(3) If a licensed dealer fails to comply with the department's requirements for issuing temporary license plates using the electronic system, the department may deny, suspend,

19-8.012	Procedures to Determine Ineligibility for Participation in the Florida Hurricane Catastrophe Fund and to Determine Exemption from Participation in the Florida Hurricane Catastrophe Fund
19-8.013	Revenue Bonds Issued Pursuant to Section 215.555(6), F.S.

19-8.030	Insurer Responsibilities

PURPOSE AND EFFECT: The State Board of Administration, Florida Hurricane Catastrophe Fund, seeks to amend the rules listed above to implement Section 215.555, Florida Statutes, including the changes made to the law during 2007.

SUMMARY: Rule 19-8.010, F.A.C., Reimbursement Contract: The proposed amendments to 19-8.010, F.A.C., adopt the Reimbursement Contract for the Contract Year 2008-2009, including the three addenda. Addendum No. 1: This addendum incorporates the Temporary Emergency Options for Additional Coverage "TEACO" program. This program allows insurers to purchase its FHCF premium share of a \$1 billion, \$2 billion, or a \$3 billion layer of coverage below the mandatory FHCF layer of coverage.

Addendum No. 2: This addendum incorporates the Temporary Increase in Coverage Limit Options "TICL" program. This program allows insurers to choose from one of twelve options for increasing their level of FHCF coverage above and beyond the mandatory FHCF coverage.

Addendum No. 3: This addendum gives effect to the extension of FHCF coverage to policies of liquidated insurers taken over by Citizens Property Insurance Corporation pursuant to changes made to the law by the Legislature in 2007 in CS/SB 2498.

Rule 19-8.012, F.A.C., Procedures to Determine Ineligibility for Participation in the Florida Hurricane Catastrophe Fund and to Determine Exemption from Participation in the Florida Hurricane Catastrophe Fund due to Limited Exposure: The proposed amendments to Rule 19-8.012, F.A.C., update and adopt forms for ineligibility and exemption from the FHCF and also provide that an insurer which has been granted ineligibility or de minimis status and then fails to execute and return the Reimbursement Contract to the FHCF within thirty days of losing such ineligible or exempt status will not be reimbursed for losses occurring prior to the receipt by the FHCF of the executed Reimbursement Contract.

Rule 19-8.013, F.A.C., Revenue Bonds Issued Pursuant to Section 215.555(6), F.S.:

The proposed amendments to Rule 19-8.013, F.A.C., update the rule to incorporate the changes to the rapid cash build-up factor made by the Legislature during 2007 and to exclude Multi-Peril crop policies reinsured or subsidized by the Federal Government from the emergency assessment as the result of the decision in National Crop Insurance Services, Inc. et al. v. Office of Insurance Regulation, Case No. 2006 CA 2594 (Fla. 2nd Cir. Ct. 2007).

Rule 19-8.029, F.A.C., Insurer Reporting Requirements: The proposed amendments to Rule 19-8.029, F.A.C., update and adopt the forms for insurer exposure and loss reporting to the FHCF for the 2008-2009 Contract Year and incorporates a new Company Contact form on which insurers designate individuals to be their official contacts.

Rule 19-8.030, F.A.C., Insurer Responsibilities: The proposed amendments to Rule 19-8.030, F.A.C., incorporate the 2007 Special Legislative Session's changes to the law, and update and adopt forms for insurer exposure and loss examinations and reporting to the FHCF for the 2008-2009 Contract Year, increases the resubmission fees for resubmissions resulting from an examination, and provides that optional coverages will be lost if the Addendum offering such optional coverage is not executed and returned timely.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The Board has prepared a statement and found the cost of the proposed amendments to be minimal. Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

33-402.101 Dental Services – General.

(1) The Department of Corrections Office of Health Services shall ensure that a comprehensive program of dental services, supervised by a dentist, is available to all inmates under its jurisdiction. The dental services program shall include emergency dental services, urgent dental services, preventative dental services and routine dental services.

(2) Definitions.

(a) Emergency dental services include treatment for trauma, emergency tooth extractions, severe tooth pain, control of bleeding, and acute infection. Emergency dental services shall be available to inmates 24-hours a day.

