RULE NO.: 6A-1.099822 **RULE TITLE:** School Improvement Rating for Alternative Schools

PURPOSE AND EFFECT: The purpose of the rule amendment is to define “alternative school” for the purpose of calculating school improvement ratings, establish a process to identify alternative schools and a process for calculating school improvement ratings that fulfill statutory requirements for school accountability consistent with Sections 1008.34(3)(a)2. and 1008.341, F.S. 6A-1.099822 School Improvement Rating for Alternative Schools.

(1) through (4)(b)3. No change.

(5) Procedures for Calculating School Improvement Ratings for Alternative Schools.

(a) The school improvement ratings for alternative schools will be considered fully implemented with the following accountability elements:

1. The school improvement rating shall be based on a comparison of student learning gains for the current year and previous year. The learning gains definition will be consistent with the learning gains definition for school grades defined in Rule 6A-1.09981, F.A.C. The school improvement rating shall be calculated for each alternative school that has chosen to be rated by this method and, to ensure statistical reliability of results in accordance with Section 1008.34(3)(a)1., F.S., has:

a. ~~Has~~ A minimum of ten (10) eligible students with valid Florida Comprehensive Assessment Test (FCAT) scores in reading in the current and two previous years; and

An eligible student's performance will be included in the calculation of the home school's overall percentage of students making learning gains in reading and in math, provided that the student is enrolled in a grade level at the alternative school that is offered by the student's home school.

~~(7) Definition of Home School. "Home School" is defined as the school the student was attending when assigned to an alternative school, pursuant to Section 1008.34, F.S.~~

~~(a) Limitations on Students Credited Back. Student performance data will only be credited back to the home school if:~~

~~2. The student's grade level at the alternative school is within the same grade configuration as the student's home school.~~

~~(b) Eligible students' performance will be included in the calculation of the home school's overall percentage of students making learning gains in reading and in math.~~

~~(c) Eligible students' performance will be included in the home school's grade calculation as long as the student is enrolled in a grade level at the alternative school that is offered by the student's home school.~~

RULE NO.: 40D-1.659
 RULE TITLE: Forms and Instructions

PURPOSE AND EFFECT: Amendments proposed to Rule 40D-1.659, F.A.C., are part of a larger rule package, the purpose of which is to adopt revised and updated Water Use Permit application and supplemental information forms. The revised forms will coordinate with ongoing refinements in the information-gathering capabilities of the District's Water Management Information System, or WMIS, which is being expanded to allow electronic submittal of a greater range of permit applications. The effect will be to elicit through the permit application forms all of the specific information and supporting documentation normally required to determine that a requested water use meets the conditions for permit issuance.

SUMMARY: The District has completed a comprehensive review of the application information requirements for the various types of District WUPs and now seeks to revise its permit application forms in concert with efforts to expand electronic permitting through the District's Water Management Information System or WMIS. Revised application forms have been developed for Individual, General and Small General WUPs. A new application form is developed for use in renewing Small General WUPs for agricultural water use. Revised supplemental information forms are proposed for agricultural, commercial or industrial, and recreation or aesthetic water use types. Revised supplemental application forms for mining or dewatering and for public supply water uses are still under development and will be proposed in subsequent rulemaking. The information-gathering format embodied in the revised forms is also designed to facilitate electronic permitting through WMIS, which has recently been expanded to accept General and Individual WUP applications in addition to Small General WUP applications.

Rule 40D-1.659, F.A.C., is amended to list the new WUP application forms and to identify the specific rule in which these forms are incorporated by reference.

RULE NOS.:	RULE TITLES:
40D-2.091	Publications Incorporated by Reference
40D-2.101	Content of Application
40D-2.331	Modification of Permits

PURPOSE AND EFFECT: Amendments are proposed to Rules 40D-2.091, 40D-2.101, 40D-2.331, F.A.C., to adopt revised and updated Water Use Permit (WUP) application and supplemental information forms. The revised forms will coordinate with ongoing refinements in the information-gathering capabilities of the District’s Water Management Information System, or WMIS, which is being expanded to allow electronic submittal of a greater range of permit applications. The effect will be to elicit through the permit application forms all of the specific information and supporting documentation normally required to determine that a requested water use meets the conditions for permit issuance.

