**THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT IS:** Tom Ballinger, Florida Public Service Commission, 2540 Shumard Oak Blvd., Tallahassee, FL 32399-0862

**THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:**

25-22.082 Selection of Generating Capacity.

(1) Definitions. For the purpose of this rule, the following terms shall have the following meaning:

(a) Public Utility: all electric utilities subject to the Florida Public Service Commission's ratemaking authority, as defined in Section 366.02(1), Florida Statutes.

(b)(~~a~~) Major Capacity Addition: any capacity addition which will require certification pursuant to Section 403.519, Florida Statutes, or any capacity addition of 150 MW or more which does not require certification pursuant to Section 403.519, Florida Statutes, including but not limited to the repowering of an existing generating facility. ~~Next Planned Generating Unit: the next generating unit addition planned for construction by an investor-owned utility that will require certification pursuant to Section 403.519, Florida Statute.~~

(c)(~~b~~) Request for Proposals (RFP): a document in which an ~~public investor-owned~~ utility publishes the price and non-price attributes of its next planned major capacity addition generating unit in order to solicit and screen, for potential

subsequent contract negotiations, competitive proposals for supply-side alternatives to the public utility's next planned major capacity addition generating unit.

(d)(~~e~~) Participant: a potential generation supplier who submits a proposal in compliance with both the schedule and informational requirements of a public utility's RFP. A participant may include, but is not limited to, utility and non-utility generators, Exempt Wholesale Generators (EWGs), Qualifying Facilities (QFs), marketers, and affiliates of public utilities, as well as providers of turnkey offerings, distributed generation, and other ~~utility~~ supply side alternatives.

(e)(~~d~~) Finalist: one or more participants selected by the public utility with whom to conduct subsequent contract negotiations.

(2) A Public Utility is required to provide reasonably sufficient, adequate, and efficient service to the public at fair and reasonable rates. In order to assure an adequate and reliable source of energy, a public utility must plan and construct or purchase sufficient generating capacity. To assure fair and reasonable rates and to avoid the further uneconomic duplication of generation, transmission, and distribution facilities in Florida, a public utility must select the most economical and cost-effective mix of supply-side and demand-side resources to meet the demand and energy requirements of its end-use consumers. The Commission finds that the use of RFPs to select additional generating resource requirements is an appropriate means by which to ensure that a public utility meets its obligation to provide an adequate, reliable, and cost-efficient supply of capacity and energy. Each public utility, therefore, shall issue an RFP prior to the commencement of construction of a major capacity addition. Public utilities are encouraged to issue an RFP, using these rules as guidelines, prior to the construction or purchase of any other generating resource addition. Prior to filing a petition for determination of need for an electrical power plant pursuant to Section 403.519, Florida Statutes, each investor-owned electric utility shall evaluate supply-side alternatives to its next planned generating unit by issuing a Request for Proposals (RFP).

(3) Each ~~public investor-owned~~ utility shall provide timely notification of its issuance of an RFP by publishing public notices in major newspapers, periodicals and trade publications to ensure statewide and national circulation. The public notice given shall include, at a minimum:

(a) The name and address of the contact person from whom an RFP package may be requested;

(b) A general description of the public utility's next planned major capacity addition generating unit, including its planned in-service date, MW size, location, fuel type and technology; and

(c) A schedule of critical dates for the solicitation, evaluation, screening of proposals and subsequent contract negotiations.

~~(4)(7)~~ Each public electric utility shall file a copy of its RFP with the Commission upon issuance.

~~(5)(4)~~ Each public utility's RFP shall include, at a minimum:

(a) A detailed technical description of the public utility's next planned major capacity addition ~~generating unit or units~~ on which the RFP is based, all costs that are associated with the major capacity addition, as well as the financial assumptions and parameters associated with it, including, at a minimum, the following information:

1. A description of the public utility's next planned major capacity addition ~~generating unit(s)~~ and its proposed location(s);

2. The MW size;

3. The estimated in-service date;

4. The primary and secondary fuel type;

5. An estimate of the total direct cost;

6. An estimate of the annual revenue requirements;

7. An estimate of the annual economic value of deferring construction;

8. An estimate of the fixed and variable operation and maintenance expense;

9. An estimate of the fuel cost;

10. The costs of common facilities at the site allocated to the major capacity addition, including, but not limited to land, improvements, transmission facilities, cooling water facilities, fuel transportation and handling facilities, and other infrastructure.

~~11.10-~~ An estimate of the planned and forced outage rates, heat rate, minimum load and ramp rates, and other technical details;

~~12.11-~~ A description and estimate of the costs required for associated facilities such as gas laterals and transmission interconnection;

~~13.12-~~ A discussion of the actions necessary to comply with environmental requirements; and

~~14.13-~~ A summary of all major assumptions used in developing the above estimates;

(b) Detailed information regarding the public utility's ten year historical and ten year projected net energy for load, and summer and winter peak demand by class of customers;

~~(c)(b)~~ A schedule of critical dates for solicitation, evaluation, screening of proposals, selection of finalists, and subsequent contract negotiations, and submission for Commission approval, if necessary;

~~(d)(e)~~ A description of the price and non-price attributes to be addressed by each alternative generating proposal including, but not limited to:

1. Technical and financial viability;

2. Dispatchability;

3. Deliverability (interconnection and transmission);

4. Fuel supply;

5. Water supply;

6. Environmental compliance;

7. Performance criteria; and

8. Pricing structure; ~~and~~

~~(e)(4)~~ A detailed description of the methodology to be used to evaluate alternative generating proposals on the basis of price and non-price attributes.

(f) All criteria, including all weighting and ranking factors that will be applied to select the finalists. Such criteria may include price and non-price considerations, but no criterion shall be employed that is not expressly identified in the RFP absent a showing of good cause. No adjustment to purchase power proposals due to the imputation of an increase to the public utility's cost of capital shall be made absent a showing of good cause. The RFP shall be structured to allow a participant to propose to supply all or a portion of the major capacity addition, and for the public utility to select one or a combination of proposals as the most cost-effective means of meeting the specified need;

(g) Any application fees that will be required of a participant. Any such fees or deposits shall be cost-based but shall not exceed \$10,000 in the aggregate, with no more than \$500 required to obtain the RFP;

(h) Any information regarding system-specific conditions which may include, but not be limited to, preferred locations proximate to load centers, transmission constraints, the need for voltage support in particular areas, and/or the public utility's need or desire for greater diversity of fuel sources.

(6) A participant may submit and the public utility shall evaluate proposals to collocate the participant's proposed generating facility and to utilize the common facilities at a public utility's existing power plant site. The public utility may require compensation for such collocation and use of its common facilities.

~~(7)(5)~~ As part of its RFP, the public utility shall require each participant to publish a notice in a newspaper of general circulation in each county in which the participant's proposed to build an electrical power plant generating facility would be located. The notice shall be at least one-quarter of a page and shall be published no later than 10 days after the date that proposals are due. The notice shall state that the participant has submitted a proposal to build an electrical power plant, and shall include the name and address of the participant submitting the proposal, the name and address of the public utility that solicited proposals, and a general description of the proposed power plant and its location.

(8) A pre-bid meeting shall be conducted by the public utility within two weeks after the issuance of the RFP. Each participant which obtains the RFP, the Office of Public Counsel, and the Commission staff shall be notified in a timely manner of the date, time, and location of the meeting.

(9) A minimum of 60 days shall be provided between the issuance of the RFP, and the due date for proposals in response to the RFP.

(10) Any potential participant in the RFP may file comments with the Commission regarding any aspect of the RFP prior to the due date for proposals specified in the RFP. The Commission may take such action with respect to any comments filed as it deems appropriate.

(11) The public utility shall evaluate the proposals received in response to the RFP in a fair comparison with the public utility's next planned major capacity addition identified in the RFP.

(12)(6) Within 30 days after the public utility has selected finalists, if any, from the participants who responded to the RFP, the public utility shall publish notice in a newspaper of general circulation in each county in which a finalist has proposed to build an electrical power plant. The notice shall include the name and address of each finalist, the name and address of the public utility, and a general description of each proposed electrical power plant, including its location, size, fuel type, and associated facilities.

(13) The Commission, upon its own motion, or a participant may challenge the results of an RFP. A participant may file a complaint with the Commission or intervene in a subsequent need determination or cost recovery proceeding. Any complaint will be processed by the Commission on an expedited basis. In resolving a challenge to the results of an RFP, the Commission may take such action as it deems appropriate.

(14) Upon conclusion of an RFP process, the public utility may petition the Commission for approval of the public utility's selection. If the Commission approves a purchase power agreement as a result of the RFP, the public utility shall be authorized to recover the prudently incurred costs of the agreement through the public utility's capacity, and fuel and purchased power cost recovery clauses absent evidence of fraud, mistake, or similar grounds sufficient to disturb the finality of the approval under governing law.

(15) Nothing in this rule shall prohibit a public utility from entering into short-term bilateral contracts, having a term of three years or less, for the purchase of capacity and energy. If the public utility chooses this option, it must justify the prudence of its decision prior to recovering the costs of the contract from its retail customers. A public utility, however, shall not enter into a bilateral contract for the purchase of capacity and energy with an affiliate outside of the RFP process.

8. The Commission shall not allow potential suppliers of capacity who were not participants to contest the outcome of the selection process in a power plant need determination proceeding.

~~9. The Commission may waive this rule or any part thereof upon a showing that the waiver would likely result in a lower cost supply of electricity to the utility's general body of ratepayers, increase the reliable supply of electricity to the utility's general body of ratepayers, or is otherwise in the public interest.~~

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

33-208.101 Employee Grooming, Uniform and Clothing Requirements.

(1) through (8) No change.

(9) Correctional Probation Officer Badges.

(a) Circuit administrators shall maintain control and inventory of correctional probation officer badges within each circuit.

1. The circuit administrator shall issue badges to officers after certification is received.

2. The circuit administrator or designee shall conduct an annual circuit badge inventory at the end of each fiscal year and submit the circuit badge inventory to the regional director. The annual circuit badge inventory shall include the following information:

a. Badge number.

b. Name of officer, in the last-name-first-first-name-last format (or blank if not issued).

c. Circuit and office location.

d. Status (including date returned, stolen, lost, or retired), and

e. Total counts for each status, including the total number of badges issued, the total number of badges not issued, the total number of badges stolen, the total number of badges lost, and the total number of badges retired.

3. The regional director or designee shall compile the circuit inventories to complete an annual regional badge inventory at the end of each fiscal year and submit the regional badge inventory to the Director of Community Corrections.

(b) Only badges issued by the department shall be used to conduct officially designated duties.

(c) Use of the issued badge as a credential for personal purpose is prohibited.

(d) Badges shall be readily accessible in order for the correctional probation officer to properly identify himself or herself to the public.

(e) Loss or theft of a badge shall be reported to the officer's immediate supervisor within 72 hours of the officer becoming aware that the badge was stolen or lost. Theft or loss of a badge shall be reported by the officer on the Community Corrections Incident Report, Form DC3-225, followed by a MINS report by the circuit administrator. Form DC3-225 is incorporated by reference in Rule 33-302.104, F.A.C. The officer shall be responsible for reimbursing the department for any issued badge which is lost or stolen.

(f) Correctional probation officers shall maintain their original badge issued if transferred to another circuit or region. The circuit administrator or designee in both circuits shall update their badge inventories accordingly. Once the officer has transferred to another circuit, the sending circuit administrator or designee shall remove the badge information from the circuit's inventory and the receiving circuit administrator or designee shall add the badge information to his or her circuit's inventory.

(g) Correctional probation officers who leave the department shall return their badges to the circuit administrator prior to departing.

(h) Correctional probation officers who are promoted to a position outside the class series and desire to keep their issued badge shall make a request to the regional director. Correctional probation officers who retire from the department under honorable conditions and who are eligible to retire under the State of Florida retirement system, including retirement under medical disability, and desire to retain their issued badge shall make a request to the regional director.

(i) Regional directors shall review requests submitted by employees to maintain their badges and forward recommendations to the Director of Community Corrections for final approval.

(10)(9) No change.

THE FULL TEXT OF THE PROPOSED RULE IS:

4A-50.005 Registration Requirement.

(1) through (10) No change.

(11) Registration forms.

(a) Each person, firm, copartnership, corporation, or other entity seeking to register as a seasonal retailer shall complete and file with the Regulatory and Licensing Section Form DI4-1233, entitled Certificate of Sparkler Registration – Seasonal Retailer, which is hereby adopted and incorporated by reference. Copies of Form DI4-1233 may be obtained from the Regulatory and Licensing Section, Bureau of Fire Prevention, Division of State Fire Marshal, 200 East Gaines Street, Tallahassee, Florida 32399-0342.

(b) Each person, firm, copartnership, or corporation, or other entity seeking to register as a manufacturer, distributor, or wholesaler shall complete and file with the Regulatory and Licensing Section Form DI4-1234, entitled Certificate of Sparkler Registration – Manufacturer, Distributor, and Wholesaler, which is hereby adopted and incorporated by reference. Copies of Form DI4-1234 may be obtained from the Regulatory and Licensing Section, Bureau of Fire Prevention, Division of State Fire Marshal, 200 East Gaines Street, Tallahassee, Florida 32399-0342.

