PURPOSE AND EFFECT: Rule 40E-4.091(1)(a), F.A.C., incorporates by reference the “Basis of Review for Environmental Resource Permit Applications within the South Florida Water Management District – January, 2001” (ERP BOR). Included as part of the ERP BOR are Appendices 2, 3, and 6. This rulemaking initiative proposes to amend Appendix 6, entitled “Above Ground Impoundments” by revising the reporting requirements and the typical special condition language.

SUBJECT AREA TO BE ADDRESSED: Appendix 6 of the SFWMD’s ERP BOR specifies for the benefit of the regulated community the appropriate criteria applicable to the construction and operation of above ground impoundments associated with surface water management systems. An above ground impoundment is defined in Section 373.403(1), F.S., as a “dam”, which means “any artificial or natural barrier, with appurtenant works, raised to obstruct or impound, or which does obstruct or impound, any of the surface waters of the state.” Specifically, the proposed revisions to Appendix 6 clarify that inspection reports of the conditions of such above ground impoundments must be retained by the permittee and made available to SFWMD staff upon request. Additionally, the typical special condition for all above ground impoundments sets forth with particularity that permittees must inspect on an annual basis the above ground impoundment, control structure, levee and berm for structural integrity and memorialize the inspection via a report signed and sealed by a Florida Professional Engineer. In the event that any deficiencies are found which may impact off-site areas, the report must detail proposed techniques and schedules for repairs, as necessary, and be submitted to SFWMD staff.

SPECIFIC AUTHORITY: 373.044, 373.113, 373.171, 373.413 FS.

LAW IMPLEMENTED: 373.413, 373.4135, 373.416, 373.418, 373.421, 373.426 FS.

RULE TITLE:

RULE NO.:

Administration of Arthropod Lots
and Records in the Florida State
Collection of Arthropods

5B-61.001

PURPOSE AND EFFECT: The purpose of this rule chapter is to describe the archival procedures for the acquisition, accession, inventory, loan, and disposal procedures utilized by the Florida State Collection of Arthropods.

SUMMARY: Arthropod lots which are composed of one or more arthropod specimens may originate from identification responsibilities or by donation. Lots originating from identification may or may not be retained for the museum's permanent collection. Donation related matters are the responsibility of the head curator of the museum. Previous donors are supplied sets of Calculation Form for Donations (DACS-08076) in the first quarter of each year. The completed forms are submitted with each donation. A new set of forms is supplied each time a donation is acknowledged. Decisions on retention of donated lots depend on an assessment of their scientific value and the museum's ability to properly store, protect and the preserve the lot. Lots that are retained through identification are accessioned, assigned a unique number, and their data incorporated into an electronic database. The museum inventories new accessions each year. Arthropod lots may be loaned to knowledgeable taxonomists. Holotypes and allotypes of species described from loaned specimens must be returned; paratypes may be distributed to several museums, based on arrangements agreed upon in specific instances. Publications based wholly or in part on material borrowed from the museum should include an acknowledgement. An annual progress report on loans is requested; loan extensions can be arranged. An arthropod lots may be disposed of if it is not scientifically relevant and useful, or if it cannot be properly stored, preserved, or interpreted by the museum. The decision to dispose of a lot is the responsibility of the appropriate curator in consultation with the head curator.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: None.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

(a) An arthropod lot may originate for identification by museum staff and donation to the museum.

(b) Arthropod lots received for the purpose of the department's identification responsibilities may be processed, identified, and accessioned; however, the lot itself may not necessarily be retained in the museum's permanent collections based on the decision of a curator.

(c) The department delegates responsibility for initial contact with prospective donors to the museum's curators and chief of bureau of entomology, nematology, and plant pathology.

(d) Receiving, acknowledging, and coordinating donations and donation-related matters is the responsibility of the head curator of the museum.

(e) In the first quarter of each year, previous donors are mailed Calculation Form for Donations, DACS-08076. A copy of DACS-08076 is incorporated herein and may be obtained from the Division of Plant Industry, The Museum of the Florida State Collection of Arthropods, Post Office Box 147100, Gainesville, Florida 32614-7100. If a donation is made during the year, the donor supplies the completed forms with the donation (separate forms must be completed for each individual donation). The forms supply the information necessary to incorporate the lots into the museum. Forms are sent to the donor each time a donation is acknowledged. Upon receipt, the forms are reviewed for completeness; recounting and recalculation is done, if necessary. The donation is then fumigated and forwarded to the appropriate curator for incorporation into the museum. A letter acknowledging the donation and summarizing the donation is sent for each donation within two weeks of receipt.

(f) All acquisitions are considered to have potential scientific value relating to entomological taxonomic research or exhibition purposes. Retention in the museum is based on

the evaluation of the appropriate museum curator for scientific value and the museum's ability to provide proper storage, protection, and preservation for the lot.

(g) If the museum decides not to acquire a lot for its permanent collections, the lot is returned to the prospective donor or is disposed of by the appropriate curator.