SUMMARY: The District has completed a comprehensive review of the application information requirements for the various types of District WUPs and now seeks to revise its permit application forms in concert with efforts to expand electronic permitting through the District’s Water Management Information System or WMIS. Revised application forms have been developed for Individual, General and Small General WUPs. A new application form is developed for use in renewing Small General WUPs for agricultural water use. Revised supplemental information forms are proposed for agricultural, commercial or industrial, and recreation or aesthetic water use types. Revised supplemental application forms for mining or dewatering and for public supply water uses are still under development and will be proposed in subsequent rulemaking. The information-gathering format embodied in the revised forms is also designed to facilitate electronic permitting through WMIS, which has recently been expanded to accept General and Individual WUP applications in addition to Small General WUP applications.

Specifically, Rule 40D-2.091, F.A.C., is amended to incorporate an updated version of the District’s Water Use Permit Information Manual Part B, Basis of Review, which is revised to identify and incorporate by reference the new permitting forms. Rule 40D-2.101, F.A.C., is amended to

specify the new application forms and supplemental forms to be used in applying for Individual, General and Small General WUPs. Rule 40D-2.331, F.A.C., is revised to incorporate by reference a Modification Short Form to be used when requesting a letter modification to an existing permit.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 42H-1.002
RULE TITLE: Boundary

PURPOSE AND EFFECT: The Petition, as supplemented, was filed by the Crossings at Fleming Island Community Development District with its registered office located at 1279 Kingsley Avenue, Suite 118, Orange Park, Florida 32073. The Petition, as supplemented, proposes to modify the land area presently serviced by the District by amending its boundary to add 20.7 acres to the District located within Clay County, Florida. The District currently covers approximately 2,848 acres of land and after amendment the District will consist of approximately 2,868.7 acres. The District is generally located northwest, southwest and southeast of the intersection of U.S. 17 and C.R. 220 on Fleming Island. There are no parcels within the expansion parcels or the proposed amended boundaries of the District that are to be excluded from the District. Petitioner has obtained written consent to amend the boundaries of the District from the owners of 100% of the real property comprising the expansion parcels. The District intends to provide the following improvements or provide the following facilities or services for the expansion parcels: master surface water management and drainage system; internal roadways; potable water distribution; wastewater collection system; and reclaimed water system.

SUMMARY: The Petition, as supplemented, was filed by the Crossings at Fleming Island Community Development District with its registered office located at 1279 Kingsley Avenue, Suite 118, Orange Park, Florida 32073. The Petition, as supplemented, proposes to modify the land area presently serviced by the District by amending its boundary to add 20.7 acres to the District located within Clay County, Florida. The District currently covers approximately 2,848 acres of land and after amendment the District will consist of approximately 2,868.7 acres. The District is generally located northwest, southwest and southeast of the intersection of U.S. 17 and C.R. 220 on Fleming Island. There are no parcels within the expansion parcels or the proposed amended boundaries of the District that are to be excluded from the District. Petitioner has obtained written consent to amend the boundaries of the District from the owners of 100% of the real property comprising the expansion parcels. The District intends to provide the following improvements or provide the following facilities or services for the expansion parcels: master surface

water management and drainage system; internal roadways; potable water distribution; wastewater collection system; and reclaimed water system.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: In association with the Petition, as supplemented, the Petitioner has caused a Statement of Estimated Regulatory Costs ("SERC") to be prepared in compliance with Section 120.541, F.S. The complete text of the SERC is contained at Exhibit "9" to the Petition. By way of summary, the SERC estimates the principal individuals and entities likely to be required to comply with the amended rule are the District, the State of Florida, and Clay County. The SERC estimates that rule amendment implementation and enforcement costs to the above-described entities will be minimal and/or are offset by the payment of requisite filing and annual fees; and, estimates there will be no negative impact on state and local revenues from the proposed amendment of the rule. With respect to an estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the rule, the SERC indicates that to fund the cost of maintaining infrastructure, assessments and fees will be imposed on the individuals who may ultimately reside on or own property within the expansion parcels of the District. Finally, the SERC concludes that the amendment of the District's boundary will have only incidental or a positive impact on small businesses and should not have a negative impact on small counties. Clay County is not a small county as defined by Section 120.52, F.S. The SERC analysis is based on a straightforward application of economic theory and input was received from professionals associated with the District.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

PURPOSE AND EFFECT: The purpose and effect of the proposed rule is to incorporate changes to the Florida Title XIX Outpatient Hospital Reimbursement Plan payment

methodology, effective March 1, 2009, in accordance with Senate Bill 2-A, 2008-2009 Special Appropriations Act, Specific Appropriation 111.

