RULE NO.: 1S-2.030
RULE TITLE: Electronic Transmission of Absentee Ballots

PURPOSE AND EFFECT: The purpose of the proposed amendments to this rule which deals exclusively with the transmission of absentee ballots to overseas voters (military and other U.S. citizens residing abroad) focuses primarily in 4 major ways:

2. It changes the requirement for delivering absentee ballots to require the ballots be sent 45 days in advance of the election, regardless of the election.
3. It reflects that overseas voters may designate the means by which they want their absentee ballot or other election materials to be delivered to them.
4. It clarifies the procedures relating to Department approved pilot programs for secure remote electronic transmission of absentee ballots.

Most of these changes are proposed in response to the recently enacted Military and Overseas Voter Empowerment (MOVE) Act (Public law 111-84), subpart H of the Military Defense Authorization Act) which enhanced the rights of military voters and overseas voters to vote by electronic means.

RULE TITLE:

Grading Services for Poultry

PURPOSE AND EFFECT: The rule amendment changes and clarifies the fee and cost schedule for poultry grading services provided by Department graders and increases the hourly fees charged to a poultry processor.

SUMMARY: The Florida Department of Agriculture and Consumer Services (DACS) provide voluntary grading services to food establishments that process poultry in accordance with US Department of Agriculture standards. The Department charges the poultry processor an hourly fee to recover the costs of this service. RULE NO.: 25-22.061
RULE TITLE: Stay Pending Judicial Review
PURPOSE AND EFFECT: Rule 25-22.061, F.A.C., Stay Pending Judicial Review, is amended for consistency with Florida Rule Appellate Procedure 9.310, and to clarify who shall hear motions for stay and what factors are considered by the Florida Public Service Commission in granting a stay and in setting an interest rate when a stay is conditioned upon the posting of a bond or corporate undertaking. Docket No. 100062-OT.

SUMMARY: Rule 25-22.061, F.A.C., Stay Pending Judicial Review, is amended to delete provisions concerning automatic stays pending judicial review granted to public entities filing a notice of appeal in administrative actions under Chapter 120, F.S. The amendments state the factors which the Commission may consider in determining whether to grant a stay and under what conditions the Commission may condition a stay, list the factors that the Commission may consider in setting an interest rate when granting a stay conditioned upon the posting of a bond or corporate undertaking, and clarify that motions for stay shall be heard by those Commissioners who were on the deciding panel for the order being appealed.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The rule amendments would benefit the Commission by updating, clarifying and streamlining rule language; utilities would benefit from the rule becoming more accurate and specific concerning the granting of stays of orders pending judicial review; the changes would not result in any transactional costs to utilities, customers, small businesses, the Commission, or local governments.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NOS.:	RULE TITLES:
62-550.310	Primary Drinking Water Standards: Maximum Contaminant Levels and Maximum Residual Disinfectant Levels
62-550.500	General Monitoring and Compliance Measurement Requirements for Contaminants and Disinfectant Residuals

PURPOSE, EFFECT AND SUMMARY: The Department is adopting the federal Stage 2 Disinfectants and Disinfection Byproducts Rule (Stage 2 D/DBPR) that is incorporated in the federal regulations in the July 1, 2009, edition of 40 CFR 141. There were errors in the notice that was published in the Florida Administrative Weekly on March 12, 2009, in the three tables incorporated into the two above-listed rules. These two rules are being withdrawn and that notice is published concurrent with this notice. The remaining rules that were noticed on March 12, 2009, are part of the Department’s adoption of the federal Stage 2 Disinfectants and Disinfection Byproducts Rule. Specifically, Rule 62-550.310, F.A.C., is being amended to expand the applicability of the chlorine and chloramine maximum residual disinfectant levels (MRDLs) in accordance with the Stage 2 D/DBPR; to clarify that the Stage 1 D/DBPR MCLs for total trihalomethanes (TTHM) and haloacetic acids five (HAA5) apply until the date specified for compliance with the Stage 2 D/DBPR MCLs for TTHM and HAA5; and to specify the Stage 2 D/DBPR MCLs for TTHM and HAA5, the water systems to which these MCLs apply, and the effective dates for these MCLs. Rule 62-550.500, F.A.C., is being amended to clarify that the monitoring and compliance measurement requirements in the Stage 2 D/DBPR take precedence over the general monitoring and compliance measurement requirements in Rule 62-550.500, F.A.C.

(1) No change.