(c) Each person, firm, copartnership, or corporation, or other entity seeking to register as a retailer shall complete and file with the Regulatory and Licensing Section Form DI4-1534, entitled, Certificate of Sparkler Registration – Retailer, which is hereby adopted and incorporated by

d. A statement that the audit was performed in accordance generally accepted governmental auditing standards, the Department's *Overhead Audit Guidelines*, 2002, and the *Government Auditing Standards*, Rev. August 1999, published by the U.S. Government Printing Office, which are hereby incorporated by reference.

2. Consultants who have been operating for less than one complete fiscal year, consultants who have reorganized to the extent that the most recent overhead audit does not reflect a currently valid overhead rate, and consultants who have established and operated an accounting system in accordance with the minimum standards provided in the Department's *Overhead Audit Guidelines*, 2002, for a period of less than one year, will prepare a projected overhead rate which will be supported by estimated revenues and expenditures for the first fiscal year's operations since organization, reorganization, or implementation of the acceptable accounting system. The Department's Office of Inspector General shall review the estimate and establish a provisional combined overhead rate, which may be used in Department contracts until the consultant has completed its first fiscal year of operation, at which time the consultant shall submit an annual overhead audit performed by an independent Certified Public Accountant or governmental agency.

3. Consultants requesting qualification for minor projects only, with contract fees under \$250,000, or consultants qualifying solely as certified public accountants, may submit a self-certified overhead report and statement describing their accounting system, certified by a principal, in lieu of an audit report and accounting system certification prepared by an independent Certified Public Accountant or governmental agency. Such report will be in the format specified in the Department's *Overhead Audit Guidelines*, 2002.

4. Proof of professional liability insurance by one of the following methods:

a. Submittal of a current certificate of professional liability insurance from a company or companies authorized to do business in Florida; or an unequivocal commitment letter from such an insurance company stating that professional liability insurance would be provided to the applicant; or

b. Submittal of a commitment letter from a financial institution meeting the requirements of Section 337.106, Florida Statutes, stating that a nonassignable and nontransferable irrevocable letter of credit, established pursuant to Chapter 675 and Section 337.106, Florida Statutes, and Rule Chapter 14-116, F.A.C., can be provided to the applicant in a minimum amount of \$250,000.

5. Consultants may elect to request qualification without submitting an overhead audit report, a self-certified report, or proof of liability insurance. Such consultants will be restricted to a sub-consultant role on Department contracts with contract fee less than \$250,000.

(4) Procedure.

(a) Within 30 days after receipt of a completed Request for Qualification Package for Professional Consultants, the Department shall examine the application and notify the applicant in writing of any apparent errors or omissions, and request any additional information required by the Department to properly evaluate the application. The applicant shall submit any requested information to the Department within 30 days of receipt of the Department's request for such information. The Department shall process the application within 30 days after receipt of the requested additional information or correction of apparent errors or omissions. If the information is not provided within 30 days after receipt of the request, the application shall be processed with the information provided.

(b) Upon receipt of a complete application, the Department shall make such inquiries and investigations as deemed necessary to verify and evaluate the applicant's statements and determine competency for qualification.

(c) Information which the Department shall consider in determining whether a consultant is qualified to perform the types of work shall include:

1. Current license or registration as regulated by the State of Florida or national organizations, as appropriate;:

2. Personnel with appropriate experience and training as detailed in the type of work qualifications;:

3. Registration with the Florida Department Secretary of State, if the applicant is a corporation or limited partnership;:

4. History of suspension for failure to maintain adequate type of work performance grades with the Department in specified types of work;:

5. Integrity and responsibility, which shall include history of debarment or suspension from consideration for work with any other governmental entity.

6. History of conviction for contract crime pursuant to Section 337.165, Florida Statutes, and Rule 14-75.0071, F.A.C., by the applicant or its affiliate, including reapplication or reinstatement.

7. Employment of, or otherwise providing compensation to, any employee or officer of the Department.

8. Willfully offering an employee or officer of the Department any pecuniary or other benefit with the intent to influence the employee or officer's official action or judgment.

9. The acceptability of the supporting overhead, accounting system, and insurance information. An audit report prepared by an independent Certified Public Accountant or governmental agency. The audit report will be no more than six months old and will include the following:

a. A statement indicating the existence of an adequate accounting system that meets the Department's audit requirements, as evidenced by certification by an independent Certified Public Accountant or governmental agency. The system must be adequate to support all billings made to the Department and other clients.

b. An overhead statement and overhead rate for the most recently completed fiscal year.

c. A statement that the consultant's method of estimating costs for proposals is consistent with the accounting system.

d. A statement that the audit was performed in accordance with the criteria required by the Department and applicable generally accepted governmental auditing standards. Criteria will include compliance with the Department's *Overhead Audit Guidelines*, 2000, and the *Government Auditing Standards*, Rev. August 1999, published by the U.S. Government Printing Office, which are hereby incorporated by reference.

10. ~~Consultants who have been in business for less than one complete fiscal year, consultants who have reorganized to the extent that the most recent overhead audit does not reflect a currently valid overhead rate, and consultants who have established and operated an accounting system in accordance with the minimum standards provided in the Department's *Overhead Audit Guidelines*, 2000, for a period of less than one year, will prepare a projected overhead rate which will be supported by estimated revenues and expenditures for the first fiscal year's operations since organization, reorganization, or implementation of the acceptable accounting system. The Department's Office of Inspector General shall review the estimate and establish a provisional combined overhead rate, which may be used in Department contracts until the firm has completed its first fiscal year of operation, at which time the firm shall submit an annual overhead audit performed by an independent Certified Public Accountant or governmental agency.~~

11. ~~Consultants requesting qualification for minor projects only, with contract fees under \$250,000, or consultants qualifying solely as certified public accountants, may submit a self-certified overhead report and statement describing their accounting system, certified by a principal, in lieu of an audit report and accounting system certification prepared by an independent CPA or governmental agency. Such report will be in the format specified in the Department's *Overhead Audit Guidelines*, 2000. The requirements for an overhead audit and accounting system report will be waived for consultants requesting qualification for projects with contract fees under \$250,000 only, and who are individuals or sole proprietorships without employees.~~

12. Proof of professional liability insurance by one of the following methods:

a. Submittal of a current certificate of professional liability insurance from a company or companies authorized to do business in Florida; or an unequivocal commitment letter from such an insurance company stating that professional liability insurance would be provided to the applicant; or

b. Submittal of a commitment letter from a financial institution meeting the requirements of Section 337.106, Florida Statutes, stating that a nonassignable and nontransferable irrevocable letter of credit, established

pursuant to Chapter 675 and Section 337.106, Florida Statutes, and Rule Chapter 14-116, F.A.C., can be provided to the applicant in a minimum amount of \$250,000.

(d) If the Department intends to deny the application, or deny qualification for any type of work, the Department shall state in writing and with particularity the grounds or reasons for the denial, and shall inform the applicant of the right to a hearing pursuant to Section 120.57, Florida Statutes. Delivery of the Notice of Intent to Deny shall be made by certified mail or express delivery, return receipt, to the address listed in the applicant's application for qualification.

(5) Period of Validity of Qualification. Should the applicant be found to possess the prescribed qualification, the consultant will be randomly assigned a qualification ~~an~~ expiration date, by which qualification must be renewed annually.

(6) Changes in Qualification Status.

(a) A consultant shall submit a revised application in the event a change in the status of its firm occurs, including a change of ownership, a change in the form of the business entity under which the firm operates, a substantial change in manpower which affects the firm's qualifications to perform any type of work, or any other change which affects an element the Department considers under Rule 14-75.0022, F.A.C., when initially qualifying consultants. A revised application may be the basis for notice of agency action under Rule 14-75.0051, F.A.C.

(b) A consultant need not submit a revised application solely because of any change in the officers or the name of a corporation, but such information shall be certified to the Department within ten days of its occurrence.

(7) A consultant may apply for qualification up to three months prior to the expiration of an existing qualification.

Specific Authority 287.055, 334.044(2), 337.105 FS. Law Implemented 287.055, 337.107, 337.1075, 337.167 FS. History—New 3-29-89, Amended 1-2-91, 9-29-92, 2-22-94, 8-5-96, 1-17-99, 8-2-01, \_\_\_\_\_.

14-75.003 Minimum Technical Qualification Standards by Type of Work.

In the Request for Qualification Package, the consultant will certify the standard types of work for which the consultant meets the minimum qualification requirements as stated in this section. The Department will periodically audit a sampling of qualified consultants to ensure compliance with the qualification requirements, and consultants found to misrepresent their qualifications will be subject to suspension of qualifications with the Department in accordance with Rule 14-75.0051, F.A.C. The following criteria apply to the qualification of professional consultants:

(1) No professional or key personnel may be listed as employees of more than one consultant currently qualified with the Department. If a newly listed employee has been employed by a consultant currently qualified with the Department, within the 12 months immediately preceding the application, the

application must so indicate and provide the date that such employee was hired by the consultant. The employee shall be deleted from the personnel list of the previous employer's firm, and if such deletion affects the qualification status of the previous employer, notice shall be given to said previous employer pursuant to Rule 14-75.0051, F.A.C.

(2) The Department shall not recognize joint ventures for purposes of qualifying consultants to work for the Department. Each individual or firm will be annually qualified based upon individual or firm capability.

(3) Appropriate type of work codes will be included in each public notice regarding needed professional services. Persons or firms responding to such notices must be qualified with the Department in the advertised types of work, unless otherwise specified in the notice. Subconsultants qualified with the Department may be used to meet the above these requirements, where appropriate, so long as the responding consultant is also qualified with the Department in some standard type of work.

(4) All personnel listed by the consultant in order to qualify for any type of work or sub-category must be bona fide employees of the firm, or under exclusive contract to the firm, must be actively engaged in the type of work for which they are listed, and must have work experience demonstrating an ability to perform the activities normally associated with the particular type of work or sub-category for which qualification is sought. The Department must be notified within 10 days of the departure from the firm of personnel used to prequalify the firm in any type of work.

(5) ~~A determination of qualification will be based on information submitted with the application, including résumés; verification of professional registration, certification, and degree requirements where appropriate; and a check of references as needed.~~ Qualification may be sought in any of the following categories or sub-categories:

(a) Group 2. Project Development and Environmental (PD&E) Studies.

1. Type of Work. This work group involves the study and evaluation of the social, economic, and environmental effects on the human and natural environment by transportation systems and alternate transportation modes in meeting identified community transportation and growth needs. Such work also includes the evaluation of alternate transportation corridors, and location/design alternatives within viable corridors. The work involves preparing engineering studies to address economic and engineering feasibility of alternatives, level of service, traffic capacity, geometrics, soils, structures, intersection and interchange improvements, etc., to accommodate travel demand at an acceptable level of service. Additionally, the work entails the detailed study and preparation of environmental reports and documents which evaluate the physical, natural, social, cultural, economic, and human impacts of the alternatives under consideration upon the

adjacent community. Public involvement and interagency coordination are integral parts of the assessment process. Potential mitigations that are identified in based on the studies and public involvement are evaluated and incorporated into the alternatives as appropriate.

2. Qualification Requirements. Group 2: ~~Project Development and Environmental (PD&E) Studies.~~ This work group requires a professional engineer, a natural scientist, and a social scientist. ~~The professional engineer must be registered with the Florida State Board of Professional Engineers and must have managed and completed at least one PD&E study or similar study, having a background or experience in civil engineering, including roadway design and, proficiency in environmental engineering. This and experience must include conducting in environmental studies for impact assessment of transportation projects, involving highway projects and including experience with public involvement issues. The, a natural scientist must have with a four-year university or college degree and experience in a natural science such as ecology, biology, environmental science, or wildlife management and have completed at least one PD&E study or similar study in a natural science area such as defined above. The, and a social scientist must have with a four-year university or college degree and experience in a social science such as psychology, sociology, statistics, political science, geography, urban planning demographics, archeology, or economics and have completed at least one PD&E study or similar study in a social science area such as defined above.~~

(b) Group 3. Highway Design – Roadway. This work group involves the production and/or review of highway plans, related design studies, creative utilization of roadsides, and the accommodation of utilities and utility crossings (where appropriate), which conform with acceptable design standards and which meet the specific requirements of the Department or the Federal Highway Administration.

1. This group includes the following sub-categories of qualification:

a. Type of Work 3.1: Minor Highway Design. This type of work includes roadway design for ~~small and/or rural RRR and minor widening and projects; repair, resurfacing, and rehabilitation~~ projects which do not involve major reconstruction, new curb and gutter, or substantial capacity improvements; ~~and associated activities, such as drainage, utility relocation, minor traffic operations improvements, miscellaneous minor design services, etc.~~ This work type also includes interstate projects involving resurfacing only. Projects of this type generally involve minor drainage, utility relocation, traffic operations improvements, miscellaneous design services, etc.

b. Type of Work 3.2: Major Highway Design. This type of work includes roadway design for all urban arterial highways with new curb and gutter and new or major reconstruction rural projects with substantial capacity improvements such as

~~adding two or more lanes, including the design of enclosed drainage systems. Projects of this~~ This type generally include ~~of work may include utility relocation plans, drainage design and permitting stormwater permits, maintenance of traffic plans, traffic engineering applications, intersection details, etc.~~

c. Type of Work 3.3: Controlled Access Complex Highway Design. This type of work includes design of new and complex reconstruction projects on controlled access facilities including interstates, interchanges, and expressways ~~is applicable to expressways, limited access facilities, interchanges, and interstate highways. Projects of this~~ This type generally include ~~of work includes all types of new roadway and reconstruction work on complex projects, including~~ the use of complex geometrics, substantial drainage evaluation and design features, permitting, traffic engineering applications, utility relocation plans, maintenance of traffic plans, interchange design, etc.

