33-208.403 Random Drug Testing of Employees.

(1) Definitions.

(a) Authorized Individual – The person designated by the Chief of Personnel to interact with an employee regarding the drug testing program.

(b) Chain of Custody – The procedures used to account for the integrity of each urine specimen by tracking its handling and storage from the point of specimen collection to final disposition.

(c) Contact Person – the employees designated by the Chief of Personnel to interact with the Medical Review Officer regarding drug test results.

(d) Medical Review Officer – a licensed physician under contract with the Department or the outside vendor used by the Department who reviews all drug tests from the laboratory and makes the final determination regarding the test result.

(e) Random Drug Test – A drug test conducted based on a computer generated random sampling in positions identified as being subject to random testing, administered for the purposes of determining the presence of drugs or their metabolites.

(f) Test refusal – failure on the part of a randomly selected employee to fully comply with the Department’s random drug testing procedures. This includes refusal to sign required forms, refusal to provide specimens for testing, failing to report to the collection site within required time frames, failing to provide a valid specimen, attempting to alter the specimen with adulterants, and using substitute specimens in makeshift devices or objects.

(2) Only employees required to maintain certification under Chapter 943, F.S., shall be subject to random drug testing.

(3) The Bureau of Research and Data Analysis shall generate random lists of individual positions subject to testing.

(a) The Bureau of Personnel shall disburse the list to the authorized individuals during each random testing period.

(b) The list shall include the date by which all tests for that testing period must be completed.

(c) Each time an employee’s name appears on the random list, he or she shall be tested regardless of whether or not he or she has been previously tested.

(d) Listed employees shall not be excused from random drug testing unless they are on approved leave of absence or out of town on business. If the employee returns in time for the test to be rescheduled and completed within the prescribed deadline, the authorized individual shall ensure testing is rescheduled and completed.

(e) The list is confidential and shall not be disseminated to non-essential staff members prior to testing.

(4) Once an employee is randomly selected and scheduled for a test, the authorized individual shall:

(a) Initiate the chain of custody process;

(b) Provide the employee with the drug testing instructions and directions to the designated collection site;

(c) Provide the employee with a written notice and consent for testing form that advises the employee that he or she has been randomly selected for testing and that he or she has 24 hours to complete the test. If the employee refuses to sign, the employee will be considered to have refused to submit to testing. The authorized individual shall notify the servicing personnel office, and the employee shall be advised in writing that he is subject to disciplinary action up to and including dismissal for refusal to submit to testing.

(5) Once the necessary forms have been completed and signed, the employee shall be instructed to present the employee's Department of Corrections' employee identification card to collection site staff. The employee shall take all copies of the chain of custody form to the collection site.

(6) If the employee does not report to the collection site within the specified time frame, or as directed on the written notice, the employee will be considered to have refused to submit to drug testing. The employee shall be advised in writing by the servicing personnel office that he is subject to disciplinary action for failure to report to the collection site unless the employee presents sufficient justification for failure to appear. Issues that will be considered include the timely notification to the employee, timely processing by the lab, and transportation issues.

(7) The employee shall remain at the collection site until able to produce a sufficient specimen unless the employee advises that a medical condition has caused the inability to produce a sufficient specimen. If the employee cannot produce a sufficient specimen quantity, the collection site staff shall contact the authorized individual. The employee shall provide a doctor's statement to the authorized individual within 3 business days attesting to the medical condition. If the current random testing period has not expired, the employee will be given another notice that he or she has 24 hours to complete the test and will be required to report again for testing.

(8) If an employee's test results show the specimen to be adulterated, the employee will be considered to have failed the test.

(9) If the employee's test results are negative for drugs but show possible dilution, the test shall be considered negative.

(10) If the test results are positive, the sample will be retested for confirmation.

(11) All employees with a positive confirmed drug test shall be contacted by the Medical Review Officer within 3 days of receipt of the results from the lab and offered the opportunity to produce valid documentation of lawful ingestion of the identified controlled substance. The Medical Review Officer may also request consent to review the employee's medical records to assist in evaluating the test results. The employee shall have 15 days from contact by the Medical Review Officer to present documentation that provides a legitimate explanation for the positive test results.

(12) If the Medical Review Officer cannot contact the employee within 3 days, the Medical Review Officer shall request that the contact person direct the employee to contact the Medical Review Officer. If the employee does not contact the Medical Review Officer within 2 days from the request to the employee by the contact person, the Medical Review Officer shall report the test results as positive.

(13) In the case of positive test results for which the employee did not or could not provide a legitimate explanation, the employee shall be notified in writing of the positive test results and the consequences of the results. The employee shall be immediately removed from his position in accordance with the department's dismissal process and the Criminal Justice Standards and Training Commission shall be notified.

(14) If the Medical Review Officer reports the test results as cancelled, it shall be considered collection site or lab error and a re-test shall be scheduled immediately. The employee shall be given no more than 24 hours notice for the retest. If a re-test cannot be conducted prior to the deadline for the random testing period, the Regional Personnel Officer shall provide an explanation to the Chief of Personnel.

(15) If the Medical Review Officer receives subsequent documentation that a positive test result was caused by a legitimate use of drugs, the Medical Review Officer shall report the result as negative and the Department's contact person shall be notified as such.