(4) Accessioning Procedures. After the museum has acquired a lot, the lot is accessioned into the museum's permanent collections. A regulatory lot is assigned a unique accession number. The accession number is based on the date of museum's receipt and sequence of lot numbers. The museum maintains several electronic databases and files of paper records to document accessioned lots. The electronic data bases and paper records contain at least the following information about each regulatory lot: accession number, date of collection, date of museum receipt, geographic origin, host plant origin, name of collector, and name of identifier. The museum's paper record file is catalogued by the taxonomic nomenclature of the arthropod and by the host of the arthropod. Additional paper record files may be maintained by a curator.

(5) Inventory of State-owned Arthropod Lots. The museum conducts an annual inventory of arthropod lots donated and identified for the previous fiscal year. A report is provided for the department's annual report to the commissioner of agriculture.

(6) Loan of State-owned Arthropod Lots. An arthropod lot may be loaned to a taxonomist recognized by the museum as knowledgeable and providing justification for the loan in the area of the arthropod lot's taxonomy. An Invoice of Specimens (DACS-08075) form accompanies each arthropod lot. Copies may be obtained from the Division of Plant Industry, Florida State Collection of Arthropods, Post Office Box 147100, Gainesville, Florida 32614-7100. The recipient completes the form indicating receipt of the arthropod lot and intended target date for return to the museum. Holotypes and allotypes, based on specimens from the museum, are to be returned unless other arrangements are agreed upon in specific instances. The first paratype, other than an allotype, must be deposited in the museum, unless other arrangements are agreed upon in specific instances. Representatives of both sexes are desired. Where the type series of a species is adequate in the museum, deposition of paratypes in several museum collections and/or collections of specialists in the group, following an agreement to this effect with the head curator of the museum, is encouraged. The museum must receive a list of all species retained with complete collection data for each specimen, or a group of specimens bearing the same collection data, including collector and host or habitat. Publications resulting wholly or in part from a study of material borrowed from the museum should include an acknowledgement to this collection. The abbreviation "FSCA" should be used in checklist citations. Two copies of any publication resulting wholly or in part from a study of material borrowed from the museum must be sent to

the head curator. The museum requests an annual progress report in January of each year on material borrowed for study. Extensions of loans can be arranged.

(7) Disposal of State-owned Arthropod Lots. All decisions to remove an arthropod specimen/lot from the museum's permanent collections for disposal are made in a manner that is in the best interest of the public and of the museum. The arthropod lot may be disposed of if the lot is not scientifically relevant and useful to the functions and activities of the museum or cannot be properly stored, preserved, or interpreted by the museum. The decision to dispose of a lot is made by the curator responsible for the taxonomic area of the arthropod lot. Additional scientific opinion may be sought from the head curator.

61D-6.008 Permitted Medications for Horses.

(1) through (2)(a)2. No change.

(b) When the post race serum sample of such horse contains an amount of phenylbutazone or its metabolites equal to or in excess of 5 micrograms, but less than 8 micrograms per milliliter of serum, the trainer as the absolute insurer of the horse, shall be subject to the following penalties:

- 1. First violation in a 12-month period \$250.00 fine;
- 2. Second violation in a 12-month period \$500.00 fine;
- 3. Third or subsequent violation in a 12-month period \$1,000.00 fine and suspension of any division license 0 to 15 days.

(c) When the post race serum sample contains an amount of phenylbutazone or its metabolites equal to or in excess of 8 micrograms per milliliter of serum, the trainer as the absolute insurer of the horse, shall be subject to the following penalties:

- 1. First violation in a 12-month period \$500.00 fine and suspension of any division license 0 to 15 days;
- 2. Second violation in a 12-month period \$1,000.00 and suspension of any division license up to 30 days;
- 3. Third or subsequent violation in a 12-month period \$1,000.00 fine and suspension of any division license up to 60 days.

(3)(a) Furosemide (~~Salix Lasix~~) may be used solely for the treatment of horses participating in pari-mutuel racing events in the State of Florida that have exhibited exercise induced pulmonary hemorrhage (bleeding) as provided below:

1. A “bleeder” shall be defined as a horse which demonstrates pulmonary hemorrhage within 3.0 hours of exercise as evidenced by fulminant bilateral epistaxis where endoscopic examination is not warranted, or by intratracheal evidence of pulmonary hemorrhage ascertained through endoscopic examination, either of which must be witnessed and certified in writing by a Florida licensed veterinarian who is employed solely by a permitholder conducting pari-mutuel wagering in the State of Florida (the track veterinarian), or employed by the Division of Pari-Mutuel Wagering (the division veterinarian), or when the episode of exercise induced pulmonary hemorrhage cannot be witnessed by an official veterinarian, certification may be by two Florida practicing and

licensed veterinarians, one of whom shall have no current employment affiliation with the owner of the animal being tested and who has no direct pecuniary interest in the racing animal being witnessed and certified. Such certification shall be submitted to the division's Salix Lasix coordinator on Form BPR Form 15-020, Bleeder's Certificate, incorporated by Rule 61D-10.001, Florida Administrative Code. Out of state horses racing in Florida, must be witnessed in Florida as outlined above or must have been certified by the state/commission or association/track veterinarian from the previous state. Certification, in writing from the accredited College of Veterinary Medicine, will also be accepted if the horse has received a comprehensive cardio-pulmonary examination at an accredited College of Veterinary Medicine and as a result thereof is diagnosed with exercise induced pulmonary hemorrhage either viewed endoscopically after a treadmill exercise or via tracheal wash cytology and therefore found to require medication with furosemide in order to successfully compete.