## 2. Qualification Requirements.

a. Type of Work 3.1: Minor Highway Design. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having proficiency in civil engineering and at least one year of post-registration experience in the design and preparation of plans for highways demonstrated plans, production, and design experience in the activities normally associated with this category.

b. Types of Work 3.2 and 3.3: Major Highway Design and Controlled Access Complex Highway Design. These types of work require at least two professional engineers, registered with the Florida State Board of Professional Engineers, having proficiency in civil engineering and at least two years of post registration experience in the design and preparation of plans for highways, one year of which must be in the category for which qualification is sought demonstrated plans, production, and design experience in the activities normally associated with the category.

(c) Group 4. Highway Design – Bridges. This work group involves the production and/or review of competently engineered bridge plans which conform with acceptable design standards and which meet the specific requirements of the Department or the Federal Highway Administration.

1. This group includes the following sub-categories of qualification:

a. Type of Work 4.1: Minor Bridge Design. This type of work includes the design of conventional, non-complex bridges and the structural design of other highway-related structures such as non-standard concrete box culverts and retaining walls. Generally, this group is limited to designs utilizing conventional foundation types, simple geometry, and having total estimated bridge(s) plan area(s) no greater than 100,000 square feet (sum of the areas of multiple bridges). Typically, this includes design for the construction, rehabilitation, widening, or lengthening of box culverts,

retaining walls, cast-in-place or precast prestressed short span slab type bridges, simple span prestressed concrete beam bridges, and simple span I-beam bridges.

b. Type of Work 4.2: Major Bridge Design. This type of work includes the design of structures that cannot be included in Type of Work 4.1 because of deck area or complex geometry (curvature, skew, or variable width), complexity of design (including bridges with statically indeterminate superstructure components) spans estimated to be less than 300 feet, non-conventional substructures, substructures requiring ship impact design, and railroad bridges. Typically, this includes design for the construction, rehabilitation, widening, or lengthening of bridges over navigable waters, bridges carrying rail traffic, steel box girders, structurally-continuous superstructures, longitudinally post-tensioned concrete bridges, and curved girder bridges.

c. Type of Work 4.3: Complex Bridge Design. This type of work includes the design of unique, specialized, and uncommon types of designs as determined by the Department. Typically, this includes design for the construction, rehabilitation, widening, or lengthening of bridges with estimated span(s) longer than 300 feet, tunnels, cable-stayed bridges, suspension bridges, steel truss spans, concrete arch bridges, and bridges requiring unique analytical methods or other design features not commonly addressed in AASHTO publications.

d. Type of Work 4.4: Movable Span Bridge Design. This type of work includes the design of bascule bridges and other movable bridges. The work includes all structural, electrical, and mechanical requirements. Typically, this includes design for the construction, rehabilitation, widening, or lengthening of bascule bridges, swing bridges, and vertical lift bridges.

## 2. Qualification Requirements.

a. Type of Work 4.1: Minor Bridge Design. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having a minimum of five years structural bridge design experience; and two structural design engineers/technicians having a minimum of three years each of bridge design experience. The professional engineer shall be responsible for quality assurance of all the design services.

b. Type of Work 4.2: Major Bridge Design. This type of work requires at least two professional engineers, registered with the Florida State Board of Professional Engineers, having a minimum of five years each of structural bridge design experience in continuous span bridges (steel plate girder and box girder), post-tensioned continuous concrete spans, and foundations subject to significant lateral loads; and three or more structural design engineers/technicians having a minimum of three years each of bridge design experience. The professional engineers shall be responsible for the quality assurance of all the design services.

c. Type of Work 4.3: Complex Bridge Design. This type of work requires at least three professional engineers, registered with the Florida State Board of Professional Engineers, having a minimum of five years each of structural bridge design experience in categories as listed in Major Bridge Design, as well as spans estimated to be greater than 300 feet consisting of steel truss or arch, or steel or concrete cable-stayed and suspension type structures; and four or more structural design engineers/technicians having a minimum of three years each of bridge design experience. The professional engineers shall be responsible for the quality assurance of all design services.

d. Type of Work 4.4: Movable Span Bridge Design. This type of work requires qualification in type of work 4.2, and also requires an electrical engineer and a mechanical engineer both registered with the Florida State Board of Professional Engineers at least two professional engineers, registered with the Florida State Board of Professional Engineers, having a minimum of five years each of movable span bridge structural design experience; and one or more professional engineers, registered with the Florida State Board of Professional Engineers, having appropriate experience in electrical power distribution; controls systems; hydraulic drive and control systems; and mechanical gearing, mechanism, and machinery. In addition to the experience requirements for type of work 4.2, the professional engineers will have at least five years of movable bridge structural design experience and the three engineers/technicians shall have a minimum of three years of movable bridge design experience. At least one of the professional engineers or engineer/technicians will have experience in the design of at least three movable bridge electrical control systems within the last 10 years and one will have experience in the design of at least three movable bridge drive systems within the last 10 years. The electrical engineer will have experience in the design of at least three movable bridge electrical control systems within the last 10 years and experience with the commonly used bridge leaf motion control techniques used within the last 30 years. The mechanical engineer will have experience in the design at least three movable bridge drive systems within the last 10 years and experience with the commonly used bridge drive systems used within the last 30 years.

(d) Group 5. Bridge Inspection. This work group is defined as the on-site inspection, load rating, and preparation of bridge inspection reports in accordance with approved federal and state statutes, policies, guidelines, and standards. Availability of required equipment will also be considered, along with level of experience in evaluating qualification.

1. This group includes the following sub-categories of qualification:

a. Type of Work 5.1: Conventional Bridge Inspection. This type of work includes inspection and load rating of all types of bridges except movable bridges, box girders, bulb-tees,

suspension, cable stayed, post-tensioned segmental concrete, large steel trusses, high-rise structures, and other complex bridge structures.

b. Type of Work 5.2: Movable Bridge Inspection. This type of work includes inspection and load rating of all types of movable structures (vertical lift, swing span, and bascule), utilizing specialty skills in inspection, load rating, and design of mechanical and electrical equipment.

c. Type of Work 5.3: Complex Bridge Inspection. This type of work includes inspection and load rating of all complex bridges except movable bridges. Typical types of structures will include box girders, bulb-tees, suspension, cable stayed, post-tensioned segmental concrete, high-rise structures, and large steel trusses.

d. Type of Work 5.4: Bridge Load Rating. This type of work involves the process of determining the live load capacity of a structure.

2. Qualification Requirements. Types of ~~w~~Work 5.1, 5.2, 5.3, and 5.4: Bridge Inspection. This type of work requires at least one professional engineer registered with the Florida State Board of Professional Engineers, having experience appropriate to the sub-category requested. For types of work 5.1, 5.2, and 5.3, the engineer must have participated in field inspections meeting the requirements of the National Bridge Inspection Standards for the structure types in the sub-category for which qualification is requested. For type of work 5.4, the engineer must have performed a load rating of a bridge.

(e) Group 6. Traffic Engineering and Operations Studies. This work group includes the performance of studies of existing traffic problems within an urban area; and the determination of the most effective way to improve traffic flow and safety through the application of traffic engineering techniques and other corrective measures. It includes street and signal inventories; intersection and crossing diagrams; highway lighting information at nighttime high accident locations; and analysis of accident reports, traffic counts, travel times, parking practices, and laws and ordinances affecting transportation. This work group is limited to generalized description and schematic layouts of the proposed improvements, including right of way requirements, and generally does not include the preparation of construction plans and the writing of specifications for traffic system projects.

1. This group includes the following sub-categories of qualification:

a. Type of Work 6.1: Traffic Engineering Studies. This type of work is defined as the study of operational problems and the determination of traffic operational improvements for efficiency and safety. This work group includes studies for the following: signing, marking, and signal inventories; traffic counts; intersection and collision diagrams; signal warrant and intersection analysis; and travel time and delay studies. Many of the traffic engineering studies require knowledge and

experience with traffic engineering computer programs such as SOAP, PASSER, and TRANSYT. This type of work requires the consultant to make specific recommendations to improve the operational efficiency at a particular location.

b. Type of Work 6.2: Traffic Signal Timing. This type of work is defined as the timing of traffic signals to improve traffic flow and safety. Department approved traffic engineering computerized timing programs shall be used. This type of work includes data collection, intersection analysis and documentation, section analysis and documentation, timing implementation and fine tuning, and timing evaluation.

c. Type of Work 6.3: Intelligent Transportation Systems Analysis, Design, and Implementation. This type of work is defined as the use of electrical engineering, electronics engineering, computer science, and traffic engineering to analyze, design, and implement real-time intelligent transportation systems. This includes system performance and cost analysis, system hardware and software design, development of management plans, system installation and operation, system testing and debugging, system documentation, and the training of operations personnel.

## 2. Qualification Requirements.

a. Type of Work 6.1: Traffic Engineering Studies. This type of work requires a professional engineer, registered with the Florida State Board of Professional Engineers, having at least two years of post-registration ~~demonstrated~~ traffic studies experience.

b. Type of Work 6.2: Traffic Signal Timing. This type of work requires a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated traffic signal timing experience in the application and interpretation of traffic flow and signal timing models.

c. Type of Work 6.3: Intelligent Transportation Systems Analysis, Design, and Implementation. This type of work requires a professional engineer, registered with the Florida State Board of Professional Engineers, having at least three years of post-registration ~~demonstrated~~ experience in the technical skill area for which qualification is requested ~~activities associated with intelligent transportation systems. These Restrictions to the type of intelligent transportation systems work may apply depending on the consultant's demonstrated proficiency or documented experience in one or more of the following defined technical skill areas are as follows:~~

(I) Intelligent Transportation Systems Analysis and Design. This type of work requires experience involving ~~in~~ the production of competently engineered design, and preparation of construction plans and specifications for traffic control systems, freeway operations systems, dynamic message sign systems, closed circuit television camera systems, detection systems, and automatic vehicle identification systems. The

~~consultant must also demonstrate~~ experience must also involve ~~with~~ traffic engineering software applications, freeway control software, and computerized timing programs.

(II) Intelligent Transportation Systems Implementation. This type of work requires ~~documented~~ experience involving ~~with~~ realtime traffic control systems, system installation and testing, and knowledge of Construction Engineering Inspection (CEI) requirements for intelligent transportation construction projects.

(III) Intelligent Transportation Traffic Engineering Systems Communications. This type of work requires documented experience involving ~~in~~ electronic engineering of system hardware, digital system design, specifications, and utilization. The ~~applicant must show~~ experience must involve ~~in~~ electrical engineering of power and communications, including power distribution, standby power supply, lightning protection, hardware interconnect, fiber optic networks, wireless communications networks, local area networks, wide area networks, Internet communications, data recording, data transmission, modulating, and multiplexing techniques.

(IV) Intelligent Transportation Systems Software Development. This type of work requires documented experience in software development, specifically with intelligent transportation systems applications, and computer science (realtime process control software systems, including realtime executive Input/Output (I/O) processing and priority interrupt based processing). The ~~applicant must also show~~ experience must also involve ~~with~~ system software testing and debugging, data base software, graphical user interfaces, system documentation, and training of operations personnel.

(f) Group 7. Traffic Operations Design. This work group is defined as the production of competently engineered designs, and preparation of construction plans and specifications for a variety of traffic operations type work.

1. This group includes the following sub-categories of qualification:

a. Type of Work 7.1: Signing, Pavement Marking, and Channelization. This type of work includes designing, preparing construction plans, and writing specifications for signing, pavement marking, and channelization. Such work involves structural support and foundation calculations, and requires a basic knowledge of traffic engineering studies.

b. Type of Work 7.2: Lighting. This type of work includes designing, preparing construction plans, and writing specifications for roadway lighting improvements. Such work involves lighting calculations, pole location, foundation design, electrical circuit calculations, and power supply and distribution design, and requires a basic knowledge of traffic engineering studies.

c. Type of Work 7.3: Signalization. This type of work includes designing, preparing construction plans, and writing specifications for traffic signalization. Such work involves capacity calculations, signal operating plan development,

timing calculations, equipment location, pole and foundation designs, etc., and requires a basic knowledge of traffic engineering studies and traffic signal retiming.

2. Qualification Requirements. Qualification for this work group requires a professional engineer, registered with the Florida State Board of Professional Engineers, who has served in responsible charge of at least one project in the type of work as defined above, for which qualification is requested.

