59E-5.101 Definitions.

The definitions set forth in Section 408.032, F.S., and the following definitions shall apply to this Chapter, and to the Florida Hospital Uniform Reporting System (FHURS) Manual, unless otherwise specified:

(1) "Actual report" is the report of a hospital's actual financial and statistical data as required by the reporting forms contained in the FHURS Manual.

(2) "Adjusted admission" is the sum of acute admissions and intensive care admissions divided by the ratio of inpatient revenues generated from acute, intensive, ambulatory, and ancillary patient services to gross revenues, unless the hospital reports all sub-acute admissions in which case "adjusted admission" is the sum of sub-acute admissions divided by the ratio of total inpatient revenues to gross revenues.

(3) "Audited actual experience", "audited actual data", or "audited financial statements" means data contained within financial statements examined by an independent, Florida-licensed, certified public accountant in accordance with generally accepted auditing standards and including an opinion on the audited financial statements. The hospital shall disclose its significant accounting policies with respect to the classification of inpatient and outpatient gross and net revenues in accordance with "Accounting Principles Board Opinion 22" or its successor(s). In addition to all other pertinent

information, this disclosure should contain the total amounts reported for net inpatient revenue and net outpatient revenue contained in the audited financial statements for the fiscal periods presented.

(4) "Change in hospital ownership" means that a majority of the ownership or the controlling interest of the hospital is transferred or assigned. A change in ownership includes, but is not limited to, the acquisition of the hospital by any person or other legal entity by any means; the leasing of the hospital when the lessee agrees to undertake or provide services at the hospital to the extent that legal liability for operation of the hospital rests with the lessee; conversion of the hospital's type or kind of business organization; the sale, acquisition, assignment or other voluntary or involuntary transfer of a majority of the ownership or the controlling interest of the hospital; merger of the hospital corporation into a new corporation; or consolidation of the hospital corporation with one or more corporations resulting in the creation of a new corporation.

(5) "Charity care patient" means a medically indigent patient whose charges are, in whole or in part, classified as "Charity/Uncompensated Care – Other" who meets the requirements of Account 5960, Chapter III, FHURS Manual and/or "Charity/Uncompensated Care – Hill Burton" who meets the requirements of Account 5950, Chapter III, FHURS Manual.

(6) "Chart of accounts" means the list of accounts, code numbers, definitions, standard units of measure and principles and concepts included in the FHURS Manual.

(7) "Day of admission" means the day on which a person is admitted to a hospital or sub-acute facility for bed occupancy for purposes of receiving inpatient hospital or sub-acute services and counts as one inpatient day. If admission and discharge or death occur the same day, the day is considered a day of admission and counts as one inpatient day.

(8) "Executive staff members" means the Secretary, Executive Director and such other staff members as designated by the Secretary, Executive Director.

(9) "FHURS Manual" means the Florida Hospital Uniform Reporting System Manual as adopted by the Agency Board and incorporated by reference in Rule 59E-5.102.

Whenever a patient occupies a bed in more than one patient care area in one day, the inpatient day should be counted only in the patient care area in which the patient was located at the census-taking hour. The day of admission will be counted as a full day; however, the day of discharge is not counted. A full day must

be counted when a patient is admitted as an inpatient with the expectation of the patient remaining overnight and occupying a bed, but is discharged on the same day.

(21) "Prior year report" means, collectively, the actual report and the corresponding financial statements with an audit report of an independent Florida-licensed certified public accountant for the same reporting period and including an opinion on the audited financial statements.

