NOTICE OF AVAILABILITY OF
STATEMENT OF ESTIMATED REGULATORY COSTS

The Department of Environmental Protection announces the availability of the Statement of Estimated Regulatory Costs (SERC) prepared for the rulemaking for Chapters 62-520 and 62-522, F.A.C. The Notices of Proposed Rule for these chapters were published in the Florida Administrative Weekly on June 27, 2008, and the adoption hearing was held on July 25, 2008. The summary of the SERC is: The proposed revisions to Chapters 62-520 and 62-522, F.A.C., will affect facilities or installations that discharge into ground water, including wastewater treatment plants, phosphogypsum stacks, and solid waste facilities. For the most part, existing requirements will not change. Only one new requirement will impose regulatory cost. Facilities will now be required to conduct sampling and analysis of one or more monitoring wells prior to permit renewal. An estimated 2,050 facilities may be affected. Depending on the parameters required to be sampled prior to permit renewal, this may be an additional cost of between \$500 and \$1,500 every five years. To obtain a copy of the SERC, contact Cynthia Christen, Senior Attorney, Department of Environmental Protection, MS 35, 3900 Commonwealth Blvd., Tallahassee, FL 32399-3000, (850)245-2230, email: Cynthia.christen@dep.state.fl.us.

NOTICE OF AVAILABILITY OF
STATEMENT OF ESTIMATED REGULATORY COSTS

The Department of Environmental Protection announces the availability of the Statement of Estimated Regulatory Costs (SERC) prepared for the rulemaking for Chapter 62B-56, F.A.C. The Notice of Proposed Rule for this chapter was published in the Florida Administrative Weekly on April 25,

2008, and the adoption hearing was held on May 28, 2008. A Notice of Change for the proposed rule was published in the Florida Administrative Weekly on April 17, 2009. The summary of the SERC is as follows: The proposed Chapter 62B-56, F.A.C., will affect beachfront property owners who choose to apply for coastal armoring in the form of a geotextile container as the core of a reconstructed dune. The permit application fee will be \$5,000 (\$1,500 of which is associated with the maintenance phase of the permit and will be refunded if the permit is denied). A number of costs to the applicant are associated with the project, and vary based on location, size, and other factors. Additional costs include those associated with installation of the geotextile container as the core of a reconstructed dune, and ongoing maintenance of the project. In addition, the applicant is required to provide financial assurance in an amount that would cover costs incurred by the removal of the structure and restoration of the dune if the project failed to meet the permit requirements. The Department reviewed permit applications for similar projects since 2002, and based on the fact that no small businesses or counties have applied during that time, the Department estimates that the impact on small businesses and counties would be minimal.

To obtain a copy of the SERC, contact: Rosaline Beckham, Department of Environmental Protection, Bureau of Beaches and Coastal Systems, MS 300, 3900 Commonwealth Blvd., Tallahassee, Florida 32399-3000, (850)488-7815 or email: Rosaline.beckham@dep.state.fl.us.