(16) Should subsequent documentation be received reflecting that the positive result was in error, the authorizing individual shall inform the Bureau of Personnel so that remedial action can be taken if necessary.

(17) Within 5 days of the completion of random testing, the authorized individual shall submit to the Bureau of Personnel the names of the employees not tested and the reason the test was not completed, with the attendance and leave reports or travel reimbursement requests attached for any employee unavailable for the test.

(18) The following appeal process shall be available to an employee who wants to appeal a positive confirmed drug test.

(a) Within 5 working days of the notification of the failed drug test, the employee may submit a letter to the Chief, Bureau of Personnel, contesting or explaining the result.

(b) Within 180 days after receipt of the notification of the failed drug test, the employee may request a re-test of the original specimen at the employee's expense by the same laboratory or another laboratory licensed and approved by the Agency for Health Care Administration. The re-test must be at an equal or greater sensitivity for the drug in question as was used in the first laboratory test. All costs associated with such re-tests shall be borne by the employee.

LAND AND WATER ADJUDICATORY COMMISSION

Lakewood Ranch Community Development District

RULE CHAPTER TITLE: Lakewood Ranch Community
 RULE CHAPTER NO.: Development District 7

RULE TITLES: Establishment
 RULE NOS.: 42ZZ-1.001

Boundary 42ZZ-1.002

Supervisors 42ZZ-1.003

PURPOSE, EFFECT AND SUMMARY: The purpose of this proposed rule is to establish a community development district ("CDD"), the Lakewood Ranch Community Development District 7 ("District"), pursuant to Chapter 190, F.S. The petition filed by Schroeder-Manatee Ranch, Inc., requests the Commission establish a community development district located entirely within Manatee County, Florida. A Notice of Receipt of Petition for the Lakewood Ranch Community Development District 7 was published in the October 29, 2004, edition of the Florida Administrative Weekly. The land area proposed to be served by the District comprises approximately 1,615 acres. A general location map is contained as Exhibit 1 to the petition to establish the District. There are no excluded parcels located within the boundaries of the proposed District. The Petitioner either owns or has written consent to establish the District from the owners of one hundred percent (100%) of the land within the proposed District. The development plan for the proposed lands within the District includes the construction of approximately 751 single family home sites. The District, if established, currently intends to participate in the provision of various community facilities and services to the property in the District to include, public roads, stormwater management, utilities, and landscape.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: In association with the Petition, the Petitioner has caused a Statement of Estimated Regulatory Costs ("SERC") to be prepared in compliance with section 120.541, Florida Statutes. The complete text of the SERC (as amended) is contained at Exhibit "7" to the Petition. The SERC (as amended) estimates that the principal individuals and entities likely to be required to comply with the rule are the ultimate property owners within the District. Prior to the sell out of the real estate, all of the undeveloped land owned by the developer and any other landowner will also be under the jurisdiction of the District. The SERC (as amended) indicates that the costs to state governmental entities to review and

enforce the rule will be modest. Costs to Manatee County are offset by the required filing fee paid to Manatee County by the Petitioner. The proposed District will incur costs associated with its administration and management which will be offset by assessments to be imposed by the District. With respect to an estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the rule, the SERC (as amended) provides that the District plans to provide various community facilities and services to the property in the District. According to the SERC (as amended) the District plans to fund, own, operate and maintain the stormwater management system and landscape. The District will also fund and construct the public roadways and utilities, and the District will dedicate them to Manatee County. The District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. The District may issue notes, bonds, or other indebtedness to fund its improvement program. Prospective future land owners would be required to pay off such indebtedness over time in the form of non-ad valorem special assessments or other rates, fees or charges. The District may also impose an annual levy for the operation and maintenance of the District. Finally, the SERC (as amended) concludes that the rule's effect on small businesses will be minimal or positive and that Manatee County is not a "small" county as defined by Section 120.52, Florida Statutes. The SERC (as amended) analysis is based on a straightforward application of economic theory with input received from the developer's engineer and other professionals associated with the developer.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE TIME, DATE AND PLACE SHOWN BELOW (IF NOT REQUESTED, A HEARING WILL NOT BE HELD):

PURPOSE AND EFFECT: The purpose of this proposed rule is to establish a community development district ("CDD"), the Palm Coast Park Community Development District ("District"), pursuant to Chapter 190, F.S. The amended petition, as supplemented, filed by Florida Landmark Communities, Inc., Palm Coast Land, LLC, and Palm Coast Forest, LLC, requests the Commission establish a community development district located within the City of Palm Coast, Florida. The land area proposed to be served by the District comprises approximately 4,778 gross acres. The land area is generally bounded on the north by Old Kings Road and Ranch House Grade, bounded on the south by Palm Coast Industrial Park and Pine Lakes Industrial Park Phase 2, bounded on the west by the Florida East Coast Railway, and bounded on the east by Belle Terre Parkway and Interstate-95. The following real property is located within the external boundaries of the District and is to be excluded from the District:

