Section 497.423 or Section 497.425, Florida Statutes;~~

~~(e) Review of all assets held by the Certificateholder or otherwise covered provider:-~~

~~(2) Requests for restitution shall be submitted on the Preneed Funeral Contract Consumer Protection Trust Fund Request for Disbursement form, DBF-TFD-1, effective May 23, 1994, which is incorporated herein by reference and available from the Department of Banking and Finance. Restitution will only be made if the Certificateholder or otherwise covered provider was licensed as a COA or was regulated under Chapter 470, F.S., when the contract was written. All requests for restitution from the Preneed Funeral Contract Consumer Protection Trust Fund shall be accompanied by a copy of the preneed contract and documentation which verifies the total funds paid on preneed contract, and that the applicant has not defaulted in the terms of the contract. In addition, the person requesting restitution shall provide written documentation that the Certificateholder or otherwise covered provider has failed to provide the benefits of the preneed contract or has failed to refund the appropriate principal amount by reason of cancellation.~~

~~(3) The Board and Department shall have the right to review, investigate, or request additional documentation from any person regarding any request for restitution, in order to determine the validity and correct amount of restitution, if any, to be made to the contract purchaser or his estate.~~

~~(4) Restitution may only be obtained from the Preneed Funeral Contract Consumer Protection Trust Fund if adequate funds are not available in the Certificateholder's or otherwise covered provider's preneed trust fund or in the possession of the Certificateholder or otherwise covered provider. Non/Certificateholder's preneed trust fund or in the possession of the Certificateholder or Non/Certificateholder. Should a portion of the refund amount be reimbursed from the Preneed Trust, or other funds held by the Certificateholder or Non/Certificateholder, the Board shall only authorize restitution for the remaining balance due to the purchaser.~~

~~(5) As used herein the term "Restitution" means the disbursement of funds to a Certificateholder or other entity that is licensed by state law to provide services at-need from the Preneed Funeral Contract Consumer Protection Trust Fund after fulfillment of a previously breached contract. After fulfillment, interest accrued in a merchandise trust account or any similar account shall be transferred with the principal to the fulfilling Certificateholder or provider. The Board shall determine the amount of such restitution. However, the amount of any restitution shall not exceed the gross amount of the principal payment paid by the purchaser on the preneed contract.~~

(6) If a Certificateholder or provider has been assigned a breached contract by the purchaser, owner or beneficiary and is willing to completely fulfill the breached contract, an application for disbursement of funds to the purchaser, owner or beneficiary of a breached contract will not be considered by the Board. In addition, a purchaser, owner or beneficiary of a breached contract that would otherwise form the basis of a claim for restitution who cancels the contract and receives funds from a trustee will not be considered for restitution from the Preneed Funeral Contract Consumer Protection Trust fund.

(7) Notwithstanding the provisions of (5) or (6), direct monetary disbursements of funds from the Preneed Funeral Contract Consumer Protection Trust Fund will be made directly to the purchaser, owner or beneficiary if both of the following conditions exist:

(a) funds up to the amount paid on the breached contract do not exist in trust or one of the alternatives to trust as outlined in 497.417, 497.425 and 497.429, F.S., so long as the purchaser, owner or beneficiary has not received funds from the trustee, and

(b) a Certificateholder or otherwise covered provider that will fulfill the breached contract for the identical services and merchandise is not available.

Direct monetary disbursement of funds from the Preneed Funeral Contract Consumer Protection Trust Fund will also be made to the purchaser, owner or beneficiary if a provider breaches the original contract and the consumer is forced to purchase another contract. In this case, restitution will be made after fulfillment of the secondary contract for up to the amount paid on the original contract purchases less money trusted.

~~(8)(6) Nothing in this rule shall be construed to apply to insurance policies sold to fund preneed contracts or to permit payment of a request for restitution from the Preneed Funeral Contract Consumer Protection Trust Fund where the preneed contract was funded by a life insurance policy prior to July 1, 1996. The Department shall, at all times, retain jurisdiction in determining whether a contract purchased constitutes a preneed contract as defined by Chapter 497 or a prearranged burial plan funded by an insurance policy.~~

THE FULL TEXT OF THE PROPOSED RULES IS:

29F-3.101 Purpose.

