(The following represents proposed changes to sections 1.8, 3.9, 3.9.1, and 3.9.2 of the document entitled "Basis of Review for Water Use Permit Applications within the South Florida Water Management District – October 1997", incorporated by reference in Rule 40E-2.091, F.A.C.)

1.8 Definitions

"Allocation Coefficient:" through "Xeriscape" No change. The definitions set forth in Chapter 40E-8, FAC. shall be incorporated into the Basis of Review.

Sections 3.0 through 3.8 No change.

3.9 Minimum Flows and Levels

Applications for consumptive use permits for water uses that directly or indirectly affect water bodies with established minimum flows and levels (MFLs) must meet the criteria in

this section. Applications that meet the criteria contained in this section shall be considered to be consistent with Rule 40E-2.301(1)(j), F.A.C.

3.9.1. Evaluations for MFL Water Bodies Below an Established MFL

Evaluations for water bodies that are below an established MFL in Chapter 40E-8, F.A.C., and subject to a recovery strategy:

(1) Permit Renewals: The impacts of withdrawals occurring at the time the applicable recovery plan was approved and will be corrected by such recovery plan, may be continued through renewal of the permit as required by this section, assuming all other conditions for permit issuance in Chapter 40E-2, as applicable, are met. An application for renewal of a water use permit that impacts an established MFL water body must demonstrate that:

(A) the impacts associated with the previous permit were considered in and will be corrected through implementation of the approved recovery plan; and

(B) the level of impacts which were approved in the previous permit are no greater under the requested renewal.

If the level of certainty under the previous permit is changed to a 1 in 10 level of certainty by rule (e.g. a golf course irrigation level of certainty changed from a 1 in 5 to a 1 in 10) the levels of impact under the previous permit shall be normalized to a 1 in 10 drought level of certainty in order to evaluate the impact.

(2) Requests for new withdrawals or increased withdrawals that directly affect a MFL water body below the established MFL will be approved, assuming that the other conditions for permit issuance in Chapter 40E-2, are met, as applicable, if:

(A) Sufficient additional water has been made available for consumptive use via the completion of a component(s) of the phased recovery strategy, as certified under Chapter 40E-8, F.A.C. Water made available from a completed phase of the recovery strategy for new or increased uses will be allocated based on the criteria in the Basis of Review and Chapter 40E-2;

(B) The proposed use incorporates a District approved alternative measure that prevents additional impacts to the MFL water body. The permit shall be conditioned to require the District approved alternative to be operating concurrently with the proposed use; or,

(C) The proposed use has a de minimis impact on the MFL water body. A de minimis impact for groundwater withdrawals is defined as 0.1 foot of drawdown or less, at any location beneath the MFL water body, during a 1 in 10 year drought condition, with the maximum month allocation being withdrawn. A de minimis impact for surface water withdrawals from an MFL water body is defined as that volume of water which does not produce a measurable change in hydropattern of the MFL water body under any hydrologic condition up to a 1 in 10 drought (average conditions as well as drought conditions).

If an existing consumptive use permit with a direct impact on a MFL water body is cancelled by the permittee, the impact associated with the former permit may be reallocated to another user through the issuance of a permit modification or an initial permit to the extent that the proposed use does not increase the impact to the MFL water body as provided above.

(3) Requests for permit modifications or new allocations that indirectly affect a MFL water body below the established MFL will be approved, upon demonstration that:

(A) The other conditions for permit issuance in Chapters 40E-2 and Chapter 40E-20, are met; and

(B) The proposed use is consistent with the approved recovery and prevention strategy existing at the time the application is deemed complete. This shall be demonstrated by verifying that the requested withdrawals do not cause the total amount of regional water available for consumptive use permits as identified in the regional water supply plans to be exceeded.

