(1) An offender who has made a satisfactory adjustment while on supervision shall be allowed to visit other states, the District of Columbia, the Commonwealth of Puerto Rico or the U.S. Virgin Islands for business, visitation or vacation purposes as long as travel requirements in subsection (2) are met, public safety will not be compromised by such a visit, and the offender meets the travel requirements of the state of destination. If the offender is a high risk, high profile, or sex offender case, once the officer has verified and instructed the offender as to the requirements of the state of destination, a copy of Form DC3-220, Travel Permit, providing the

offender's itinerary, must be transmitted to the Bureau of Interstate Compact. Form DC3-220 is incorporated by reference in Rule 33-302.106, F.A.C. (2) In order for an offender to obtain permission to travel, the following conditions must exist:

(a) The offender is not prohibited by the order of supervision from traveling to the desired location.

(b) The offender is not wanted or facing prosecution for criminal charges or violation of the order of supervision.

(e) The travel does not interfere with condition compliance or treatment programming.

(f) Travel shall be denied for purely recreational purposes if the offender is not current with the court ordered or releasing authority imposed payment schedule or offender financial obligation agreement and the offender shall expend monies in the course of travel.

(g) No extenuating circumstances exist which indicate that authorizing the offender to travel would constitute a lack of prudence. Such extenuating circumstances include those that would cause a reasonable person to believe that the offender may be likely to violate a condition of supervision if travel were authorized.

(3) Travel shall not exceed thirty consecutive days in length. Once a travel permit is issued to an offender, the officer shall instruct the offender regarding travel issues, including the following:

(a) Immediately notifying the officer if a change of plan occurs;

(5) An officer shall transfer the supervision of an offender who is travelling to a single other state, the District of Columbia, the Commonwealth of Puerto Rico or the U.S. Virgin Islands, for more than thirty consecutive days. The transfer of supervision involves the forwarding of all pertinent supervision documents via the Bureau of Interstate Compact to the receiving location and the formal assumption of supervision of the offender by a probation or parole officer in the receiving location. The officer shall forward the following supervision documents, in triplicate, to the Bureau of Interstate Compact:

- (a) Out of State Investigation Request, Form DC3-110;

(6) The officer shall obtain permission and written approval from the sentencing or releasing authority prior to granting permission to the community control offender for the right to travel out of state. Form DC3-220 shall be approved with a copy forwarded to the Bureau of Interstate Compact.

(7) In compact cases that meet emergency transfer criteria, the officer must submit a Request for Emergency Reporting Instructions, Form DC3-126, to the Bureau of Interstate Compact two days before the requested date of travel. 33-302.106 Intrastate Offender Travel and Transfer of Supervision.

(1) through (2) No change.

(3) Non-emergency travel requests submitted for travel across county lines that do not involve an overnight stay require two business days notice from the offender to allow the officer sufficient time to verify the travel plans. If the visit to the other county will exceed two days, the officer shall instruct the offender to go to the other county's local law enforcement for the purpose of criminal registration within 48 hours of entering the other county, as provided in Section 775.13, F.S. (4)(3) Inter-county travel in Florida approved for a visit of thirty days or less does not require a "Travel Permit," DC3-220, unless the offender is a sex offender or requires specific or additional instructions that must be written on a travel permit. Sex offenders require a travel permit for all out of county travel. If the offender is granted permission to travel and visit another county and subsequently requests an

extension of the visit out of county, which will exceed thirty days, the officer will transfer the offender's supervision to the other county, unless exceptional circumstances exist that are approved by a supervisor which would allow the offender to remain out of the county on an extended travel permit without transferring the offender. (b) Immediately notifying the officer of any unusual situations or any contact with law enforcement that occurred during the travel episode; Application for Compact Services and Agreement to Return, Form DC3-122;

(c) Immediately calling or reporting upon return to the county of residence; Supervision orders; and;

(d) That any deviations to the approved travel shall not be authorized; Pre-sentence or Post-sentence investigation, or offense report and arrest history;

(e) That travel shall be authorized only as indicated on the travel permit; and; Form DC3-110, Out of State Investigation Request and Form DC3-122, Application for Compact Services and Agreement to Return, are hereby incorporated by reference. Copies of these forms can be obtained from the Forms Control Administrator, Office of the General Counsel, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500. The effective date of these forms is October 2, 2001.

