**STATE BOARD OF ADMINISTRATION**

NOTICE IS HEREBY GIVEN by the State Board of Administration of Florida ("the Board") of its estimate of the borrowing capacity and the projected year-end (as of December 31, 2007) fund balance for the Florida Hurricane Catastrophe Fund ("the Fund"), in compliance with the requirements of Section 215.555(4)(c)2., Florida Statutes. This estimate is as of October 1, 2007. The projected year-end balance on December 31, 2007, is estimated to be \$2,077,600,000 which represents available funds to pay losses during the 2007/2008 Contract Year. The Fund's estimated borrowing capacity, defined as the amount that the Board will need to raise through the issuance of revenue bonds under Section 215.555(6), Florida Statutes, pursuant to the limitations in Section 215.555(4), Florida Statutes, is \$25,752,400,000. The liability of the State Board of Administration under the Act and the Reimbursement Contracts for payment of reimbursable losses under all Reimbursement Contracts for a Contract Year in which a Covered Event has occurred will not exceed the actual claims-paying capacity of the Florida Hurricane Catastrophe Fund, up to a maximum limit of \$38,450,000,000 for that Contract Year. Given the projected year-end cash balance of \$2,077,600,000, the Board estimates that if interest rates and the Fund's credit ratings remain stable and if there are no unforeseen exogenous factors that impact the financial markets that the Fund's estimated borrowing capacity is \$25,752,400,000 given actual coverage selections by insurers for the 2007/2008 reimbursement contract year. This estimate is based upon the Board's good faith assessment of the current global market conditions and is net of required debt service reserve funds and the costs of issuing the bonds. These conditions may or may not be the same if and when the Board determines that it is necessary to seek the issuance of revenue bonds. The Board's estimate is also based upon projected

year-end reimbursement premiums. Emergency assessments are based on the data available as of this estimate. This estimate is provided to comply with the requirements of Section 215.555(4)(c)2., Florida Statutes, and should only be relied upon after careful consideration of all relevant assumptions and reservations, including those set forth below.

Assumptions:

- (1) The Board assumes that both the annual reimbursement premiums and up to 6% emergency assessments as described in Section 215.555(6)(b)2., Florida Statutes, will be used as the revenue source to service the debt and to provide debt service coverage.
- (2) The debt service coverage ratio is assumed to be 1.61x, this means that the revenue stream available to service the debt is 1.61 times the amount actually needed to service the debt. The debt service coverage ratio is sensitive to actual reimbursement premiums collected during the year. Changes in deductible distributions and other factors that impact actual reimbursement premiums may impact the coverage ratio.
- (3) The Board has assumed interest rates reflecting market conditions on October 1, 2007. Many factors will impact the interest rates that will ultimately be used when the Board determines that bonds must be issued. It is not possible to predict the actual interest at the time of a bond issuance.
- (4) In response to the private letter ruling received in March 1998, and renewed on June 13, 2003, the Internal Revenue Service ruled that interest on the bonds issued under Section 215.555(6), Florida Statutes, is exempt from federal taxation.
- (5) The Fund has issued bonds. On July 6, 2006, Series 2006A, \$1,350,025,000 in post-event revenue bonds were issued. On July 21, 2006, Series 2006B, \$2,800,000,000 in pre-event extendable floating rate notes were issued. On October 3, 4, 5, 10, 12 and 15, 2007, a total of \$3,500,000,000 in Series 2007A pre-event floating rate notes were issued.

Reservations:

- (1) If additional bonding is necessary, there are a number of uncertainties. Among these are the following: the financial condition of the insurance industry, the state, and the national economy at the time of a catastrophic loss. The stability of the revenue stream and potential litigation could adversely impact the Fund's bonding capacity.
- (2) A more general uncertainty is the condition of the financial markets at the time the bonds are issued and the familiarity of investors with the Fund.

- (3) Another general uncertainty is the ability of the capital markets to absorb a bond issue of the magnitude that may be required at the time of the bond issuance.

**LAND AND WATER ADJUDICATORY COMMISSION**

**BEXLEY COMMUNITY DEVELOPMENT DISTRICT I**

On July 5, 2007, the Florida Land and Water Adjudicatory Commission ("FLWAC" or "Commission") received a petition to establish the Bexley Community Development District I (the "District"). The Commission will follow the requirements of Chapter 42-1, Florida Administrative Code (F.A.C.), as amended, and Chapter 190, Florida Statutes (F.S.), as amended, in ruling on this petition.

**SUMMARY OF CONTENTS OF PETITION:** The petition, filed by NNP-Bexley, Ltd., requests the Commission to establish a community development district located entirely within unincorporated Pasco County, Florida. The land area proposed to be served by the District comprises approximately 2,528.306 acres. A general location map is contained as Exhibit 1 to the petition to establish the District. There is no real property located within the external boundaries of the proposed District to be excluded from the District. The Petitioner has obtained written consent to establish the District from the landowners of 100% of the real property located within the proposed District. The proposed infrastructure plan consists of district roads and street lighting, county owned off-site roadways, state owned off-site roadways, water and wastewater, irrigation system, surface water management, landscaping and security walls, and park and recreational facilities.

**SUMMARY OF ESTIMATED REGULATORY COSTS:** The statement of estimated regulatory costs (SERC) supports the petition to establish the District. The complete text of the SERC is contained as Exhibit 7 to the petition. The requirements for a SERC are found in Section 120.541(2), F.S. A SERC must contain (a) a good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a description of the types of individuals likely to be affected by the rule; (b) a good faith estimate of the costs to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state or local revenues; (c) a good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the rule; (d) an analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S.; (e) any additional information that the agency determines may be useful; and (f) any good faith written proposal submitted under section (a) and either a statement adopting the alternative or a

statement rejecting the alternative in favor of the proposed rule. Addressing section (a), the District, the State of Florida and its residents, Pasco County and its residents, current property owners of lands within the boundaries of the proposed District and future property owners are the principal entities that are likely to be required to comply with the rule. Under section (b), FLWAC and the State of Florida will incur administrative costs. Pasco County may incur costs resulting from the initial review and on-going costs resulting from the on-going administration of the District. There is a \$15,000 filing fee paid to Pasco County to offset any costs it may incur. Adoption of the proposed rule to approve the formation of the District will not have an adverse impact on State and local revenues. Addressing section (c), the District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. The District may issue notes, bonds, or other indebtedness to fund its improvement program. Prospective future land owners would be required to pay off such indebtedness over time in the form of non-ad valorem special assessments or other rates, fees or charges. The District may also impose an annual levy for the operation and maintenance of the District. Under section (d), approval of the petition to establish the District will have no impact or a positive impact on small businesses. The petition to establish the District will not have an impact on small counties as Pasco County is not a small county as defined by Section 120.52, F.S. Under section (e), certain data utilized in the report was provided by the developer/petitioner and represents the best information available at the time. Other data was provided by Rizzetta & Company and was based on observations, analysis and experience with private development and other Districts in various stages of existence. A LOCAL HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:
