If civil rights have been restored, the Department will not deny licensure based on conviction for these crimes.

- (8) Fines. For repeat non-major violations, multiple violations including at least one major violation, and all major violations, including those violators who do not respond to an administrative complaint, the Department will impose an administrative fine not to exceed \$5,000 per violation plus any other penalty allowed by law including suspension or revocation. When imposing a fine, the Department will consider the degree and extent of harm, or potential harm, that was or could have been caused by the violation, the cost of rectifying the damage minus the actions taken by the licensee or certified operator or applicator to correct the violation or remedy complaints, whether the violation was committed willfully, the compliance record of the violator, and the costs to the Department of investigating the violation. The Department will use the attached Fine Guide to assist it in determining the appropriate amount of the fine.

- (h) A licensee or certificate holder has been found by the Department to be in violation of Section 482.121, F.S.
- (i) When a permit holder pursuant to Section 482.0815(4) or (6), F.S., meets the conditions therein.
- (10) Probation. The Department will impose up to a two-year probation on a violator when suspension or revocation is indicated per subsection (9) above, but the Department determines that suspension or revocation will be detrimental to the public, result in loss of wood destroying organisms protection contracts for which consumers have paid, or is unnecessarily harsh under the circumstances. Probation will include requiring the violator to do one or more of the following: pay investigative costs, attend continuing education classes, demonstrate competency through a written or practical examination, provide prior notice of certain regulated actions, satisfy existing or future consumer complaints, or engage in other corrective measures.
- (11) Investigative Costs. The Department will charge for investigative costs when probation is imposed and investigations that document major violations require more than one inspection, more than one inspector, or the use of Department staff outside of the Division of Agricultural Environmental Services, or when probation is imposed as per subsection (10) of this part. Investigative costs are comprised of the following: Inspectors time, Bureau personnel time, travel expenses, and other incidental expenditures related to the case.
- (12) Quarterly List. All disciplinary actions taken by the department pursuant to Chapter 482, F.S., or the rules adopted pursuant to it, shall be published in the next available quarterly list published as required in Section 482.161(9), F.S., and on the Department's website and shall include the identity of each individual or entity against which disciplinary action was taken, and a brief description of the offense and the disciplinary action, whether it was a warning letter, fine, probation, suspension or revocation. If the violator is other

than a business licensee, the registered name of the business licensee that employed the violator at the time of the violation and the county or city in which the violator's business address is located will be listed. If the violator operated an unlicensed pest control business the name of the unlicensed business will also be listed.

(13) Resolution of Violations, Settlement, and Additional Enforcement Remedies. The Department and the violator may agree to resolve violations prior to administrative action, or to enter into settlement pursuant to Section 120.57(4), F.S. The willingness of a violator to resolve violations prior to initiation of administrative action, or to settle will be considered in determining the appropriate penalty because early resolution of violations furthers compliance and results in savings of time, costs, and expenses for the Department. The Department will enforce a failure to comply with an agreement to resolve violations or a settlement agreement with the penalties and remedies provided in the agreement and/or as authorized by law. These enforcement guidelines shall not be construed to limit the authority of the Department to resolve violations prior to or after initiation of any administrative action or to settle with any party. The Department may utilize all available remedies to ensure voluntary compliance including administrative action, civil actions, referrals for criminal prosecution, and deceptive and unfair trade practices actions pursuant to Chapter 501, F.S.

(14) Follow-Up Compliance Inspections. If the violator agrees to corrective actions and subsequent inspection reveals that corrective actions have not been taken or that good faith efforts to undertake these corrective actions have not been made, then the Department will enforce the penalties and remedies provided in the agreement and as authorized by law.

(15) Notification of Licensees, Certificate Holders, and Identification Card Holders of Complaint.

When the Department receives a written complaint from a consumer regarding a licensee, certificate holder, permit holder or applicator, the Department will send a notice to the responsible person and to the licensee, stating the complaint, identifying the complainant and requesting a written response within 10 working days.

  - (b) Calculate a Herfindahl Index for Monroe County.
- 1. If the Herfindahl Index exceeds 1000, the Office shall consider the Herfindahl Index to be a significant indication of a noncompetitive market in that county. The formula for this

index is: H = (%S1)2 + (%S2)2 + (%S3)2 + ....(%Sn)2. %Sstands for the percentages of the market owned by each of the larger companies, so that %S1 is the percentage owned by the largest company, %S2 by the second, and so on. n stands for the total number of companies you are counting.

- 2. The Herfindahl Index gives added weight to the biggest companies. The higher the index, the more concentration and (within limits) the less open market competition. A monopoly, for example, would have an H index of S1<sup>2</sup> or 100<sup>2</sup>, or 10,000. By definition, that's the maximum score. By contrast, an industry with 100 competitors that each has 1% of the market would have a score of  $1^2 + 1^2 + 1^2 + ... 1^2$  or a total of 100. A 1,000-1,800 value generally indicates moderate concentration. Anything over 1,800 is taken to betoken acute concentration; and
- (c) Review any other information related to and associated with evaluating market competition for that county.
- (2) Upon finding that Monroe County has a noncompetitive market for any line of personal residential property insurance, the Office shall request Citizens Property <u>Insurance Corporation to make a rate filing that is applicable to</u> that line of business and that is actuarially sound and not excessive, inadequate, or unfairly discriminatory and is in compliance with Section 627.062, F.S., and the applicable provisions of Section 627.351(6), F.S.