Uniform Waterway Markers in Florida Waters	68D-23
RULE TITLES:	RULE NOS.:
Placement of Regulatory Markers in Waters of the State	68D-23.003
Intent	68D-23.101
Scope	68D-23.102
Definitions	68D-23.103
Placement of Markers	68D-23.104
Criteria for Approval	68D-23.105
Permit Conditions	68D-23.106
Federal System Adopted	68D-23.107

Additional Specifications for Information and Regulatory Markers	68D-23.109
Inspection and Certification	68D-23.110
Enforcement	68D-23.111
Exemptions	68D-23.112

**PURPOSE AND EFFECT:** This rulemaking action clarifies the procedures and sets forth the policies regarding the placement of markers in, on, and over Florida's waters and the shores thereof. It will provide for uniformity in design, construction and coloring of markers so that all vessel operators may more readily recognize, identify and distinguish between authorized markers and unlawfully placed markers. It will also provide a means by which the FWC Division of Law Enforcement and its officers and all other law enforcement officers charged with the enforcement of this chapter may determine with reasonable certainty which boating restricted areas are lawfully established and marked. This rule provides a grace period until December 31, 2003, during which time all markers must be brought into conformity with the provisions of chapter 327, Florida Statutes, this chapter, and Part 62 of Title 33 of the Code of Federal Regulations which is adopted by reference. The rule provides for the removal of all

nonconforming markers after that date. Finally, the rule adopts by reference the United States Coast Guard's administration and technical manuals for implementing the United States Aids to Navigation System. The effect of this action will be a the implementation of a truly uniform system of waterway marking, a simplification in the application process, and a reduction in the time and effort needed to secure appropriate permits to place markers.

**SUMMARY:** This rule repeals section 68D-23.003 and reenacts the substance of its provisions as section 68D-23.103. The rule provides additional definitions for specific types of markers and for terms used in applications for permits to place markers.

This rule provides for uniformity in design and construction of markers and provides a means by which law enforcement officers may identify lawfully placed markers. It adopts by reference federal requirements and specification concerning waterway markers and provides a grace period during which time all markers must be brought into conformity. This rule also provides for the removal of all nonconforming markers after that grace period.

This rule formally establishes the policies, criteria, and procedures for the application for permits to place waterway markers, particularly regulatory markers. It formally exempts private aids to navigation established in concurrent state/federal waters from further permitting if they have received a Coast Guard permit.

**SPECIFIC AUTHORITY:** 327.40, 327.41 FS.

**LAW IMPLEMENTED:** 327.22, 327.40, 327.41, 327.46, 327.60, 370.12 FS.

**SUMMARY OF THE STATEMENT OF ESTIMATED REGULATORY COST:** The Commission believes that the adoption of this rule will have minimal, if any, economic impact. Much of what the rule does is clarify and codify existing procedures. By clarifying these procedures, thus reducing confusion, miscommunications, and the resultant requests for additional information or guidance, this rule will provide a nonquantifiable savings to this agency and to applicants for permits. This rule does not impose a permit application fee.

The requirement imposed by this rule on persons placing markers to inspect the markers every three years so as to insure that the markers are properly maintained and in serviceable condition is identical to the federal inspection requirement for Class-II aids to navigation, "markers located in waters used by general navigation." Moreover, the economic impact of this requirement is negligible when compared to the hazard posed by unserviceable or improperly maintained markers.

There is no expected impact on competition or the open market for employment. Small businesses will not be affected. This estimate is based on the experiences of this agency and its predecessor agencies, the Departments of Natural Resources and Environmental Protection, in administering this program.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE TIME, DATE AND PLACE SHOWN BELOW (IF NOT REQUESTED, THIS HEARING WILL NOT BE HELD):

68D-23.101 Intent.

(1) It is the intent of this chapter:

(a) To provide for uniformity in design, construction and coloring of markers so that all vessel operators may readily recognize, identify and distinguish between authorized markers and unlawfully placed markers;

(b) To provide a means by which the Division and its officers and all other law enforcement officers charged with the enforcement of this chapter may determine with reasonable certainty which boating restricted areas are lawfully established and marked;

(c) To provide a grace period until December 31, 2003, during which time all markers shall be brought into conformity with the provisions of chapter 327, Florida Statutes, this chapter, and Part 62 of Title 33 of the Code of Federal Regulations, and to provide for the removal of all nonconforming markers after that date; and,

(d) To insure that regulatory markers noticing boating restricted areas created pursuant to sections 327.22, 327.60 and 370.12, Florida Statutes, are authorized only for the purposes of protecting human life and limb, vessel traffic safety and maritime property, and manatees.

