DEPARTMENT OF CHILDREN AND FAMILY SERVICES

Economic Self Sufficiency Program

RULE TITLE: Food Stamp Assets **RULE NO.:** 65A-1.606

PURPOSE AND EFFECT: This proposed rule would provide for the implementation of the food stamp regulations at 7 U.S.C. s. 2014(g)(20)(d) that provides for the adoption of the Temporary Assistance for Needy Families (TANF) vehicle value rules for determining food stamp eligibility. Currently, state eligibility rules for the food stamp program use the fair market value of certain non-excluded licensed vehicles and the fair market value, of other vehicles. The current food stamp vehicle rules are somewhat punitive to those who are employed as the fair market vehicle valuation is based on the trade in value of the vehicle.

For low-income and welfare transition families that need reliable transportation to obtain and retain a job, the food stamp vehicle resource standard has become inconsistent with the state’s welfare transition objectives. The current food stamp program asset allowance treatment of vehicles can turn a temporary setback into a longer term one when individuals must choose between reliable transportation and needed food assistance. Aligning the food stamp and temporary cash assistance (TCA) vehicle equity valuations should reduce the risk of error through the administration of two different vehicle standards and better serve participants with reliable transportation so that they may obtain and retain employment.

SUBJECT AREA TO BE ADDRESSED: The proposed rule would provide that the TCA vehicle allowance rules as defined in s. 414.075(2)(a), F.S., would apply to determine food stamp eligibility.

SPECIFIC AUTHORITY: 414.45 FS.

LAW IMPLEMENTED: 414.31, 414.075(2)(a) FS.

RULE TITLE: Appraisals, and Appraisal Standards and Policies of State Financial Institutions

Appraisals must be made for the financial institution making the loan and must be dated within one year prior to funding the loan.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No statement of regulatory cost has been prepared.

Any person who wishes to provide information regarding the statement of estimated regulatory cost, or to provide a proposal for a lower cost regulatory alternative must do so in writing with 21 days of this notice.

AGENCY FOR HEALTH CARE ADMINISTRATION

The Florida Agency For Health Care Administration (the Agency), Bureau of Medicaid Program Analysis provides the following public notice regarding reimbursement for nursing home facilities participating in the Florida Medicaid Program.

PURPOSE: To comply with federal public notice requirements in Section 1902(a)(13)(A), of the Social Security Act in changing reimbursement for nursing home facilities, the Agency is publishing the final rates, the methodologies underlying the establishment of such rates, and justifications for the final rates. The Agency is in the process of amending its Title XIX Long-Term Care Reimbursement Plan (The Plan) to incorporate changes to the reimbursement methodology.

FINAL RATES: Effective October 1, 2001, the final rates for Medicaid nursing home reimbursement will be rates resulting from the current methodology used to calculate per diem rates except for the following:

1. For nursing homes participating in a risk-retention group approved by the Department of Insurance, the Agency will advance the capital contribution portion of the total premium assessed against the nursing facility. The total amount to be advanced will be the assessed capital contribution per bed multiplied by the total number of licensed nursing home beds multiplied by the facility's Medicaid utilization rate as computed from the most recent Medicaid cost report on file with the Agency. The amount advanced for the capital contribution shall be repaid to the Agency on a monthly basis over a period of time not to exceed 12 months. Upon a change of ownership (CHOW) or licensed operator, all amounts outstanding shall be immediately payable to the Agency. The capital contribution will be treated as an allowable administrative cost in the nursing facility's Medicaid cost report.

METHODOLOGIES: The methodology underlying the establishment of the final rates for Medicaid nursing facilities will be rates resulting from the current methodology used to calculate reimbursement rates, except that it will include the following changes:

1. For nursing homes participating in a risk-retention group approved by the Department of Insurance, the Agency will advance the capital contribution portion of the total premium assessed against the nursing facility. The total amount to be advanced will be the assessed capital contribution per bed multiplied by the total number of licensed nursing home beds multiplied by the facility's Medicaid utilization rate as computed from the most recent Medicaid cost report on file with the Agency. The amount advanced for the capital contribution shall be repaid to the Agency on a monthly basis over a period of time not to exceed 12 months. Upon a change of ownership (CHOW) or licensed operator, all amounts outstanding shall be immediately payable to the Agency. The capital contribution will be treated as an allowable administrative cost in the nursing facility's Medicaid cost report.

JUSTIFICATION: The justification for the final rate change is provided in Section 49 of Senate Bill 1202 of the 2001-2002 Legislative Session.

The Agency is proposing the above rates and changes in methodology, effective October 1, 2001. Providers, beneficiaries and their representatives, and other concerned State residents may provide written comment on the final rates, methodologies and justification underlying the establishment of such rates. Written comments may be submitted to: John Owens, Agency for Health Care Administration, 2727 Mahan Drive, Building 3, Mail Stop #21, Tallahassee, Florida 32308.