(f) That failure to comply with instructions shall be a violation of supervision.

(6) An officer shall transfer the supervision of an offender who is granted permission to travel and remain in another county outside of her or his county of residence in the State of Florida for more than thirty consecutive days unless exceptional circumstances exist that are approved by a supervisor which would allow an offender to remain out of county on an extended travel permit without transferring the offender. When interstate travel is for the sole purpose of transfer to another state, the District of Columbia, the Commonwealth of Puerto Rico or the Virgin Islands of the United States, the offender must meet the other state's requirements and receive consent to travel from the Bureau of Interstate Compact Office before proceeding to that state.

(7) In compact cases that meet emergency criteria, the officer must submit an Electronic Request for Emergency Reporting Instructions and Travel Permit, Form EF3-005, to the Bureau of Interstate Compact Office two days before the requested date of travel. This time frame does not apply to offenders who already reside in the receiving state and who must return immediately after sentencing. Form EF3-005 is hereby incorporated by reference. Copies of this form are available from the Forms Control Administrator, Office of the General Counsel, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500. Requests for copies to be mailed must be accompanied by a self-addressed envelope. The effective date of this form is October 2, 2001.

(8) In high profile and sex offender cases, the officer must review the Interstate Compact File Cabinet computer database or seek guidance from the Bureau of Interstate Compact Office to ensure that the offender meets and follows travel requirements for the state of destination before granting travel permission. Once the officer has verified and instructed the offender as to the requirements of the state of destination, a copy of the travel permit providing the offender's itinerary must be transmitted to the Bureau of Interstate Compact Office.

(a) All preparations for fumigation as directed by the label have been completed.

(b) through (c) No change.

The final inspection must be conducted immediately before the fumigant is to be applied, unless the structure is a multi-unit dwelling, in which case, the following special provision shall apply:

On multi-unit dwellings, the certified fumigation operator in charge and/or his designated special fumigation identification cardholder shall conduct a thorough, systematic inspection of each room in every unit to ensure that all provisions specified above have been completed. Then, exterior doors and/or entrances of each inspected unit shall be secured against unauthorized re-entry while preparations and inspection of other units or areas of the structure are completed. This may require the temporary use of secondary locks on entrances that are to be left unattended between the time of inspection and the introduction of the fumigant. If an individual unit or units cannot be safely secured while preparations of other areas are taking place, then those units must be re-inspected immediately before the fumigant is to be applied.

The name and day and night telephone number of the certified operator in charge of fumigation, or a certified fumigation operator, or a special fumigation identification cardholder who introduced the fumigant at the fumigation site must be displayed on the warning sign. Additional numbers and other contact information may be placed on the sign. All emergency phone numbers must be a phone number, mobile/cell phone number or beeper number in the possession of a person familiar with the job and trained to respond to fumigation emergencies and equipped with label required respiratory protection and gas detection equipment. Answering machines, beepers or voice mail systems that do not provide a mechanism for immediate notification to an individual as described above are prohibited. A 24 hour manned answering service that can immediately contact a certified fumigation operator or a special fumigation identification cardholder of the company who can respond to the emergency is acceptable.

(6)(5) Such warning signs posted on the outside of tents or sealing covers shall not be removed prior to commencement of ventilation: and such warning signs posted on or at entrances to the structure (itself), enclosed space or commodities being fumigated shall not be removed until the end of the fumigation period, when ventilation has been completed and the premises declared safe for reoccupancy as required by subsections 5E-14.113(1) and (2), F.A.C. Ventilation shall be conducted with due regard for the public safety.

(7)(6) Special safety precautions, responsibilities.

A door or entrance, that, once locked from the interior with a lock that is not accessible from the exterior, does not require a secondary locking device or barricade.

(c) Entrances which do not have existing locking mechanisms or are inoperable must still be secured with a secondary locking device.