(b) Urgent dental services include treatment for chipped teeth, tooth pain, lost crowns or fillings, or broken dentures. All Department of Corrections dental clinics shall hold daily sick call, when a dentist is available, to provide dental access to those inmates who cannot wait for a routine appointment but do not meet the criteria for emergency dental services.

(c) Preventative dental services include oral (mouth) exams and regular oral hygiene. The Department of Corrections shall provide each inmate oral hygiene supplies including a toothbrush and a toothpaste containing fluoride. The inmate shall also be provided education in the use of oral hygiene supplies.

(d) Routine dental services are available by request and include examination, diagnosis, and treatment provided per a written treatment plan. Oral surgery is also available to all inmates; however, oral surgery for purely cosmetic reasons will not be performed. Orthodontics or the treatment of misaligned teeth is excluded from routine services and shall not be provided unless the lack of orthodontic services adversely affects an inmate's health.

(3) All inmates are required to receive an orientation to dental services within seven days of arrival at their assigned institutions. The dental orientation shall include:

(a) An explanation of access to dental care, including the hours of emergency, sick-call and routine dental care;

(b) How to request dental care; and

(c) A group oral hygiene presentation.

(4) Each inmate shall receive a dental examination to determine his or her dental needs as soon as possible, but not later than seven days after incarceration at a reception center.

(5) Dental periodic oral examinations shall be done every two years until the inmate is 50 years of age, and annually thereafter.

(a) Only a dentist may perform a dental periodic oral examination.

(b) An inmate in an active treatment program is not required to receive a dental periodic oral examination. Sick call and emergency dental visits are not considered an active treatment program and will not affect the periodic oral examination date.

(c) An inmate may refuse specific dental examinations and treatments. Inmates who refuse dental services will be required to sign Form DC4-711A, Refusal for Health Care Services. Form DC4-711A is incorporated by reference in Rule 33-602.210, F.A.C. By refusing an examination or treatment at a particular time, the inmate does not waive his or her right to subsequent dental care.

(6) Proper oral hygiene shall be reinforced throughout the inmate's dental treatment plan. A complete prophylaxis (cleaning) is included as part of the dental treatment plan. Auxiliaries can be utilized to assist in oral hygiene services in accordance with the State Dental Practice Act, Chapter 466, F.S.

(7) Dental services available to inmates are based upon four levels of dental care.

(a) Level I dental care is available to inmates during the reception process. It includes:

1. An intake dental examination performed by a dentist and the development of a provisional treatment plan.

2. Necessary extractions as determined by the intake dental examination.

3. Emergency dental treatment including treatment of soft tissue disease.

(b) Level II dental care is available to inmates with less than six months of Department of Corrections' incarceration time. It includes:

1. All Level I care.

2. Tooth decay control with temporary fillings.

3. Limited cleaning of symptomatic area with emphasis on oral hygiene practices.

4. Complete and partial denture repairs provided the inmate has sufficient Department of Corrections' incarceration time remaining on his or her sentence to complete the repair.

5. If an inmate has no upper or lower teeth and requests dentures the inmate is to be placed on the appointment waiting list at his or her permanent facility. The inmate is not required to wait six months for Level III care.

6. In cases of medical referral, inmates are to be scheduled as soon as possible for evaluation for dental care.

(c) Level III dental care is available to inmates with six months or more of continuous Department of Corrections' incarceration time. Level III includes:

1. All Levels I and II care.

2. Complete dental examination with X-rays, periodontal (gum) screening and recording, and development of a dental treatment plan.

3. Teeth cleaning, gum examination and oral hygiene instructions.

4. Complete dentures provided the inmate has at least four months of continuous Department of Corrections' incarceration time remaining on his or her sentence.

5. After the inmate has received a complete cleaning he or she is eligible for:

a. Fillings.

b. Partial dentures.

i. Acrylic partial dentures provided the inmate has at least four months of continuous Department of Corrections' incarceration time remaining on his or her sentence. Three or more anterior (front) teeth in an arch must be missing before an anterior acrylic partial denture is considered. Acrylic partial dentures will not be made available for purely cosmetic reasons.

ii. Cast partial dentures will be fabricated only when the oral condition precludes the fabrication of acrylic partial dentures.