3.9.2. Evaluations for MFL Water Bodies Above Established MFL

Requests for renewals, permit modifications or new allocations, will be approved based on the applicant's demonstration that:

(A) All other conditions for permit issuance in Chapter 40E-2 or 40E-20, as applicable, are met; and

(B) The requested use is consistent with the approved prevention strategy existing at the time the permit application is deemed complete. This shall be demonstrated by verifying that the requested withdrawals do not cause the total amount of regional water available for consumptive use permits as identified in the regional water supply plans to be exceeded.

THE FULL TEXT OF THE PROPOSED RULE IS:

19-10.001 Asset Transfer Procedures: Initial Transfers Occurring Between 7/1/02 and 3/31/03.

(1) Purpose. The primary purpose of this rule is to implement subsection (3)(c)4. of Section 121.4501, Florida Statutes, regarding procedures for transferring assets from the current defined benefit plan of the Florida Retirement System to the new defined contribution program, called the Public Employee Optional Retirement Program. However, since the implementation procedures will necessarily involve several other entities, the roles and responsibilities of those entities will be part of this rule.

(2) Definitions.

(a) "ABO" means the present value of the member's accumulated benefit obligation in the defined benefit program of the Florida Retirement System to which the member would be entitled if the member retired from the current defined benefit plan. This present value shall be calculated in accordance with the formula set out in Section 121.4501(3)(c)2., Florida Statutes. This amount will be shown on Form SBA-PEORP election, rev. 3/2001, (the enrollment form), and will be called the "current value of my FRS benefit."

(b) "Division" means the Division of Retirement within the Department of Management Services.

(c) "Effective date of enrollment in PEORP" means the date on which the employee is entitled to receive employer contributions for his PEORP account or accounts in accordance with Section 121.571(2), Florida Statutes.

(d) "Effective enrollment in PEORP" means that the employee has completed the enrollment form; that the completed enrollment form has been received by the employee's employer; that the employer has forwarded the completed enrollment form to the TPA; that the TPA has entered the employee into its recordkeeping system; and that the TPA has informed the division of the employee's effective enrollment in PEORP.

(e) "Employee" means an eligible employee as defined in Section 121.4501(2)(d), Florida Statutes.

(f) "Employer" means an employer as defined in Section 121.4501(2)(e), Florida Statutes. For purposes of the PEORP, there are three general categories of employers: state agencies; school districts; and local employers.

(g) "Florida Retirement System Trust Fund" or "FRSTF" shall mean the trust fund holding the assets of the defined benefit plan of the Florida Retirement System.

(h) "Participant" means an employee who elects to join the PEORP after the effective dates in Section 121.4501(4), Florida Statutes.

(i) "Public Employee Optional Retirement Program" or "PEORP" means the new defined contribution retirement program of the Florida Retirement System established by Section 121.4501, Florida Statutes.

(j) "SBA" means the State Board of Administration.

(k) "TPA" means the third-party administrator hired by the SBA, pursuant to Section 121.4501(8)(b)1., Florida Statutes, to provide administrative services to the PEORP.

(3) Election by Current Employees to Transfer to PEORP from the Defined Benefit Plan of the Florida Retirement System.

(a) Beginning on the dates specified in paragraph (e), below, the employee shall complete an enrollment form, Form SBA/PEORP-election, rev. 3/2001, which is hereby adopted and incorporated by reference. The enrollment form shall be complete if all the required information is clearly indicated. Specifically, the form shall include a statement that the employee elects to remain in the defined benefit program, elects to transfer to the PEORP with a transfer of his or her ABO, or elects to transfer to the PEORP without a transfer of his or her ABO which shall then remain in the defined benefit plan. It shall be the employer's obligation to ensure that the form in toto is complete and more particularly that the election is clearly indicated. If the employer determines that the form is incomplete, the form shall be returned to the employee and resubmitted when the form is complete. Once the employer has determined that the form is complete, it shall be distributed as follows:

1. One copy of the completed form is retained by the employee.

2. One copy of the completed form is retained by the employer.

3. One copy of the completed form is forwarded by the employer to the TPA, if the employee elects to transfer into the PEORP.

