STATE OF FLORIDA
 DEPARTMENT OF COMMUNITY AFFAIRS
 In Re: MONROE COUNTY LAND
 DEVELOPMENT REGULATIONS
 ADOPTED BY MONROE
 COUNTY ORDINANCE NO. 015A-2008

FINAL ORDER

The Department of Community Affairs (the "Department") hereby issues its Final Order, pursuant to Section 380.05(6), Florida Statutes, and Section 380.0552(9), Florida Statutes (2007), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern, and Monroe County is a local government within the Florida Keys Area.

2. On August 19, 2008, the Department received for review Monroe County Ordinance No. 015a-2008 ("Ord. 015a-2008"), adopted by Monroe County on June 18, 2008.
3. The purpose of the Ord. 015a-2008 is to extend Interim Development Ordinance No. 017-2005 originally enacted on July 20, 2005, extended until July 10, 2007, by Resolution 241-2006, until July 9, 2008, by Resolution 265-2007, and to expire on the 183rd day after the effective date of the Ordinance, unless repealed sooner, or upon the adoption of Comprehensive Plan amendments and land development addressing public water access and marine facilities.
4. On January 19, 2005, the Monroe County Board of County Commissioners voted to contract with the South Florida Regional Planning Council to prepare the public water access and marine facilities plan and implementation measures including comprehensive plan amendments and land development regulations. On April 30, 2007, the South Florida Regional Planning Council completed the Working Waterfront Preservation Master Plan.
5. On September 19, 2007, Monroe County approved Comprehensive Plan amendments that were found in part to be "Not in Compliance" and are the subject of ongoing administrative proceedings, settlement discussions, and hearings with the Department and other affected parties.
6. The Interim Development Ordinance and the amendments to the Comprehensive Plan and land development regulations are necessary to protect the health, safety, and general welfare of the public and to advance the policies set forth in the Working Waterfront Preservation Master Plan.

CONCLUSIONS OF LAW

7. The Department is required to approve or reject land development regulations that are enacted, amended, or rescinded by any local government in the Florida Keys Area of Critical State Concern. Section 380.05(6), Florida Statutes, and Section 380.0552(9), Florida Statutes (2007).
8. Monroe County is a local government within the Florida Keys Area of Critical State Concern. Section 380.0552, Florida Statutes (2007) and Rule 28-29.002 (superseding Chapter 27F-8), Florida Administrative Code.
9. "Land development regulations" include local zoning, subdivision, building, and other regulations controlling the development of land. Section 380.031(8), Florida Statutes (2007). The regulations adopted by Ord. 015a-2008 are land development regulations.
10. All land development regulations enacted, amended, or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in Section 380.0552(7), Florida Statutes. See *Rathkamp v. Department of*

Community Affairs, 21 F.A.L.R. 1902 (Dec. 4, 1998), aff'd, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.

- 11. Ord. 015a-2008 promotes and furthers the following Principles:
 - (a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.
 - (d) To ensure the maximum well-being of the Florida Keys and its citizens through sound economic development.
 - (g) To protect the historical heritage of the Florida Keys.
 - (l) To protect the public health, safety, and welfare of the citizens of the Florida Keys and maintain the Florida Keys as a unique Florida resource.

12. Ord. 015a-2008 is consistent with the Principles for Guiding Development as a whole.

WHEREFORE, IT IS ORDERED that Ord. 015a-2008 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED.

This Order becomes effective 21 days after publication in the Florida Administrative Weekly unless a petition is filed as described below.

DONE AND ORDERED in Tallahassee, Florida.

FEDERAL EMERGENCY MANAGEMENT AGENCY

The Federal Emergency Management Agency (FEMA) hereby gives notice to the public of its intent to reimburse eligible applicants for eligible costs to repair and/or replace facilities damaged by Tropical Storm Fay occurring during the period starting August 18, 2008 and ending September 12, 2008. This notice applies to the Public Assistance (PA), Individual Assistance (IA), and Hazard Mitigation Grant (HMGP) programs implemented under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207.

Under a major disaster declaration (FEMA-1785-DR-FL) signed by the President on August 24, 2008 and amended since that date, the following counties have been designated as adversely affected by the disaster and eligible for IA: Alachua, Baker, Brevard, Collier, Duval, Gadsden, Glades, Hendry, Jefferson, Lake, Lee, Leon, Liberty, Marion, Martin, Nassau, Okeechobee, Orange, Polk, Seminole, St. Lucie, Volusia and Wakulla counties. The following counties have been designated eligible for PA: Alachua, Baker, Bradford, Brevard, Calhoun, Clay, Collier, Dixie, Duval, Flagler, Gadsden, Glades, Gulf, Hamilton, Hardee, Hendry, Highlands, Jefferson, Lake, Lee, Leon, Liberty, Manatee, Marion, Martin, Monroe, Nassau, Okeechobee, Osceola, Palm Beach, Putnam, Sarasota, Seminole, St. Johns, St. Lucie, Suwannee, Taylor, Union, Volusia and Wakulla counties. Additional counties may be designated at a later date. All counties in the State of Florida are eligible for HMGP.