iii. Each inmate is responsible for the loss, destruction, or mutilation of removable prosthetics. Failure to take responsibility for the removable prosthetics is not justification for replacement at Department of Corrections' expense. In cases where intentional damage or loss is suggested, the incident will be considered the same as willfully damaging state property and will be dealt with in accordance with existing department policies.

iv. Only one denture(s) will be provided in a lifetime with one reline provided at no cost. Dentures required more often will be charged to the inmate unless such a requirement is caused by a change in the inmate's dental condition that renders the existing denture(s) non functional.

c. Nonemergency endodontic (root canal) therapy is available to Level III inmates (more than six months of continuous Department of Corrections' incarceration time) when clinically indicated. All teeth receiving endodontic

therapy must have adequate support in the surrounding gum tissues and have a good chance of recovery and long term retention. In addition, posterior teeth receiving endodontic therapy must be crucial to arch integrity (no missing teeth in the quadrant or necessary as a partial denture abutment.)

d. Basic nonsurgical periodontal therapy as necessary.

(d) Level IV dental care represents advanced dental services that may be available on a limited basis.

1. This level of dental care is available to inmates on an as-needed basis after completion of Level III services and successful demonstration of a plaque free index score of 90 percent of greater for two consecutive months. If an inmate cannot demonstrate that he or she is following an acceptable oral hygiene program advanced dental therapy will not be considered.

2. Dental care and follow-up to highly specialized procedures such as orthodontics and implants placed before incarceration will be managed on an individual basis after consulting with the Director of Dental Services. The inmate will be responsible for the costs of continuation of care associated with both orthodontics and implants initiated before incarceration.

3. Fixed prosthetics (crowns and bridges) are not to be done except in unusual circumstances and only when an adequate restoration cannot be placed. The inmate will be responsible for the lab charges associated with the replacement of single unit crowns installed prior to incarceration.

(8) Dental Care Requests, Complaints and Formal Grievances.

(a) Inmate requests for dental services shall be submitted on Form DC6-236, Inmate Request or Form DC4-698A, Inmate Sick Call Request, and submitted to the Senior Dentist or his or her designee. Form DC4-698A is hereby incorporated by reference. A copy of this form is available from the Forms Control Administrator, Bureau of Policy Development, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500. The effective date of this form is _____. Form DC6-236 is incorporated by reference in Rule 33-103.019, F.A.C.

(b) Inmates wishing to file a complaint or formal grievance shall follow the grievance procedure as described in Rule 33-103.001, F.A.C.

(9) Co-payments for Dental Services.

(a) Inmates must make a co-payment for each nonemergency dental visit as described in Section 945.6037, F.S.

(b) There will be no co-payment for emergency dental services. If an inmate declares a dental emergency that does not meet the dental emergency guidelines, no treatment will be rendered and a co-payment charge will be assessed.

(10) Missed Appointments. Inmates who do not keep their dental appointments shall be rescheduled except for the following:

(a) All inmates having two non-security related no-shows in a row or have a history of no-shows shall be brought to the dental clinic to determine their desire to continue dental care:

(b) All inmates having three non-security related no-shows within a six appointment time span shall be removed from the dental treatment list and will not be rescheduled again for routine or comprehensive dental care unless a written request is submitted for continuation for dental care. The inmate will be placed on the appointment waiting list and will not be given preferential appointments unless the inmate's overall health would be adversely affected with dental treatment by delaying dental treatment.

THE FULL TEXT OF THE PROPOSED RULE IS:

63D-4.001 Purpose and Scope.

The rule specifies the requirements and criteria describing the role that the department has in the operation of a juvenile assessment center.

Specific Authority 985.64 FS. Law Implemented 985.135 FS. History–New _____.

63D-4.002 Definitions.

For purposes of this rule chapter, the following terms shall be defined as follows:

(1) Advisory Committee – Made up of representatives of the agencies participating in the development and on-going operations of the Juvenile Assessment Center (JAC). This committee facilitates interagency cooperation and collaboration within the community.

(2) Central Communications Center – The CCC is a 24-hour 7-day per week system to which incidents occurring at department or contract operated facilities or programs are reported.

(3) Criminal Street Gang – A formal or informal ongoing organization, association, or group that has as one of its primary activities the commission of criminal or delinquent acts, and that consist of three or more persons who have a common name or common identifying signs, colors, or symbols and who have two or more members who, individually or collectively, engage in or have engaged in a pattern of criminal street gang activity.