The Petitioner has written consent to establish the District from the landowners of one hundred percent (100%) of the real property located within the proposed District. There are currently three owners of property making up the boundaries of the District. It is estimated that there will be approximately 7,700 residents in the District upon completion of the proposed development. Petitioner notes that actual numbers are difficult to quantify at this point in time. The development plan for the proposed lands within the District also includes 900 acres of commercial, office and industrial development to be divided into 30 to 50 individual parcels. The District, if established, currently intends to participate in the provision of certain infrastructure improvements including water management and control, water supply, sewer, wastewater management, bridges or culverts, roads and street lights, transportation facilities, parking improvements, environmental remediation and cleanup, conservation areas, parks and recreational facilities, fire prevention and control, schools, security, mosquito control, waste collect and disposal, or any other project, within or without the boundaries of the District as required by a development order issued by a local government or subject of an agreement between the District and a governmental entity.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The statement of estimated regulatory costs (SERC) supports the petition to establish the District. The complete text of the SERC is contained as Exhibit 10 to the petition to establish the District. The scope of the

SERC is limited to evaluating the regulatory costs consequences of approving the proposal to establish the District. The requirements for a SERC are found in Section 120.541(2), F.S. A SERC must contain (a) a good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a description of the types of individuals likely to be affected by the rule; (b) a good faith estimate of the costs to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state or local revenues; (c) a good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the rule; (d) an analysis of the impact on small businesses, small counties, and small cities; (e) any additional information that the agency determines may be useful; and (f) any good faith written proposal submitted under section (a) and either a statement adopting the alternative or a statement rejecting the alternative in favor of the proposed rule. Addressing section (a), the principle entities that are likely to be required to comply with the rules include the District, the State of Florida, and Flagler County. In addition, current and future property owners will be affected by the establishment of the proposed District. Under section (b), FLWAC and the State of Florida will incur minimal administrative costs. Flagler County and the City of Palm Coast will also incur one-time administrative costs. Costs to the City of Palm Coast are offset by the required filing fee paid to the City of Palm Coast by Petitioner. The proposed District will incur costs for operations and maintenance of its facilities and for its administration. These costs will be determined as such time that the District is established and an operations and maintenance budget has been adopted. Adoption of the proposed rule to approve the formation of the District will not have adverse impact on State and local revenues. Addressing section (c), the District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. The District may issue notes, bonds, or other indebtedness to fund its improvement program. Prospective future land owners would be required to pay off such indebtedness over time in the form of non-ad valorem special assessments or other rates, fees or charges. The District may also impose an annual levy for the operation and maintenance of the District. Under section (d), approval of the petition to establish the District should have a positive impact on small businesses or the local economy and will not have a negative impact on small cities or counties. Flagler County is not a small county and the City of Palm Coast is not defined as a small city for purposes of this requirement. The data utilized in the SERC (as amended) was provided by the developer/petitioner and represents the best information available.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULES IS:

61A-3.0141 Special Restaurant Licenses.

(1) Special restaurant licenses in excess of the quota limitation set forth in subsection 561.20(1), Florida Statutes, shall be issued to otherwise qualified applicants for establishments that are bona fide restaurants engaged primarily in the service of food and non-alcoholic beverages, if they qualify as special restaurant licensees as set forth in subsection (2) of this rule. Special restaurant licensees must continually comply with each and every requirement of both subsections (2) and (3) of this rule as a condition of holding a license. Qualifying restaurants must meet the requirements of this rule in addition to any other requirements of the beverage law. The suffix “SRX” shall be made a part of the license numbers of all such licenses issued after January 1, 1958.

(2) Special restaurant licenses shall be issued only to applicants for licenses in restaurants meeting the criteria set forth herein.

(a) Except in the counties of Alachua, Brevard, Broward, Citrus, for premises with a cocktail lounge or open bar, Dade, Pasco, St. Lucie, Walton, Martin, Nassau, Okaloosa,

Okeechobee, Osceola, Hendry, Highlands, Hillsborough, Indian River, ~~Lake~~ and Orange County with respect to ~~Orlando~~, Winter Park, and Maitland, each of the above being controlled by general law or special act, a qualifying restaurant must have a service area occupying 2,500 or more square feet of floor space.

1. The required square footage shall not include any space contained in an uncovered or not permanently covered area adjacent to the premises because food service is not available at all times.

2. The required square footage shall be contiguous and under the management and control of a single licensed restaurant establishment.

3. Kitchens, food service areas, pantries, storage rooms, offices, and toilets, used exclusively in the operation of the restaurant shall be included in the required square footage. Measurements will be taken from the outside of qualifying structures or areas.

(b) Except in the counties of Alachua, Brevard, Broward, Dade, Hendry, Highlands, Walton, Hillsborough, Indian River, Pasco, Martin, Nassau, Okaloosa, St. Lucie, Osceola, ~~and~~ Orange County with respect to ~~Orlando, Winter Park and~~ Maitland, and Citrus with respect to restaurants having an open bar/lounge, each of the above being controlled by general law or special act, a qualifying restaurant must have accommodations for the service and seating of 150 or more patrons at tables at one time.

1. The tables and seating must be located within the floor space provided for in paragraph (2)(a) of this rule.

2. The tables must be of adequate size to accommodate the service of full course meals in accordance with the number of chairs or other seating facilities provided at the table.