(d) If a multi-unit dwellings with internal stairwells accessing each floor can be secondarily locked or secured, barred or barricaded at all ground level entrances, then no other secondary locking devices are necessary, provided that the requirements of Section 5E-14.112(1), F.A.C. are met. Multi-unit dwellings with exterior stairwells or fire escapes must be secured or otherwise barricaded or barred to prevent entry from both ground and first floor levels and from any entrance to the structure accessed from the stairwell or fire escape. If neither of these conditions can be met, then all entrances to individual units and all exterior entrances must be locked or secured, barricaded or barred with secondary locking devices.

(c) If the obligee does not respond to the second written notice of overpayment sent pursuant to paragraph (5)(b), the department shall send the obligee a third and final written notice of overpayment in compliance with subsection (3). The third and final written notice of overpayment must also state:

1. The dates of the first and second written notices of overpayment.

2. That this is the third and final written notice of overpayment that will be sent;

3. That the obligee must respond to the department in writing within 20 days from the date of the third and final written notice of overpayment; and

4. That the department may pursue other collection actions or legal remedies to recover the overpayment from the obligee.

(6) The department shall provide a repayment agreement with each written notice of overpayment that is sent to the obligee. The obligee may use the repayment agreement to respond to the department in writing.

(7) The obligee may request to sign a repayment agreement to repay the overpayment in installments. Upon request and after full disclosure by the obligee of available income and resources, the department shall agree to a repayment agreement with the obligee that is reasonably related to the obligee's current ability to pay.

(8) The department shall withhold 25% of future collections received until an overpayment has been repaid if the obligee does not respond to the written notices sent pursuant to subsection (4) or paragraph (5)(c).

(9) Amounts withheld from future collections received by the department that would otherwise be disbursed to the obligee shall be applied toward the overpayment until it has been repaid. The remaining amount of each collection will be disbursed as required by 42 United States Code, Section 657.

(10) If an overpayment is not repaid, the department may pursue other collection actions or legal remedies to recover the overpayment from the obligee.

PUBLIC SERVICE COMMISSION

DOCKET NO. 020398-EQ

RULE NO.:	RULE TITLE:
25-22.082	Selection of Generating Capacity

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rules in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 28, No. 50, December 13, 2002, issue of the Florida Administrative Weekly:

25-22.082 Selection of Generating Capacity.

(1) Scope and Intent. ~~A Public Utility is required to provide reasonably sufficient, adequate, and efficient service to the public at fair and reasonable rates. In order to assure an adequate and reliable source of energy, a public utility must plan and construct or purchase sufficient generating capacity. To assure fair and reasonable rates and to avoid the further uneconomic duplication of generation, transmission, and distribution facilities in Florida, a public utility must select the most economical and cost effective mix of supply side and demand side resources to meet the demand and energy requirements of its end-use consumers.~~ The intent of this rule is to provide the Commission information to evaluate a public utility's decision regarding the addition of generating capacity pursuant to Section Chapter 403.519, Florida Statutes. The use of a Request for Proposals (RFP) process is an appropriate means to ensure that a public utility's selection of a proposed generation addition is the most cost-effective alternative available.

(2) through (a) No change.

(b) Next Planned Generating Unit: the next generating unit addition planned for construction by a public an investor-owned utility that will require certification pursuant to Section 403.519, Florida Statutes.

(c) through (e) No change.

(3) Prior to filing a petition for determination of need for an electrical power plant pursuant to Section 403.519, Florida Statutes, each ~~public investor-owned electric~~ utility shall evaluate supply-side alternatives to its next planned generating unit by issuing a Request for Proposals (RFP).

(4) through (c) No change.

(5) ~~No term of the RFP shall be unfair, unduly discriminatory, onerous, or commercially infeasible.~~ Each public utility's RFP shall include, at a minimum:

(a) through 13. No change.

(b) ~~A copy of the public utility's most recent Ten-Year Site Plan. Detailed information regarding the public utility's ten year historical and ten year projected net energy for load;~~

(c) through 8. No change.

(e) A detailed description of the criteria and the methodology, including any weighting and ranking factors, to be used to evaluate alternative generating proposals on the basis of price and non-price attributes;-

(f) All criteria, including all weighting and ranking factors that will be applied to select the finalists. Such criteria may include price and non-price considerations, but no criterion shall be employed that is not expressly identified in the RFP absent a showing of good cause;

~~(f)(g)~~ Any application fees that will be required of a participant. Any such fees or deposits shall be cost-based;

~~(g)(h)~~ Best available ~~Any~~ information regarding system-specific conditions which may include, but not be limited to, preferred locations proximate to load centers, transmission constraints, the need for voltage support in particular areas, and/or the public utility's need or desire for greater diversity of fuel sources.

