Division of Standards

RULE TITLE: Gasoline Silver Corrosion Standard

RULE NO.: 5F-2.017

The purpose is to repeal Rule 5F-2.017, F.A.C. The effect will be to remove the redundancy of a standard and a test method from the Florida Administrative Code. Rule 5F-2.017, F.A.C., adopted September 22, 2004, currently establishes the gasoline silver corrosion standard and test method for gasoline. The most recent edition of ASTM D 4814, “Standard Specification for Automotive Spark-Ignition Engine Fuel”, also includes the silver corrosion standard and test method. The Department intends to concurrently adopt the most recent version of ASTM D 4814 in Rule 5F-2.001, F.A.C., thus obviating the need for Rule 5F-2.017, F.A.C.

SUMMARY: An emergency rule was implemented June 8, 2004 to remedy an omission at that time, of a silver corrosion standard for gasoline in the ASTM gasoline specification adopted into Rule 5F-2.001, F.A.C. This emergency rule was replaced by Rule 5F-2.017, F.A.C. on September 22, 2004. The silver corrosion standard for gasoline is now included in the latest edition of ASTM D4814-04b, “Standard Specification for Automotive Spark-Ignition Engine Fuel”. Rule 5F-2.017, F.A.C. is no longer needed in the Florida Administrative Code because it is in materials to be adopted with ASTM D4814-04b.

LAND AND WATER ADJUDICATORY COMMISSION

Hawk’s Haven Community Development District

RULE CHAPTER TITLE: Hawk’s Haven Community Development District

RULE CHAPTER NO.: 42YY-1

RULE TITLES: Establishment

RULE NOS.: 42YY-1.001

Boundary

42YY-1.002

Supervisors

42YY-1.003

PURPOSE, EFFECT AND SUMMARY: The purpose of this proposed rule is to establish a community development district (“CDD”), the Hawk’s Haven Community Development District (“District”), pursuant to Chapter 190, F.S. The petition filed by Hawk’s Haven Developers, LLC, requests the Commission establish a community development district located within the unincorporated area of Lee County, Florida. A Notice of Receipt of Petition for the Hawk’s Haven Community Development District was published in the November 24, 2004, edition of the Florida Administrative Weekly. The land area proposed to be served by the District comprises approximately 1,926 acres. A general location map is contained as Exhibit A to the petition to establish the District. The following real property is located within the external boundaries of the District and is to be excluded from the District:

Parcel A Address: 2971 Hickey Creek Road, Alva, Florida 33920

Parcel ID: 25-43-26-00-00122.0000 (approximately 29.6 acres)

Parcel B Address: 2920 Hickey Creek Road, Alva, Florida 33920

Parcel ID: 26-43-26-00-00010.0000 (approximately 15 acres)

Parcel C Address: 15180 Palm Beach Boulevard

Parcel ID: 27-43-26-00-00004.0000 (approximately 10 acres)

Petitioner either owns or has written consent to establish the District from the owners of one hundred percent (100%) of the land within the proposed District. The District, if established, currently intends to participate in the provision of certain community facilities and services to the property in the District to include, public roads, water and wastewater irrigation, surface water management, and landscape and hardscape.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS:

In association with the Petition, the Petitioner has caused a Statement of Estimated Regulatory Costs (“SERC”) to be prepared in compliance with Section 120.541, Florida Statutes. The complete text of the SERC (as amended) is contained at Exhibit “H” to the Petition. The SERC (as amended) estimates that the principal individuals and entities likely to be required to comply with the rule are the State of Florida and its residents, Lee County and its residents, current property owners, and future property owners within the