(4) Detention Risk Assessment Instrument (DRAI) – The instrument used to determine if a youth meets detention criteria and to determine whether a youth should be placed in secure, non-secure, or home detention care prior to a detention hearing.

(5) Gang Involved – A person who is a member of a criminal street gang as defined in the criminal street gang definition above and who meets two or more of the following criteria:

- (a) Admits to criminal street gang membership.
- (b) Is identified as a criminal street gang member by a parent or guardian.
- (c) Is identified as a criminal street gang member by a reliable informant.
- (d) Resides in or frequents a particular criminal street gang's area and adopts their style of dress, their use of hand signs, or their tattoos, and associates with known criminal street gang members.

(e) Has been arrested more than once in the company of identified criminal street gang members for offenses, which are consistent with usual criminal street gang activity.

(f) Is identified as a criminal street gang member by physical evidence such as photographs or other documentation.

(g) Has been stopped in the company of known criminal street gang members four or more times.

(6) Interagency Agreements – An agreement signed by all parties participating in the JAC. Agreements include, but are not limited to provisions regarding the development of protocols and procedures for conflict resolution, resource identification, roles, responsibilities, and communication between interagency partners, and the daily operation of the assessment center.

(7) Juvenile Assessment Center (JAC) – community operated facilities and programs which provide collocated central intake and screening services for youth referred to the department.

(8) Juvenile Justice Information System (JJIS) – The department's electronic information system used to gather and store information on youth having contact with the department.

(9) Probation Medical and Mental Health Clearance Form (Form HS 051) – The form used to screen for mental health, substance abuse and medical problems when law enforcement delivers a youth to the department upon apprehension. The purpose of the form is to comply with statutory requirements for diverting youth to the proper community resource if they require urgent treatment or intervention when arrested. The Probation Medical and Mental Health Clearance Form (Form HS 051) (January 2008) is incorporated, and is accessible electronically at: http://www.djj.state.fl.us/forms/health_services/HS051_Probation_Medical_and_Mental_Health_Clearance_Form_1-08.pdf.

(10) Suicide Risk Screening Parent/Guardian Notification – Utilized in Juvenile Assessment Centers and by juvenile probation officers to inform the parent or legal guardian of a youth being discharged to the community that the youth's response to suicide risk screening indicate he or she should receive a suicide risk assessment as soon as possible. The Suicide Risk Screening Parent/Guardian Notification Form MHSA 003 (August 2006) is incorporated, and is accessible electronically at http://www.djj.state.fl.us/forms/mental_health_substance_abuse_services_forms_index.html.

Specific Authority 985.64 FS. Law Implemented 985.135 FS. History–New _____.

63D-4.003 Community Involvement in Design and Operation.

(1) JACs provide collocated central intake and screening services for youth referred to the department. The department's role is to ensure that an adequate number of staff, either departmental employees or contract provider staff, are deployed at a JAC to cover the functions of detention screening

and the initiation of the intake process. How other community agencies are involved will be determined by the needs identified by the local JAC advisory committee, by the investment of staff and resources made by those local agencies, and shall be clearly defined in the local interagency agreements.

(2) Because local law enforcement agencies and local departments of corrections are often involved in staffing a JAC, the department will rely on law enforcement standards where applicable except as regards to specific statutory direction such as, for example, found in Section 985.645, F.S.

Specific Authority 985.64 FS. Law Implemented 985.135(2), (3), 985.645 FS. History—New _____.

63D-4.004 Life Safety Standards and Security.

(1) All JAC facilities must comply with sanitation and health codes. Written reports of inspections by state or local authorities shall be kept on file as assurance of continuing compliance with these codes.

(2) All facilities that use holding cells for youth must include in their process for utilization of these holding cells the following conditions:

(a) Males and females must never be placed together in the same holding cell.

(b) Staff must visually observe youth in holding cells every 10 minutes.

(c) A behavioral review must be held every 30 minutes.

(d) The observations and reviews must be documented in writing.

(e) If a holding cell is used by more than one youth at a time a safety decision must be made as to the potential risk of one youth to the other. Risk factors to consider are contagious disease, a marked difference in size, strength or age, predatory history and emotional stability.

Specific Authority 985.64 FS. Law Implemented 985.135(3), (4) FS. History—New _____.