(b) Upon receipt of the form by the TPA, the TPA enrolls the employee in the PEORP. Upon completion of the enrollment, but no later than 3 business days after enrollment, the TPA sends confirmation of the effective enrollment to the employee at the employee's home address and to the employee's employer. The employer corrects its employee

records to reflect that the contribution rates effective 7/1/02, in accordance with Section 121.571(2), Florida Statutes, are applicable to those of its employees who have elected to transfer to PEORP.

(c) Confirmation is sent by the TPA to the division because the division must be informed that the employee is no longer in the defined benefit plan. Since employers pay retirement contributions monthly for their employees and those contributions are due to the division by the 5th business day of the month following the month for which the contributions are made, the division must be informed that employers will no longer be making contributions to the defined benefit retirement program but will instead be making contributions to the PEORP.

(d) Although Section 121.4501(4), Florida Statutes, provides for a 90-day period during which public employees can make an election to transfer to PEORP, once an employee has made an election to transfer to PEORP or remain in the defined benefit plan, that election is irrevocable, even though the 90-day period may not have expired. Section 121.4501(4)(e), Florida Statutes, provides one additional opportunity for an employee to change his or her mind after the employee's 90-day election period.

(e) Reading Section 121.4501(4)(a)1.a. and Section 121.571(2), Florida Statutes, *in pari materia*, the effective date of enrollment for a state employee electing to transfer to PEORP in June, 2002, is July 1, 2002. The effective dates of enrollment for state, district school board, and local employees are:

1. State employees:

<u>election date</u>	<u>effective date</u>
<u>6/1-6/30/2002</u>	<u>7/1/2002</u>
<u>7/1-7/31/2002</u>	<u>8/1/2002</u>
<u>8/1-8/31/2002</u>	<u>9/1/2002</u>

2. District school board employees:

<u>election date</u>	<u>effective date</u>
<u>9/1-9/30/2002</u>	<u>10/1/2002</u>
<u>10/1-10/31/2002</u>	<u>11/1/2002</u>
<u>11/1-12/2/2002</u>	<u>12/1/2002</u>

3. Local employees:

<u>election date</u>	<u>effective date</u>
<u>12/1-12/31/2002</u>	<u>1/1/2003</u>
<u>1/1-1/31/2003</u>	<u>2/1/2003</u>
<u>2/1-3/3/2003</u>	<u>3/1/2003</u>

4. To effect enrollment for each subsequent month, the employer shall submit to the TPA completed enrollment election forms for employees electing PEORP during the month no later than the last day of the prior month. For district school board employers and for local employers, the election dates extend, in two instances as reflected in subparagraphs 1 through 3 immediately above, beyond the final employee

effective enrollment date. For those two instances, those employers are required to submit the election form within 24 hours of the end of the election period.

(4) Initial Asset Transfer Procedures upon Receipt of Election Confirmation.

(a) Initially, the division will have calculated the ABOs of all current employees and will have provided that information to the TPA in advance of the election period. The ABOs of state employees will have been calculated as of midnight on 5/31/2002. The ABOs of district school board employees will have been calculated as of midnight on 8/31/2002. The ABOs of local employees will have been calculated as of midnight on 11/30/2002. Section 121.4501(3)(c)4., Florida Statutes, requires the asset transfer to be completed within 30 days of the employee's effective date in PEORP. Therefore, for state employees whose effective date is 7/1/2002, the transfer will be complete by 7/31/2002. Transfer deadlines for other state employees and for other public employees are described in paragraph (c), below.

(b) For each month during the election period, the TPA will determine the aggregate dollar amount of the ABO for those employees electing to participate in the PEORP and provide that information to the SBA, categorized by the investment fund chosen by participants. This information shall be provided to the SBA within four business days of each month-end during the election period.