(2) It is further the intent of this chapter that no boating restricted area be established, continued in effect, or enforced for the purpose of noise abatement or for the protection of shoreline, shore-based structures, or upland property from vessel wake or shoreline wash. As provided in section 327.33(2), Florida Statutes, "vessel wake and shoreline wash

resulting from the reasonable and prudent operation of a vessel shall, absent negligence, not constitute damage or endangerment to property." The wake resulting from the reasonable and prudent operation of a vessel is a force which should be anticipated by the owners of property adjacent to the navigable waters of this state.

(3) The Division will not issue any permit authorizing the placement of regulatory markers for:

(a) Ordinances that apply within the Florida Intracoastal Waterway, in violation of section 327.60(2), Florida Statutes;

(b) Ordinances adopted pursuant to section 370.12(2)(o), Florida Statutes, until such ordinances have been reviewed and approved by the commission, and provided that such ordinances do not apply within the marked navigation channel of the Florida Intracoastal Waterway nor to the waters within 100 feet of said channel;

(c) Ordinances that discriminate against personal watercraft, in violation of section 327.60(1), Florida Statutes;

(d) Ordinances regulating the anchoring of non-live-aboard vessels in navigation, in violation of section 327.60(2), Florida Statutes.

(4) Where conflicting speed or operational restrictions are established by law or pursuant to law, the more restrictive shall be posted and shall apply.

(5) Regulatory markers placed pursuant to a permit issued as provided herein shall be prima facie evidence of the boundaries of boating restricted areas and the speed or operational restrictions imposed therein.

Specific Authority 327.40, 327.41 FS. Law Implemented 327.40, 327.41 FS. History--New \_\_\_\_\_.

68D-23.102 Scope.

The provisions of this chapter prescribe the procedures by which the Division permits and regulates the placement of markers in, on, and over the waters of this state and the shores thereof. This chapter also provides for the design, construction, characteristics and coloring of all markers placed in, on, and over the waters of this state and the shores thereof by adopting by reference the United States Aids to Navigation System, Part 62 of Title 33 of the Code of Federal Regulations.

(2) When used on markers, the terms:

(a) "Idle Speed No Wake" and "Idle Speed" may be used interchangeably and mean that a vessel must proceed at a speed no greater than that which will maintain steerageway and headway. At no time is any vessel required to proceed so slowly that the operator is unable to maintain control over the vessel or any other vessel or object that it has under tow.

(b) "Slow Speed" and "Slow Speed Minimum Wake" may be used interchangeably and mean that a vessel must be fully off plane and completely settled into the water. The vessel must then proceed at a speed which is reasonable and prudent under the prevailing circumstances so as to avoid the creation of an excessive wake or other hazardous condition which endangers or is likely to endanger other vessels or other persons using the waterway. A vessel that is:

1. Operating on plane is not proceeding at this speed;

2. In the process of coming off plane and settling into the water or coming up onto plane is not proceeding at this speed;

3. Operating at a speed that creates a wake which unreasonably or unnecessarily endangers other vessels or other persons using the waterway, or is likely to do so, is not proceeding at this speed;

4. Completely off plane and which has fully settled into the water and is proceeding at a reasonable and prudent speed with little or no wake is proceeding at this speed.

"Slow Speed" and "Slow Speed Minimum Wake" are the preferred terms. "Slow Down Minimum Wake" markers may continue to be used for restricted areas authorized prior to January 1, 2001, except when such a restricted area is contiguous to an Idle Speed No Wake boating restricted area.