(2) DISINFECTANT RESIDUALS – ~~Except for the chlorine dioxide maximum residual disinfectant level, which applies to all public water systems using chlorine dioxide as a disinfectant or oxidant, this subsection applies only to community or non-transient non-community water systems adding a chemical disinfectant to the water in any part of the drinking water treatment process.~~ Maximum residual disinfectant levels (MRDLs) are listed in Table 2, which is incorporated herein and appears at the end of this chapter. These MRDLs apply to the public water systems referenced below.

(a) The chlorine dioxide MRDL applies to all public water systems that add chlorine dioxide as a disinfectant or oxidant.

(b) The chlorine and chloramine MRDLs apply to all community or non-transient non-community water systems that add chlorine or chloramines to the water in any part of the drinking water treatment process.

(c) Effective [insert the effective date of these rule amendments], the chlorine and chloramine MRDLs apply to all consecutive community or consecutive non-transient

non-community water systems that do not add chlorine or chloramines but deliver water that has been treated with chlorine or chloramines.

(3) DISINFECTION BYPRODUCTS – ~~This subsection applies to all community or non-transient non-community water systems adding a chemical disinfectant to the water in any part of the drinking water treatment process. The Stage 1 maximum contaminant levels (MCLs) for disinfection byproducts. The disinfection byproduct maximum contaminant levels (MCLs) are listed in Table 3, which is incorporated herein and appears at the end of this chapter. These MCLs apply to the public water systems referenced below.~~

(a) The bromate MCL applies to community or non-transient non-community water systems that add ozone.

(b) The chlorite MCL applies to community or non-transient non-community water systems that add chlorine dioxide.

(c) The Stage 1 total trihalomethanes (TTHM) and haloacetic acids five (HAA5) MCLs apply to community or non-transient non-community water systems that add a chemical disinfectant to the water in any part of the drinking water treatment process. These Stage 1 MCLs apply until the appropriate date specified for Stage 2 compliance in paragraph (d) below.

(d) The Stage 2 TTHM and HAA5 MCLs apply to community or non-transient non-community water systems that use a primary or residual disinfectant other than ultraviolet light or deliver water that has been treated with a primary or residual disinfectant other than ultraviolet light. These Stage 2 MCLs apply beginning on the dates shown in the table below.

 HAA5 = haloacetic acids (five); TTHM = total trihalomethanes;
 MCL = maximum contaminant level; TWSSs = transient non-community water systems;
 UV = ultraviolet;
 MG/L = milligrams per liter; VOC = volatile organic contaminant
 NTCWSs = non-transient non-community water systems;
 pCi/L = picocuries per liter

NOTE 1: Systems susceptible to asbestos contamination due solely to corrosion of asbestos-cement pipe shall sample at a tap served by asbestos-cement pipe and under conditions where asbestos contamination is most likely to occur. Systems susceptible to asbestos contamination due solely to source water shall monitor at every entry point to the distribution system during normal operating conditions. Systems susceptible to asbestos contamination due to both source water and corrosion of asbestos-cement pipe shall sample at a tap served by asbestos-cement pipe and under conditions where asbestos contamination is most likely to occur.

NOTE 2: Systems shall measure the residual disinfectant level at the same locations in the distribution system where, and at the same time when, total coliforms are sampled.

NOTE 3: Systems shall take routine daily samples at the entrance to the distribution system. Systems shall take additional three-sample sets in the distribution system at the following locations:

(a) If chloramines are used to maintain a disinfectant residual in the distribution system, or if chlorine is used to maintain a disinfectant residual in the distribution system and there are no disinfectant addition ~~disinfection~~ points after the entrance to the distribution system (i.e., no booster chlorination), the system shall take three samples as close to the first customer as possible at intervals of at least six hours.

(b) If chlorine is used to maintain a disinfectant residual in the distribution system and there are one or more disinfectant addition points after the entrance to the distribution system (i.e., booster chlorination), the system shall take one sample at each of the following locations: as close to the first customer as possible, in a location representative of average residence time, and as close to the end of the distribution system as possible.

NOTE 4: Systems taking one sample shall take the sample at a location reflecting maximum residence time in the distribution system. Systems taking more than one sample shall take at least 25% of the samples at locations representing maximum residence time of the water in the distribution system and shall take the remaining samples at locations representing at least average residence time in the distribution system and representing the entire distribution system, taking into account number of persons served, different sources of water, and different treatment methods.

NOTE 5: Systems shall take routine daily samples at the entrance to the distribution system. Systems shall take routine monthly or additional three-set samples in the distribution system; each three-set sample shall consist of one sample at

each of the following locations: a location as close to the first customer as possible, a location representative of average residence time, and a location reflecting maximum residence time in the distribution system.