~~a. Type of Work 7.1: Signing, Pavement Marking, and Channelization. This type of work requires a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated experience in this category of work.~~

~~b. Type of Work 7.2: Lighting. This type of work requires the consultant to demonstrate experience in the areas of illumination and electrical engineering, as well as to employ a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated lighting plans design and production experience.~~

~~e. Type of Work 7.3: Signalization. This type of work requires the consultant to demonstrate experience in the area of electrical engineering, as well as to employ a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated experience in the design and production of traffic signalization plans.~~

(g) Group 8. Surveying and Mapping. This work group includes surveying and mapping, as defined in Rule Chapter 61G17-6, F.A.C., required for the land acquisition, design, and construction of transportation projects.

1. This group includes the following sub-categories of qualification:

a. Type of Work 8.1: Control Surveying. This type of work provides horizontal and/or vertical control data to a specified standard for all Department projects.

b. Type of Work 8.2: Design, Right of Way, and Construction Surveying. This type of work includes boundary surveys, right of way surveys, as-built surveys, construction layout surveys, topographic surveys, hydrographic surveys, quantity surveys, record surveys, mean high water line surveys, and special purpose surveys.

c. Type of Work 8.3: Photogrammetric Mapping. This type of work includes surveys and the preparation of maps using photogrammetric methods.

d. Type of Work 8.4: Right of Way Mapping. This type of work includes the production of right of way related maps, as well as the preparation of legal descriptions and sketches of legal descriptions based on information supported by the applicable surveys or maps defined in the preceding types of work, title searches, and other documents.

2. Qualification Requirements: To qualify to perform surveying and mapping services as defined above, the consultant must employ at least one professional surveyor and mapper, registered with the Florida Board of Professional

Surveyors and Mappers, having at least one year of documented post registration experience in the specific type of work for which qualification is requested. The consultant must also employ at least two additional technical personnel, each having at least one year of documented experience in the specific type of work for which qualification is requested. In addition, the consultant must submit a written statement of intent to use equipment and software meeting the accuracy, formatting, and other requirements defined in Department policies, procedures, manuals, or handbooks, related to the type(s) of work for which qualification is sought.

(h) Group 9. Soil Exploration, Material Testing, and Foundations.

1. This group includes the following sub-categories of qualification:

a. Type of Work 9.1: Soil Exploration. This type of work includes acquisition and reporting of subsurface material, hydrological, and environmental information to be used for the planning, design, construction, and performance of transportation facilities. The methodology involved includes on-site investigations by performing borings, Standard Penetration tests, Cone Penetration tests, and rock coring; the use of specialized test equipment, such as the field vane, pressuremeter, or dilatometer; and the use of geophysical methods. Also included is the field classification of materials and acquisition of soil and rock samples.

b. Type of Work 9.2: Geotechnical Classification Lab Testing. This type of work includes conducting tests on soil and rock according to Department approved specifications for the purpose of classifying materials. The methodology involved includes testing moisture content, grain size, Atterberg limits, compaction, and Limerock Bearing Ratio (LBR) tests.

c. Type of Work 9.3: Highway Materials Testing. This type of work includes sampling and testing various materials and reporting results and recommendations. Work will be performed at mines, quarries, mills, refineries, processors, producers, fabricators, constructors, laboratories, and project construction sites; some of which will be outside the State of Florida. Materials to be tested include aggregates; concrete products; cements and additives, including water, epoxies, and curing compounds; bituminous materials, mixtures, additives, and joint fillers; metals; galvanizing, rubber, paints, and other coatings; and soils and limerock.

d. Type of Work 9.4: Foundation Studies. This type of work includes producing reports which include selection of the type (footings, piles, drilled shafts, etc.) and depth of foundation for bridges and other structures; bearing capacity and the predicted settlement of the selected foundation; slope stability; surcharge or stage construction time schedules for construction over soft ground; pile load tests; soil treatment; stabilization; and direction of field instrumentation installation, including the interpretation of data obtained and other

foundation studies using the applicable Department Standard Specifications for Road and Bridge Construction, and Federal Highway Administration guidelines and checklist.

e. Type of Work 9.5: Geotechnical Specialty Lab Testing. This type of work includes conducting tests on soil and rock according to Department approved specifications for the purpose of identifying their physical properties. The methodology involved includes testing permeability, consolidation, unconfined compression, direct shear, splitting tensile, and triaxial.

2. Qualification Requirements. For all sub-categories this work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having a minimum of five years of demonstrated experience in the activities normally associated with the category(ies) under consideration.

a. Type of Work 9.1: Soil Exploration. The consultant must ~~have document the availability of~~ equipment (in-house or subcontracted) necessary to perform the work. ~~Documentation of availability includes equipment listings for exploration subcontractors who will be used on Department projects.~~ It should be noted that the qualified consultant shall be solely responsible for any and all explorations work, whether performed by the consultant or its subcontractor.

b. Type of Work 9.2: Geotechnical Classification Lab Testing. The consultant must have at least one technician with a minimum of two years of experience in geotechnical testing and LBR Technician qualification under the Department's Construction Training Qualification Program. In addition, the consultant must have in-house the following equipment: oven, balance, stirring apparatus, hydrometer bulb, hydrometer bath, thermometer, sieves, sieve shaker, liquid limit device, grooving tool, pycnometer, molds, compaction hammer, straightedge, and LBR loading device with penetration piston.

c. Type of Work 9.3: Highway Materials Testing. Among the consultant's personnel, at least one individual must possess LBR Technician qualification, one individual must possess Asphalt Plant Level I qualification, one individual must possess Concrete Field testing Technician Level I qualification under the Department's Construction Training Qualification Program, and one individual must possess nuclear gauge operator certification as provided by a gauge manufacturer. In addition, the consultant must have (in-house) at least the following test equipment: oven, balances, sieves, mechanical shaker, colorimetric kit, compression testing machine, moisture curing room or tanks, slump cone, air meters, gravity apparatus, thermometers, pycnometer, pulverizing apparatus, jaw crusher apparatus, splitter or quartering device, Los Angeles machine, flowmeter, water bath, ~~vacuum extractor,~~ muffle furnace, compaction hammer, molds LBR loading devices with penetration piston, soak tanks, ~~superpave gyratory apparatus,~~ and ignition furnace.

d. Type of Work 9.5: Geotechnical Specialty Lab Testing. The consultant must have at least one staff member with at least four years of experience performing the tests, or an equivalent bachelor's degree. In addition, the consultant must have (in-house) at least the following test equipment: oven, balances, permeameter, consolidation load device, load frame, direct shear machine, triaxial panel, and a triaxial cell.

(i) Group 10. Construction Engineering Inspection. This work group involves the monitoring and inspection of the work required under various construction contracts. This type of work includes coordinating with other public agencies, utilities, and affected property owners.

a. Type of Work 10.1: Roadway Construction Engineering Inspection. This type of work includes the administration and inspection of single or multiple construction contracts on rural, municipal, urban, and interstate facilities; including necessary minor bridges as defined in Type of Work 3.1.

b. Type of Work 10.2: Major Bridge Construction Engineering Inspection. This type of work includes the administration and inspection of single or multiple construction contracts involving the construction of major bridges as defined in Types of Work 4.2, 4.3, and 4.4.

c. Type of Work 10.3: Construction Materials Inspection. This type of work includes conducting inspections and investigations of various highway materials or products, together with the proper recording, analysis, and reporting of results and recommendations. The work will be performed at mines, quarries, mills, refineries, processors, producers, fabricators, constructors, and project construction sites; some of which will be outside the State of Florida.

## 2. Qualification Requirements.

a. Type of Work 10.1: Roadway Construction Engineering Inspection. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having at least two years of responsible charge experience as a project engineer on a roadway construction inspection project.

b. Type of Work 10.2: Major Bridge Construction Engineering Inspection. This type of work requires a minimum of three professional engineers, registered with the Florida State Board of Professional Engineers. One of these engineers must have at least five years of demonstrated major bridge construction inspection experience.

c. Type of Work 10.3: Construction Materials Inspection. This type of work requires a minimum of one professional engineer, registered with the Florida State Board of Professional Engineers, having at least three years of responsible experience in bridge or roadway construction inspection.

(j) Group 11. Engineering Contract Administration and Management.

1. Type of Work: Engineering Contract Administration and Management. This type of work is defined as the administration and management of engineering activities. Consultants applying for qualification in this type of work must be determined qualified in a number of categories under this rule chapter. Examples of assignments made to a consultant qualified for this type of work are:

a. Engineering analysis of transportation facility deficiencies; and the preparation of an engineering scope of services and ~~manhour~~ staff hour estimate to correct those deficiencies.

b. Project schedule development for planning, environmental, design, and construction engineering inspection activities.

c. Review and analysis of professional engineering issues contained in statements of qualification and technical proposals submitted by consultants competing for professional contracts.

d. Conduct Scope of Service meetings with professional consultants.

e. Preparation of contractual agreements for professional services in accordance with Department policies and procedures.

f. Supervision and management of engineering consultants on individual projects, responding to their technical questions, and reviewing their work in progress and completed work.

g. Representing the Department during professional service negotiations with consultants, utilities, and other entities.

h. Other professional engineering activities associated with the acquisition and management of professional consulting services.

2. Qualification Requirements. Engineering Contract Administration and Management. To be determined qualified for this type of work, a consultant must be qualified by the Department in the following Groups and Types of Work under this rule chapter: Group 3, Types of Work 4.1, 4.2, and 6.1, Group 7, and Type of Work 10.1. Firms deemed qualified in these groups and requesting qualification for Group 11 will be deemed qualified without a requirement to submit additional qualification documentation or materials.

(k) Group 13. Planning. This work group involves the determination of future actions necessary to address the need for transportation facilities and services. The work effort may involve planning both short range (up to 10 years) and long range (more than 10 years) time periods, and may involve any or all typical activities of planning, including development and refinement of processes and procedures; development and analysis of policies, goals, and objectives; data collection and analysis; issue analysis; development and use of forecasting and other models; analysis of transportation/land use relationships; assessing the impact that planning transportation improvements may have on private property; establishment of

standards and performance criteria; forecasts of transportation and transportation related data; determination and analysis of alternatives; multimodal/intermodal tradeoff analysis; analysis of alternatives; multimodal/intermodal tradeoff analysis; development of recommended plans and courses of action; financial feasibility; assessment of the impacts of growth management requirements on transportation; and public participation and coordination with other planning processes and plans.

1. This group includes the following subcategories of qualification:

a. Type of Work 13.1: Reserved.

b. Type of Work 13.2: Reserved.

c. Type of Work 13.3: Policy Planning. This type of work involves transportation and transportation related planning activities in the broadest or most general way. Planning in this sub-category usually occurs at levels where difficult trade-offs in the use and allocation of resources must be made and where many people will be affected in important but often subtle ways. Hence, the ability to use judgement, both political and technical/professional, is very important, as is the ability to effectively communicate using a variety of media. Included in this sub-category are development and refinement of statewide transportation plans or plan components, and activities involving the determination of the impacts and implications of policies, legislative issues, processes, and standards on a wide variety of subjects, including: transportation facilities and services; land use; the environment; the private sector; and the public. ~~Planning in this sub-category usually occurs at levels where difficult trade-offs in the use and allocation of resources must be made and where many people will be affected in important but often subtle ways. Hence, the ability to use judgement, both political and technical/professional, is very important, as is the ability to effectively communicate using a variety of media.~~

d. Type of Work 13.4: Systems Planning. This type of work deals with planning for entire systems (one or several modes) of transportation covering an entire geographic area such as the development of long range transportation plans for an MPO, county, or region; or the development of an ITS Strategic Plan for a region. Included in this sub-category are activities involving the systematic analysis of future demand for transportation facilities and services, leading to recommendations for addressing that demand. Typical activities include: data collection and analysis, including analysis of transportation/land use relationships; estimation, forecasting, and assignment of travel demand, including modeling the characteristics and use of transportation systems; mode split and multimodal tradeoff analysis; development of ITS strategies; impact analysis; evaluation and decision making; cost analysis and financial feasibility; and modal coordination and management. Although recommendations as to the type, number, and approximate location of transportation

facilities are to be made, this sub-category does not include determination of the precise location or design of facilities or systems.

e. Type of Work 13.5: Subarea/Corridor Planning. This type of work deals with planning for entire systems or portions of systems (one or several modes) of transportation covering a smaller portion of a geographic area than Systems Planning or for a specific transportation corridor. Included in this sub-category are activities involving the systematic analysis of future demand for transportation facilities and services, leading to recommendations for addressing that demand. Typical activities, usually performed at a more detailed level than with systems planning, include data collection and analysis, as well as: analysis of transportation/land use relationships; estimation, forecasting, and assignment of travel demand, including modeling the characteristics and use of transportation systems; mode split and multimodal tradeoff analysis; development of ITS strategies to maximize the operation of the corridor; impact analysis; evaluation and decision making; cost analysis; and financial feasibility; and modal coordination and management. Although recommendations as to the type, number, and approximate location of transportation facilities are to be made, this sub-category does not include determination of the precise location or design of facilities or systems.

f. Type of Work 13.6: Land Planning/Engineering. This type of work involves planning and engineering in support of assessing the impacts that proposed transportation improvements may have on private property. Included in this sub-category are activities involving site analysis for compliance with comprehensive plans, local ordinances, and appraisers' cost to cure; reviewing and providing engineering opinions of site plans for feasibility and conformance with applicable codes and regulations; assessing the impact to drainage and environment; and preparing site plan and studies which may encompass parking layout, vehicle use areas, and general site consideration in conformance with applicable codes, laws, and regulations.

g. Type of Work 13.7: Transportation Statistics. This type of work involves data collection, analysis, editing, processing, and reporting to support planning, design, and maintenance of the transportation network. This type of work also involves the construction, replacement, or repair of traffic monitoring equipment including sensors (either installed in, or along the roadway) and associated equipment and appurtenances. The construction of traffic monitoring sites may include design, preparing construction plans, writing specifications, and construction engineering supervision. Special traffic counts may also be performed under this activity to support production and development activities and special needs.