2. No change.

3. It shall be the trainer's responsibility to provide the required documentation of certification to the Salix Lasix coordinator prior to entry of any horse entered to race on furosemide in a pari-mutuel event in the State of Florida. When the trainer cannot provide written documentation within 48 hours prior to the scheduled post time for the race, the trainer of the horse in question may personally attest in writing that the horse meets all eligibility requirements for the use of furosemide and request that the stewards waive the requirement for receipt of written documentation prior to racing the horse on furosemide. All requests for waiver must be submitted on Form BPR 15-033, Salix Lasix Certification Waiver, incorporated by Rule 61D-10.001, Florida Administrative Code. The stewards then may allow the horse to race on furosemide and grant the trainer a reasonable period of time, not to exceed 10 days, to produce the necessary written documentation as required in paragraph (a) above.

4. through (b)1. No change.

2. Second time after a race if racing without Salix Lasix in any racing jurisdiction – 14 days suspension;

3. Second time after a race if racing with Salix Lasix in any racing jurisdiction – 30 days suspension;

4. through 5. No change.

(c) Horses will be eligible to race on the day immediately following the completion of the suspension period. The owner or trainer of any horse placed on the Veterinarian's List as a result of exercise induced pulmonary hemorrhage (bleeding) may elect to place the animal on Florida's official Furosemide (Salix Lasix) List. The official Furosemide List shall be maintained by the Salix Lasix coordinator and shall be the official list of horses approved for racing with furosemide in Florida. Horses placed on the official Furosemide List must have furosemide administered on race day, at a dosage of 0.3 –

1.0mg/kg (150mg – 500mg), administered intravenously (I.V.) no closer than 4 hours prior to the officially scheduled post time of the race for which the horse is entered. The furosemide must be administered by a veterinarian currently licensed pursuant to Chapters 474 and 550, Florida Statutes. Every race day administration of furosemide must be reported by the attending veterinarian to the division on Form BPR Form 15-005, Veterinarian Report of Race-Day Salix Lasix Administration, ~~BPR form 15-005~~ shall be incorporated by Rule 61D-10.001, Florida Administrative Code.

(d) Horses racing on furosemide which ship in to run from centers or other pari-mutuel facilities must be in the receiving barn no later than four hours prior to the post time of their officially scheduled race and have the furosemide (Salix Lasix) tag, Form BPR Form 15-005 firmly attached to their halter. Any violation of this rule shall be subject to the following penalties:

- | | |
|--|--|
| 1. First violation in a 12-month period | \$100.00 fine; |
| 2. Second violation in a 12-month period | \$200.00 fine; |
| 3. Third violation in a 12-month period | \$350.00 fine; |
| 4. Fourth or of subsequent violation in a 12-month period | Horse scratched <u>from</u> for race entered. |

(e) Horses placed on the official Furosemide List must remain on that list unless a trainer requests to remove a horse after consultation with and upon the advice of the horse's attending veterinarian. This request to discontinue use of furosemide must be submitted with a written verification from the bleeder horse's attending veterinarian to the Salix Lasix coordinator no later than 48 hours prior to racing the horse without furosemide. Such requests shall be submitted on ~~Form BPR 15-025~~, Request To Discontinue Salix Lasix, incorporated ~~herein~~ by Rule 61D-10.001, Florida Administrative Code ~~reference~~. Once a horse has been removed from the official Furosemide List, it shall not be placed back on the list until it exhibits exercise induced pulmonary hemorrhage in accordance with paragraph (3)(a), (b) and (c) of this rule.

(f) Horses are ineligible for ~~f~~Furosemide/Salix Lasix use if they:

1. No change.
2. Have been certified as bleeders but whose trainers do not elect to place the animal on the official Furosemide/Salix Lasix List.
3. Are officially on a Furosemide/Salix Lasix List but have been approved to discontinue ~~f~~Furosemide/Salix Lasix.

(g) Certified bleeders that run in jurisdictions that do not allow the use of ~~fFurosemide/Salix Lasix~~ shall be allowed to run on ~~fFurosemide/Salix Lasix~~ upon returning to Florida without re-qualifying. Trainers shall notify the ~~Salix Lasix~~ coordinator of the status of these horses prior to entry.

(h) Certified bleeders that run in jurisdictions that allow ~~fFurosemide/Salix Lasix~~ usage, but do not run on ~~fFurosemide/Salix Lasix~~, will be considered "off-~~Salix Lasix~~" and must re-qualify to run on ~~fFurosemide/Salix Lasix~~ in Florida.