3. Seating at counters used to serve food shall be included in the minimum seating requirements.

(c) Except in those counties and municipalities controlled by general law or special act, as set forth in paragraph (2)(b) of this rule, a qualifying restaurant must have all equipment for the service of 150 full course meals on the premises at one time.

(d) An applicant for an SRX license must either hold, or have applied for, the appropriate restaurant license issued by the Division of Hotels and Restaurants prior to issuance of the temporary SRX license. The restaurant must hold the appropriate restaurant license before it will be eligible for a permanent SRX license.

(e) A qualifying restaurant must comply with all fire safety laws relating to the operation of a restaurant.

(3) Qualifying restaurants receiving a special restaurant license after April 18, 1972 must, in addition to continuing to comply with the requirements set forth for initial licensure, also maintain the required percentage, as set forth in paragraph

(a) or (b) below, on a bi-monthly basis. Additionally, qualifying restaurants must meet at all times the following operating requirements:

(a) At least 51 percent of total gross revenues must come from retail sale on the licensed premises of food and non-alcoholic beverages. Proceeds of catering sales shall not be included in the calculation of total gross revenues. Catering sales include food or non-alcoholic beverage sales prepared by the licensee on the licensed premises for service by the licensee outside the licensed premises.

1. Qualifying restaurants must maintain separate records of all purchases and gross retail sales of food and non-alcoholic beverages and all purchases and gross retail sales of alcoholic beverages.

2. The records required in subparagraph (3)(a)1. of this rule must be maintained on the premises, or other designated place approved in writing by the division for a period of 3 years and shall be made available within 14 days upon demand by an officer of the division. The division shall approve written requests to maintain the aforementioned records off the premises when the place to be designated is ~~the business office, open 8 hours per work day, of a corporate officer, attorney, or accountant; the place to be designated is located in the State of Florida; and the place to be designated is~~ precisely identified by complete physical mailing address.

3. Since the burden is on the holder of the special restaurant license to demonstrate compliance with the requirements for the license, the records required to be kept shall be legible, clear, and in the English language.

4. The required percentage shall be computed by adding all gross sales of food, non-alcoholic beverages, and alcoholic beverages and thereafter dividing that sum into the total of the gross sales of food plus non-alcoholic beverages.

(b) Restaurants issued special restaurant licenses prior to April 18, 1972 but after September 1, 1969 shall be required to derive at least 30 percent of gross revenues from the sale of food and non-alcoholic beverages.

(c) Restaurants holding special restaurant licenses issued prior to September 1, 1969 are not required to derive any fixed amount of gross revenue from the sale of food and non-alcoholic beverages but must operate as a bona fide restaurant and meet the other requirements of this rule.

(d) Full course meals must be available at all times when the restaurant is serving alcoholic beverages except alcoholic beverage service may continue until food service is completed to the final seating of restaurant patrons for full course meals. A full course meal as required by this rule must include the following:

1. Salad or vegetable;
2. Entree;
3. Beverage; and
4. Bread.

(e) For purposes of determining required percentages, an alcoholic beverage means the retail price of a serving of beer, wine, straight distilled spirits, or a mixed drink.

(4) Establishments obtaining and operating under a temporary initial license as provided in Section 561.181(2), Florida Statutes, or under a temporary transfer license as provided in Section 561.331, Florida Statutes, shall be investigated by the division during said operation and prior to issuance of a permanent license to insure that the establishment is a bona fide restaurant primarily engaged in food and non-alcoholic beverage sales and service and that the requirements of this rule have been met. The failure of an establishment to operate as a bona fide restaurant during said period of time shall result in denial of the application for a special restaurant license. An application for a special restaurant license from an establishment which has had a prior application for a special restaurant license denied during the previous 30-day period will be accepted by the division. The recent denial of the prior application will, however, be deemed a disclosure on the face of the subsequent application of a reason to deny such subsequent application. Accordingly, in such cases, no temporary initial license will be issued for a period of 30 days to allow the division inspectors to ensure that the reason to deny has been abated.

Specific Authority 561.11 FS. Law Implemented 561.20(2)(a)4. FS. History—New 8-23-90, Amended 5-19-91, 10-22-91, Formerly 7A-3.0141, Amended _____.

61A-3.019 Club Licenses.

All clubs licensed under the beverage law must adhere to the following regulations:

(1) Alcoholic beverages may be served only to bona fide club members or to their guests. The payment for such service and distribution must be made only by bona fide club members.

(2) Such clubs must have a definite fixed method of electing persons to membership in the club; such method must be described by the club's bylaws and must have some relation to the object and purpose of the club.

(3) Such clubs may sell and serve alcoholic beverages to club members and their invited guests only within the license premises as described by such sketch appearing on the application.

(4) Spirituous beverages may be purchased only in individual containers which are not larger than 1.75 liters or 59.18 ounces nor smaller than 0.75 liter or 25.36 ounces.

(5) Such clubs are required to observe the same hours of sale as permitted other licensees in the same city or county, unless a special act, city ordinance or resolution of the board of county commissioners establishes different hours of service for holders of such club licenses.

(6) All service and distribution of alcoholic beverages by any such club must be for consumption on the premises only and no alcoholic beverages may be sold in sealed containers for off-premises consumption.