## 2. Qualification Requirements

a. Type of Work 13.1: Reserved.

b. Type of Work 13.2: Reserved.

c. Type of Work 13.3: Policy Planning. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having at least five years training and experience in areas directly related to policy planning; or at least one professional engineer, registered with the Florida State Board of Professional Engineers, with at least one employed planner having training and experience in areas directly related to policy planning; or at least one planner, certified with the American Institute of Certified Planners, having training and experience in areas directly related to policy planning.

d. Type of Work 13.4: Systems Planning. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having at least five years training and experience in areas directly related to systems planning; or at least one professional engineer, registered with the Florida State Board of Professional Engineers with at least one employed planner having at least five years training and experience in areas directly related to systems planning; or at least one planner, certified with the American Institute of Certified Planners, having at least five years training and experience in areas directly related to systems planning.

e. Type of Work 13.5: Subarea/Corridor Planning. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having at least one year of post-registration training and experience in areas directly related to subarea/corridor planning; or at least one professional engineer, registered with the Florida State Board of Professional Engineers, with at least one employed planner having at least one year of training and experience in areas directly related to subarea/corridor planning; or at least one planner, certified with the American Institute of Certified Planners, having at least one year of training and experience in areas directly related to subarea/corridor planning.

f. Type of Work 13.6: Land Planning/Engineering. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having a minimum of three years of training and experience in comprehensive planning or areas directly related to assessing impacts to private property; or at least one professional engineer, registered with the Florida State Board of Professional Engineers, with at least one employed planner having a minimum of three years of training and experience in comprehensive planning or areas directly related to assessing impacts to private property; or at least one planner, certified with the American Institute of Certified Planners, a minimum of three years of having training and experience in comprehensive planning or areas directly related to assessing impacts to private property.

g. Type of Work 13.7: Transportation Statistics. This type of work requires at least one professional engineer registered with the Florida State Board of Professional Engineers, having at least one year of post-registration demonstrated experience in activities associated with the collection of traffic data of a statistical nature that can be used in the Department's databases data bases such as the Rail-Highway Crossing Inventory (RHCI), Traffic Characteristics Inventory (TCI), and Roadway Characteristics Inventory (RCI), or used to support other Department activities such as highway design. In addition, either the same engineer, or an additional professional engineer registered with the State Board of Professional Engineers with at least one year of post-registration demonstrated experience in the construction, replacement, or repair of traffic monitoring equipment, including sensors (either installed in, on, or alongside the roadway) and associated equipment and appurtenances, and maintenance of traffic is required.

(l) Group 14. Architect.

1. Type of Work. This type of work is defined as the rendering of services in connection with the design and construction of a structure or group of structures which have as their principal purpose human habitation or use, and the utilization of space within and surrounding such structures. These services include planning; providing preliminary study designs, drawings, and specifications; architectural supervision; job-site inspection; and administration of construction contracts.

2. Qualification Requirements. This type of work requires at least one architect, registered with the Florida State Board of Architecture and Interior Design, with a minimum of documentation indicating five years of post-registration experience in commercial design and favorable references.

(m) Group 15: Landscape Architect.

1. Type of Work. This type of work is defined as the rendering of services in connection with the design and construction of landscape projects. These services include planning; site planning; providing preliminary study designs, drawings, and specifications; landscape architectural supervision; job-site inspection; and administration of construction contracts.

2. Qualification Requirements. This type of work requires at least one landscape architect, registered with the Florida State Board of Landscape Architecture, with at least five years of post-registration experience in landscape architecture projects documentation of past projects and favorable references.

(p) Group 20. Appraisal Services.

1. This type of work is defined as the services provided by an appraiser to the State of Florida Department of Transportation. Appraisal Services include: "Appraisal Assignment" in which denoting an engagement for which a person is employed or retained to act, or could be perceived by third parties or the public as acting, as an agent or a disinterested third party in rendering objective and an unbiased

analyses analysis, opinions, reviews, or conclusions relating to the nature, quality, value, or utility of specified interests in, or aspects of, identified real property; "Analysis Assignment" denoting limited appraisal services that relate to the Department's specifically identified needs such as estimates of project or parcel costs, specialized studies of project effects or influences, market activity, market conditions, trends and adjustments, financing, and feasibility as well as analyses, opinions and conclusions relating to such activities. Such appraisal services must be in compliance with Appraisal services require a written statement, independently and impartially prepared, which meets the Uniform Standards of Professional Appraisal Practice (USPAP), as incorporated by reference in Section 475.628, Florida Statutes. Due to the nature of this work, the Department has developed the following sub-categories. Consultants may be restricted to certain of these sub-categories based on the level of their experience and availability of personnel; and "Appraisal Review" denoting the act or process of critically studying an appraisal report prepared by others.

1. Group 20.1 Appraisal

2. Group 20.2 Appraisal Review

2.3. Qualification Requirements. These types of work requires a minimum of one person licensed as a State Certified General Real Estate Appraiser issued by the Florida Department of Business and Professional Regulation, with a minimum of three years experience in appraising for eminent domain purposes. For Group 20.2, the certifying appraiser shall, in addition to the required three years experience in appraising for eminent domain purposes, have a minimum of three years experience in appraisal review for eminent domain purposes.

(o) Group 21. Acquisition, Negotiation, Closing, and Order of Taking.

1. Type of Work. This work involves notifying all affected parties of their rights pursuant to Section 73.015 337.271, Florida Statutes; reviewing and verifying all title work; reviewing right of way maps and construction plans and verifying that all legal descriptions, right of way maps, and appraisals correspond; conducting surveys to identify all businesses operating on property being acquired interviews with business owners to determine eligibility for potential business damage claims and obtaining appropriate documentation; preparing real property/personal property inventories; making purchase offers including the approved market value estimate and, when applicable, approved business damages, and conducting negotiations in accordance with state policies and procedures and all applicable laws; when applicable, making business damage counteroffers and conducting negotiations to settle business damage claims in accordance with state policies and procedures; participating in the non-binding pre-litigation mediation process; preparing recommendations for administrative settlements; preparing and

processing invoices for requesting warrants for settlements, and order of taking deposits; conducting all necessary closings as well as preparation, styling, and filing of lawsuit packages under the direction of the Department's attorney; providing assistance to the Department's attorneys in obtaining Orders of Taking, including providing testimony and responding to interrogatories; and maintaining complete written documentation of all contacts with property owners or property owners' representatives.

2. Qualification Requirements. This type of work requires registration of the consultant with the Florida Real Estate Commission and, at a minimum, one real estate broker and one real estate salesperson licensed by the State of Florida Department of Business and Professional Regulation. These employees each must have at least three years of demonstrated experience in transportation acquisition projects.

(p) Group 22. Acquisition Business Damage Estimating and Estimate Review.

1. Type of Work. This work is defined as the preparation of business damage estimate reports describing the impact of a right of way acquisition on the income, expenses, and profits of a particular business, in accordance with the standards established in Rule Chapter 14-102, F.A.C., and all other recognized accounting and performance standards; and the critical and analytical review and evaluation of business damage estimate reports, exhibits, and other documentation submitted to the Department by the business damage estimator on behalf of the Department or business owners.

2. Qualification Requirements. This type of work requires a minimum of one employee, registered as a Certified Public Accountant in the State of Florida, with a minimum of three years of demonstrated professional accounting work, after registration. This type of work also requires the Certified Public Accountant CPA to demonstrate previous experience in the preparation of accepted business damage estimate reports for the Department within the last three years immediately preceding application for qualification; or have served ~~service~~ as an expert witness in the State of Florida in eminent domain cases or other legal cases regarding business valuation or damages within the last three years immediately preceding application for qualification; or a minimum of ~~48~~ 24 hours of completed course work ~~since January 1, 1981~~, directly related to business valuation. Verification of course work shall be by copies of course certificates of completion issued by the course provider which will indicate the number of hours that may be counted for continuing professional education credits.

(q) Group 24. Acquisition Relocation Assistance.

1. Type of Work. This type of work is defined as relocation planning at the conceptual stage of a transportation project and the preparation of the Relocation Needs Assessment Survey, identifying displaced persons and likely business damage candidates pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies Act and 49 C.F.R., Part 24.

Advisory services, including personal interviews and coordination with displaced persons, must be provided to ~~ensure insure~~ the timely relocation to replacement properties. Relocation assistance also involves the delivery of all required notices and offers to owners and tenants, the location and ~~offering~~ of comparable decent, safe, and sanitary replacement dwellings available for sale or rent, the computation of replacement housing payments, the determination of appropriate move cost payments, the monitoring of moves, the preparation of claim packages, invoicing of payment amounts, and delivery of warrants. The work also entails obtaining all information pertinent to evictions and relocation appeals, and includes providing testimony.

2. Qualification Requirements. This type of work requires a minimum of one full time employee with a minimum of three years of demonstrated current experience in administering and providing relocation assistance for transportation projects under the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act and 49 C.F.R., Part 24.

(r) Group 25. Right of Way Clearing and Leasing.

1. Type of Work: This work involves preparing real property/personal property inventories and inventory updates up to and including final disposition of the property; performing property inspections on an ongoing basis to determine the need for rodent control, maintenance, and security; conducting negotiations for short-term leases and preparing leasing documents for real and personal property prior to construction of a project; preparing, obtaining, managing, and reviewing contracts for consultant services to perform asbestos surveys, preparing asbestos operation and maintenance plans, preparing asbestos abatement specifications, and performing air and asbestos project monitoring; preparing, obtaining, and managing departmental contracts for asbestos abatement services; preparing, obtaining, and managing departmental contracts for demolition and removal services; inspecting demolition sites and documenting demolition activities; and preparing, obtaining, and managing ~~Department~~ ~~departmental~~ contracts for removal of pollutant storage tanks.

2. Qualification Requirements. This type of work requires registration of the consultant with the Florida Real Estate Commission and, at a minimum, one real estate broker and one real estate salesperson licensed by the Florida State Department of Business and Professional Regulation. These employees each must have at least three years of demonstrated experience in managing properties acquired for transportation purposes and managing contracts for demolition activities. Additionally, at least one employee must be certified as an Asbestos Inspector; and as an Asbestos Management Planner, and have a minimum of three years of administrative experience in the asbestos field.

#### 14-75.004 Consultant Competitive Selection Process.

Selection of professional consultants by the Department shall be in accordance with the provisions enumerated below.

##### (1) Notice.

(a) Except when there is a public emergency certified by the Secretary of Transportation, the Department shall provide notice whenever it requires professional services for a project, the basic construction cost of which is estimated by the Department to be more than the threshold amount in Section 287.017, Florida Statutes, for category five, or when the fee for professional services for a fixed capital outlay study or planning activity exceeds the threshold amount provided in Section 287.017, Florida Statutes, for category two. The Department will provide the foregoing notice at its Internet address ([www11.myflorida.com/procurement/](http://www11.myflorida.com/procurement/) ~~http://www.dot.state.fl.us/~~). A project may include the following:

1. Professional services associated with a specifically identified project.

2. A grouping of professional service assignments for substantially similar activities where the grouping of assignments provides advantage to the Department because of the geographic proximity of the existing or proposed transportation facilities involved, or use of shared resources for multiple projects, or to allow multiple use of a single design concept.

3. Miscellaneous minor professional services, performed on a task assignment basis. The total contract fee may not exceed \$1,500,000 and individual assignments may not exceed \$300,000. However, these limits may be exceeded due to with unplanned cost increases.

4. Professional services of a general consultant, which include the administration, support, and management of engineering, architectural, surveying, planning, or right of way acquisition and appraisal activities. These activities may involve a number of different projects in the work program. The contract time shall not exceed five years although the Department may extend the contract time for an additional five years in one year increments contingent upon satisfactory performance, unless extended to complete assignments previously authorized.

(b) The notice shall contain time frames for submittal of a letter of response, a general description of the project, including where a detailed description may be obtained, the Department district and county where the project is located, a list of the major types of work, an indication as to whether the project is considered a minor project for qualification purposes, and a description of the means by which interested consultants can apply for consideration. Projects that do not conform to the prequalified types of work shall be advertised requesting any interested consultant to submit a Letter of Qualification.

Consultants responding to advertisements for such non-standard types of work do not need to possess previous qualification.

