After the application deadline date (due to be submitted to DCA by 5:00 p.m. (EST), March 19, 2007), DCA staff will review the applications received and make a decision regarding each entity's eligibility to provide program services in the unserved counties. The proposed expansion is an uprate that when completed will increase the power output at CR3 by approximately 180 megawatts ("MWs"). The proposed uprate or expansion will be completed in two phases. The first phase will be accomplished during the planned 2009 refueling outage and the second phase will be completed during the 2011 planned refueling outage. Phase one will be

completed during a scheduled steam generator replacement and will include modifications to the turbine line components to take advantage of greater steam efficiencies, with an expected additional 40 MW of power following work completed in phase one.