(i) Re-qualifying for ~~fFurosemide/Salix Lasix~~ means that the horses must exhibit subsequent exercise induced pulmonary hemorrhage in accordance with paragraphs (3)(a), (b) and (c) above to again become eligible for use of ~~fFurosemide/Salix Lasix~~.

(j) The trainer of any horse to be entered in a race in a pari-mutuel event in the State of Florida shall report any previous or current incidents of exercise induced pulmonary hemorrhage and any previous or current use of ~~fFurosemide/Salix Lasix~~ to the track veterinarian, division veterinarian, and ~~Salix Lasix~~ coordinator prior to entry.

(4) Synthetic ~~cCorticosteroids~~ are permitted to be administered to a horse providing:

(a) No change.

(b) All other corticosteroids (natural, synthetic, or precursors) shall not be administered closer than 24 hours prior to the officially scheduled post time.

~~(c) Oral administration of any corticosteroid (natural, synthetic, or precursor) is expressly prohibited except when prescribed by a licensed veterinarian; administration of any synthetic corticosteroid by any route must be reported to the division on forms prescribed by the division.~~

(5) through (6) No change.

RULE NO.: 1S-2.027
RULE TITLE: Clear Indication of Voter's Choice on a Ballot

NOTICE OF CHANGE

Notice is hereby given that proposed Rule 1S-2.027, published in the Florida Administrative Weekly, Pages 4617-4618, Vol. 27, No. 40, on October 5, 2001, has been changed to reflect comments received from the public as well as the Joint Administrative Procedures Committee. Changes were made to Rule 1S-2.027 so that it now reads:

1S-2.027 Clear Indication of Voter's Choice on a Ballot.

(1) The following are standards to determine ~~voter intent~~ in a manual recount as provided specifically by Section 102.166, Florida Statutes, and on an optical scan voting system, whether there is a clear indication on the ballot that the voter has made a definite choice.

~~(2) The following are guidelines for determining on an optical scan voting system whether or not there is a clear indication on the ballot that the voter has made a definite choice:~~

~~(a) Ballots must be marked in pen or pencil.~~

~~(a)(b)~~ If a ballot is marked with a color or device that does not permit an accurate machine count, that vote shall count.

~~(b)(e)~~ If a voter circles the oval or arrow next to a candidate or issue, the vote for that candidate or issue shall count.

~~(c)(d)~~ If a voter circles or underlines the name of a candidate, the vote shall count for that candidate.

~~(d)(e)~~ If a voter circles or underlines the name of a party next to a candidate's name, the vote shall count for that candidate.

~~(e)(f)~~ If there is an "X," a check mark, a diagonal, horizontal or vertical mark, a plus sign, an asterisk, a star or any other mark that is substantially contained in the oval, touching the oval or arrow, or within the blank space between the head and tail of the arrow that clearly indicates the voter intended the oval or arrow to be marked, that vote shall count.

~~(f)(g)~~ If a voter marks more candidates than there are positions to be elected for that office, the votes for the candidates of that office shall not count.

~~(g)(h)~~ If a voter marks fewer less candidates than there are positions to be elected for those offices, the votes for all of those candidates shall count.

~~(h)(i)~~ If a voter does not mark a candidate or issue, the votes for other candidates or issues on the same ballot that are validly marked shall be counted.

~~(i)(j)~~ If a voter attempts to correct the ballot in a way that is clearly evident in the space where the voter could indicate a ballot choice by completing the target area, and the voter has marked the target area ~~clearly and properly voted~~ for another candidate or issue, the vote for the marked ~~clearly and properly voted~~ candidate or issue shall count.

~~(j)(k)~~ If a voter has indicated in a clear fashion that a mistake has been made and has attempted to correct it, by either an "X" or equivalent mark to cross out a choice, and the voter has marked the target area ~~clearly and properly voted~~ for another candidate or issue, the vote for the marked target area ~~clearly and properly voted~~ candidate or issue shall count.

~~(k)(l)~~ If the voter has made one or more stray marks that are clearly unrelated to the voter's intent to vote for a candidate or issue and the marks are visible in the read area of the ballot, the marks shall not invalidate the ballot.

~~(l)(m)~~ If the voter writes on the ballot in a way that interferes with the ability of the automatic tabulating equipment to correctly read the ballot, and the writing is clearly unrelated to the voter's intent to vote for a candidate or issue, the writings shall not invalidate the ballot.

~~(m)(n)~~ An otherwise valid vote cast for a write-in candidate should not be invalid if the voting position on the ballot marked "WRITE-IN CANDIDATE" for that office has not been marked by the marking device.

~~(n)(p)~~ A name written on the secrecy envelope or elsewhere on the ballot that is not the name of a qualified write-in candidate for that office or is otherwise invalid shall not be considered a write-in vote for the purposes of determining if an office has been overvoted.

~~(o)(q)~~ If a voter casts a vote on the ballot and also provides for a write-in candidate it shall be treated as follows:

1. If a voter casts a vote on a ballot and writes in a candidate who is not a qualified write-in candidate or the same candidate in the write-in area, that shall not be considered an overvote. The vote shall count for that candidate that the voter cast a vote for, not the write-in candidate.