##### (2) Response to Advertisement and Selection.

(a) Professional consultants who desire work with the Department shall timely submit a maximum of a two page letter of response, or a letter of qualification, to the Department whenever they feel qualified to perform projects for which notice has been provided in accordance with paragraph (1)(a). To be considered for selection, the letter of response or letter of qualification must be received in the format and by the date specified in the advertisement and will include a list of all affiliates as defined in Section 337.165(1)(a), Florida Statutes. Only one letter of response/qualification will be considered from any consultant firm.

(b) After receipt of a letter of response, or letter of qualification, the Department shall review the submittal and verify that the consultant possesses current qualification with the Department to perform the major type(s) of work specified in the advertisement. In order to be considered for selection, any consultant which does not possess current qualification to perform the major type(s) of work specified in the advertisement shall submit a completed Request for Qualification Package, including the required overhead audit (if applicable), on or before the date letters of response are due. A qualified consultant may use a qualified sub-consultant ~~another consultant~~ to meet the requirements of the major type(s) of work for which it is not currently qualified when responding to advertisements. ~~However, the qualification status of the consultant will be valid for that project only. The consultant will be required to resubmit the necessary application for qualification for subsequent projects in that type of work.~~ The Department will not be obligated to delay any part of the consultant selection process or the execution of a contract for a consultant who has not been qualified for the major types of work or who cannot provide the required documentation prior to the process of selection.

(c) If fewer than three consultants respond to the advertisement, the Department shall review its list of firms prequalified for the major type(s) of work advertised, and select no fewer than ten prequalified firms (or all prequalified firms if fewer than 10 are prequalified) deemed to be the most highly qualified, based on the criteria in Section 287.055(4)(b), Florida Statutes. The Department shall then contact each of the listed consultants and conduct similar discussions concerning the project, until it has at least three consultants interested in the project.

(d) When the fee for professional services is less than the threshold amount provided in Section 287.017, Florida Statutes, for category two, or when the Department's estimated basic construction cost is less than the threshold amount provided by Section 287.017, Florida Statutes, for category five, the Department may request, review, and approve the

technical qualifications of the selected consultant if the consultant is not currently qualified in the requested type of work.

(e) Selection of consultants will be in accordance with Section 287.055, Florida Statutes.

Specific Authority 334.044(2) FS. Law Implemented 287.055, 337.105 FS. History—New 6-30-73, Amended 3-24-77, 6-30-83, 10-21-85, Formerly 14-75.04, Amended 3-29-89, 1-2-91, 9-29-92, 2-22-94, 8-5-96, 2-12-98, 8-2-01, \_\_\_\_\_.

14-75.0051 Revocation, Denial, or Suspension of Qualification.

(1) The Department will, for good cause, deny or suspend the qualification of any professional consultant, or other provider of service, to render services to the Department. A denial or suspension for good cause pursuant to this rule shall remove the person or firm from consideration for award of professional service contracts for a particular type of work for a period not to exceed three years. Such good cause shall include paragraphs (a) through (e) below:

(a) One of the circumstances specified under Section 337.105(1)(a) through (i), Florida Statutes.

(b) The consultant defaulted on any Department contract, or the contract of any other governmental entity.

(c) The consultant failed to timely furnish all contract documents required by the contract specifications, or special provisions, to be provided after the Department's offer of final payment.

(d) The consultant has an unsatisfactory work performance grade average. A consultant must maintain a final grade of 70 to remain qualified with the Department to provide services in each type of work. A composite final average grade between 60 and 69 for schedule, management, and each quality grade will result in the consultant being suspended from the qualified list for three months for each type of work graded within this range. A composite final average grade below 60 for schedule, management, and each quality grade will result in the consultant being suspended from the qualified list for six months for each type of work graded within this range.

(e) Any other substantial reason established by the factual circumstances.

(2) For any of the reasons provided in Section 14-75.0051(1), other than receipt of an unsatisfactory work performance grade, the Department will deny or suspend a consultant's qualification for a period of time based upon the seriousness of the deficiency. Factors to be considered in determining the length of the suspension or denial include, but shall not be limited to, the following:

(a) Impact on project design or construction schedules;

(b) Frequency or number of occurrences;

(c) Impact on the Department, financial or otherwise;

(d) Potential for repetition;

(e) Length of bar or suspension from consideration of work by another governmental entity; and

(f) Severity or length of noncompliance with the requirements for qualification, found in Rule Chapter 14-75.

(3) The Department shall deny or revoke the qualification to bid of any consultant, and its affiliates, for a period of 36 months, pursuant to Section 337.165, Florida Statutes, when it is determined that the consultant has, subsequent to January 1, 1978, been convicted of a contract crime within the jurisdiction of any state or federal court.

(4) Any decision by the Department to suspend, revoke, or deny a consultant's qualification will be provided to the consultant in accordance with Rule 28-106.111, F.A.C. The Department action will become final, unless a petition for a hearing is filed in accordance with Rules 28-106.104, 28-106.201, and 28-106.301, F.A.C., within 21 days after receipt of the Department's notice. Where a consultant's qualification has been denied or revoked for conviction of a contract crime, a hearing shall be held within 30 days of the receipt of the request for hearing if the request for hearing is filed within 10 days of the Department's notice of intent. All requests for hearing shall be in writing and shall be filed with the Clerk of Agency Proceedings, 605 Suwannee Street, MS 58, Haydon Burns Building, Tallahassee, Florida 32399-0458. A request for hearing is filed when it is delivered to, and received by, the Clerk of Agency Proceedings at the above address, and accordingly is not timely filed unless it is received by the Clerk of Agency Proceedings within the appropriate time period.

(a) Reapplication or Reinstatement. A consultant whose qualification has been denied or revoked for conviction of a contract crime may petition for reapplication or reinstatement at any time after denial or revocation in accordance with Section 337.165(2)(d), Florida Statutes.

1. The petition for reapplication or reinstatement shall be in writing and shall be filed with the Clerk of Agency Proceedings, Department of Transportation, 605 Suwannee Street, MS 58, Haydon Burns Building, Tallahassee, Florida 32399-0458, and shall include:

a. The name and address of the party making the request;

b. A statement of the specific grounds upon which the petition is based and the proposed terms and conditions upon which reapplication or reinstatement is sought;

c. A list of all witnesses and exhibits to be presented; and

d. A statement whether the consultant requests that the hearing be held by the Division of Administrative Hearings.

2. Upon the filing of a petition for reapplication or reinstatement, the Department shall:

a. Conduct a hearing within 30 days after receipt of the petition, unless otherwise stipulated by the parties; or

b. Notify the Division of Administrative Hearings within five days after receipt of the petition for scheduling of the hearing in accordance with Sections 337.165(2)(d) and 120.57, Florida Statutes.

3. If the petition for reapplication or reinstatement is denied, the consultant may not petition for a subsequent hearing for a period of nine months following the date of the order of denial or revocation.

4. If the petition for reinstatement is granted, the consultant shall file a current Request for Qualification with the Procurement Office, 605 Suwannee Street, MS 20, Haydon Burns Building, Tallahassee, Florida 32399-0450, before the reinstatement shall become effective.

(b) Notification of Contract Crime. A consultant who is qualified with the Department, or who has a letter of response or qualification, or who has a request for qualification pending before the Department pursuant to this Rule Chapter, shall notify the Department within 30 days after conviction of a contract crime applicable to it or to any of its affiliates or to any officers, directors, executives, shareholders active in management, or employees or agents of it or any of its affiliates. The notification shall be forwarded to the Department of Transportation, Procurement Office, 605 Suwannee Street, MS 20, Haydon Burns Building, Tallahassee, Florida 32399-0450.

#### 14-75.0052 Professional Consultant Work Performance Evaluation System.

(1) The consultant's work performance on each professional service contract must be evaluated by the Department's project manager. A minimum of one interim evaluation shall be conducted for all contracts with a duration of 18 months or more. A final evaluation shall be conducted for all contracts within 30 days of approval of the final invoice for basic services. A work performance grade for each major type of work shall be based on an evaluation of Schedule, Management, and Quality. The project manager shall assign the Quality Grade to any qualified consultant named in the agreement for each major type of work performed. The Department's contracted consultant shall also receive a Schedule, Management, and Quality Grade in the same type of work as any technically qualified consultant.

(2) Each interim grade shall be based upon an evaluation of the consultant's work performance for the period of time since a previous interim evaluation was made. The Final Grade shall reflect the overall contract performance for the entire contract period. Interim grades shall be entered into the Department's Professional Services Information System until replaced by the final grade.

(3) Each professional service contract evaluation shall be based on an evaluation of contract performance using a grading system for Schedule, Management, and Quality, except for Groups 10.1 and 10.2, which will be scored one composite grade. The scoring system for all work groups will be as follows:

Excellent – 100 points

Good – 90 points

Average – 80 points

Marginal – 70 points

Unsatisfactory – 0-60 points

(a) The Schedule Grade. The schedule grade shall provide an indication of the consultant's compliance with the contract schedule.

(b) The Management Grade. The management grade shall provide an indication of the consultant's managerial knowledge and ability to manage all necessary resources to deliver a high quality product.

(c) The Quality Grade. The quality grade shall provide an indication of the consultant's attention and concern to the established quality control plan and a quality product. A quality grade is prepared, at a minimum, for each major type of work as advertised. The quality grade for each type of work shall consider a minimum of four quality tests with a standard score range assigned to each test. The maximum grade for the summation of all quality tests for an individual quality grade is 100%.

(4) For all professional service contracts that result in the preparation of construction plans, a construction plan quality evaluation will be performed ~~made~~ by the Department's Resident Engineer within 30 days after final acceptance of the construction project. The resulting ~~This~~ Constructability Grade shall provide an indication of the design consultant's ability to develop practical, accurate, complete, and cost effective construction plans. The Department's CEI project manager or resident engineer shall assign a grade on the design consultant's plan quality.

(5) Additional interim consultant work performance evaluations can be submitted by the Department's project manager as needed. Items to be considered for submitting additional interim evaluations are:

(a) Examples of extremely outstanding performance;

(b) Examples of extremely poor performance;

(c) Completion of critical phases of work, such as preliminary design, submittal of draft environmental documents and reports, initial and final ~~30%, 60%, and 90%~~ submittals, etc.; and

(d) Requests from the consultant based on possible improved performance when its most recent grade was low.

(6) Evaluation Processing. The Department's project manager will prepare ~~submit~~ the completed consultant performance grade, interim or final, ~~to the Professional Services Administrator/Contractual Services Office~~ for entry into the Professional Services Information System. All final grades will be retained in the system for five years, and may be referred to by the Department for use in future qualification selection matters. Each interim grade shall be replaced by the succeeding interim grade and eventually by the final grade for each contract. A performance grade is established for each

major type of work by averaging the schedule, management, and quality grade. An average grade of 70 or more for each type of work is considered satisfactory.

(7) Within 10 days after the Procurement Office receives the completed grades, a copy of the performance grades with a cover letter shall be provided to the consultant's project manager and officer who executed the agreement, as well as to any other consultant who was named in the agreement and was assigned a Quality Grade for work it performed.

DOCKET NO. 001502-WS

RULE TITLE: Acquisition Adjustments  
 RULE NO.: 25-30.0371

PURPOSE AND EFFECT: To adopt a rule governing acquisition adjustments for water and wastewater utilities, to provide an incentive for a utility to try to obtain the lowest price possible when negotiating a purchase price, and providing an incentive for a purchasing utility that pays less than net book value to refrain from filing a rate case for a five-year period subsequent to the purchase.

SUMMARY: Provides a definition of acquisition adjustment and the ratemaking treatment when the purchase price for a utility system differs from the net book value of the utility assets. Provides examples of the evidence the Commission will consider.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST:** The proposed rule should not impose additional costs on water and wastewater utility acquisitions and there should be no cost to ratepayers.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

25-30.0371 Acquisition Adjustments.

(1) Definition. For the purpose of this rule, an acquisition adjustment is defined as the difference between the purchase price of utility system assets to an acquiring utility and the net book value of the utility assets. A positive acquisition adjustment exists when the purchase price is greater than the net book value. A negative acquisition adjustment exists when the purchase price is less than the net book value.

(2) Positive Acquisition Adjustments. A positive acquisition adjustment shall not be included in rate base absent proof of extraordinary circumstances. Any entity that believes a full or partial positive acquisition adjustment should be made has the burden to prove the existence of extraordinary circumstances. In determining whether extraordinary circumstances have been demonstrated, the Commission shall consider evidence provided to the Commission such as anticipated improvements in quality of service, anticipated improvements in compliance with regulatory mandates, anticipated rate reductions or rate stability over a long-term period, and anticipated cost efficiencies.

(3) Negative Acquisition Adjustments. A negative acquisition adjustment shall not be included in rate base unless there is proof of extraordinary circumstances or where the purchase price is less than 80 percent of net book value. If the purchase price is less than 80 percent of net book value then the inclusion of a negative acquisition adjustment shall be calculated pursuant to paragraph (b) below.

(a) Contested. Any entity that believes a full or partial negative acquisition adjustment should be made has the burden to prove the existence of extraordinary circumstances. Under no circumstance, however, shall the purchaser be required to record on its books more than 70 percent of a negative acquisition adjustment. In determining whether extraordinary circumstances have been demonstrated, the Commission shall consider evidence provided to the Commission such as the anticipated retirement of the acquired assets and the condition of the assets acquired.