Effective March 1, 2009, the Agency for Health Care Administration shall implement a recurring methodology in the Title XIX Outpatient Hospital Reimbursement Plan to reduce individual outpatient hospital rates proportionately until the required savings is achieved.

Hospitals that are licensed as a children’s specialty hospital and whose Medicaid days plus charity care days divided by total adjusted patient days equals or exceeds 30 percent are excluded from this reduction.

Any payments made to qualifying hospitals because of this change shall be contingent on the state share being provided through grants and donations from counties, local governments, public entities, or taxing districts, and federal matching funds.

Public hospitals, teaching hospitals as defined in Section 408.07(45) or 395.805, Florida Statutes, which have seventy or more full-time equivalent resident physicians, designated trauma centers and those hospitals whose Medicaid and charity care days divided by total adjusted days exceeds twenty five percent are permitted to buy back the Medicaid outpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their outpatient rates up to actual Medicaid outpatient cost.

The agency shall use the 2002, 2003 and 2004 audited DSH data available as of March 1, 2008. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2002, 2003 and 2004 that are available.

SUMMARY: Effective March 1, 2009, in accordance with Senate Bill 2-A, 2008-2009 Special Appropriations Act, Specific Appropriation 111, the Agency for Health Care Administration shall implement a recurring methodology in the Title XIX Outpatient Hospital Reimbursement Plan to reduce individual hospital rates proportionately until the required savings is achieved. DEPARTMENT OF ENVIRONMENTAL PROTECTION

RULE NO.: 62-210.200 RULE TITLE: Definitions

PURPOSE AND EFFECT: The department is proposing amendments to Chapter 62-210, F.A.C., in response to requirements imposed by the Environmental Protection Agency (EPA) in its recent conditional approval of Florida’s Prevention of Significant Deterioration (PSD) air permitting program under the federal Clean Air Act. The proposed amendments clarify the definition of “New Emissions Unit” as used in the PSD program. They also add ozone depleting substances (ODS) to the definitions of “Regulated Air Pollutant” and “Significant Emissions Rate” such that emission of ODS are treated the same under Florida’s PSD rules as under EPA’s PSD regulations.

SUMMARY: The proposed rule amendments update the department’s air construction permitting program for major stationary sources and major modifications for consistency with federal regulations.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The department has prepared a statement of estimated regulatory costs. The proposed amendment to the definition of “New Emissions Unit” simply clarifies existing intent and is not expected to incur costs to any regulated entity or governmental agency. For some permit applicants, the addition of ODS to the list of pollutants required to be addressed in the PSD permitting program may result in costs on the order of a few hundred dollars for the professional engineer preparing the application to evaluate the project’s potential for ODS emissions. If PSD permitting requirements are triggered solely on the basis of projected emissions of ODS, additional costs of preparing a PSD application will be incurred. The department does not expect any entity to incur costs related to the installation and use of add-on emissions control technology for reduction of ODS emissions.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 62-212.300
RULE TITLE: General Preconstruction Review Requirements

PURPOSE AND EFFECT: The department is proposing amendments to Chapter 62-212, F.A.C., in response to requirements imposed by the Environmental Protection Agency (EPA) in its recent conditional approval of Florida’s Prevention of Significant Deterioration (PSD) air permitting

program under the federal Clean Air Act. The proposed amendments clarify that for any pollutant for which a permit applicant determines there will be no significant emissions increase pursuant to the PSD applicability provisions of subsection 62-212.400(2), F.A.C., the applicant must provide any netting calculations that were used as well as documentation of any emissions that were allowably excluded in the determination of projected actual emissions.