(1) The purpose of this rule is to establish a voluntary regional dispute resolution process (RDRP) to reconcile differences on planning, growth management and other issues among local governments, regional agencies and private interests. The process consists of two required components: (a) process initiation (initiation and response letters); and (b) settlement meetings; and four optional components: (a) pre-initiation meeting; (b) situation assessments; (c) mediation; or (d) advisory decision-making.

(2) The RDRP's intent is to provide a flexible process that will: clearly identify and resolve problems as early as possible; utilize the procedures in a low-to-high cost sequence; allow flexibility in the order in which the procedures are used; provide for the appropriate involvement of affected and responsible parties; and provide as much process certainty as possible.

(3) The RDRP may be used to resolve disputes involving extra-jurisdictional impacts arising from: the intergovernmental coordination elements of local comprehensive plans required by s. 163.3177, F.S.; inconsistencies between port master plans and local comprehensive plans; the siting of community residential homes required by s. 419.001(5), F.S.; and any other matters covered by statutes that reference the RDRP.

(4) The RDRP shall not be used to address disputes involving environmental permits or other regulatory matters unless all the parties involved agree to initiate use of the RDRP.

(5) Use of the RDRP shall not alter a jurisdiction's, organization's, group's or individual's right to judicial or administrative determination of any issue if that entity is entitled to such a determination under statutory or common law.

(6) Participation in the RDRP as a named party or in any other capacity does not convey or limit intervenor status or standing in any judicial or administrative proceedings.

(7) The RDRP does not supplant local processes established for resolving intra-jurisdictional disputes and is not intended to be used by parties dissatisfied with the appropriate application of local rules and regulations within their jurisdiction.

#### 29F-3.102 Definitions.

(1) Situation assessment is a procedure of information collection or “fact finding” that may involve review of documents, interviews or an assessment meeting leading to a written or verbal report identifying: the issues in dispute; the stakeholders; information needed before a decision can be made; and a recommendation for appropriate dispute resolution procedures.

(2) Pre-Initiation Meeting is an informal conference with the RPC staff in order to ascertain whether the likely dispute is appropriate for the RDRP.

(3) Facilitation is a procedure in which the facilitator helps the parties design and follow a meeting agenda and assists parties to communicate more effectively throughout the process. The facilitator has no authority to make or recommend a decision.

(4) Mediation is a procedure in which a neutral person assists disputing parties in a negotiation process to explore their interests, develop and evaluate options, and reach a mutually acceptable agreement without prescribing a resolution. A mediator may take more control of the process than a facilitator and usually works in more complex cases where a dispute is more clearly defined.

(5) Advisory decision-making is a procedure aimed at enhancing the effectiveness of negotiations and helping parties more realistically evaluate their negotiation positions. This procedure may include fact-finding, neutral evaluation, or advisory arbitration, or any combination of these in which a neutral party or panel listens to the facts and arguments presented by the parties and renders a non-binding advisory decision.

(6) Jurisdiction is any local or regional public agency, including a special district, authority or school board.

(7) Named party shall be any jurisdiction, public or private organization, group or individual who is named in an initiation letter, including the initiating jurisdiction, or is admitted by the named parties to participate in settlement of a dispute pursuant to 29F-3.003. Being a “named party” in the RDRP does not convey or limit standing if any judicial or administrative proceeding.

(8) Representative is an authorized agent who is given guidance by a named party to represent the named party in an RDRP case. Section 29F-3.003(5) sets forth the designation process.

(9) Initiation letter is a letter from a jurisdiction formally identifying a dispute and asking named parties to engage in this process to resolve the dispute, and, at a minimum, attend the initial settlement meeting. Section 29F-3.010 specifies what must be included in an initiation letter.