(6) No attribute, criterion, or methodology shall be employed that is not identified in the RFP absent a showing of good cause;

(6) through (10) renumbered (7) through (11) No change.

~~(12)(11)~~ A potential participant ~~who attended the public utility's post-issuance meeting~~ may file with the Commission specific objections to any terms of the RFP limited to specific allegations of violations of this rule within 10 days of the post-issuance of the RFP meeting. The public utility may file a written response within 5 days. Within 30 days from the date of the objection, the Commission panel assigned shall determine whether the objection as stated would demonstrate that a rule violation has occurred, based on the written submission and oral argument by the objector and the public utility, without discovery or an evidentiary hearing. The RFP process will not be abated pending the resolution of such objections. Failure to file objections within 10 days shall constitute a waiver of those objections. The Commission will address any objections to the terms of the RFP on an expedited basis.

~~(13)(12)~~ No change.

~~(14)(13)~~ The public utility shall evaluate the proposals received in response to the RFP in a fair comparison with the public utility's next planned generating unit identified in the RFP. The public utility may modify the construction costs and/or performance parameters affecting revenue requirements in its next planned generating unit that it included in the RFP. However, if it chooses to do so, it must inform participants of its intent, provide the participants (limited to the remaining finalists) a corresponding opportunity to revise their bids.

~~(15)(14)~~ If the Commission approves a purchase power agreement as a result of the RFP, the public utility shall be authorized to recover the prudently incurred costs of the agreement through the public utility's capacity, and fuel and purchased power cost recovery clauses absent evidence of fraud, mistake, or similar grounds sufficient to disturb the finality of the approval under governing law. If the public utility selects a self-build option, ~~any~~ costs in addition to those identified in the need determination proceeding shall not be recoverable unless the utility can demonstrate that such costs were prudently incurred and due to extraordinary circumstances unforeseen and beyond its control.

~~(16)(15)~~ No change.

(17) In implementing an RFP under this rule, the public utility may use or incorporate an auction process.

~~(18)(16)~~ No change.

RULE NO.: 40C-4.091
 RULE TITLE: Publications Incorporated by Reference

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 28, No. 16, of the Florida Administrative Weekly, on April 19, 2002. These changes are being made to address testimony and evidence received at public hearings held on the rule and to establish and effective date of March 7, 2003. Section 11.7 and Appendix K of the Applicant's Handbook: Management and Storage of Surface Waters, are incorporated by reference in Section 40C-4.091, F.A.C.

40C-4.091 Publications Incorporated by Reference.
 Proposed effective date 3-07-03.

11.7 Lake Apopka Hydrologic Basin

(a) Pursuant to section 373.461(3)(a), ~~F.S. F.A.C.~~, the total phosphorus criterion for Lake Apopka is 55 parts per billion. To meet this total phosphorus criterion, the applicant must provide reasonable assurance of compliance with the following

total phosphorus discharge limitations and comply with the relevant monitoring requirements in sections 11.7(b) through 11.7(e) and relevant inspection requirements of section 11.7(c):

(1) Sites Within Lake Apopka Hydrologic Basin.

Applicants required to obtain a permit pursuant to Chapters 40C-4, 40C-40, 40C-42, or 40C-44, F.A.C., for a surface water management system located within the Lake Apopka Hydrologic Basin shall demonstrate: (i) that the system provides stormwater treatment equivalent to or greater than any of the applicable stormwater treatment options contained in Table 11.7-1 for the removal of total phosphorus; (ii) that the post-development total phosphorus load discharged from the project area will not exceed the pre-development total phosphorus load discharged from the project area; or (iii) that the system, under the soil moisture conditions described in section 10.3.8(a), will not discharge water to Lake Apopka or its tributaries for the 100-year, 24-hour storm event. Systems described under section 11.7(a)(1)iii. shall be considered to discharge to a land-locked lake that must meet the criteria in sections 10.4.1 and 10.4.2. Any alteration of a system originally permitted pursuant to section 11.7(a)(1)iii. which results in an increase in discharge of water to Lake Apopka or its tributaries shall be considered an interbasin diversion that must meet the criteria in sections 11.7(a)(2) and 11.7(b)(4)(e).