This public notice concerns activities that may affect historic properties, activities that are located in or affect wetland areas or the 100-year floodplain, and critical actions within the 500-year floodplain. Such activities may adversely affect the historic property, floodplain or wetland, or may result in continuing vulnerability to flood damage.

Presidential Executive Orders 11988 and 11990 require that all federal actions in or affecting the floodplain or wetlands be reviewed for opportunities to relocate, and evaluated for social, economic, historical, environmental, legal and safety considerations. Where there is no opportunity to relocate, FEMA is required to undertake a detailed review to determine what measures can be taken to minimize future damages. The public is invited to participate in the process of identifying alternatives and analyzing their impacts.

FEMA has determined that for certain types of facilities there are normally no better alternatives to restoration in the floodplain/wetland. These are facilities that meet all of the following criteria: 1) FEMA's estimate of the cost of repairs is less than 50% of the cost to replace the entire facility, and is less than \$100,000; 2) the facility is not located in a floodway; 3) the facility has not sustained major structural damage in a previous Presidentially declared flooding disaster or emergency; and 4) the facility is not critical (e.g., the facility is not a hospital, generating plant, emergency operations center, or a facility that contains dangerous materials). FEMA intends to provide assistance for the restoration of these facilities to their pre-disaster condition, except for certain measures to mitigate the effects of future flooding or other hazards may be included in the work. For example, a bridge or culvert restoration may include a larger waterway opening to decrease the risk of future washouts.

For routine activities, this will be the only public notice provided. Other activities and those involving facilities that do not meet the four criteria are required to undergo more detailed review, including study of alternate locations. Subsequent public notices regarding such projects will be published if necessary, as more specific information becomes available.

In many cases, an applicant may have started facility restoration before federal involvement. Even if the facility must undergo detailed review and analysis of alternate locations, FEMA will fund eligible restoration at the original location if the facility is functionally dependent on its floodplain location (e.g., bridges and flood control facilities), or the project facilitates an open space use, or the facility is an integral part of a larger network that is impractical or uneconomical to relocate, such as a road. In such cases, FEMA must also examine the possible effects of not restoring the facility, minimize floodplain/wetland impacts, and determine both that an overriding public need for the facility clearly outweighs the Executive Order requirements to avoid the floodplain/wetland, and that the site is the only practicable

alternative. State of Florida and local officials will confirm to FEMA that proposed actions comply with all applicable State and local floodplain management and wetland protection requirements.

FEMA intends to provide IA program funding for disaster-related emergency housing. These actions may adversely affect a floodplain/wetland, or may result in continuing vulnerability to floods. These actions may include repair, restoration or construction of housing or private bridges, purchase and placement of travel trailers or manufactured housing units, or repair of structures as minimum protective measures. This will be the only public notice concerning these actions.

FEMA also intends to provide HMGP funding to the State of Florida to mitigate future disaster damages. These projects may include construction of new facilities that exceed code requirements, modification of existing, undamaged facilities, relocation of facilities out of floodplains, demolition of structures, or other types of projects to mitigate future disaster damages. In the course of developing project proposals, subsequent public notices will be published if necessary, as more specific information becomes available.

The National Historic Preservation Act requires federal agencies to take into account the effects of their undertakings on historic properties. Those actions or activities affecting buildings, structures, districts or objects 50 years or older or that affect archeological sites or undisturbed ground will require further review to determine if the property is eligible for listing in the National Register of Historic Places (Register). If the property is determined to be eligible for the Register, and FEMA's undertaking will adversely affect it, FEMA will provide additional public notices. For historic properties not adversely affected by FEMA's undertaking, this will be the only public notice.

As noted, this may be the only public notice regarding the above-described actions under the PA, IA, and HMGP programs. Interested persons may obtain information about these actions or a specific project by writing to the Federal Emergency Management Agency, Joint Field Office, 2501 Principal Road, Orlando, Florida 32837, or by calling (407)858-6201. Comments should be sent in writing to Jeffrey Bryant, Federal Coordinating Officer, at the above address within 15 days of the date of this notice.
