3. Effective July 1, 2005, Special Medicaid Payments will be made on a quarterly basis to hospitals providing poison control programs. Total payments of \$3,183,014 will be made to qualifying hospitals. AHCA shall work in collaboration with the Florida Department of Health to determine which hospitals will receive these payments.
4. Effective July 1, 2005, interim Special Medicaid Payments up to \$7,297,495 will be made on a quarterly basis to hospitals to enhance primary care services to underserved areas of the state. AHCA shall work in collaboration with the Florida Department of Health to determine which hospitals will receive these payments.
5. Effective July 1, 2005, Special Medicaid Payments in the interim amount of \$517,513,720 will be made on a quarterly basis to hospitals providing enhanced services to low-income individuals through agreements with local county or other governmental entities. The amount of the Special Medicaid Payment to each hospital is proportional to the amount of the intergovernmental transfer received from the local county or governmental entity.
6. Effective July 1, 2005, Special Medicaid Payments in the interim amount of \$2,000,000 will be made on a quarterly basis to specialty pediatric facilities. The hospital must be licensed as a children's specialty hospital and its combined Medicaid managed care and fee-for-service days as a percentage to total inpatient days equals or exceeds thirty (30) percent. The Agency shall use the 2003 Financial Hospital Uniform Reporting System (FHURS) data to determine the combined Medicaid managed care and fee-for-service days. The total special Medicaid payments made shall be distributed equally to the qualifying hospitals.
7. Effective July 1, 2005, inpatient reimbursement ceilings will be eliminated for hospitals whose sum of charity care and Medicaid days, as a percentage of adjusted patient days, equals or exceeds 11 percent. The Agency will use the average of the 1999, 2000 and 2001 audited DSH data available as of March 1, 2005. In the event the Agency does not have the prescribed three years of audited DSH data for a hospital, the Agency will use the average of the audited DSH data for 1999, 2000 and 2001 that are available. If the prescribed three years of audited DSH data is not available for the public hospital, the Agency shall use the average of the 1999, 2000, and 2001 audited DSH data that is available for the public hospital. Any hospital that met the 11 percent threshold in the State Fiscal Year 2004-2005 and was also exempt from the inpatient reimbursement ceilings shall remain exempt from the inpatient reimbursement ceilings for State Fiscal Year 2005-2006 subject to the payment limitations imposed in this paragraph.
8. Effective July 1, 2005, the inpatient reimbursement ceilings for hospitals that have a minimum of ten licensed Level II Neonatal Intensive Care Beds and are located in Trauma Services Area 2 shall be eliminated.
9. Effective July 1, 2005, the inpatient hospital reimbursement ceilings for hospitals whose Medicaid days as a percentage of total hospital days exceed 7.3 percent, and are designated or provisional trauma centers shall be eliminated. This provision shall apply to all hospitals that are a designated or provisional trauma center on July 1, 2005 and any hospitals that become a designated or provisional trauma center during State Fiscal Year 2005-2006. The agency shall use the average of the 1999, 2000 and 2001 audited DSH data available as of March 1, 2005. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency will use the average of the audited DSH data for 1999, 2000 and 2001 that are available.

10. Effective July 1, 2005, inpatient reimbursement ceilings shall be eliminated for teaching, specialty, Community Hospital Education Program hospitals and Level III Neonatal Intensive Care Units that have a minimum of three of the following designated tertiary services as regulated under the certificate of need program: pediatric bone marrow transplantation, pediatric open heart surgery, pediatric cardiac catheterization and pediatric heart transplantation.
11. Effective July 1, 2005, the agency shall implement a recurring methodology in the Title XIX Inpatient Hospital Reimbursement Plan that may include, but is not limited to, the inflation factor, variable cost target, county rate ceiling, county ceiling target rate or rate for fixed costs to achieve a recurring reduction of \$100,537,618 from inflationary and other price level increases.
12. For funds appropriated for public disproportionate share payments for state fiscal years beginning July 1, 2004 and later, the TAAPH (total amount available for public hospitals) shall be reduced by \$6,365,257 before computing the DSHP (disproportionate share hospital payment) for each public hospital. The \$6,365,257 shall be distributed equally between the public hospitals that are also designated statutory teaching hospitals. In computing the above amounts for public hospitals and hospitals that qualify under Section VI.A.2 of the Title XIX Inpatient Hospital Reimbursement Plan, the average of the 1998, 1999, and 2000 audited disproportionate share data will be used to determine each hospital's Medicaid days and charity care for the 2004-2005 state fiscal year and the average of the 1999, 2000, and 2001 audited disproportionate share data to determine the Medicaid days and charity care for the 2005-2006 state fiscal year.
If the Agency does not have the prescribed 3 years of audited disproportionate share data as noted above for a hospital, the agency shall use the average of the years of the audited disproportionate share data as noted in the paragraph above that is available.
13. Effective July 1, 2005, for the 2005-2006 state fiscal year only, the DSHP (disproportionate share hospital payment) for the public nonstate hospitals shall be computed using a weighted average of the disproportionate share payments for the 2004-2005 state fiscal year which uses an average of the 1998, 1999, and 2000 audited disproportionate share data and the disproportionate share payments for the 2005-2006 state fiscal year as computed using the formula above and using the average of the 1999, 2000, and 2001 audited disproportionate share data. The final DSHP (disproportionate share hospital payment) for the public nonstate hospitals shall be computed as an average using the calculated payments for the 2005-2006 state fiscal year

weighted at 65 percent and the disproportionate share payments for the 2004-2005 state fiscal year weighted at 35 percent.

14. The 2005-06 Disproportionate Share appropriations are as follows:

Regular DSH	\$200,666,508
Mental Health	\$60,998,692
Rural	\$12,743,294
Specialty	\$2,444,444

15. The definition of charity care or uncompensated charity care has been updated to include "other than restricted or unrestricted revenues provided to a hospital by local governments or tax districts regardless of the method of payment" to be in accordance with 409.911, F.S.
16. In accordance with 409.9062, F.S., lung transplant services for Medicaid recipients, Medicaid will reimburse approved lung transplant facilities a global fee for providing lung transplant services to Medicaid recipients.

METHODOLOGIES: The final rates for Medicaid inpatient hospitals effective July 1, 2005 is the revised methodology used to calculate per diems including the amounts appropriated in the 2005-06 General Appropriations Act, Senate Bill 2600, Specific Appropriation 184, 190, 221, 222 and Senate Bill 838, Section 4, 2005-06 Florida Legislature, and Senate Bill 838, Section 4.

JUSTIFICATION: The justification for the final state plan amendment is the 2005-06 General Appropriations Act, Senate Bill 2600, Specific Appropriation 184, 190, 191, 221, 222 and Senate Bill 838, Section 4.