2. If a voter casts a vote on a ballot and writes in a different, qualified candidate in the write-in area, it shall be counted as an overvote with neither candidate getting credit for a vote.

3. If a voter writes in the name of a person who is not a qualified write-in candidate, it shall be treated as if the write-in area was left blank for all purposes.

~~(p)(r)~~ Any abbreviation, misspelling, or other minor variation in the form of the name of a candidate must be disregarded in determining the validity of the ballot if it can reasonably be determined that the write-in vote is for a write-in candidate who has qualified for that office.

~~(q)(s)~~ Where Florida law requires that a candidate, such as that of Governor, must run on a tandem ticket for an office, the write-in of the last name of the candidate for Governor or the write-in of the last name of the candidate for Lieutenant Governor shall be sufficient to cast a write-in vote for the tandem office. This includes candidates for President and Vice-President, who have filed the oath for write-in candidates and a list of electors equal to the number of Senators and Representatives that Florida has in Congress. The write-in of the last name of the candidate for President or the write-in of the last name of the candidate for Vice President shall be sufficient to cast a write-in ballot for this type of tandem office.

~~(t)~~ If an absentee ballot is signed by the voter in a way that identifies the voter, the ballot shall count. However, the ballot must be duplicated to protect the integrity of the voter's ballot.

~~(2)(3)~~ The following are standards ~~guidelines~~ for determining, on a direct recording voting system, whether or not there is a clear indication on the ballot that the voter has made a definite choice:

(a) Any abbreviation, misspelling, or other minor variation in the form of the name of a candidate must be disregarded in determining the validity of the ballot if it can reasonably be determined that the write-in vote is for a write-in candidate who has qualified for that office.

(b) Where Florida law requires that a candidate, such as that of Governor, must run on a tandem ticket for an office, the write-in of the last name of the candidate for Governor or the write-in of the last name of the candidate for Lieutenant Governor shall be sufficient to cast a write-in vote for the

tandem office. This includes candidates for President and Vice-President, who have filed the oath for write-in candidates and a list of electors equal to the number of Senators and Representatives that Florida has in Congress. The write-in of the last name of the candidate for President or the write-in of the last name of the candidate for Vice President shall be sufficient to cast a write-in ballot for this type of tandem office.

~~(e) If a voter fails to electronically cast their ballot after voting, that ballot shall be cancelled.~~

~~(4) This rule has an effective date of January 1, 2002.~~

RULE NO.:

RULE TITLE:
Financial Penalties for a Provider’s Failure to Comply With a Requirement for Corrective Action

NOTICE OF CHANGE

Notice is hereby given that proposed Rule 65-29.001, F.A.C., has been changed in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 27, No. 21, May 25, 2001 issue of the Florida Administrative Weekly. When adopted the rule will read as follows:

65-29.001 Financial Penalties for a Provider’s Failure to Comply With a Requirement for Corrective Action ~~Contract Penalties for Noncompliance.~~

(1) Purpose. The purpose of this rule is to implement the provisions of Section 402.73(7), F.S., and to provide procedures for the imposition of financial penalties upon providers that fail to comply with a department request for corrective action.

(2) Definitions. For the purpose of this rule, the following definitions shall apply:

(a) “Corrective Action” means acts of remediation the provider is required to make in response to department findings of unacceptable performance, nonperformance, or noncompliance to the terms and conditions of a contract.

(b) “Corrective Action Plan” means the mutually agreed upon plan prepared by the provider and approved by the department by which corrective action will be accomplished.

(c) “Department” means the Florida Department of Children and Families.

(d) “Extenuating Circumstances” means conditions beyond the control of either party that may form a basis for the reasonable forgiveness of certain contract requirements. By their nature such conditions are unique necessitating the determination of their existence on a case by case basis and precluding the application of such a determination to more than a single instance during the term of any contract.

(e) “Findings of Fact” means the conclusions reached by the department upon factual issues.

(f) “Notice of Intent to Impose a Financial Penalty” means a written notice issued by the department to the provider making the provider aware that a financial penalty is pending if the provider does not successfully complete the required corrective action plan within the time specified in the corrective action plan.

(g) “Provider” means an organization or individual providing services to or on behalf of the department or its clients.

(h) “Unacceptable Performance” means provider action(s), or lack thereof, that fails to satisfy the requirements of the contract.

(3) Penalty Provision. All contracts entered into by the department for services shall contain a notice that penalties may be imposed for failure to implement or to make acceptable progress on corrective action plans developed as a result of noncompliance, non-performance, or unacceptable performance with the terms and conditions of a contract. Such provisions shall also contain the following:

(a) A statement that corrective action plans may be required for noncompliance, nonperformance, or unacceptable performance and penalties may be imposed for failure to comply with a department approved corrective action plan.