(7) Clubs are prohibited from selling or serving or permitting their service of alcoholic beverages at social functions given at the club by any non-member of the club.

(8) Clubs, in order to qualify, shall have been in continuous active existence devoted to promoting and pursuing the objectives provided by statute for a club for a period of not less than two years in the county where they exist, provided, however, the statutory exceptions as found in Section 565.02(4), Florida Statutes, shall not be affected by this subsection.

(9) It shall be shown conclusively that the organization has actively pursued the purposes and objectives and goals of the charter and bylaws of that organization prior to issuance of a club license.

(10) Nothing in this rule shall prohibit the sale of vinous or malt beverages in unsealed containers not otherwise prohibited by law for on-premises consumption only.

(11) If any club holding a beverage license shall change club officers, such club shall within 30 ~~40~~ days of the change file an application with the district office of the Division of Alcoholic Beverages and Tobacco and give a declaration of current officers. Any newly elected officers who have not previously been fingerprinted shall ~~by the Division must have taken by~~ submit his or her ~~their~~ fingerprints to the division within this 30-day period.

(12) Subsection (11) does not apply to club licenses issued to national fraternal organizations. For these licenses, instead of all officers, only the official club manager, club steward, or bar manager needs to file an application and be fingerprinted when there is a change.

61A-3.020 Licenses, Change of Series.

Any person, firm, or corporation holding a beverage license for which the annual fee has been paid in full may, upon qualifying for a license requiring a higher annual license fee, exchange it for the license requiring a higher annual license fee, upon payment of the difference between the annual rate of the first license purchased and the annual rate of the license desired; provided, however, all such transactions must be based upon the division's ~~director's~~ approval of the application to make such transactions. NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 30, No. 14, dated April 2, 2004, issue of the Florida Administrative Weekly.

SUMMARY OF CHANGE: In response to reviews by the Joint Administrative Procedures Committee, the Department is making the following changes:

1. General: Statutory authorities: Section 337.164, Florida Statutes, will be deleted from the Law Implemented citations for all rules.

2. 14-103.003: The numbering within this section is being corrected. Specifically, changing (1), (2), (3), (4), (5), (6), (7), (8), (9), (11), (8), (9), (10), (11), (12), (13), (14), (15), (16), (17), (18), (19), (20), (21), (22), (23), (24), (25), (26) to: (1) through (29). In addition, the addition of the word "Aggregate" in the definition for "Independent Assurance Program" required this definition to be moved up in the alphabetic sequence.

3. 14-103.003(6): *Construction Aggregates Manual*: A revised and corrected version of the manual is being incorporated by reference. The reference is changed to reflect the correct reference document as follows:

"(6) "Construction Aggregates Manual" means the Department's manual entitled *Construction Aggregates Manual*, December 1, 2004, prepared by the Department's

Aggregate Control Unit, which prescribes standardized methods of outlining the limits and frequencies for Quality Control sampling and testing of construction aggregates and material quality criteria for Department approval levels, which is incorporated in this rule chapter by reference."

NOTE: Throughout the rule chapter, all references to the manual also are changed to show the addition of an "s" on the word "Aggregates." Also, because of revisions to that manual, all section references are changed from a combination of a Roman Numeral and capital letter in parentheses to a decimal number throughout the rule chapter, e.g. (II)(B) changed to 2.2.

4. 14-103.003(8) [renumbered to (11)]: The document entitled *Instructions for Coding of Aggregate Test Data for Computerization*, dated July 1994, so that the section reads as follows:

(11)(4) "Instructions for Coding of Aggregate Test Data for Computerization" means the Department's manual providing directions for completing standardized forms for the recording of aggregate test data and listing of the Department's aggregate codes, entitled *Instructions for Coding of Aggregate Test Data for Computerization*, dated 1994 ~~Instructions for Coding of Aggregate Test Data for Computerization, prepared by Aggregate Control Unit July 1989, which is incorporated in this rule chapter by reference herein.~~

5. 14-103.003(11)(8) [renumbered to (14)]: The Section is deleted in the current location and moved to a new Section (25) changed to read as follows:

(25) "Sampling and Testing Methods" means the Department's standardized methods of sampling and testing aggregates which are listed in Appendix 20 of the *Construction Aggregates Manual*.

NOTE: Because the reference drops the words "Manual of Florida" in the title reference, all references throughout the rule chapter are changed to delete these words whenever "Sampling and Testing Methods" is referred to within the text and, because of the renumbering of the Appendices of the *Construction Aggregates Manual*, the internal references to Appendix numbers in are revised accordingly.

6. 14-103.004(1): Change "State Materials Engineer" to "Director, Office of Materials" to conform with the official organizational title.

7. 14-103.004(6)(a)4.: Section 334.044(28), Florida Statutes, is added to the Law Implemented citations. After the third sentence, the following sentence is added: "Pursuant to Section 837.06, Florida Statutes, the producer is subject to a charge of perjury if a written false statement is made to a public official." In addition, the use of the "and/or" is changed to "and."

NOTE: The following additional "and/or" references are changed to "and" for clarification of the rules: 14-103.003(13)(c) and 14-103.006(14)(a).