(2) Interbasin Diversion of Water to Lake Apopka Hydrologic Basin.

Applicants required to obtain a permit pursuant to Chapters 40C-4, 40C-40, 40C-42, or 40C-44, F.A.C., for a surface water management system that will cause the importation of water from another hydrologic basin into the Lake Apopka Hydrologic Basin shall not discharge any phosphorus from the project area to Lake Apopka or its tributaries, unless the applicant implements measures to reduce the existing total phosphorus load to Lake Apopka or its tributaries from another existing source by at least an equivalent amount of total phosphorus. The imported water shall consist only of stormwater runoff. The imported water shall not be discharged to Lake Apopka or its tributaries when the water level of Lake Apopka is in Zone A of the Lake Apopka Regulation Schedule set forth in Figure Table 11.7-2. All measures to reduce existing phosphorous loads to Lake Apopka or its tributaries must be constructed and operating in compliance with the environmental resource permit prior to any importation of water into the Lake Apopka Hydrologic Basin. Measures that reduce existing phosphorous loads to Lake Apopka or its tributaries shall not include those measures taken on the District's land.

(3) Methodology for Determining Total Phosphorus Loads
Determination of Pre-Development Total Phosphorus Loads.

Pre-development total phosphorus loads shall be based upon the land uses in place as of (effective date). For systems which have been constructed in accordance with a permit issued pursuant to chapters 40C-4, 40C-40, 40C-42, or 40C-44,

F.A.C., at the permit applicant's option, the pre-development total phosphorus loads shall be based upon the land uses in place at the time the prior permit was issued. Pre-development total phosphorus loads shall be determined by: monitoring the total phosphorus loads from the project area for a period of one year prior to construction, alteration, abandonment, or removal of the proposed or existing system; calculating total phosphorus loads using the appropriate mean annual total phosphorus loadings in Table 11.7-3, or calculating total phosphorus loads for pre-development land uses not listed in Table 11.7-3 using mean annual total phosphorus loadings from the scientific literature. When the pre-development total phosphorus loads are determined by monitoring, the calculation of pre-development total phosphorus loads shall be adjusted by interpolation or extrapolation to reflect mean annual rainfall conditions.

Determination of Post-Development Total Phosphorus Loads. Post-development total phosphorus loads shall be based upon the land uses proposed in the permit application and shall be determined by: calculating total phosphorus loads using the appropriate mean annual total phosphorus loadings in Table 11.7-3 and then reducing the total phosphorus load according to the appropriate total phosphorus removal efficiency values for systems listed in Tables 11.7-4 through 11.7-33. For purposes of Tables 11.7-4 and 11.7-6 through 11.7-33, the term "retention" includes stormwater reuse and underdrain and underground exfiltration trench systems as those terms are defined in section 2.0 of the Applicant's Handbook: Regulation of Stormwater Management Systems, Chapter 40C-42, F.A.C., which is adopted by reference in section 40C-42.091(1), F.A.C. The calculation of total phosphorus loads for post-development land uses not listed in Table 11.7-3 or total phosphorus removal efficiency values for systems not listed in Tables 11.7-4 through 11.7-33 may be calculated using mean annual total phosphorus loadings and total phosphorus removal efficiency values from the scientific literature.

(b) Monitoring.

(1) Monitoring for Retention Systems.

A surface water management system to be permitted under section 11.7(a)(1)i which utilizes only retention, shall be monitored as set forth in this paragraph. Water elevations in such a system shall be monitored from the date that construction of the system is completed or any part of the system is used for its intended purpose, whichever is sooner. The monitoring shall continue for three years following completion of construction of the entire system, including all associated residential, commercial, transportation, or agricultural improvements. If the results of the monitoring indicate that the system is not recovering the treatment volume in accordance with the permitted design, then the permittee shall either perform maintenance on the system, or obtain a modification to the permit and implement measures, to bring

the system into compliance, and in either event the monitoring shall continue for three years after the date the system is brought into compliance.