(b) Uncontested. If the purchase price is less than 80 percent of net book value, then the amount of the difference in excess of 20 percent of net book value shall be recognized for ratemaking purposes as a negative acquisition adjustment. The negative acquisition adjustment shall not be recorded on the books for ratemaking purposes or used for any earnings review unless the purchaser files for a rate increase pursuant to Section 367.081(2), 367.0814, 367.0817 or 367.0822, F.S., that will be effective during the amortization period. The negative acquisition adjustment shall be amortized over a 5-year period from the date of issuance of the order approving the transfer of assets.

(4) Amortization Period. In setting the amortization period for a Commission approved acquisition adjustment pursuant to (2) or (3)(a) above, the Commission shall consider evidence provided to the Commission such as the composite remaining life of the assets purchased and the condition of the assets purchased. Amortization of the acquisition adjustment shall begin on the date of issuance of the order approving the transfer of assets.

(5) Subsequent Modification. Any full or partial acquisition adjustment, once made by the Commission pursuant to (2) or (3)(a) above, may be subsequently modified

if the extraordinary circumstances do not materialize or subsequently are eliminated or changed within five years of the date of issuance of the order approving the transfer of assets.

THE FULL TEXT OF THE PROPOSED RULE IS:

41-2.012 Coordinating Board Structure and Duties.

The purpose of the Coordinating Board is to identify local service needs and to provide information, advice, and direction to the Community Transportation Coordinator on the coordination of services to be provided to the transportation disadvantaged through the Florida Coordinated Transportation System (FCTS). Each Coordinating Board is recognized as an advisory body to the Commission in its service area. The members of the Coordinating Board shall be appointed by the Metropolitan Planning Organization or the Designated Official

Planning Agency. A Coordinating Board shall be appointed in each county. However, when agreed upon in writing, by all Boards of County Commissions in each county to be covered in the service area, multi-county Coordinating Boards may be appointed. The structure and duties of the Coordinating Board shall be as follows:

(1) The Metropolitan Planning Organization or Designated Official Planning Agency shall appoint one elected official to serve as the official chairperson for all Coordinating Board meetings. The appointed chairperson shall be an elected official from the county ~~that~~ ~~which~~ the Coordinating Board serves. For a multi-county Coordinating Board, the elected official appointed to serve as Chairperson shall be from one of the counties involved.

(2) No change.

(3) In addition to the Chairperson, except for multi-county Coordinating Boards, the following agencies or groups shall be represented on the Coordinating Board, in every county as voting members:

(a) A local representative of the Florida Department of Transportation;

(b) A local representative of the Florida Department of Children and ~~Families~~ ~~Family Services~~;

(c) A local representative of the Public Education Community which could include, but not be limited to, a representative of the District School Board, School Board Transportation Office, or Headstart Program in areas where the School District is responsible;

(d) ~~In areas where they exist, a~~ A local representative of the Florida Division of Vocational Rehabilitation or the Division of Blind Services, representing the Department of Education ~~Labor and Employment Security~~;

(e) A person recommended by the local Veterans Service Office ~~who is recognized by the Florida Department of Veterans' Affairs~~; representing the veterans in the county;

(f) through (g) No change.

(h) A ~~disabled~~ person with a disability representing the disabled in the county;

(i) No change.

(j) A local representative for children at risk ~~recommended by the State Coordinating Council for Early Childhood Services~~;

(k) ~~In areas where they exist, the~~ The Chairperson or designee of the local Mass Transit or Public Transit System's Board, except in cases where they are also the Community Transportation Coordinator;

(l) No change.

(m) An experienced representative of the local private for profit transportation industry. In areas where such representative is not available, a local private non-profit

representative will be appointed, except where said representative is also the Community Transportation Coordinator; and

(n) A local representative of the Florida Agency for Health Care Administration;

(o) A representative of the Regional Workforce Development Board established in Chapter 445, Florida Statutes; and

(p) A representative of the local medical community, which may include, but not be limited to, kidney dialysis centers, long term care facilities, assisted living facilities, hospitals, local health department or other home and community based services, etc.

(4) Except for the Chairperson, the non-agency members of the Board shall be appointed for three year staggered terms with initial membership being appointed equally for one, two, and three years. The Chairperson shall serve until electd term of office has expired or otherwise replaced by the Designated Official Planning Agency. No employee of a community transportation coordinator shall serve as a voting member of the coordinating board in an area where the community transportation coordinator serves. However, community transportation coordinators and their employees are not prohibited from serving on a coordinating board in an area where they are not the coordinator. However, an elected official serving as Chairperson of the coordinating board, or other governmental employees that are not employed for the purpose of making provisions for transportation and are not directly supervised by the community transportation coordinator shall not be precluded from serving as voting members of the coordinating board.

(5) The Board shall meet at least quarterly and shall perform the following duties in addition to those duties specifically listed in Section 427.0157, Florida Statutes:

(a) No change.

(b) Annually, provide the Metropolitan Planning Organization or Designated Official Planning Agency with an evaluation of the Community Transportation Coordinator's performance in general and relative to Commission and local standards as referenced in Rule 41-2.006 and the performance results completion of the most recent current Transportation Disadvantaged Service Plan elements. As part of the Coordinator's performance, the local Coordinating Board shall also set an annual percentage goal increase for the number of trips provided within the system for ridership on public transit, where applicable. In areas where the public transit is not being utilized, the local Coordinating Board shall set an annual percentage of the number of trips to be provided on public transit. The Commission shall provide evaluation criteria for the local Coordinating Board to use relative to the performance of the Community Transportation Coordinator. This evaluation will be submitted to the Commission upon approval by the local coordinating board. The renewal of the Community

~~Transportation Coordinator's Memorandum of Agreement and Transportation Disadvantaged Service Plan shall be submitted to the Commission.~~

(c) Appoint a Grievance Committee to ~~serve as a mediator~~ ~~to~~ process and investigate complaints, from agencies, users, transportation operators, potential users of the system and the Community Transportation Coordinator in the designated service area, and make recommendations to the Coordinating Board or to the Commission, when local resolution cannot be found, for improvement of service. The Coordinating Board shall establish a process and procedures to provide regular opportunities for issues to be brought before such committee and to address them in a timely manner. Rider brochures or other documents provided to users or potential users of the system shall provide information about the complaint and grievance process including the publishing of the Commission's TD Helpline service when local resolution has not occurred. All materials shall be made available in accessible format, upon request by the citizen. Members appointed to the committee shall be voting members of the Coordinating Board.

(d) All coordinating board members should be trained on and comply with the requirements of Section 112.3143, Florida Statutes, concerning voting conflicts of interest.

RULE CHAPTER NO.: 1A-36  
 RULE CHAPTER TITLE: Florida Main Street Program  
 NOTICE OF CHANGE

The above proposed rule published in the Florida Administrative Weekly, Vol. 28, No. 10, March 8, 2002, has been amended in response to comments received from the Joint Administrative Procedures Committee of the Florida Legislature on April 11, 2002. Minor modifications have been made to the Florida Main Street Agreement (Form No. HR3E0310202) and the Florida Main Street Program Application (Form No. HR4E023R0102), both documents which are incorporated by reference in the proposed rule, to remove ambiguity and ensure consistency with the amendments to the proposed rule.

Subsection 1A-36.36.005(2), F.A.C., has been amended to remove reference to "special consideration" for applications from municipalities with populations between 5,000 and 50,000, which were the original focus of the Florida Main Street Program. The amended subsection shall read as follows:

(2) The Main Street Approach has been shown to be most successful in communities with populations between 5,000 and 50,000. However, in addition to communities within the 5,000 to 50,000 range, communities with populations less than 5,000 and traditional neighborhood commercial districts within cities with populations greater than 50,000 are also eligible for participation. For the purpose of application preparation, required population statistics shall be based on the most recent "Florida Estimates of Population" compiled by the Population Program, Bureau of Economic and Business Research, University of Florida.

For clarification, the word "local" has been added to modify "non-profit corporation" in subsection 1A-36.005(3)(c), F.A.C. The amended subsection reads as follows:

(c) A local non-profit corporation whose articles of incorporation have been filed by the Department of State in accordance with Section 617.0125, F.S.;

A new subsection has been added in Rule 1A-36.006, F.A.C., Application Procedures to explain how the Florida Main Street staff determines the maximum number of new Local Programs that can be accommodated for a given program year. Other subsections in Rule 1A-36.006, F.A.C., have been renumbered accordingly. The new subsection reads as follows:

(2) Prior to announcement of the annual application cycle, available funding and staffing will be compared with Florida Main Street Program obligations to second year, third year and other Active Local Programs to determine the resources

available to provide training and technical assistance to new Local Programs. Based on the results of this assessment, Florida Main Street staff will determine the maximum number of new Local Programs that can be accommodated for the coming year. Only Applicants meeting the requirements set forth in Rules 1A-36.005 and 1A-36.008, F.A.C., will be recommended for designation. If less than the maximum allowable number of Applicants meet the requirements set forth in Rules 1A-36.005 and 1A-36.008, F.A.C., then that lesser number of Applicants will be recommended for designation.

Subsection 1A-36.008(5)(e), F.A.C., has been amended to clarify the basis on which the ad hoc Florida Main Street Advisory Committee will give preferential consideration to program participation applications from communities in areas of the state not currently served by the Florida Main Street Program. The amended subsection reads as follows:

(e) All other factors being equal, the Advisory Committee shall give preference to Applications from areas of the state not currently served by the Florida Main Street Program in order to give all regions of the state an opportunity to benefit from the program. The training and technical assistance provided to Local Programs through the Florida Main Street Program often influence neighboring communities, cultivating interest in historic preservation and downtown revitalization. For this reason, uniform geographic distribution of the limited resources available through the Florida Main Street Program provides optimum benefit to the citizens of the state.

Paragraph 1A-36.008(7)(a), F.A.C., has been amended to describe the physical attributes and resources considered necessary for an effective local Main Street program. The amended subsection reads as follows:

(a) Possess the physical attributes and resources required to conduct an effective local Main Street program, including:

1. A cohesive collection of historic commercial properties in the proposed Program Area;
2. An organization consistent with the model described in the Main Street Approach; and
3. A budget and committed funding for at least one year following designation as a Local Program.

Paragraph 1A-36.008(7)(b), F.A.C., has been amended to clarify how community understanding of the Main Street Approach and support for the proposed Local Program will be assessed. The amended subsection reads as follows:

(b) Demonstrate community understanding of the Main Street Approach and broad public and private local support for the proposed Local Program through letters and resolutions of support, and pertinent media articles; and

The Laws Implemented citation for section 1A-36.009 Program Administration has been amended to include 267.0617(2), F.S., which is applicable to the \$10,000 start-up grant referenced in subsection 1A-36.009(2), F.A.C.

Paragraph 1A-36.010(2)(d), F.A.C., has been amended to clarify the basis for determining if a Local Program possesses a “preservation ethic,” one of the requirements for Local Programs to retain Active Local Program status. The amended subsection reads as follows:

(d) Possess an historic preservation ethic as evidenced by:

1. Having or working towards putting in place an active design assistance program;
2. Encouraging building renovation or rehabilitation consistent with the recommended treatments described in The Secretary of the Interior’s Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings;
3. Encouraging public awareness of the historic properties in the Program Area and the importance of their preservation;
4. Working toward putting land use policies in place that encourage development of property in the Program Area; and
5. Encouraging development of financial mechanisms and incentives to attract investment to the program area.

Paragraph 1A-36.010(2)(f), F.A.C., has been amended to clarify the basis for determining if sufficient funding is dedicated to the Local Program, one of the requirements for Local Programs to retain Active Local Program status. The amended subsection reads as follows:

(f) Have dedicated funding for an annual operating budget sufficient to cover the cost of:

1. Program Manager salary and fringe benefits;
2. Rent and general office expenses;
3. Travel for participation in Florida Main Street Quarterly Meetings and Annual Conference;
4. Program Manager professional development; and
5. Activities and programs conducted by Local Program committees.

RULE NO.: 65A-1.601  
 RULE TITLE: Food Stamp Program Definitions  
 NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1, F.S., published in Vol. 28, No. 11, on March 15, 2002, issue of the Florida Administrative Weekly. The specific changes were made in response to comments received from an Economic Self-Sufficiency Services Program Policy reviewer that an additional definition should be added to the amendment to define the community spouse in relation to the Food Stamp Program standard filing unit. Therefore, Florida is executing the option found at 7CFR 273.1(c) to determine when an individual is a separate household or member of another household for food stamp purposes.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE TIME, DATE AND PLACE SHOWN BELOW (IF NOT REQUESTED, THIS HEARING WILL NOT BE HELD):

### Section VII Notices of Petitions and Dispositions Regarding Declaratory Statements

#### **DEPARTMENT OF COMMUNITY AFFAIRS**

NOTICE IS HEREBY GIVEN THAT the Petition for Declaratory Statement received from the Lake County Building Division on February 18, 2002, has been withdrawn.