8. 14-103.004(6)(b): The QC test reference is revised to include the specific section citation so that it reads as follows: "The Redistribution Terminal shall also perform additional QC tests as required by Section 1.2.2 of the Construction Aggregates Manual for material received from Type III Mines.

9. 14-103.005(7): The sentence relating to notarization of documents is added as the last sentence in this section as follows: "Pursuant to Section 837.06, Florida Statutes, the producer is subject to a charge of perjury if a written false statement is made to a public official."

10. 14-103.005(1): Correct the reference to show "14-103.006(14)(c), F.A.C."

11. 14-103.005(4): At the end of the last sentence, add: "including all re-handling prior to the load-out of the aggregate."

12. 14-103.005(7): The word "Program" is deleted in the section title. The reference to ASTM E274-85 is changed to "ASTM E274-97," and the effective date of 1997, plus an incorporation by reference statement are included so that the section reads as follows:

"(7) Following the selection of a suitable test section, the producer will then provide sufficient material and make the necessary arrangements with the ~~p~~Paving ~~c~~Contractor for construction of the FC-5 test section and FC-5 control section. Any additional costs incurred by the ~~p~~Paving ~~c~~Contractor for the test section and control section will be the responsibility of the producer. The ~~Department's~~ State Materials Office will design the mixes, monitor construction and obtain samples for evaluation. ~~(8)~~ Friction tests will be conducted by the State Materials Office on the test section immediately after construction, then monthly for two months and thereafter at intervals of two months until the accumulated traffic reaches six million (vehicles) coverage ~~and/or~~ the friction number stabilizes. Friction tests will be conducted at 40 mph in accordance with ASTM E274-97, effective 1997, which is incorporated herein by reference, 85 using both E501 (Rib) and the E524 (Blank) test tires. ~~Additional testing at 60 mph will also be conducted by the State Materials Office if determined to be necessary.~~ In the event that the friction number falls below 30 or the test section is otherwise determined to be a threat to public safety within the first two years of construction completion, the evaluation will be terminated and the producer will bear the cost of removing the FC-5 ~~2~~ and resurfacing the test section with an approved material. Prior to the construction of the test section, the producer must provide a signed and notarized statement agreeing to this responsibility. Pursuant to Section 837.06, Florida Statutes, the producer is subject to a charge of perjury if a written false statement is made to a public official."

13. 14-103.005(8)(a): The reference to unique characteristics established by the State Materials Office is revised to show a specific reference to these characteristics as follows:

"(a) The aggregate consistently maintaining the unique characteristics established in subsection 14-103.005(4), F.A.C., by the State Materials Office that identify the specific deposit, and"

14. 14-103.005(8)(b): The subsection is revised to clarify the performance characteristics as "smoothness and texture" so that the subsection reads as follows:

"(b) The friction course utilizing the aggregate consistently producing friction numbers and other performance characteristics (smoothness and texture) that the Department considers equivalent to the test section ~~be acceptable~~ on a job by job basis."

15. 14-103.005: Section 334.044(28), Florida Statutes, is added to the Law Implemented citations.

16. 14-103.006(9): The section is revised to include a specific reference to the criteria used for determining sampling and testing frequencies so that the section read as follows:

"(9) Initial Quality Control. The Department will assign the initial sampling and testing frequencies for newly approved products at a level specified for less than 95% compliance as shown in appendices 1 through 18 of the Construction Aggregates Manual, until a history of test data is developed."

17. 14-103.006(10): The reference to Rule 14-103.007 is corrected to 14-103.0071.

18. 14-103.006(11): The "and/or" is changed to "and."

19. 14-103.006(12)(d): The section is changed to include an incorporation by reference statement. The section is changed to read as follows:

"(d) For Federal Aid Department projects, be qualified as an Aggregate QC Manager through the Department's Aggregate Training and Qualification Program. The Aggregate Technician Training and Qualification Program, effective date 2/2005, is hereby incorporated by reference."

20. 14-103.006(14): The section is revised as follows, including internal subsection renumbering:

"(a) ~~+~~ Laboratory. On Federal Aid Department projects, pursuant to 23 C.F.R. 637.209, and the Aggregate Technician Training and Qualification program, each source must designate either its own laboratory and or a commercial laboratory for the performance of QC testing. DEPARTMENT OF FINANCIAL SERVICES

Division of Insurance Agents and Agency Services

RULE TITLE: Requirements Relating to Public Adjusting

RULE NO.: 69BER05-8

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: The Department of Financial Services hereby states that the following circumstances constitute an immediate danger to the public health, safety, and welfare: The 2004 hurricane season was particularly destructive for Florida. On August 12, 2004 Tropical Storm Bonnie made land fall in the Florida panhandle. Shortly after Tropical Storm Bonnie, substantial damage in southwest and central Florida was caused by Hurricane Charley, which hit the Punta Gorda and Port Charlotte area on August 13, 2004 as a category 4 hurricane with sustained winds up to 145 miles per hour. Hurricane Charley crossed northeast through the center of the state exiting near Daytona Beach. In a 10-mile wide swath extending from the southwest coast there was widespread major damage to homes, loss of personal belongings and corresponding temporary loss of employment.

Additional damage was caused by Hurricane Frances, which hit the east coast of Florida on September 4, 2004, as a category 2 hurricane, and slowly crossed the peninsula. Hurricane Frances, though less intense than Charley, caused damage over a much wider area of the state.