(c) "Caution zone" means an area presenting a significant risk of navigational hazard, an area frequently inhabited by manatees on a somewhat regular basis, or other area similarly requiring that vessels be operated with particular alertness and caution so as to avoid endangering life, limb, vessel traffic safety or maritime property, or manatees.

(d) "Vessel exclusion zone" means an area from which all vessels or certain classes of vessels are excluded. Examples include:

1. "No Vessels" or "Swim Area" – All vessels of any type are prohibited from entering the marked area.

2. "No Motorized Vessels" or "No Motorboats" or "Motorboats Prohibited" – All vessels equipped with any mechanical means of propulsion are prohibited from entering the marked area, even if the mechanical means of propulsion is not in use.

3. "No Power-driven Vessels" – All vessels equipped with any mechanical means of propulsion are prohibited from entering the marked area unless the mechanical means of propulsion is not in use and, if possible to do so, is tilted or raised out of the water.

4. "No Internal Combustion Motors" – All vessels equipped with internal combustion motors (e.g.: gasoline or diesel motors) for propulsion are prohibited from entering the marked area, even if the motor is not in use.

5. "Manually Propelled Vessels Only" – All vessels other than those propelled by oars, paddles, or poles are prohibited from entering the marked area. Vessels equipped with mechanical means of propulsion may enter the marked area only if the mechanical means of propulsion is not in use and, if possible to do so, is tilted or raised out of the water.

6. "No Entry Area" – All vessels and all persons, either in vessels or swimming, diving, or wading, are prohibited from entering the marked area.

(e) "Miles per hour" and "MPH" mean speed made good over the bottom measured in statute miles. A specific number will be posted in conjunction with "miles per hour" or "MPH" and is the maximum speed at which a vessel may lawfully be operated within the marked area. Although it is the intention of the Commission to allow those vessels capable of attaining a planing configuration at posted numerical speed limit to do so, this posted speed limit shall not be construed as permitting the reckless or careless operation of a vessel, in violation of section 327.33, Florida Statutes, or authorizing any vessel to travel at an unsafe speed, in violation of navigation rule 6 as adopted pursuant to Section 327.33, Florida Statutes, by reason of:

1. Having an elevated bow which restricts visibility, or

2. Producing an excessive wake or other hazardous condition which endangers or is likely to endanger other vessels, other persons using the waterway, or natural resources of the state.

(f) "Wake" means all changes in the vertical height of the water's surface caused by the passage of a vessel including, but not limited to, a vessel's bow wave, stern wake, and propeller wash.

(g) "Holiday" means:

1. New Year's Day.

2. Birthday of Martin Luther King, Jr., the third Monday in January.

3. Memorial Day.

4. Independence Day, the Fourth of July.

5. Labor Day.

6. Columbus Day.

7. Veterans' Day, November 11.

8. Thanksgiving Day.

9. Friday after Thanksgiving.

10. Christmas Day.

11. If any of these holidays falls on Saturday, the preceding Friday shall be observed as a holiday. If any of these holidays falls on Sunday, the following Monday shall be observed as a holiday.

(3) The division may authorize the use of other terminology on regulatory markers if the message is clear, unambiguous, and accurately describes a lawfully imposed restriction.

2. A copy of an ordinance adopted pursuant to section 327.60, Florida Statutes, which imposes the restriction for reasons of vessel traffic safety or public safety; or

3. A copy of an ordinance adopted by a county or municipality and approved by the commission pursuant to paragraph 370.12(2)(o), Florida Statutes, which imposes the restriction for reasons of manatee protection; or

4. A copy of the statute, special act, rule, regulation, order, or other instrument which imposes the restriction for reasons other than public safety or manatee protection, and a statement of the specific authority under which the restriction is imposed.

(3) Upon receipt of all statements and other documents specified above, the division will:

(a) Determine whether or not there exists a conflict with the provisions of chapter 327, Florida Statutes, or any amendments thereto or regulations thereunder, for ordinances adopted pursuant to section 327.60, Florida Statutes.