(2)(~~e~~) Monitoring for Systems Permitted Under Section 11.7(a)(1)iii.

A surface water management system to be permitted under section 11.7(a)(1)iii, shall be monitored as set forth in this paragraph. Water elevations in such a system shall be monitored from the date that construction of the system is completed or any part of the system is used for its intended purpose, whichever is sooner. The monitoring in such a system shall continue for ten years following completion of construction of the entire system, including all associated residential, commercial, transportation, or agricultural improvements. If the results of the monitoring indicate that either the system is not recovering storage in accordance with the permitted design or causes water to be discharged to Lake Apopka or its tributaries for events less than the 100-year, 24-hour storm event, then the permittee shall either perform maintenance that brings the system into compliance or obtain a modification to the permit and implement measures to bring the system into compliance, and in either event the monitoring shall continue for ten ~~three~~ years after the date the system is brought into compliance.

(3)(~~d~~) Monitoring for Other Systems.

A surface water management system to be permitted, other than a system described in sections 11.7(b)(1), 11.7(b)(2)(~~e~~) or 11.7(b)(4)(~~e~~), shall be monitored as set forth in this paragraph. Except as provided below, ~~t~~The total phosphorus load from the project area shall be monitored from the date that construction of such a system is completed or any part of the system is used for its intended purpose, whichever is sooner. The monitoring shall continue for three years following completion of construction of the entire system, including all associated residential, commercial, transportation, or agricultural improvements. If the results of the monitoring indicate that post-development total phosphorus loads exceed pre-development total phosphorus loads, then the permittee shall either perform maintenance on the system, or obtain a modification to the permit and implement measures, to reduce the total phosphorus loads to no more than pre-development levels, and in either event the monitoring shall continue for three years after the date the system is maintained or modified as described herein.

No monitoring shall be required under section 11.7(b)(3) when an applicant demonstrates that the system provides stormwater treatment equivalent to or greater than any of the applicable

stormwater treatment options contained in Table 11.7-1 for the removal of total phosphorus. Alternatively, no monitoring shall be required under section 11.7(b)(3) when an applicant demonstrates that the post-development total phosphorus load discharged from the project area will not exceed the pre-development total phosphorus load discharged from the project area when determined using the appropriate mean annual total phosphorus loadings and total phosphorus removal efficiency values from Tables 11.7-3 through 11.7-33.

(4)(~~e~~) Monitoring for Interbasin Diversion of Water to Lake Apopka Hydrologic Basin.

A surface water management system to be permitted under described in Section 11.7(a)(2) shall be monitored as set forth in this paragraph. The total phosphorus load shall be monitored from: (i) any system designed to reduce the existing total phosphorus load to Lake Apopka or its tributaries, and (ii) the system that is importing water to the Lake Apopka Hydrologic Basin. Monitoring of the system that is importing water to the Lake Apopka Hydrologic Basin shall commence from the date that construction of such system is completed or any part of the system is used for its intended purpose, whichever is sooner. Monitoring of systems designed to reduce the existing total phosphorus load to Lake Apopka or its tributaries shall commence from the date that construction of such system is completed. Monitoring shall continue for as long as water is imported from the system to the Lake Apopka Hydrologic Basin. If monitoring results indicate that the reductions in total phosphorus load are less than that in the imported water, then the permittee shall either perform maintenance or obtain a permit modification to bring the system(s) into compliance.

~~(f) Determination of Pre-development Total Phosphorus Loads~~

~~Pre-development total phosphorus loads shall be based upon the land uses in place as of (effective date) and shall be calculated by: monitoring the total phosphorus loads from the project area for a period of one year prior to construction, alteration, abandonment, or removal of the proposed or existing system; or calculating total phosphorus loads for the same land uses from the scientific literature. That calculation of pre-development total phosphorus loads shall be adjusted by interpolation or extrapolation to reflect average annual rainfall conditions.~~

~~(c)(~~g~~) Inspecting Systems.~~

No change.