(b) The increments of penalty imposition that shall apply, unless the department determines that extenuating circumstances exist, shall be based upon the severity of the noncompliance, nonperformance, or unacceptable performance that generated the need for corrective action plan. The penalty, if imposed shall not exceed ten percent (10%) of the total contract payments during the period in which the corrective action plan has not been implemented or in which acceptable progress toward implementation has not been made. Noncompliance that is determined to have a direct effect on client health and safety shall result in the imposition of a ten percent (10%) penalty of the total contract payments during the period in which the corrective action plan has not been implemented or in which acceptable progress toward implementation has not been made. Noncompliance involving the provision of service not having a direct effect on client health and safety shall result in the imposition of a five percent (5%) penalty. Noncompliance as a result of unacceptable performance of administrative tasks shall result in the imposition of a two percent (2%) penalty.

(c) The deadline for payment of a penalty.

(d) The potential deduction of a financial penalty from the department’s payments to a provider.

(4) Process. If at any time(s) during the effective contract period, the department gives notice to the provider that its delivery of services is unacceptable or is not in compliance with the terms and conditions of the contract, the department shall request corrective action, in accordance with Section 120.695, F.S. The department’s request for corrective action shall identify the incident(s) of noncompliance or unacceptable performance, and be submitted to the provider in writing. The provider, in turn, must timely submit a corrective action plan upon receipt of the department’s request. The provider’s failure to timely submit a corrective action plan that is determined acceptable to the department shall be grounds for termination of the contract.

(5) Source of Funds Available for Payment of Financial Penalty. A provider shall not pay a financial penalty with funds intended to be used, or which are budgeted, to provide services to clients. The provider shall not reduce the amount or quality of services being delivered to clients as a result of the imposition of a financial penalty pursuant to this rule.

(6) Notice of Intent to Impose a Penalty and Notice of Preliminary Findings of Fact. The department shall give the provider a written notice of its intent to impose a financial penalty, which shall include the following information:

(a) The factual basis upon which the department determined that a corrective action plan was needed; and

(b) A description of the corrective action which was agreed upon between the provider and the department and which was not implemented or satisfactorily accomplished; and

(c) The amount of the penalty sought to be imposed.

(7) Contesting a Penalty. Within twenty-one (21) calendar days of receipt of written notice described in paragraph 6, the provider may file written exceptions to the Preliminary Findings of Fact. If no exceptions are timely filed, the department shall adopt such Preliminary Findings of Fact in its Final Order Imposing a Financial Penalty.

(8) The District Administrator or Regional Director will, in consultation with the Office of the General Counsel, resolve any issues raised by exceptions, if filed, after which the Department may issue a Final Order. The Final Order, if issued, shall require that the penalty be imposed prospectively and be applied to the next invoice submitted. The final order shall require the application of the penalty on all subsequent invoices until the required corrective actions have been implemented. Said Final Order shall be reviewable pursuant to Chapter 120, F.S.

(9) Failure to Pay a Financial Penalty. The department may, at its discretion, deduct the amount of financial penalty from funds that would otherwise be due a provider. This deduction, however, may not exceed ten percent (10%) of the invoice amount that would otherwise be due such provider for the period in which the corrective action plan has not been implemented or in which acceptable progress toward implementation has not been made. A provider’s failure to include such deductions in a request for payment may constitute grounds for the department to reject the provider’s request for payment.

(10) The remedies identified in this rule do not limit or restrict the department’s application of any other remedy available to it in the contract or under law. Furthermore, the remedies described in this rule may be cumulative and may be assessed upon each separate failure in order to enforce provider compliance.

DEPARTMENT OF TRANSPORTATION

Notice is hereby given that the Florida Department of Transportation (hereafter the "Department") has granted a Petition for Waiver (hereafter the "Petition") from First Coast Energy, L.L.P. The Petition was filed on November 26, 2001, seeking a waiver of the provisions of Rule Chapter 14-97, Florida Administrative Code, which regulates driveway connections to the state highway system. By the Petition, First Coast Energy, L.L.P. sought to have access directly to Gate Parkway in Duval County, Florida near the intersection with J. Turner Butler Boulevard and requested that the Department waive portions of Rule Chapter 14-97, Florida Administrative Code. The original notice of the Petition was published on December 7, 2001, in Vol. 27, No. 49, of the Florida Administrative Weekly.

The Department, after review, granted the Petition on January 10, 2002. The basis was that the totality of the circumstances did present a proper hardship for requesting a waiver and sufficient grounds demonstrating compliance with the intent of the underlying statute.

A copy of the notice granting the waiver may be obtained from: Clerk of Agency Proceedings, Department of Transportation, 605 Suwannee Street, M.S. 58, Tallahassee, Florida 32399-0458.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

DEP received on January 4, 2002, a petition from ExxonMobil Corporation for a waiver pursuant to subsection 376.3071(12)(k)5., F.S., of certain record keeping requirements under subsection 376.3071(12)(e), F.S. The full text of this notice is published on the Internet at the Department of Environmental Protection's home page at <http://www.dep.state.fl.us/> under the link or button titled "Official Notices."