(b) Forward the request to the Office of Protected Species Management for review and approval pursuant to paragraph 370.12(2)(o), Florida Statutes, for ordinances adopted thereunder.

(c) For regulatory markers, determine whether or not the markers as proposed would clearly mark the area as a boating restricted area and adequately notice mariners of the restrictions imposed on vessel speed or operation.

(d) Determine whether or not the placement of the proposed markers in the proposed locations would create an unreasonable hazard to navigation.

(e) Determine whether the proposed markers conform to the United States Aids to Navigation System.

(4) The division may consult, coordinate, or cooperate with any other governmental entity having concurrent jurisdiction over the waters for which the permit is requested.

#### 68D-23.105 Criteria for Approval of Regulatory Markers.

(1) The division shall find a valid vessel traffic safety or public safety purpose is presented for ordinances adopted pursuant to section 327.60, Florida Statutes, under the following facts and circumstances:

(a) For an Idle Speed – No Wake boating restricted area, if the area is:

1. Within 500 feet of any boat ramp, hoist, marine railway, or other launching facility available for use by the general boating public.

2. Within 500 feet of the fuel pumps or dispensers at any licensed terminal facility which sells motor fuel to the general boating public.

3. Inside or within 300 feet of any lock structure.

4. An area where boating accident reports, uniform boating citations, vessel traffic studies, or other creditable data demonstrate a high risk of collision or where any significant vessel wake would be likely to endanger life, limb, vessel traffic safety or maritime property.

(b) For a Slow Speed Minimum Wake boating restricted area if the area is:

1. Within 300 feet of any bridge fender system.

2. Within 300 feet of any bridge span presenting a vertical clearance of less than 25 feet or a horizontal clearance of less than 100 feet.

3. Within 300 feet of a confluence of water bodies presenting a blind corner, a bend in a narrow channel or fairway, or such other area where an intervening obstruction to visibility may obscure other vessels or other users of the waterway.

4. Subject to unsafe levels of vessel traffic congestion.

5. Subject to hazardous water levels or currents, or containing other navigational hazards.

6. An area that accident reports, uniform boating citations, vessel traffic studies, or other creditable data demonstrate to present a significant risk of collision or a significant threat to public safety.

(c) For a numerical speed limit boating restricted area if the area is:

1. Subject to comparatively high levels of vessel traffic.

2. Subject to hazardous water levels or currents or containing other navigational hazards.

3. An area that accident reports, uniform boating citations, vessel traffic studies, or other creditable data demonstrate to present a risk of collision or a risk to public safety.

4. An area within which a proposed numerical speed limit is less restrictive than the speed limit in place for the surrounding area if hazardous tides or currents require that vessels operate faster than the surrounding speed limit in order to properly maintain maneuvering ability and headway or if the geographic configuration of the area and levels of vessel traffic density indicate that higher speeds do not pose a threat to life, limb, property, or manatees. Any dispute concerning the threat to manatees shall be resolved as provided in paragraph 370.12(2)(o), Florida Statutes.

(d) For vessel exclusion zones if the area is:

1. Designated as a public bathing beach or swim area.

2. Reserved exclusively as a canoe trail or otherwise limited to vessels under oars or under sail.

3. Reserved exclusively for a particular activity and user group separation must be imposed to protect the safety of those participating in such activity.

(e) For other boating restricted areas (caution zone, no skiing, no parasailing, one-way vessel traffic, etc.) if the area is one that accident reports, uniform boating citations, vessel traffic studies, or other creditable data demonstrate to present a risk to vessel traffic safety or public safety.