(a) A ticket having a number in the "YOUR NUMBERS" play area that matches any number in the "WINNING NUMBERS" play area shall entitle the claimant to the corresponding prize shown for that number. A ticket may have up to twenty sets of matching numbers. The prizes are: \$5.00, \$10.00, \$15.00, \$20.00, \$25.00, \$40.00, \$50.00, \$100, \$200, \$500, \$1,000, and \$10,000.

(b) A ticket having a "WIN" symbol in the "YOUR NUMBERS" play area shall entitle the claimant to a prize of \$50,000 a year for twenty years.

ticket. The winner has sixty (60) days from the date the player claim instructions ticket is produced to choose the Cash Option. If a winner does not choose the Cash Option within such time, the Annual Payment option will be applied. Once the winner signs the Winner Claim Form and exercises the winner's chosen option, the election of that option shall be final. 4. Any interest or earnings accruing on a \$50,000 a year for twenty years prize prior to the prize payment or purchase of securities, under either the Cash Option or the Annual Payment Option, shall accrue to the State of Florida and not to the winner.

Preferences will be given to any Community Action agency, other public or nonprofit entity which has, or is currently administering an effective DCA funded Weatherization Assistance Program. NOTICE IS HEREBY GIVEN THAT the Florida Public Service Commission has issued an order denying the petition for declaratory statement filed by CNM Networks, Inc. The final order was issued on December 31, 2002, denying the petition because a declaratory statement is not appropriate where the result is an agency statement of general applicability interpreting law or policy.

DEPARTMENT OF HEALTH

The Board of Medicine hereby gives notice that it has issued a Final Order in the Petition for Declaratory Statement filed by Mark Rabinowitz, M.D. The Notice of Petition for Declaratory Statement was published in Vol. 28, No. 43, of the October 25, 2002, Florida Administrative Weekly. The Board reviewed the petition at its meeting held on December 7, 2002, in Tampa, Florida. The Board's Final Order, filed in this cause on

December 23, 2002, finds that the Petitioner failed to provide enough information for the Board to determine whether the procedure outlined in the petition is the appropriate standard of care. In addition, the Board found it could not review the informed consent procedures of every physician in the State of Florida for every medical treatment or procedure performed on the patient. Consequently, the Board declines to answer the Petition and dismisses the Petition.

A copy of the Petition and the Board's Final Order may be obtained by contacting: Board of Medicine, 4052 Bald Cypress Way, Bin #C03, Tallahassee, Florida 32399-3253.

The Board of Psychology hereby gives notice that on December 30, 2002, it received a Petition for Declaratory Statement filed on behalf of Rhonda R. Adkinson. The petition seeks the Board's interpretation of Section 490.005(1)(c), Florida Statutes, and Rule 64B19-11.005, F.A.C. The petition specifically asks whether Dr. Mary L. Stegall, a Florida-licensed psychologist in private practice, may supervise Ms. Adkinson's post-doctoral residency at the COPE Center, Inc. The COPE Center does not employ a licensed psychologist. Both the COPE Center and Dr. Stegall's practice are located in DeFuniak Springs, Florida.

The Board will consider this petition at its meeting on January 31, 2003, at the Quorum Call by phone. Copies of the petition may be obtained from: Kaye Howerton, Executive Director, Board of Psychology, 4052 Bald Cypress Way, BIN #C05, Tallahassee, FL 32399-3253.

It is the Firm's responsibility to check the website or with MDX's Procurement Officer for these responses.

RESPONSIVENESS OF SOQ'S AND CONDITIONS CAUSING DISQUALIFICATIONS OF FIRMS: A responsive SOQ is one that conforms, in all material respects, to the requirements and instructions of the RSOQ. SOQs will be rejected if found to be irregular, conditional or not in conformance with the requirements and instructions contained herein.

An SOQ will be found to be irregular or non-responsive for reasons including, but not limited to, violation of the Cone of Silence (as defined below), failure to strictly comply with and satisfactorily address the Prerequisite Criteria, failure to submit the information needed to evaluate the SOQ based on the Evaluation Criteria, incomplete SOQs, failure to provide or complete required forms, improper signatures, submittal of

SOQs will be rejected if more than one SOQ is received from an individual, firm, partnership, or corporation, or combination thereof (furnished as the prime proposer), under the same or different names. Such duplicate interest will cause the rejection of all SOQs in which such Firm has participated. A Firm or any of the entities comprising the Firm shall not appear as a Proposer in any other SOQ for the Projects.