DEP received on January 4, 2002, a petition from ExxonMobil Oil Corporation for a waiver pursuant to subsection 376.3071(12)(k)5., F.S., of certain record keeping requirements under subsection 376.3071(12)(e), F.S. The full text of this notice is published on the Internet at the Department of Environmental Protection's home page at <http://www.dep.state.fl.us/> under the link or button titled "Official Notices."

The Department of Environmental Protection gives notice of its intent to issue a variance under section 403.201 of the Florida Statutes (F.S.) from the provisions of subsection 62-302.530(31), Florida Administrative Code (F.A.C.), to Florida Rock Industries, Incorporated, Post Office Box 4667, Jacksonville, Florida 32201-4667, File Number 0175235-002-EV, to allow water within the reclaimed mining pits at the Miami Quarry to not meet the standard for dissolved oxygen in the lower layers of the pits.

During mining, stormwater within the project area will be contained within the mine pits, by using a system of berms. At the completion of mining and reclamation, the project area will be re-connected with state waters by the removal of all berms, and the water quality standards listed in section 62-302.530, F.A.C. will apply to all surface waters within the reclaimed project area. Water quality studies conducted for the United States Army Corps of Engineers Environmental Impact Statement on existing limerock mining lakes indicate that the water within the lakes is expected to be vertically well mixed during the winter months. However, during the warmer summer months, the lake is expected to stratify and dissolved oxygen levels below the thermocline may not meet the water quality standard for dissolved oxygen, as required by subsection 62-302.530(31), F.A.C. This was anticipated by the Florida Legislature in paragraph 373.414(6)(a), F.S., which states that, "Where such mining activities otherwise meet the permitting criteria contained in this section, such activities may be eligible for a variance from the established water quality standard for dissolved oxygen within the lower layers of the reclaimed pit." A petition for a variance pursuant to section 403.201, F.S. was received on December 6, 2001.

Low dissolved oxygen levels in the lower levels of the mine lakes is not expected to result in any adverse on-site or off-site impacts. Oxygen levels in the upper layers of the lakes are

expected to be adequate to support the fish populations of the lake during periods when stratification occurs. It is not expected that the low dissolved oxygen water from the lower levels of the lake will be exchanged with off-site waters. The Department considered requiring a berm to sever the hydrologic connection between the lakes and adjacent waters, alleviating the need to meet surface water quality standards within the lakes. This approach was rejected in favor of a variance for three reasons. Construction of a berm would provide no environmental benefit, would require the filling of wetland areas, and may reduce the habitat value of the area by restricting the movement of water, nutrients, and fish and wildlife between the lake and the surrounding habitat. In addition, berms would provide potential vehicle and pedestrian access to the area, which may encourage dumping and other activities harmful to the habitat value and water quality of the lakes and surrounding areas.

There is no practicable means known or available to prevent the low dissolved oxygen levels at depth within the mining lakes. Therefore, the Department intends to issue a variance, pursuant to section 403.201(1)(a), F.S., for dissolved oxygen in the lower layers of the reclaimed lakes.

The Department's file on this matter is available for public inspection during normal business hours, 8:00 a.m. – 5:00 p.m., Monday through Friday, except legal holidays, at the Florida Department of Environmental Protection, Bureau of Mine Reclamation, 2051 East Dirac Drive, Tallahassee, Florida 32310, Telephone (850)488-8217.

FISH AND WILDLIFE CONSERVATION COMMISSION

Notice is hereby given that the Florida Fish and Wildlife Conservation Commission has issued a permanent variance from the Brevard County manatee protection Rule 68C-22.006, F.A.C., to Marine Management Services, Inc., D/B/A Sea Tow Cape Canaveral. The petition was filed with the Commission on July 19, 2001. A Notice of Receipt of Petition was published in the Florida Administrative Weekly on August 17, 2001. The Final Order Granting Variance was issued on December 12, 2001. The variance authorizes Sea Two Cape Canaveral to operate within portions of Sykes Creek and the Canaveral Barge Canal that are currently regulated at "slow speed" by Commission rule when reasonably necessary to prevent the loss of life or property due to the emergency circumstances, or to render emergency assistance. Sea Tow cannot exceed the maximum speed established by federal regulation or local ordinance, notwithstanding the granting of a variance from the Commission's rule. Further, Sea Tow is not authorized by the variance to intentionally or negligently annoy, molest, harass, disturb, or attempt to annoy, molest, harass, disturb any manatee; or to injure or harm, or attempt to injure or harm, any manatee, or to do any act prohibited by Section 370.12(2)(d), Florida Statutes.

Copies of the variance may be obtained by contacting: Florida Fish and Wildlife Conservation Commission, Office of Environmental Services, Bureau of Protected Species Management (OES-BPS), 620 South Meridian Street, Tallahassee, FL 32399-1600, Attn: Dawn Griffin.