(c) The transfer deadlines for public employees are as follows:

1. State employee

<u>effective date</u>	<u>transfer deadline</u>
<u>7/1/2002</u>	<u>7/31/2002</u>
<u>8/1/2002</u>	<u>8/31/2002</u>
<u>9/1/2002</u>	<u>10/1/2002</u>

2. District School Board employee

<u>effective date</u>	<u>transfer deadline</u>
<u>10/1/2002</u>	<u>10/31/2002</u>
<u>11/1/2002</u>	<u>12/1/2002</u>
<u>12/1/2002</u>	<u>12/31/2002</u>

3. Local employee

<u>effective date</u>	<u>transfer deadline</u>
<u>1/1/2003</u>	<u>1/31/2003</u>
<u>2/1/2003</u>	<u>3/3/2003</u>
<u>3/1/2003</u>	<u>3/31/2003</u>

(5) Costs associated with the liquidation or transfer of assets from the FRSTF to the PEORP will be deducted from the FRSTF. The FRSTF will not be responsible for any transaction costs associated with the purchase of PEORP assets. Those costs will be deducted from PEORP accounts or otherwise charged to PEORP participants.

(6) The total amount credited to each PEORP participant's account who chooses to move his or her ABO out of the defined benefit plan shall equal the estimate of the participant's

ABO as calculated by the division. Pursuant to Section 121.4501(3)(c)3., the division shall recompute the ABO not later than 60 days after the actual transfer of funds and, if the recomputed amount differs from the transferred ABO amount by \$10 or more, the division shall cause a readjustment of the transfer of assets between PEORP account(s) of the affected participant(s) and the FRSTF in accordance with that statutory section.

(7)(a) The amount transferred to each investment product shall be based on the percentage of total investment allocated to each fund by the participant on his or her enrollment election form as adopted and incorporated by reference in this rule, in subsection (3)(a), above. 33-602.210 Use of Force.

(1) No change.

(2) Physical force shall be employed only as a last resort when it reasonably appears that other alternatives are not feasible to control the situation and will not be used solely in response to verbal abuse that does not rise to a level of a disturbance. When the use of force is justified, only that amount and type of force that reasonably appears necessary to accomplish the authorized objective shall be used. All authorized use of force incidents will be videotaped in their entirety, except that videotaping the administration of chemical agents is not required for use on an inmate creating a disturbance in his or her cell, when the officer is attempting to resolve the situation without extracting the inmate from the cell. Videotaping will be initiated after the final exposure to chemical agents if cell extraction or other uses of force are necessary. All spontaneous use of force incidents will be videotaped from the point the video camera operator arrives at the scene.

(3) through (4) No change.

(5) Where circumstances permit, the warden or duty warden will be consulted and give her or his permission prior to use of physical force. **LAND AND WATER ADJUDICATORY COMMISSION
Tampa Palms Community Development District**

RULE CHAPTER TITLE: Tampa Palms Community Development District

RULE CHAPTER NO.: 42C-1

RULE TITLE: Boundary

RULE NO.: 42C-1.002

PURPOSE, EFFECT AND SUMMARY: The purpose of this proposed rule amendment is to amend the boundaries of the Tampa Palms Community Development District (“District”), a community development district (CDD) established in 1982 pursuant to Chapter 190, F.S. The petition to amend the boundaries submitted by the Tampa Palms CDD requests that the Florida Land and Water Adjudicatory Commission (the “Commission”) amend Florida Administrative Code Chapter 42C-1 by deleting approximately 785 acres (the contraction parcel) from the existing boundaries. After contraction, the proposed amended District will consist of approximately 3,325 acres. (As filed, the Petition showed the contraction parcel as approximately 1,007 acres and the proposed amended District as approximately 3,103 acres after contraction. The change in acreage from that originally filed occurred during the administrative hearing.) The contraction parcel is generally located on the eastern side of the District in the eastern quadrant of the intersection of County Road 581 and the Tampa Electric Company right-of-way. The contraction parcel is not only located within the boundaries of the Tampa Palms CDD, but is also located within the boundaries of the overlapping Tampa Palms Open Space and Transportation CDD. The purpose of the contraction petition is to remove the contraction parcel from the Tampa Palms CDD so that it will be located only in the Tampa Palms Open Space and Transportation CDD and to provide for more efficient use of resources. There are no out parcels or any portions of the contraction parcel that will be excluded from the Tampa Palms Open Space and Transportation CDD as a result of the contraction. The filing of the contraction petition by the Board of Supervisors of the Tampa Palms CDD constitutes consent of the landowners within the District. Additionally, the District has written consent to amend the District from the owners of 100% of the real property to be deleted from the District.