MDX, at its sole and absolute discretion, reserves the right to reject any and all SOQs or part of any and all SOQs, re-advertise the RSOQ, postpone or cancel, at any time, this procurement process for the Project, waive irregularities in the SOQs or to withdraw the RSOQ, if it is in the best interest of MDX. All expenses involved with the preparation and submission of an SOQ to MDX, or any work performed in connection therewith, shall be solely the Firm's responsibility.

The only exceptions to this are: 1) communications at a pre-proposal conference; 2) communications at an oral interview, or a publicly noticed meeting of MDX and/or its Operations Committee; 3) written communications regarding questions about the RSOQ. It is intended that this provision be utilized to address any issues concerning the manner or process by which Firms are identified as qualified to receive the Request for Proposal for the Project. Should issues arise after the time period for filing a protest has passed pursuant to this provision, which issues are determined by MDX to be covered by this provision, the protesting party shall be deemed to have waived any right to protest same.
2. A protest bond in the amount of \$20,000.00 will be required for any protest.
3. After the MDX Operations Committee renders its decision regarding the firms to be shortlisted, a copy of the final shortlist of firms invited to submit proposals in response to the Request for Proposals ("Final Shortlist") shall be sent to

5. Upon receipt of a timely filed written protest, MDX and the protesting party shall attempt to resolve the protest by mutual agreement within ten (10) business days from the date of filing of the protest.
6. If the protest is not resolved by mutual agreement within ten (10) business days from the date of filing, MDX and the protesting party shall select a mutually agreed-upon mediator and participate in mediation within thirty, (30) calendar days after the failure to reach a mutual agreement. All costs of mediation shall be borne by the protesting party, unless otherwise agreed upon by MDX. No court proceedings regarding any protest may be filed until the parties have first participated in mediation.
7. In the event mediation is unsuccessful, the party filing a protest pursuant to this provision shall file and serve the requisite legal action within fifteen (15) calendar days of the date of mediation.
8. In the event that a party serving a protest in accordance with this provision fails to: (1) resolve the protest by mutual agreement within ten (10) business days from the date of filing of the protest; (2) work with MDX to select an agreed-upon mediator and participate in mediation within thirty (30) calendar days after the failure to reach a mutual agreement; or (3) file and serve the requisite legal proceeding within fifteen (15) calendar days after the termination of an unsuccessful mediation, the protest shall be deemed withdrawn and have no further force and effect. Any waiver of this provision must be in writing and signed by MDX's Executive Director.
9. Failure to file a protest in accordance with the requirements set forth herein with respect to any decisions made prior to the issuance of the Final Shortlist in accordance with this provision shall constitute a waiver of any right to initiate any protest proceedings regarding those decisions.

The Pasco School Readiness Coalition's programs, funded through federal, state and local dollars, strive to: Prepare children to enter kindergarten ready to learn; provide extended-day and extended-year services to the maximum extent possible to meet the needs of parents who work; help coordinate child care staff development and teaching opportunities; expand access to community services and resources for families to help them achieve economic self-sufficiency; maintain a single point of entry and a unified waiting list; develop a community plan to address the needs of eligible children; and, meet applicable state licensing guidelines.

The Coalition's programs exist primarily for children under the age of kindergarten (but may include children up to the age of 13, age 19 in some cases) who have been determined by the Department of Children and Family Services to be at risk of abuse, neglect or exploitation; at risk of welfare dependency; or, eligible for participation in the welfare transition program. Other priority groups include children of low income migrant, homeless and teen parent families and other income eligible families.

The Pasco School Readiness Coalition will be soliciting detailed proposals from qualified providers for early education and care services. Service contracts will be awarded for one year effective July 1, 2003 with a maximum of two one-year renewals subject to the availability of funds and the satisfactory performance by the Contractor(s). These services may include: Resource and referral services including client eligibility determination, consumer education and referral services; provider services including contracting, monitoring, training, technical assistance, quality assurance and payment services; fiscal and management services including tracking, analysis and reporting services; and, parent and child services including community liaison, child assessment and referral services.