NOTE 6: For initial base point monitoring, systems shall take four consecutive quarterly samples during the first three-year compliance period. If a system does not detect any VOC, it shall take one sample annually beginning with the next three-year compliance period.

NOTE 7: During the first quarter of initial base point monitoring, GWSs systems shall take a minimum of one sample that is representative of each well. Under all other circumstances, systems shall sample at every entry point to the distribution system during normal operating conditions.

NOTE 8: The minimum number of samples shall be as set forth in subsection 62-550.518(2), F.A.C.

NOTE 9: Systems shall conduct repeat monitoring in accordance with subsection 62-550.518(7), F.A.C., and systems that routinely collect fewer than five samples per month shall collect at least five samples during the next month the system provides water to the public.

NOTE 10: The Department shall waive the final two quarters of initial monitoring for a sampling point if the results of the samples from the previous two quarters are below the regulatory detection limit. Additionally, under the conditions described in paragraph 62-550.519(1)(c), F.A.C., historical data may be used to satisfy initial monitoring requirements. ~~Systems shall take one sample quarterly if an MCL is exceeded.~~

NOTE 11: Quarterly monitoring for gross beta shall be based on the analysis of monthly samples or the analysis of a composite of three monthly samples. For iodine-131, a composite of five consecutive daily samples shall be analyzed once each quarter. Annual monitoring for tritium and strontium-90 shall be conducted by means of the analysis of a composite of four consecutive quarterly samples or analysis of four quarterly samples.

64B5-2.013 Dental Examination Requirements and Grading.

(1)(a) through (d) No change.

(2) No change.

(a) The Written Examination for dental licensure shall consist of the laws and rules of the State of Florida regulating the practice of dentistry and dental hygiene. The written examination is administered via computer-based platform.

(b) No change.

(c) Applicants will be given no more than 90 minutes to complete the written examination.

(3) No change.

(a) No change.

(b) Every candidate who is scheduled to take the entire practical or clinical examination or who is scheduled to retake any part of the practical or clinical examination which involves the use of a live patient must secure liability insurance coverage in amounts determined by the board. This protection is for injuries or harm which may be sustained or may be claimed to have been sustained by a dental patient in the course of the examination. Each candidate must present proof of such coverage to the credentials committee before he or she will be allowed to perform any procedures on a live patient. Neither the board nor the department shall be held liable for any claim, suits, judgments, or damages, consequent or otherwise and including attorney's fees and costs arising out of any actual or claimed injuries or harm alleged by dental patients during the course of the examination.

(c) 1. through 2. No change.

3. Demonstration of Endodontic Skills on Specified Teeth (simulated tooth).

4. No change.

(d) No change.

1. Class II Amalgam and Class III Composite on Patient. This part of the Practical or Clinical Examination shall consist of a preparation procedure and a restoration procedure. The tooth selected for the Class II Amalgam restoration must be a permanent posterior tooth with at least one proximal primary carious lesion which shows no sign of previous excavation and radiographically extends at least to the DEJ at the contact point. The tooth selected for the Class III composite restoration must be a permanent anterior tooth with at least one proximal primary carious lesion which shows no signs of previous excavation and radiographically extends at least to the DEJ. The following areas will be assessed in determining a grade for each procedure:

a. through b. No change.

2. through 4. No change.

(e) The grading system used during the Practical or Clinical Examination is as follows:

The quality of a candidate’s work on the four parts of the Clinical or Practical Examination is graded in accordance with a detailed analytic scoring guide and specific scoring criteria for each component of each task. The examiners use four competency levels to rate clinical skills on the four parts of the Clinical or Practical Examination:

Mandatory 0 – Complete failure and critically deficient
Marginally Substandard – Below minimal acceptable dental treatment

Minimally Acceptable – Minimal acceptable dental treatment

Satisfactory – Optimal dental treatment

Three examiners independently evaluate all rated treatment criteria for each part of the Clinical or Practical Examination and the median competency level in each category (criteria) is determined. These median competency levels are translated into a numerical score. Candidates must earn at least 75% of the maximum possible raw score on each part to pass that part.

Critical errors (Mandatory 0) are given special consideration. Critical errors are errors of commission or omission that would be serious enough to endanger a patient’s oral or general health, or could lead to patient injury or may jeopardize the overall treatment of the patient. A corroborated critical error, such as perforation while preparing an access opening for an endodontic procedure will result in failure of the Endodontic part of the Clinical or Practical Examination even though other rated treatment criteria for the Endodontic part are acceptably completed. When in the judgment of two examiners the applicant’s performance on any grading criteria is deemed critically deficient, the applicant will be awarded a zero (0) on that part of the examination and the examination may be terminated by the assistant examination supervisor.