63D-4.005 Admission of Youth to a JAC.

(1) In order to implement the statutory prohibition Section 985.115(2), F.S., against the acceptance into the JAC of youth exhibiting symptoms or demonstrating behaviors that suggest the youth is in need of immediate evaluation or treatment due to physical illness/injury, mental illness, or intoxication, each youth must receive an initial medical clearance.

(2) Medical/Mental Health Screening process.

(a) Each youth must receive an initial medical and mental health clearance. Using the Probation Medical and Mental Health Clearance Form (Form HS 051) the screener shall evaluate the condition of each youth prior to being accepted into the JAC for detention screening. The clearance process will help ensure an appropriate response when law enforcement delivers a youth for screening who appears to be physically impaired due to drugs, alcohol, injury, or illness.

(b) If the clearance process reveals one or more of the conditions described in the statute, the law enforcement officer must be informed immediately so they can transport the child to the appropriate facility or to be seen by a qualified health care professional as defined in this protocol. The original police report should not be left at the JAC, but should accompany the child.

(c) There may be situations in which the clearance process indicates one or more of the conditions described in the statute, however, the law enforcement officer disagrees with the resulting need for medical clearance and immediate transport to a more appropriate facility. If the DJJ screener and the law enforcement officer disagree, or if law enforcement refuses to transport the youth to the appropriate facility, the screener will provide the law enforcement officer with copies of Section 985.115(c),(d),(e), F.S., and the local interagency agreement. (Both should be posted in a prominent place.) If the disagreement has still not been resolved, the screener will contact his/her immediate supervisor who will contact the law enforcement officer's supervisor, or Shift Commander. The screening supervisor's decision will be final. Department staff (including providers) and law enforcement staff should subsequently resolve any issues of dispute following the appropriate chain of command.

(d) There are circumstances where a youth who has already been admitted to the JAC becomes severely ill while awaiting detention screening, or awaiting transfer to detention or release to the parent or guardian. If it is obvious that the condition of the youth is severe or life threatening, or appears to be life threatening, the first person who becomes aware of the emergency will call 911 immediately to request Emergency Medical Services (EMS).

(e) If EMS determines that the youth requires prompt medical attention or prompt treatment, the youth will be immediately transported to the hospital via ambulance, regardless of his or her screening status. The JAC interagency agreement must identify which staff will accompany the youth to and remain present at the hospital until such time as the parent arrives (in the case of a youth not eligible for secure detention).

(f) If the detention screening was completed and the youth was evaluated as eligible for secure detention then a security plan while in the hospital must be implemented. Once determined that the youth requires hospitalization the following will take place based on the youth's screening status:

1. Youth has not been screened for detention. The JAC screener will collect sufficient data telephonically and by other sources to complete the Detention Risk Assessment Instrument (DRAI) to make a preliminary determination as to the youth's qualification for secure detention, non-secure detention or release with no detention status.

2. Youth has been screened for detention and is to be released to the parent or guardian. If the result of the detention screening is a release, then the screener will facilitate the release of the youth to the parent or guardian who will then assume custody of the youth.

(g) Mental health emergencies and substance abuse emergencies may occur in the JAC after the custody of the youth has been accepted from law enforcement. When there is reason to believe that a youth may be dangerous to self or others because of mental illness or substance abuse impairment, JAC staff should determine whether the youth requires emergency care. Individuals who are believed to be an imminent danger to themselves or others because of mental illness or substance abuse impairment shall require emergency mental health or substance abuse services. Procedures must be in place within the facility which ensure that staff immediately contact emergency medical services (911) in the event of a mental health or substance abuse emergency that requires emergency medical treatment.

(h) Procedures must also be in place for contacting the designated law enforcement agency and arranging for transportation of a youth believed to be mentally ill from the facility to a mental health receiving facility when the youth appears to meet the criteria for involuntary examination set forth Section 394.463, F.S. Procedures must also be in place for transporting a youth, who is believed to be substance abuse impaired, for emergency admission to a hospital, licensed detoxification facility or addictions receiving facility. If involuntary substance abuse admission (Section 397.675, F.S.) is initiated, a law enforcement officer may implement protective custody measures as described in Section 397.677, F.S., and take the youth to a hospital or to a licensed detoxification or addictions receiving facility.