SUMMARY OF THE ESTIMATE OF ECONOMIC IMPACT: The statement of estimated regulatory costs (SERC) supports the petition to amend the District. The complete text of the SERC is contained as Exhibit H to the petition to amend the boundaries of the District. The scope of the SERC is limited to evaluating the regulatory cost consequences of approving the proposal to amend the District. The requirements for a SERC are found in Section 120.541(2), F.S. A SERC must contain (a) a good faith estimate of the number and types of individuals likely to be required to comply with the rule or who will be affected; (b) a good faith estimate of the costs to any state and local government entities of implementing and enforcing the proposed rule, and any anticipated affect on state and local revenues; (c) a good faith estimate of the transactional costs likely to be incurred by individuals and entities; (d) an analysis of the impact on small businesses, small counties, and small cities; (e) any additional information that the agency determines may be useful; and (f) any good faith written proposal submitted under paragraph (1)(a) and either a statement adopting the alternative or a statement rejecting the alternative in favor of the proposed rule. Addressing section (a), the principal entities that are likely to be required to comply with the rule include current property owners and residents within the Tampa Palms CDD but not in the contraction parcel and current property owners within the contraction parcel. Under section (b), the FLWAC and State of Florida incur minimal one-time administrative costs. Hillsborough County also incurred administrative costs which are offset by fees charged by the County. Adoption of the proposed rule amendment to approve amending the boundaries of the District will not have an adverse impact on State and local revenues. Addressing section (c) regarding current property owners and residents with the Tampa Palms CDD but not in the contraction parcel, approving the contraction petition will eliminate the revenue to the Tampa Palms CDD resulting from the ability to levy an assessment while not incurring the associated expenses which would be incurred if the CDD were to provide the operation and maintenance services which they currently do not provide. Property owners within the contraction parcel will be assessed equitably without any significant negative effect on the remaining property owners in the Tampa Palms CDD. Regarding those property owners currently within the contraction parcel, these property owners are currently being assessed twice for operation and maintenance activities by both CDDs. Approval of the contraction petition will eliminate this double taxation. Under section (d), approval of the petition to amend the District boundaries will eliminate overlapping jurisdictional authority for the contraction parcel and thereby eliminate the negative effect of having to compete in an environment with dual liability to both the Tampa Palms Open Space and Transportation CDD and the Tampa Palms CDD. The City of Tampa and Hillsborough County are not a small city or small county as defined. Under section (e), certain data utilized was

provided by the Tampa Palms Open Space and Transportation CDD, the Tampa Palms CDD, and the land owners of the contraction parcel. Additionally, information from Hillsborough County was review and utilized.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

RULE TITLE: RULE NO.:

Alternate Service Procurement Method (ASPM) 65-28.001

PURPOSE AND EFFECT: The purpose of this rule is to implement the provisions of Section 402.73(3), Florida Statutes (F.S.), to provide procedures for a methodology for the competitive procurement of contracted client services, which represents an alternative to the request-for-proposal or the invitation-to-bid process.

SUMMARY: The alternate service procurement method (ASPM) involves a two-phase process which may be used when continuous open exchange regarding the service requirement and the approach used to meet that requirement is essential or in the best interest of the department. In the first phase offerors may submit Statements of Qualification (SOQs) for assessment by the department. In the second phase, the department will evaluate detailed service proposals from qualified offerors (selected in Phase I) and will conduct negotiations with one or more offerors to determine which service proposal or combination of service proposals best meets the needs of the department.