(2) The division shall find a valid manatee safety purpose is presented for ordinances adopted pursuant to paragraph 327.12(2)(o), Florida Statutes, upon the determination by the commission that manatees are frequently sighted and can be generally assumed to inhabit the area periodically or continuously and that the restrictions imposed are justified and necessary for the protection of manatees or their habitat. Any dispute concerning the threat to manatees or their habitat shall be resolved as provided in paragraph 370.12(2)(o), Florida Statutes.

(c) Upon completion of the installation of markers, the applicant must notify the division in writing within 10 working days. If the latitude and longitude of each marker, as installed, is different from that listed in the application, this notification must include the correct latitude and longitude in degrees, minutes, and seconds.

(d) All markers must be maintained in proper condition at all times. A discrepancy exists whenever a marker is not exactly as described in the approved application or is destroyed, damaged, moved, or is otherwise unserviceable or not watching properly. The applicant must correct any discrepancy within not more than 30 days and must notify the division when the correction is accomplished.

(i) By accepting any permit and placing the markers authorized therein, the applicant, to the extent authorized by law, agrees and promises to hold harmless the State of Florida and its agencies, employees, agents, or successors from fault

with respect to any claim or claims arising from alleged negligence in the placement, maintenance, operation and removal of any and all markers placed by applicant pursuant to the permit. The applicant further agrees to indemnify the State of Florida for any and all legal fees and costs incurred in defense of any suit brought against the State as a result of alleged negligence by applicant in the placement, maintenance, operation or removal of the markers.

(j) Applicants for permits to place regulatory markers must provide for the enforcement of operating restrictions noticed by said markers. Officers of the division will appropriately enforce restrictions if an officer is present, observes a violation, and is not otherwise occupied with the execution of other duties. The commission will not, however, assume primary responsibility for the enforcement of these restrictions.

**DEPARTMENT OF ENVIRONMENTAL PROTECTION**

**NOTICE OF INTENT TO ISSUE PROPOSED  
MODIFICATION OF POWER PLANT CERTIFICATION**

The Florida Department of Environmental Protection (Department) hereby provides notice of an intent to modify Power Plant Certification Conditions issued pursuant to the Florida Electrical Power Plant Siting Act, § 403.501, et seq., Florida Statutes. A Proposed Final Order has been prepared in accordance with Rule 62-17.211(4) concerning:

Indiantown Cogeneration Facility  
Request for Modification of Conditions of Certification  
PA 90-31D  
OGC Case No. 00-2146  
Martin County, Florida

Pursuant to section 403.516, Florida Statutes and rule Section 62-17.211(4), Florida Administrative Code, the Department proposes to modify and clarify the conditions of certification. The conditions of certification currently provide that the South Florida Water Management District (SFWMD) must authorize certain withdrawals of ground or surface water. The proposed modifications more clearly describe the SFWMD's authority to approve withdrawals by the Indiantown Cogeneration Facility. The proposed modifications also change the approved elevation for one of the ponds at the Facility.

A copy of the proposed modification order is available from: Hamilton S. Oven, P. E., Administrator, Siting Coordination Office, Department of Environmental Protection, 2600 Blair Stone Road, M.S. #48, Tallahassee, Florida 32399-2400, (850)487-0472.

**POINT OF ENTRY**

Pursuant to § 403.516, F.S. and Rule 62-17.211(5), FAC., all parties to the certification proceeding have 45 days from the issuance of this notice by mail to such party's last address of record in which to object to the requested modification. Failure of any of the parties to file a response will constitute a waiver of objection to the requested modification.

Any person who is not already a party to the certification proceeding and whose substantial interest is affected by the requested modification has 30 days from the date of publication of the public notice to object in writing. The written objection must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, MS #35, Tallahassee, Florida 32399-3000.

If no objections are received, then a Final Order approving the modification shall be issued by the Department. If objections are raised and agreement cannot be subsequently reached, then pursuant to § 403.516(1)(c), F.S., the applicant may file a petition for modification seeking approval for those portions of the request for modification to which written objections were timely filed.

Mediation is not available in this proceeding.