On September 16, 2004, category 4 Hurricane Ivan caused massive damage in the Florida Panhandle. Hurricane Ivan impacted the Gulf Coast as a category 4 hurricane with sustained winds up to 130 miles per hour. The eye made land fall just west of the western Florida line, bringing hurricane force winds to much of the Florida Panhandle. The hurricane

also produced tornados that destroyed and damaged structures in the Florida Panhandle. There was extensive damage in the Pensacola area, which was hit by the strong northeast quadrant of the storm as it made landfall.

More damage resulted in Florida from Hurricane Jeanne, which made landfall near Stuart, Florida the night of September 25, 2004, as a category 3 hurricane with sustained winds up to 120 miles per hour. On September 26, the storm moved northwest across the state.

The Governor of Florida declared states of emergency as a result of each of the hurricanes, and much of Florida was declared a federal disaster area.

Cumulative insured losses have been estimated at \$20.4 billion for Hurricanes Charley, Frances, Ivan and Jeanne. Most of those losses are in Florida. Insurers have reported in excess of 1.3 million property insurance claims in Florida, thousands of which have yet to be adjusted.

Although it is now eight months since the last hurricane, insurance companies have still not been able to settle the immense volume of claims that resulted. At the present date, about 57,000 hurricane related insurance claims remain unresolved, and significant numbers of residences throughout the state have not as yet been repaired. Many claimants are still living in temporary housing consisting of trailers provided by the Federal Emergency Management Agency. With the 2005 hurricane season beginning in less than 3 weeks, insureds whose homes have not been repaired will be motivated to seek the services of public adjusters who will represent them for a percentage of their insurance claim proceeds. Although public adjusters may provide valuable assistance in some cases, insurance company adjusters are expected to settle claims fairly and timely without the necessity of consumers’ spending money to hire their own adjuster. In the absence of the prohibitions provided by this emergency rule, some public adjusters might exploit frustrated storm victims with high fees and other unethical practices. The Department has received telephone inquiries from public adjusters asking when they will be able to charge fees in excess of 10% of a claim settlement. Some of these adjusters may be holding up the claims process in hopes of raising their fees as soon as the current emergency rule expires. This rule will prevent this unethical practice from occurring.

Excessive adjusting fees are a source of injury to the public health, safety, and welfare by substantially impairing the financial ability of insureds to effectuate repairs to damaged property in a timely fashion, to commence or complete repairs, or to make proper and adequate repairs meeting building code requirements. In order for complete rebuilding to occur, it is necessary that insurance proceeds not be eroded by unreasonable public adjuster fees. As a result, there is a need to limit the fees imposed by public adjusters to a reasonable level. This rule limits fees charged by public adjusters to 10 per cent of the policy proceeds.

The Legislature recognized, in Section 626.8698, F.S., that the interest of the public demands that public adjusters be prohibited from “soliciting or otherwise taking advantage of a person who is vulnerable, emotional or otherwise upset as a result of trauma, accident or similar occurrence...” The storms of the 2004 hurricane season have placed a great number of people in a state of vulnerability. The emotional stress of claimants may lead them to make imprudent decisions in the context of contracting with public adjusters. The lengthening duration of time that some storm victims have been waiting to get their claims adjusted and the impending 2005 hurricane season have increased their frustration and therefore their vulnerability.

In consideration of the emergency conditions currently existing, and given the Department’s responsibility to protect the public interest, including insureds, and implement the Insurance Code, an emergency rule is necessary.

REASONS FOR CONCLUDING THAT THE PROCEDURE USED IS FAIR UNDER THE CIRCUMSTANCES: The Department of Financial Services believes that adopting an emergency rule is the fairest method to protect the public because the risk of abusive public adjuster fees continues, requiring an immediate response. The conditions resulting from the storms require the Department to exercise its authority to provide protection from the conduct of unscrupulous public adjusters now. The provisions of this rule provide needed guidance to public adjusters. A Department bulletin addressed to all licensed public insurance adjusters would reach them, but would not be legally binding. A permanent rule is not appropriate because the duration of emergency need is uncertain.

SUMMARY OF THE RULE: The rule limits public adjuster commissions to a maximum 10% of insurance proceeds regardless of whether the risk is residential or commercial.

THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Jerry W. Whitmore, Chief, Bureau of Investigation, Division of Agent and Agency Services, Department of Financial Services, 200 East Gaines Street, Tallahassee, Florida 32399-0333, (850)413-5601