(10) Response letter formally notifies the initiator and other named parties that a party is willing to participate in the RDRP and, at a minimum, attend at least one settlement meeting.

(11) Settlement agreements are voluntarily approved by the individual or governing body authorized to bind the named party. RULE TITLE: Compliance and Enforcement of

RULE NO.:

Individual Permits 40E-63.145  
Basin Compliance Appendix 40E-63-3

PURPOSE AND EFFECT: The Everglades Forever Act mandates a 25 percent reduction in the total phosphorus load discharged from the Everglades Agricultural Area (EAA). The District is required to calculate this EAA basin compliance annually. Chapter 40E-63, F.A.C. anticipated that refinements to the EAA Basin phosphorus calculation procedures would be required over time to incorporate changes in the surface water management within the EAA, such as the construction of Stormwater Treatment Areas. The proposed amendments are in order to enable that the total phosphorus load discharged can be accurately measured.

SUMMARY: Add two STA-5 inflow pump stations (G-349B and G-350B) as new discharge points from the Everglades Agricultural Area (EAA), remove ENR inflow pump station G-250 due to the completion of STA-1W, and update the associated phosphorus load calculation procedures.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: No statement of estimated regulatory cost has been prepared.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so within 21 days of this notice.

61G14-11.001 Determination of Openings for ~~Licensed State Pilots or Certificated~~ Deputy Pilots.

(1) The Board shall ~~exercise its continuing duty to, from time to time,~~ determine if there is a need for one or more new ~~a licensed state pilot or pilots in the various ports of the state.~~ The Board shall also, from time to time, determine if there is a need for a certificated deputy pilot or ~~deputy pilots in any of the several~~ various ports of the state. The Board may make

such determination based upon request(s) received ~~receive~~ advice as to openings from licensed state pilots at the port involved, or it may make such determination from information otherwise available to it. Licensed state pilots, at a port, who perceive a need for one or more new deputy pilots at that port, shall submit a written ~~may~~ request that the Board declare, and publish ~~to notice of, one an opening or more openings for either a licensed state pilot or pilots or certificated deputy pilot or deputy pilots to serve that port. Such request shall be acted upon, in writing, for consideration and determination by the Board at a regular or special~~ regularly scheduled meeting of the Board. Such ~~When making a request must contain facts which demonstrate to the Board that the creation of such opening(s) is necessary in order to insure that the supply of pilots at that port will be sufficient to meet the port's demand for piloting services which is anticipated to exist at the time the requested new deputy pilot(s) become(s) (a) licensed pilot(s) to notice an opening for a licensed state pilot or certificated deputy pilot, they shall advise the Board in writing, accompanying the request, of the number of handlings by the most junior deputy with at least 24 months service immediately preceding the request and a general description of the types, tonnage, and drafts of vessels handled by the deputy pilot during the preceding 12 months.~~ In all cases the Board shall make its determinations based on the supply and demand for piloting services and the public's interest in maintaining efficient and safe piloting services.

(2) Deputy pilot examinations are regularly scheduled for March of each year. In order for a port opening to be included in the next regularly scheduled examination, that port's initial request to create one or more openings for certified deputy pilots must be received at the Board office in Tallahassee, Florida, no later than the first business day after September 1, prior to the next regularly scheduled examination date. If a port's request for the declaration of openings for a specific number "or more" deputy pilots has been approved, that port may make a supplemental request for the declaration of a final specific number of openings which number may be more than the specific number appearing before the words "or more" in the initial request. Such supplemental request must contain the supply and demand justification required in paragraph (1) and must be received at the Board office in Tallahassee, Florida not later than ten business days prior to the then scheduled examination for that port. Such supplemental request shall be considered and acted upon by the Board at a regular or special meeting of the Board held at any time prior to the administration of the examination. The specific number of openings declared upon consideration of the supplemental request shall constitute the maximum number of deputy pilots,

for that port, to be appointed from among those who take the scheduled examination and thereupon become "certified" as provided by Section 310.081(2), Florida Statutes. If no such supplemental request is timely filed, the specific number appearing before the words "or more" in the initial request shall constitute the maximum number of deputy pilots, for that port, to be appointed from among those who take the scheduled examination and thereupon become "certified" as provided by Section 310.081(2), Florida Statutes. No new deputy pilot opening, to be filled from the participants in any examination, shall be approved by the Board after 23:59 hours, eastern time, of the day prior to that examination.