Notice is hereby given that the Florida Fish and Wildlife Conservation Commission has issued a two-year variance from the Collier County manatee protection Rule 68C-22.023, F.A.C., to The Airboat Experience of the Everglades Inc. ("Airboat Experience"). The petition was filed with the Office of Environmental Services on September 27, 2001. A Notice of Receipt of Petition was published in the Florida Administrative Weekly on November 2, 2001. The Final Order Granting Variance was issued on December 20, 2001 with conditions (expires on December 2003). The variance authorizes Airboat Experience to operate no more than two airboats at speeds not to exceed 20 mph while conducting sightseeing tours along three specific shallow water routes in Addison Bay and Goodland Bay. The airboats are not authorized to operate above the posted speed limits during weekends or state-recognized holidays. The variance was granted because the Commission determined that application of the rule would

violate the principles of fairness and because the purpose of the underlying statute (i.e., manatee protection) would still be met by placing conditions and limitations on the variance.

Copies of the variance may be obtained by contacting: Florida Fish and Wildlife Conservation Commission, Office of Environmental Services, Bureau of Protected Species Management (OES-BPS), 620 South Meridian Street, Tallahassee, FL 32399-1600, Attn: Dawn Griffin.

The Florida **Department of Environmental Protection** announces a public hearing of the Governor and Cabinet, sitting as the Power Plant Siting Board, to consider a request by the Department for delegation of the authority to issue emergency orders for power plants certified under the Florida Electrical Power Plant Siting Act, Sections 403.501 et. seq., F.S.

DATE AND TIME: March 12, 2002, 9:00 a.m.

PLACE: Cabinet Hearing Room, Lower Level, State Capitol, Tallahassee, Florida.

GENERAL SUBJECT MATTER TO BE CONSIDERED: From time to time, it may be necessary to issue emergency orders which temporarily modify conditions of certification for facilities that have been certified under the Florida Electrical Power Plant Siting Act. For example, during extreme weather conditions, natural gas pipeline interruptions, or other unforeseen and unanticipated circumstances, one or more power plants may be needed to produce more electricity than they are authorized to produce in their certifications. If these power plants are not authorized to generate the necessary electricity, some regions of the state could experience brownouts or blackouts, which pose a serious threat of harm to the health, welfare, and safety of Floridians living in that region. Additionally, in the aftermath of hurricanes, certified resource recovery facilities may be needed to dispose of hurricane debris by operating at higher than permitted rates in lieu of allowing open burning. Similarly, other unforeseen and unanticipated events may occur that warrant extraordinary, emergency relief so that an immediate danger to the public health, safety or welfare can be averted.

Pursuant to Section 120.569(2)(n), Florida Statutes, the authority to issue emergency orders lies with the “agency head”. That agency head must find that “an immediate danger to the public health, safety, or welfare requires an immediate final order. “Agency Head” is defined by Section 120.52(3), F.S., as “the person or collegial body in a department or other governmental unit statutorily responsible for final agency action.” For the issuance of Certification Orders and Modification Orders under the Power Plant Siting Act, the collegial body responsible for final agency action is the Siting Board, comprised of the Governor and Cabinet. The Department has no authority to issue any type of modification to the Orders of the Siting Board except as provided in Section 403.516(1), F.S. Those provisions do not include the authority to issue emergency orders.

Section 403.516(1)(a), F.S., grants the Siting Board the ability to delegate to the department the authority to modify specific conditions in the certification. The Department therefore seeks an Order delegating to the department the authority to issue emergency orders which temporarily modify conditions of certifications in instances where the Department finds that there is an immediate risk of harm to the public health, safety, or welfare.

CABINET AIDES BRIEFING: The Cabinet Aides will meet and discuss the item on March 6, 2002, 9:00 a.m., in the same location. The purpose of the briefing is to review and gather information regarding this item for consideration by the Siting Board.

Project No.: BR-253 Campus Wide Projects
BR-272 Asolo Theater/Visitor Services Center

Project Location: The John and Mable Ringling Museum of Art
Florida State University, Sarasota, Florida

The project involves construction of the site work/infrastructure and a new Visitor's Center planned for the FSU Ringling Center for the Cultural Arts in Sarasota, Florida. This group of projects will initially involve two major undertakings, ultimately leading to the build-out of the campus master plan. The first project will construct various site engineering/utility infrastructure improvements necessary to accommodate the new facilities planned for Ringling. The second project will construct a new Visitor Services Center building that includes space for ticketing, gift shop, and food service operations. In addition, the historic Asolo Theatre will be relocated and restored back into this facility and upgraded new lighting and sound system for live performances. HOK, Inc. of Tampa is the Architect for this project.

The University intends to initially execute a contract for Pre-Construction Services based on \$3,245,000 of currently available construction funds. Further amendments to the contract would be executed depending on funds availability and Construction Manager performance. The contractor's present and future bonding capacity must be sufficient to construct both projects currently estimated at \$16,200,000.

Campus Wide Projects – BR-253

This project will provide essential site engineering for the entire Ringling site, extend underground utilities, expand stormwater facilities, and install landscape/hardscape and lighting improvements. Construction budget for these projects is estimated at approx. \$7,000,000; however they are only partially funded at this time.

Failure to negotiate an acceptable fixed fee for phase one of the contract, or to arrive at an acceptable GMP within the time provided in the agreement may result in the termination of the construction manager's contract.