Notice of receipt of this petition, which was assigned the number DCA02-DEC-049, appeared in the March 1, 2002 edition of the Florida Administrative Weekly.

Information regarding this petition may be obtained by writing: Paula P. Ford, Agency Clerk, Department of Community Affairs, 2555 Shumard Oak Boulevard, Tallahassee, Florida 32399-2100.

#### **LAND AND WATER ADJUDICATORY COMMISSION**

On March 28, 2002, the Florida Land and Water Adjudicatory Commission (the "Commission") received a petition to adopt an administrative rule to establish the Town Center at Palm Coast Community Development District (the "District") pursuant to Chapter 190, Florida Statutes. The Commission will follow the requirements of Chapter 190, Florida Statutes, and Chapter 42-1, Florida Administrative Code, in ruling on this petition.

**SUMMARY OF CONTENTS OF PETITION:** The Petition was filed by Florida Landmark Communities, Inc., and Mardem, LLC, with its principal place of business at One Corporate Drive, Suite 3A, Palm Coast, Florida 32137. The land to be served by the District consists of approximately 1,600 gross acres generally bounded on the north by a major drainage canal; bounded on the south by State Road 100; bounded on the west by Belle Terre Parkway; and bounded on the east by Interstate 95. The Petitioner has written consent to establish the District from the owner of 100% of the real property located within the proposed District. The proposed District is designed to provide community infrastructure, services, and facilities along with certain ongoing operations and maintenance. The development plan for the proposed lands within the District includes the construction of approximately 2,500 single family and multi-family residential dwelling units, 1,460,000 square feet of office space, 2,400,000 square feet of retail space, 1,400,000 square feet of non-retail commercial space, and 625,000 square feet of institutional space (a movie theater, lodging units and nursing home).

**SUMMARY OF THE STATEMENT OF ESTIMATED REGULATORY COSTS:** The Petitioner has prepared a Statement of Estimated Regulatory Costs ("SERC"). The complete text of the SERC is contained as Exhibit 10 to the petition to establish the proposed District. The establishment of the proposed District will result in modest costs to State governmental entities to implement and enforce the proposed formation. Certain costs to the Florida Department of Community Affairs will be offset by an annual fee required by Section 189.412, F.S. The costs of rule adoption to Flagler County (the "County") and its citizens are minimal and any costs are offset by the required filing fee. Adoption of the proposed rule will have no negative impact on State and local revenues. Roads and roadway drainage facilities will all be funded by the proposed District, and operated and owned by the City of Palm Coast. The proposed District will fund, own,

and maintain the recreational lakes and common areas. The District will also fund the construction of the water and sewer distribution system. The water and sewer system serving the District will be owned and operated by Florida Water Services Corporation. The proposed District may issue special assessment or other revenue bonds to fund the development of capital facilities. The bonds would be repaid through non-ad valorem assessments levied on all properties in the proposed District. Prospective future landowners in the proposed District may be required to pay non-ad valorem assessments levied by the District to secure the debt incurred through bond issuance. In addition, the proposed District may also impose a non-ad valorem assessment to fund the operations and maintenance of the District and its facilities and services. New residents voluntarily chose to locate within the proposed District and accept the assessments as a tradeoff for the numerous benefits and facilities that the proposed District will provide. There will be no impact on small businesses from the establishment of the proposed District. If anything, the impact may be positive in that the District must competitively bid all of its contracts. Establishment of the proposed District will not have any impact on small counties as Flagler County is not a small county as defined. The analysis provided is based on a straightforward application of economic theory with input received from the developer's engineer and other professionals associated with the developer.

**A HEARING WILL BE HELD AT THE TIME, DATE AND PLACE SHOWN BELOW:**

**DATE AND TIME:** Tuesday, July 30, 2002, 1:00 p.m.

**PLACE:** Palm Coast Community Center, 305 Palm Coast Parkway, Northeast, Palm Coast, Florida

Any person requiring a special accommodation to participate in the hearing because of a disability should contact Michael D. Chiumento, III, (386)445-8900, at least two (2) business days in advance to make appropriate arrangements.

**COPIES OF THE PETITION MAY BE OBTAINED BY CONTACTING:** Michael D. Chiumento, III, Chiumento & Associates, P.A., 4 Old Kings Road, North, Suite B, Palm Coast, Florida 32137, (386)445-8900 or Barbara Leighty, Florida Land and Water Adjudicatory Commission, Office of Policy and Budget, Executive Office of the Governor, Capitol Building, Room 1801, Tallahassee, Florida 32399-0001, (850)487-1884.

#### **DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION**

**NOTICE IS HEREBY GIVEN THAT** the Division of Pari-Mutuel Wagering, Department of Business and Professional Regulation, has received an amended petition for a declaratory statement from Tampa Bay Downs, Inc., Petitioner, in DBPR Case No. DS 2002-007. The Petition lists Sections 550.6305(9)(g)1. and 550.615(3), Florida Statutes, and Rule 61D-9.001, Florida Administrative Code, as the

statutory and rule provisions upon which a declaratory statement is being sought. The Petition further requests the Division to advise as to whether:

- (1) If Tampa Bay Downs, as a host track, receives and accepts wagers on the broadcast of races conducted at out-of-state racetracks, it is obligated to make the simulcast signal of the out-of-state races available to Florida Jai-Alai as a guest track;
- (2) Whether Florida Jai-Alai has the right to receive such a simulcast transmission to accept wagers disseminated from Tampa Bay Downs; and,
- (3) Whether agreements that designate Gulfstream as an exclusive disseminator of simulcast signals for certain out-of-state racetracks violate Florida law.

**DEPARTMENT OF HEALTH**

NOTICE IS HEREBY GIVEN THAT the Board of Physical Therapy Practice has partially granted and otherwise DENIED a petition for declaratory statement received from Robyn Walpert. The final order was filed on May 21, 2002 and was given the number DOH-02-0723-DS-MQA. No comments were received. Petitioner requested the declaratory statement, which asked five questions regarding the practice of physical therapy, Section 486.021, Florida Statutes. The Board's Final Order advised Petitioner that teaching a group pilates exercise class is not precluded by the statute and that 21 days refers to calendar days. Otherwise, the petition was denied due to Petitioner's failure to provide sufficient factual information.

A copy of the Petition for Declaratory Statement and Final Order may be obtained by writing: Kaye Howerton, Board Executive Director, Board of Physical Therapy Practice, 4052 Bald Cypress Way, BIN #C05, Tallahassee, Florida 32399-3255.

NOTICE IS HEREBY GIVEN THAT the Board of Physical Therapy Practice has GRANTED a petition for declaratory statement received from Pamela Charlton Davidson. The final order was filed on May 21, 2002 and was given the number DOH-02-0724-DS-MQA. No comments were received. Petitioner requested the declaratory statement, which asked whether Petitioner, a Florida licensed physical therapist, could supervise persons trained but unlicensed in Florida. The Board concluded that Petitioner was qualified under Rule 64B17-6.007, Florida Administrative Code, to provide direct on-side supervision to unlicensed persons for the described special therapeutic program in aquatics.

A copy of the Petition for Declaratory Statement and Final Order may be obtained by writing: Kaye Howerton, Board Executive Director, Board of Physical Therapy Practice, 4052 Bald Cypress Way, BIN #C05, Tallahassee, Florida 32399-3255.

**FISH AND WILDLIFE CONSERVATION COMMISSION**

NOTICE IS HEREBY GIVEN THAT the Fish and Wildlife Conservation Commission has received a Petition for Declaratory Statement from Walter Pine (Petitioner) on May 21, 2002. Petitioner seeks the agency's opinion as to how the distribution of the Stone Crab Trap Tags complies with the Americans with Disabilities Act.

A copy of the petition may be obtained by making a written request to the following: James V. Antista, General Counsel, Fish and Wildlife Conservation Commission, 620 South Meridian Street, Tallahassee, Florida 32399-1600.

**SPACEPORT FLORIDA AUTHORITY**

**REQUESTS FOR ANTICIPATED SERVICES**

For Federal Governmental/Congressional Relations

The Florida Space Authority (FSA), is seeking expressions of interest and statements of qualification for persons or companies to provide federal governmental/legislative services for FSA and its Board of Supervisors for fiscal year 2003 (July 1, 2002 to June 30, 2003) including the end of the 2nd Session of the 107th Congress and the beginning of the 1st Session of the 108th Congress.

The expression should include the qualifications of individuals, or teams, and resumes, a list of previous clients represented before Congress and the Executive Branch. The awarded person or company will work with the designated FSA employee to develop FSA congressional and appropriation agenda, will attend appropriate meetings and represent the branch representative. If qualified and awarded, the award recipient will arrange appropriate meetings, prepare the Authority for committee meetings and testimony, and prepare an overall strategy for both congressional and appropriation issues for the end of the 2nd Session of the 107th Congress and the beginning of the 1st Session of the 108th Congress, and the activities preparing for those Sessions. Please include your estimated monthly rates for these services.

The Florida Space Authority was created as a state government space agency by Florida's Governor and Legislature in 1989. FSA's mission (as authorized in Chapter 331, Part II, F.S.) is to retain, expand and diversify the state's space-related industry. Chapter 331, F.S., gives FSA governmental powers similar to other types of transportation authorities (airport, seaport, etc.) to support and regulate the state's space transportation industry. Interested persons or companies should submit three (3) copies of their expression of interest in a sealed envelope entitled "REQUEST FOR ANTICIPATED SERVICES – GOVERNMENTAL/CONGRESSIONAL SERVICES" to: Mrs. Rebecca Hauser, Manager, Contracts and Human Resources, Florida Space Authority, 100 Spaceport Way, Cape Canaveral, FL 32920-4003. Applications must be received no later than 3:00 p.m., June 21, 2002, no telephone calls please. The Florida Space Authority reserves the right to accept or reject any and all responses in the best interest of the state.

**DEPARTMENT OF COMMUNITY AFFAIRS**

**NOTICE OF APPROVAL  
FOR FLORIDA FOREVER FUNDS**

The Florida Communities Trust ("Trust") reviewed and approved project plans for land acquisition projects submitted under the Trust Florida Forever Program, Series FF1 funding cycle. The project plan listed below was approved by the Executive Director under authority delegated from the governing body. The Executive Director is authorized to

execute the agreements for acquisition of the project sites and all other documents necessary to close the project and that funds be released as follows:

Project: 01-040-FF1/The Naples Preserve

Grantee: City of Naples

Amount of Approved Funds: the lesser of 40.00% of the final total project costs or \$3,213,120.00

Project: 01-022-FF1/Wall Springs Coastal Addition

Grantee: Pinellas County

Amount of Approved Funds: the lesser of 50.00% of the final total project costs or \$3,493,686.00

**NOTICE OF ADMINISTRATIVE HEARING RIGHTS**

Any person with substantial interests that are or may be determined by the approval of funds for projects by the Trust has a right to an informal administrative proceeding pursuant to Section 120.57(2), F.S., if the person does not dispute issues of material fact raised by this decision. If an informal proceeding is held, the petitioner will have the opportunity to be represented by counsel, to present to the agency written or oral evidence in opposition to the Trust action, or to present a written statement challenging the legal grounds upon which the Trust is justifying its actions.

Alternatively, any person with substantial interests that are or may be determined by the approval of funds for projects by the Trust has a right to a formal administrative hearing pursuant to Section 120.57(1), F.S., if the person disputes any issues of material fact stated in this decision. At a formal hearing the petitioner may be represented by counsel, and will have the opportunity to present evidence and argument on all the issues involved, to conduct cross-examination and submit rebuttal evidence, to submit proposed findings of fact and orders, and to file exceptions to any order or hearing officer's recommended order.

If a person with a substantial interest desires either an informal proceeding or a formal hearing, the person must file with the Trust Clerk a written response or pleading entitled "Petition for Administrative Proceedings" within 21 calendar days of the publication date of this notice of final agency action. The petition must be in the form required by Rule 18-106.201, F.A.C. A petition is filed when it is received by the Trust Clerk, 2555 Shumard Oak Boulevard, Tallahassee, FL 32399-2100. A petition must specifically request an informal proceeding or a formal hearing, it must admit or deny each material fact contained in this decision, and it must state any defenses upon which the petitioner relies. If the petitioner lacks knowledge of a particular allegation of fact, it must so state and that statement will operate as a denial.

Any person with substantial interests that are or may be determined by the approval of funds for projects by the Trust waives the right to an informal proceeding or a formal hearing if a Petition for Administrative Proceeding is not filed with the Trust Clerk within 21 days of the date of publication of the notice of final agency action.

#### **DEPARTMENT OF HEALTH**

On May 23, 2002, John O. Agwunobi, M.D. Secretary of the Department of Health, issued an Order of Emergency Suspension, with regard to the license of Connie Covington, C.N.A. Covington holds certificate number 0190261650425. Covington's last known address is 10014 Greenwood Ave., #25-4, Clearwater, Florida 33755. This Emergency Order was predicated upon the Secretary's findings of an immediate and serious danger to the public health, safety and welfare pursuant to Sections 456.073(8) and 120.60(8), Florida Statutes. The Secretary determined that this summary procedure was fair under the circumstances, in that there was no other method available to adequately protect the public.