(3) If a youth has been screened, is awaiting transportation to the juvenile detention center and needs to be hospitalized, the screener will contact the detention center superintendent or designee to inform them as to which hospital the youth has been transported. As part of this process the detention center will deploy detention center staff to the hospital as soon as possible, but no later than three (3) hours after receiving notice of the medical emergency.

Specific Authority 985.64 FS. Law Implemented 985.135 FS. History—New _____.

63D-4.006 Medication Management While Youth are in a JAC.

(1) As part of the screening process an arrested youth is asked if he or she is taking any medications. If the youth reports that he or she takes Insulin, the screener will advise the law enforcement officer to take the youth to a licensed health care professional for an assessment to ensure that the youth's blood sugar levels are not too high or too low. The youth will not be accepted for screening until documentation is provided

by a licensed health care professional that the youth has an acceptable blood sugar level. Upon return to the JAC the youth will be kept on constant sight and sound observation, and will be prioritized for completion of the screening process.

(2) Youth who report taking any one of the following medications will be accepted for detention screening at the JAC: seizure medication, asthma medication, heart medication, psychotropic medication, blood pressure medication or non-insulin diabetes medication. Because they make use of the medications listed in the previous sentence these youth will be prioritized and screened prior to other youth.

(3) If any youth taking the medication identified in subsection (1) or (2) above is screened as eligible for secure detention, detention staff will be notified that a youth awaiting placement is using one of the critical medications. JAC staff need to exhort the parents or guardians to deliver the youth's medication as soon as possible. Once the medication is available at the JAC detention will be required to retrieve and transport the youth as soon as possible but no later than three (3) hours following notification.

(4) If the youth is on a critical medication, in need of the next dose, and is not eligible for secure detention the parent or guardian will be notified (with notification attempts documented) to bring the medication when they come to the JAC to pick up their child. In the event that the screener cannot reach the parent or guardian or if they refuse to respond, the screener will make arrangements to transport the youth home, to a responsible adult or to a shelter.

(5) In the event the youth is placed in a shelter, the JAC staff will verbally advise the shelter supervisor of the youth's imminent need for medication.

Specific Authority 985.64 FS. Law Implemented 985.135 FS. History—New _____.

63D-4.007 Juvenile Assessment Center Role in Responding to Criminal Street Gangs.

(1) During the screening and intake process, probation and community intervention state staff and provider staff shall collect data to be used in determining a youth's gang involvement or affiliation, if any. All data and information collected during the intake and screening process shall be made a part of the youth's file. A Gang Member Alert must be entered into JJIS for any youth identified as a member of a criminal street gang as defined by Section 874.03, F.S. Information collected by the department in relation to criminal street gangs, criminal street gang membership, and criminal street gang activity shall be provided to local law enforcement for use by the Florida Department of Law Enforcement in maintaining the statewide data base.

(2) The methods and procedures developed must ensure coordinated efforts between the Department of Juvenile Justice and local law enforcement agencies for the purpose of sharing of information and identification related to gang involved

youth. Included in these methods and procedures is the requirement that all gang related information becomes a part of the youth's file and that criminal street gang activity and membership information is reported to the local law enforcement gang authority. All information sharing must be consistent with the requirements in Florida Statutes governing confidentiality. While in the JAC, reasonable efforts must be made to keep members of the same or rival gangs separated.

63D-4.008 Release of Youth from a JAC.

(1) If it is determined that a child who is eligible for detention based upon the results of the DRAI should be released from the JAC to his family, the state attorney must be contacted to receive authorization to release. If detention is not authorized, the child may be released in accordance with statute.

(2) A goal of the department is that youth shall not be kept or held in a JAC for longer than six (6) hours, from the time he or she is processed by law enforcement (booked) or turned over to designated JAC staff from law enforcement or other authorities. If a youth is held over the six-hour period for any reason, then the reasons for this delay and the actions taken to comply with this 6-hour goal must be documented. Managers should use this documentation to identify any systemic problems with meeting the six (6) hour time frame.