WATER MANAGEMENT DISTRICTS

NOTICE IS HEREBY GIVEN that the South Florida Water Management District (SFWMD) Governing Board issued an Order Granting Waiver under Section 120.542, Fla. Stat. (SFWMD 2005-052-DAO-ROW), on May 11, 2005, to Miami-Dade County. The petition for waiver was received by the SFWMD on February 22, 2005. Notice of receipt of the petition requesting the waiver was published in the Florida Administrative Weekly, Vol. 31, No. 10, on March 11, 2005. No public comment was received. This Order provides a waiver for the proposed bridge widening with revetment mats, drainage connection, light poles, and buried electrical service within the right of way of the C-1W Canal located at S. W. 184th Street (Eureka Drive) in Miami-Dade County. Specifically, the Order grants a waiver from subsections 40E-6.011(4),(6), and paragraph 40E-6.221(2)(j), F.A.C., and the Basis of Review for Use or Occupancy of the Works or Lands of the District Permit Applications within the South Florida Water Management District, incorporated by reference

in subsection 40E-6.091(1), F.A.C., which governs the low member elevation of bridges and the placement of semi-permanent/permanent above-ground facilities within 40 feet of top of canal bank and within the District's 100 foot long designated equipment staging areas located at all bridges and all pile-supported crossings within Works or Lands of the District. Generally, the Order sets forth the basis of the Governing Board decision to grant the waiver, as follows: 1) the facilities will not significantly interfere with the SFWMD's ability to perform necessary construction, alteration, operation and maintenance activities; and 2) the Order granting a waiver from the subject rule would prevent Miami-Dade County from suffering a substantial hardship.

**BOARD OF TRUSTEES OF THE INTERNAL
IMPROVEMENT TRUST FUND**

STATE BOARD OF ADMINISTRATION

NOTICE IS HEREBY GIVEN by the State Board of Administration (“the Board”) of its estimate of the borrowing capacity and the projected year-end (as of December 31, 2005) fund balance for the Florida Hurricane Catastrophe Fund (“the Fund”), in compliance with the requirements of Section 215.555(4)(c)2., Florida Statutes. This estimate is as of May 1, 2005. The projected year-end balance on December 31, 2005, is estimated to be \$2,930.0 million, assuming no losses related to the 2005 hurricane season. The Fund’s estimated borrowing capacity, defined as the maximum amount that the Board is able to raise through the issuance of revenue bonds under Section 215.555(6), Florida Statutes, pursuant to the limitations in Section 215.555(4), Florida Statutes, is \$12,070.0 million. This estimate is for tax-exempt debt. During the 2004 legislative session, the Legislature enacted changes to Section 215.555, Florida Statutes, and provided an upper limit on the Board’s potential liability to reimburse participating insurers for losses sustained by hurricane damage. This limit is \$15 billion for a contract year adjusted based upon the reported exposure from the prior contract year to reflect the percentage growth in exposure to the fund for covered policies since 2003 provided the dollar growth in limit does not increase in any one year by an amount greater than the dollar growth in cash balance. Therefore, the Board’s obligation is to raise up to \$12,070.0 million, rather than the total capacity determined by using all of the available 6 percent emergency assessment capability.

This estimate is based on the Board’s good faith assessment of the current global market conditions and is net of required debt service reserve funds and the costs of issuing the bonds. These conditions may or may not be the same if and when the Board determines that it is necessary to seek the issuance of revenue bonds. The Board’s estimate is also based upon projected year-end reimbursement premiums. Emergency assessments are based on data available as of this estimate. This estimate is provided to comply with the requirements of Section 215.555(4)(c)2., Florida Statutes, and should only be relied upon after careful consideration of all relevant assumptions and reservations, including those set forth below.

Assumptions:

- 1) The Board assumes that both the annual reimbursement premiums and the 6% emergency assessment described in Section 215.555(6)(b)2., Florida Statutes, will be used as the revenue source to service the debt and to provide debt service coverage.

- 2) The debt service coverage ratio is assumed to be 1.8. This means that the revenue stream available to service the debt is 1.8 times the amount actually needed to service the debt. The debt service coverage ratio is sensitive to actual reimbursement premiums collected during the year. Changes in deductible distributions and other factors that impact actual reimbursement premiums may impact the coverage ratio.
- 3) The Board has assumed interest rates reflecting market conditions on May 1, 2005. Many factors will impact the interest rates that will ultimately be used when the Board determines that bonds must be issued. It is impossible to predict with any certainty what those rates will be.
- 4) In accordance with the requirements of Section 215.555(6)(a)2., Florida Statutes, the Board has completed the bond validation process. The circuit court hearing held on November 12, 1996, resulted in a favorable ruling. The validation was then immediately appealed to the Florida Supreme Court. The Florida Supreme Court ruled on September 18, 1997, that the bonds are valid.
- 5) In response to the private letter ruling received in March 1998, and renewed on June 13, 2003, the Internal Revenue Service ruled that interest on the bonds issued under Section 215.555(6), Florida Statutes, is exempt from federal taxation.

Reservations:

- 1) Since no bonds have ever been issued on behalf of the Fund, there are a number of uncertainties. Among these are the following: the financial condition of the insurance industry at the time of a catastrophic loss, the stability of the revenue stream and potential litigation.
- 2) A more general uncertainty is the condition of the financial markets at the time the bonds are issued and the degree of familiarity of potential investors with the Fund.
- 3) Another general uncertainty is the ability of the capital markets to absorb a bond issue of this magnitude at the time of the bond issuance.

As of May 1, 2005, the Board’s good faith estimate of its bonding capacity is \$12,070.0 million to reach the current statutory upper limit of \$15 billion (based on the Board’s projected year-end balance of \$2,930.0 million). The Board recognizes the importance of this estimate and is committed to make every effort to assure its ability to issue up to \$12,070.0 million, in bonds if and when the necessity arises.