SUMMARY: The proposed rule amendments update the department’s air construction permitting program for major stationary sources and major modifications for consistency with federal regulations.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The department has prepared a statement of estimated regulatory costs. The proposed amendments to the permit application requirements of subparagraph 62-212.300(3)(a)1., F.A.C., simply clarify existing intent and are not expected to incur costs to any regulated entity or governmental agency.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

69L-6.028 Procedures for Imputing Payroll and Penalty Calculations.

(1) In the event an employer fails to provide business records sufficient for the department to determine the employer's payroll for the time period requested in the business records request for the calculation of the penalty pursuant to Section 440.107(7)(e), F.S., the department shall impute the employer's payroll at any time after ten, but before the expiration of twenty at any time after the expiration of fifteen business days after receipt by the employer of a written request to produce such business records.

(2) The employer's period of non-compliance shall be either the same as the time period requested in the business records request for the calculation of the penalty or an alternative period of non-compliance as determined by the department, whichever is less.

For purposes of this rule, "non-compliance" means the employer's failure to secure the payment of workers' compensation pursuant to Chapter 440, F.S.

~~(3)(2)~~ When an employer fails to provide business records sufficient to enable the department to determine the employer's payroll for the time period requested in the business records request for purposes of calculating the penalty provided for in Section 440.107(7)(d), F.S., the imputed weekly payroll for each employee, corporate officer, sole proprietor or partner ~~for the portion of the period of the employer's non-compliance occurring on or after October 1, 2003~~ shall be calculated as follows:

(a) For each employee, employees other than corporate officers, ~~for each employee~~ identified by the department as an employee of such employer at any time during the period of the

employer's non-compliance, the imputed weekly payroll for each week of the employer's non-compliance for each such employee shall be the statewide average weekly wage as defined in Section 440.12(2), F.S., that is in effect at the time the stop-work order was issued to the employer, multiplied by 1.5. Employees include sole proprietors and partners in a partnership.

(b) If the employer is a corporation, for each corporate officer of such employer identified as such on the records of the Division of Corporations at the time of issuance of the stop-work order, the imputed weekly payroll for each week of the employer's non-compliance for each such corporate officer shall be the statewide average weekly wage as defined in Section 440.12(2), F.S., that is in effect at the time the stop-work order was issued to the employer, multiplied by 1.5.

(c) If a portion of the period of non-compliance includes a partial week of non-compliance, the imputed weekly payroll for such partial week of non-compliance shall be prorated from the imputed weekly payroll for a full week.

(d) The imputed weekly payroll for each employee, corporate officer, sole proprietor, or partner shall be assigned to the highest rated workers' compensation classification code associated with the employer's business activities. ~~If, unless the employer's business records demonstrate the assignment of an alternative workers' compensation classification code.~~

~~(3) If subsequent to imputation of weekly payroll pursuant to subsection (2) herein, but before and only until the expiration of forty five calendar days from the receipt by the employer of written request to produce business records, the employer provides business records sufficient for the department to determine the employer's payroll for the period requested for the calculation of the penalty pursuant to Section 440.107(7)(e), F.S., the department shall recalculate the employer's penalty to reflect the payroll information provided in such business records.~~

(4) If the department imputes the employer's payroll, the employer shall have twenty business days after service of the order assessing the penalty to provide business records sufficient for the department to determine the employer's payroll for the period requested in the business records request for the calculation of the penalty or for the alternative period of non-compliance. If the employer provides such business records, the department shall recalculate the employer's penalty pursuant to Section 440.107(7)(d), F.S. If business records sufficient for the department to determine the employer's payroll for the period requested in the business records request for the calculation of the penalty or for the alternative period of non-compliance are not provided to the department within twenty business days after service of the order assessing the penalty, the penalty based upon the time period requested for the calculation of the penalty imputing the employer's payroll for the time period in the business records request for the calculation of the penalty will remain in effect.

~~Where periods of the employer's non-compliance occurred prior to October 1, 2003, and the employer fails to provide business records sufficient to enable the department to determine the employer's payroll for periods of non-compliance prior to October 1, 2003, for purposes of calculating the penalty to be assessed against the employer for periods of non-compliance prior to October 1, 2003, the department shall assess against the employer a penalty of \$100 per day for each and every calendar day in the period of non-compliance occurring prior to October 1, 2003, the employer was not in compliance, pursuant to Section 440.107(5), F.S.