(3) There are circumstances where a youth who has already been admitted to the JAC and is awaiting detention screening, or has been screened and is either awaiting transfer to detention or release to the parent, may appear to become ill or complain of illness or injury. The appearance or complaint of physical or mental illness requires immediate attention, and once it has been determined that the youth is in need of further non-emergent medical attention, the following will take place based on the youth's screening status:

(a) Upon arrival to pick up the youth from the JAC, the parent or guardian shall be notified verbally and in writing by the JAC screener that the youth appears to be ill or has complained of illness or injury and that further medical assessment is needed after release. The parent or guardian will sign an acknowledgement form indicating their understanding of the situation.

(b) For youth being released to secure detention the detention center facility superintendent or designee will be notified immediately by phone of the youth's illness or injury. This person will be provided all available information regarding the youth's specific symptoms or complaints in order to facilitate an appropriate and timely medical assessment.

(4) If a youth admitted to a JAC is identified through screening or other sources as a potential suicide threat, but he or she does not meet the criteria requiring immediate transportation to a facility for evaluation, the following is required:

(a) If the youth is to be released to the parent or guardian, the parent or guardian must be informed that suicide risk factors were disclosed during preliminary screening, and that a full assessment of suicide risk should be conducted by a qualified mental health professional. The parent or guardian shall be provided with the form entitled "Suicide Risk Screening Parent /Guardian Notification" at Appendix O of the Mental Health and Substance Abuse Services Manual (2006). A copy of the youth's "Suicide Risk Screening Parent /Guardian Notification" form signed by the parent or guardian, is to be permanently filed in the youth's case management record.

(b) If the youth is being detained in secure detention a Suicide Risk Alert must be immediately entered into JJIS and the youth placed on constant observation until an Assessment of Suicide Risk is conducted. The screener will write "suicide risk" on the top page of the detention packet, verbally notify the Detention Center Superintendent or designee prior to the youth's transfer from the JAC and notify the transportation staff upon arrival. All of the above must be chronologically documented.

(II) For the *M. beryllina* bioassays, when the salinity of the effluent is between 1 and 5 parts per thousand, the effluent shall be adjusted to a salinity of 5 parts per thousand ~~using artificial sea salts as described in EPA-821-R-02-014, Section 7.2.~~ When the salinity of the effluent is greater than 5 parts per thousand, no salinity adjustment shall be made to the effluent and the test shall be run at the effluent salinity. The salinity of the control/dilution water (0% effluent) shall be 5 parts per thousand. For facilities granted a chronic toxicity mixing zone, if the effluent salinity at the edge of the mixing zone as described in sub-subparagraph 62-620.620(3)(g)2.f, F.A.C., is greater than 5 parts per thousand, the salinity of the effluent and control/dilution water (0% effluent) may be adjusted to match the minimum salinity of the effluent at the edge of the mixing zone, but shall not exceed the salinity range of the method.

(I) Notwithstanding paragraph 62-620.620(3)(k), upon completion of four consecutive, valid routine tests that demonstrate compliance with the whole effluent toxicity limits in the facility's wastewater permit, a permittee may submit a written request to the Department for a reduction in routine monitoring frequency from once every three months, as required under subparagraph 62-620.620(3)(g)1., to once every six months. The request shall include a summary of the data and the complete bioassay reports for all tests being considered. The Department shall act on the request within 45 days. Reductions in monitoring shall only become effective upon the Department's written confirmation that the facility has completed four consecutive valid passing routine whole effluent toxicity tests. A single failed test shall not result in a return to quarterly monitoring unless the Department determines that more frequent monitoring is required to address a specific toxicity issue.

The Petitioner sought a waiver or variance of subsection 61H1-31.001(10), F.A.C., entitled "Fees" and the requirement that a licensee pay a \$50.00 delinquency fee for submitting a CPE reporting form after July 15th of the licensee's reestablishment period. The Board considered the instant Petition at a duly-noticed public meeting, held October 19, 2007, in Tampa, Florida.

The Board's Order, filed December 28, 2007, denied the petition finding that Petitioner failed to establish that the purpose of the underlying statute, Section 473.305, Florida Statutes, would be met by granting a variance or waiver from subsection 61H1-31.001(10), F.A.C. The Board further found that Petitioner failed to establish that applying the requirements of the aforementioned Rule to her circumstances would violate principles of fairness and impose substantial hardship.

A copy of the Order may be obtained by contacting: Veloria Kelly, Division Director, Board of Accountancy, 240 N. W. 76th Dr., Suite A, Gainesville, Florida 32607.