District. The SERC (as amended) indicates that the costs to state governmental entities to review and enforce the rule will be modest. Costs to Lee County are offset by the required filing fee paid to Lee County by the Petitioner. The proposed District will incur costs associated with its administration and management which will be offset by assessments to be imposed by the District. With respect to an estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the rule, the SERC (as amended) provides that the District plans to provide certain community facilities and services to the property in the District. According to the SERC (as amended) the District plans to fund, own, operate and maintain park and recreational facilities, landscape and hardscape, and surface water management. The District will fund and construct the water and wastewater irrigation and the District will dedicate same to Lee County. The District will also fund roads and street lighting for which ownership, operation and maintenance will be shared by Lee County and the District. The District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. The District may issue notes, bonds, or other indebtedness to fund its improvement program. Prospective future land owners would be required to pay off such indebtedness over time in the form of non-ad valorem special assessments or other rates, fees or charges. The District may also impose an annual levy for the operation and maintenance of the District. The SERC (as amended) concludes that the proposed District will not create any significant economic costs for the State of Florida or for Lee County, and approval of the District will not have any negative effect on state revenues. Finally, the SERC (as amended) concludes that the District should have a positive impact on small businesses or the local economy and will not have a negative impact on small cities or counties. Lee County is not a "small" county as defined by Section 120.52, Florida Statutes. The data utilized in the SERC (as amended) was provided by the developer/petitioner and represents the best information available.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

PURPOSE, EFFECT AND SUMMARY: The purpose of this proposed rule is to establish a community development district ("CDD"), the Lakewood Ranch Community Development District 7 ("District"), pursuant to Chapter 190, F.S. The petition filed by Schroeder-Manatee Ranch, Inc., requests the Commission establish a community development district located entirely within Manatee County, Florida. A Notice of Receipt of Petition for the Lakewood Ranch Community Development District 7 was published in the October 29, 2004, edition of the Florida Administrative Weekly. The land area proposed to be served by the District comprises approximately 1,615 acres. A general location map is contained as Exhibit 1 to the petition to establish the District. There are no excluded parcels located within the boundaries of the proposed District. The Petitioner either owns or has written consent to establish the District from the owners of one hundred percent (100%) of the land within the proposed District. The development plan for the proposed lands within the District includes the construction of approximately 751 single family home sites. The District, if established, currently intends to participate in the provision of various community facilities and services to the property in the District to include, public roads, stormwater management, utilities, and landscape.

42ZZ-1.003

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: In association with the Petition, the Petitioner has caused a Statement of Estimated Regulatory Costs ("SERC") to be prepared in compliance with Section 120.541, Florida Statutes. The complete text of the SERC (as amended) is contained at Exhibit "7" to the Petition. The SERC (as amended) estimates that the principal individuals and entities likely to be required to comply with the rule are the ultimate property owners within the District. Prior to the sell

out of the real estate, all of the undeveloped land owned by the developer and any other landowner will also be under the jurisdiction of the District. The SERC (as amended) indicates that the costs to state governmental entities to review and enforce the rule will be modest. Costs to Manatee County are offset by the required filing fee paid to Manatee County by the Petitioner. The proposed District will incur costs associated with its administration and management which will be offset by assessments to be imposed by the District. With respect to an estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the rule, the SERC (as amended) provides that the District plans to provide various community facilities and services to the property in the District. According to the SERC (as amended) the District plans to fund, own, operate and maintain the stormwater management system and landscape. The District will also fund and construct the public roadways and utilities, and the District will dedicate them to Manatee County. The District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. The District may issue notes, bonds, or other indebtedness to fund its improvement program. Prospective future land owners would be required to pay off such indebtedness over time in the form of non-ad valorem special assessments or other rates, fees or charges. The District may also impose an annual levy for the operation and maintenance of the District. Finally, the SERC (as amended) concludes that the rule's effect on small businesses will be minimal or positive and that Manatee County is not a "small" county as defined by Section 120.52, Florida Statutes. The SERC (as amended) analysis is based on a straightforward application of economic theory with input received from the developer's engineer and other professionals associated with the developer.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE TIME, DATE AND PLACE SHOWN BELOW (IF NOT REQUESTED, A HEARING WILL NOT BE HELD):