(3) Notwithstanding the foregoing, if at any time the Board finds that the supply and demand for piloting services and the public's interest in maintaining efficient and safe piloting services would not be served by a delay until the next regularly scheduled examination in providing for one or more new deputy pilots for any port, the board shall declare one or more openings for deputy pilots for that port and shall make provision for giving notice of and scheduling a special examination for the sole purpose of filling such opening.

~~(4)(2)~~ No change.

~~(5)(3)~~ No change.

~~(4) The Board may declare deputy pilot vacancies and set a special examination date if twenty five percent of the pilots in a port have been incapacitated and the pilots in that port have petitioned for one or more emergency openings.~~

(d) The Agenda shall be considered by the Council at the beginning of each meeting and shall be accepted, or modified and accepted, in accordance with paragraph (c) of this section.

(2) Any person, individual, or organization may request that an item be placed on the Agenda. All requests shall be considered in the following manner:

(a) All requests for placing an item on the Agenda, except those made by the Chairperson, shall be made in writing to the Executive Director stating the following:

1. The subject matter to be considered;
2. The purpose in making the request;
3. The action requested of the Council, if any;
4. The meeting date at which the item would be considered, indicating the reason, if any, for requesting the date.

(b) The item requested shall be placed on the Agenda of the next regularly scheduled meeting, provided that:

  - b. sufficient staff effort and resources are available to properly prepare a report and recommendation on the requested subject, when necessary.

In making these determinations, the Executive Director may confer with the Chairperson. All requests that are not placed on the Agenda shall be brought to the Council's attention by the Executive Director at the next meeting.

(c) Should a Council Member wish to have an item, previously considered and acted upon by the Council, reconsidered, the Council Member may request, at any regular Council meeting, that the item be placed on the next meeting Agenda. The request must receive a majority vote of the Council Members present to agenda the item.

(3) Unless otherwise provided by Chapter 120, Florida Statutes, or provided herein, the most recently published edition of Robert's Rules of Order, as revised, shall rule.

**NOTICE OF DOCUMENT PUBLIC REVIEW PERIOD**

The Stormwater/Nonpoint Source Management Section announces the availability of the draft Revised Florida Nonpoint Source (NPS) Management Program for public review and comment. This document has been prepared by Department staff with input from cooperating agencies and organizations. The document has been prepared to update Florida's NPS Management Program that originally was prepared and submitted to the U.S. Environmental Protection Agency for approval in 1988 pursuant to section 319 of the Federal Clean Water Act. In addition, a provision of the President's Clean Water Action Plan states that: "EPA will advise states that, beginning in FY2000, EPA will award any section 319 monies exceeding the \$100 million authorized level only to those states that have incorporated the nine key elements into an approved Section 319 NPS Management Program."

This draft program document contains:

1. A vision statement, long term goals, and information on how Florida's program incorporates the nine key elements articulated in EPA guidance.

2. A description of existing and proposed watershed management and NPS management programs with individual chapters on Florida's programs to reduce NPS pollution from agriculture, silviculture, urban and construction, on-site wastewater, hydrologic modification (wetlands), and mining activities. It also includes chapters on Florida's ground water programs, monitoring programs, and educational programs.

3. Action plans that describe a series of goals and activities to be conducted during the next five years. It is these activities that will form the basis for future Section 319 grant funded work plans.

A copy of the draft Florida NPS Management Program can be obtained by:

1. Calling Ms. Kristie Delong, (850)921-9472.
2. Email Ms. Kristie Delong: kristie.delong@dep.state.fl.us.