At the conclusion of negotiations, the department shall request that each qualified offeror submit a Best And Final Offer (BAFO) which takes into consideration all of the information contained in the original Service Proposal Request (SPR) as well as that provided through the negotiations. In those cases where negotiations generated a need for further clarification or restatement of the department's requirement, such clarification shall be clearly stated in the request for BAFO. The department shall review the BAFOs submitted in accordance with the evaluation criteria contained in the SPR. Award, if any, shall be made to the Offeror(s) whose BAFOs present the greatest value to the state.

SPECIFIC AUTHORITY: 402.73(3) FS.

LAW IMPLEMENTED: 402.73(3) FS.

SUMMARY OF THE STATEMENT OF ESTIMATED REGULATORY COST: An estimate of the regulatory cost was not prepared for this rule.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

65-28.001 Alternate Service Procurement Method (ASPM).

(1) Definitions. For the purposes of this rule, the following definitions shall apply:

(a) "Advertisement" means an announcement designed to give notice of a procurement opportunity.

(b) "Alternate Service Procurement Method" or "ASPM" means a method of procurement that allows the department to solicit SOQs from offerors and to assess such statements before requesting service proposals.

(c) "Best And Final Offer" or "BAFO" means the last substantial concession made by a qualified offeror which conveys the message that there is no further room for movement – that the present offer is the final one and the provisions contained therein are the most advantageous provisions that will be offered to the department.

(d) "Call" means a formal published document requesting information about a person's or firm's qualifications including resumes, personnel information, organizational structures or histories, individual or organizational descriptions and financial information from prospective providers of contractual services.

(e) "Department" means the Department of Children and Families.

(f) "Project" means the entire body of contractual services and associated or implied requirements described in any solicitation issued pursuant to this rule.

(g) "Qualified offeror" means a person or firm that is deemed to have described the capability to fully perform the project requirements and has provided evidence that it possesses the integrity and reliability to successfully complete the project.

(h) "Offeror" means any person or firm that timely responds to all applicable provisions of any procurement of contractual services conducted pursuant to this rule.

(i) "Service Proposal Request" or "SPR" means a document requesting information from persons or firms regarding their detailed plans for delivering the services necessary under the project.

(2) The ASPM consists of a two-phase process. In the first phase prospective offerors will be required to submit SOQs to the department as required by the Call issued by the department. In the second phase the department will receive and evaluate detailed service proposals from qualified offerors that have been identified as a result of the Phase I submissions. Following the evaluation of the detailed service proposals, the department will conduct negotiations with one or more qualified offerors to determine which service proposal or combination of service proposals best meets the needs of the state. At any time during the conduct of the ASPM the department may reject any or all SOQs or service proposals, and may modify its statement of services sought, tasks to be performed, or project description to meet the needs of the department. The department may negotiate with more than one prospective offeror at a time, but is under no obligation to do so.

(a) Phase I, Qualification Phase. The department shall prepare a Call for SOQs containing the general description, purpose, and scope of the project(s) and will advertise the department's desire to receive SOQs from prospective offerors. Any potential offerors may submit an SOQ for assessment by the department. The department shall assess the SOQs in accordance with the criteria stated in the Call and applicable laws or administrative rules, and will determine which of the prospective offerors will be invited to submit service proposals.

(b) Phase II, Solicitation and Evaluation Phase. The department will invite the offerors deemed to be the most highly qualified as a result of Phase I to submit detailed service proposals. The invitation will be made through the issuance of a Service Proposal Request (SPR) which describes the required contents of the detailed service proposal, a description of the evaluation and selection process, and the basis for contract award, if any. The department will evaluate all detailed service proposals in accordance with the criteria set forth in the SPR.

(3) Qualification Phase and Procedure.

(a) To start Phase I, the department shall advertise the project(s). The advertisement shall appear in the Florida Administrative Weekly publication or on the Florida Communities Network. The department may advertise the project in newspapers of general circulation, professional journals, or in other publications or in electronic format. The advertisement shall run for a period of no less than 10 days and shall include the project's general description and the name and location from which further information of the solicitation may be obtained;

(b) The Call shall contain the assessment criteria that will be used to determine qualified potential offerors. The assessment criteria will include:

1. The professional qualifications of offerors or offerors' staff, including appropriate licensure and certification.
2. The offeror's professional experience.
3. Business information demonstrating that the offeror is capable of providing the required service or services.

(c) The department shall assess the SOQs submitted in accordance with the criteria set forth in the Call, and shall give notice of the results of its decision by posting at the location at which the SOQs were opened. The department shall prepare a list of the most highly qualified offerors that are selected to participate in Phase II.

(d) The SOQs submitted will remain valid for a period of one hundred and eighty (180) days and the department may issue one or more SPRs against a single Call for SOQs.

(4) Solicitation and Evaluation Phase.

(a) The department will invite those offerors selected to participate in Phase II of a procurement to provide detailed service proposals. The department may limit the firms invited to submit detailed service proposals to only those firms that have demonstrated the highest level of professional capability

to provide the services under consideration. The department may invite no fewer than three firms to submit detailed service proposals, unless fewer than three firms submit satisfactory SOQs. If two firms submit satisfactory SOQs, the department shall review the facts and circumstances in order to determine the reason, if any, that fewer than three satisfactory SOQs were submitted. The department shall document the reason that requesting detailed service proposals from fewer than three firms is in the best interest of the state, and proceed with the issuance of the SPR.

(b) If only one satisfactory SOQ is received, the department shall review the facts and circumstances in order to determine the reason, if any, that only one SOQ was submitted. If the department determines that re-solicitation would *not* be in the best interest of the state, the department shall explain in writing the basis for its determination and the documentation shall be maintained in the department's contract files. Thereafter, the department may proceed directly to negotiations with the offeror who submitted the satisfactory SOQ to determine the best contract terms and conditions.

(c) The invitation for the submission of service proposals will be made through the issuance of a Service Proposal Request (SPR). The SPR shall contain the following:

1. The service requirements;
2. The terms and conditions that will apply to the resultant contract;
3. The instructions for submission of service proposals, including formats and a listing of required contents;
4. A description of the evaluation process;
5. The evaluation criteria, along with their relative importance;
6. The schedule of significant events and deadlines;
7. The methods and timing of allowable communications between the department and entities remaining in the competition; and
8. The date, time, and location for service proposal submission.

(c) The department shall perform an evaluation of each service proposal in accordance with evaluation methodology described in the SPR. At the conclusion of the evaluation, the department may negotiate with one or more offerors sequentially or simultaneously. Negotiations shall be considered open meetings in accordance with s. 286.011, F.S. An award may be made without negotiation based upon the evaluation of the service proposals.

(d) A written record of any negotiations which may be held shall be maintained and shall include the following:

1. A description of the major issues addressed;
2. A summary of the negotiations;
3. Copies of any documentation provided;

(e) In accordance with Chapter 287.057(4), if fewer than two responsive service proposals are received, the department may negotiate on the best terms and conditions that are in the best interest of the state. The department shall document the reasons that such action is in the best interest of the state in lieu of re-solicitation.

(4) The department may terminate negotiations at any time with any or all qualified offerors. When the department determines in writing that it is in the best interest of the state, it shall request that each qualified offeror submit a BAFO which takes into consideration all of the information contained in the original SPR as well as that provided through the negotiations. In those cases where negotiations generated a need for further clarification or restatement of the department's requirement, such clarification shall be clearly stated in the request for the BAFO. The department shall review the BAFOs submitted in accordance with the evaluation criteria contained in the SPR. The award, if any, shall be made to the qualified offeror whose BAFO represents the best value to the state.

(5) When it is in the best interest of the state, the department may award multiple contracts. The contract(s) resulting from this procurement process may cover all or part of the requirement described in the SPR. The department may split the service procurement requirements into smaller components and may award different components to different qualified offerors.