A candidate’s score on a part of the Clinical or Practical Examination may also be affected by certain conduct or errors that warrant a penalty deduction from the total score on that part. An example of a penalty deduction on a part is the loss of all points if two treatment selections for either the Amalgam or the Composite procedure are not acceptable or a second treatment selection is not presented if the first treatment selection is rejected.

(f) through (j) No change.

(4) No change.

(a) The Diagnostic Skills Examination shall be an objective type of examination, demonstrating ability to diagnose conditions within the human oral cavity and its adjacent tissues and structures from photographs, slides, radiographs, or models. The Diagnostic Skills Examination may include, but not be limited to the following: medical considerations, periodontics, and prosthetics including the viewing and evaluation of digitalized photographs of exhibits of complete, fixed, partial and removable partial prosthetics. Exhibits may include, but not be limited to, impressions, denture set-ups, study models, master casts, wax rims, partial

denture frameworks, bite registrations, crowns, bridges, crown and bridge dies and preparations, and radiographs. The Diagnostic Skills Examination should assess the examinee’s abilities to recognize critical clinical conditions or situations encountered regularly in the general practice of dentistry and to formulate appropriate treatment options. The Diagnostic Skills Examination is administered via computer-based testing platform.

(b) through (c) No change.

THE FULL TEXT OF THE PROPOSED RULE IS:

65A-1.205 Eligibility Determination Process.

(1) The individual completes a Department application for assistance to the best of the individual's ability using either the ACCESS Florida Application, CF-ES 2337, 03/2010 ~~01/2008~~, incorporated by reference ~~in Rule 65A-1.400, F.A.C.~~, or an ACCESS Florida Web Application (only accepted electronically), CF-ES 2353, 03/2008, incorporated by reference in Rule 65A-1.400, F.A.C., and submits it. An application must include at least the individual's name, address and signature to initiate the application process. An eligibility specialist determines the eligibility of each household member for public assistance. An applicant ~~can~~ ~~may~~ withdraw the application at any time without affecting their right to reapply at any time.

(a) The Department must determine an applicant's eligibility initially at application and if the applicant is determined eligible, at periodic intervals thereafter. It is the applicant's responsibility to keep appointments with the eligibility specialist and furnish information, documentation and verification needed to establish eligibility. If the Department schedules a telephonic appointment, it is the Department's responsibility to be available to answer the applicant's phone call at the appointed time. If the information, documentation or verification is difficult for the applicant to obtain, the eligibility specialist must provide assistance in obtaining it when requested or when it appears necessary.

(b) Time standards for processing applications vary by public assistance program in accordance with 7 C.F.R. §273.2(g), 45 C.F.R. §206.10(a)(3)(i) and 42 C.F.R. §435.911. For Food Stamp and Cash Assistance ~~P~~programs, time standards begin the date following the date the application was filed and end on the date the Department makes benefits available or mails a notice concerning eligibility. For the Medicaid Program, the time standard ends on the date the Department mails an eligibility notice. The Department must process and determine eligibility within the following time frames:

Program:	Application Processing Time Standards:
Expedited Food Stamps	7 days
Food Stamps	30 days
Temporary Cash Assistance, Refugee Assistance and Child In Care Medical Assistance and State Funded Programs for individuals who apply on the basis of disability	45 days
For all other Medical Assistance and State Funded Programs for applicants on the basis of non-disability eligibility, including OSS, QMB, SLMB, and QI1	90 days
	45 days

All days counted after the date of application are calendar days. Applicant delay days do not count in determining compliance with the time standard. The Department uses information provided on the Screening for Expedited Medicaid Appointments form, CF-ES 2930, ~~Screening for Expedited Medicaid Appointments~~, 04/2007, incorporated by reference, ~~in Rule 65A-1.400, F.A.C.~~ to expedite processing of Medicaid disability-related applications.

(c) If the eligibility specialist determines during ~~at~~ the interview or at any time during the application process that the applicant must provide additional information or verification, or that a member of the assistance group must comply with Child Support Enforcement or register for employment services, the eligibility specialist must give the applicant written notice allowing ten calendar days from request or the interview to furnish the requested information or to comply ~~with the verification or employment registration requirement(s)~~. For all programs, verifications are due ten calendar days from the date of written request or the interview, or 30 days from the date of application, whichever is later. In cases where the applicant must provide medical information, the return due date is 30 calendar days following the written request or the interview, or 30 days from the date of application, whichever is later. If the due date falls on a holiday or weekend, the deadline is the next working day. ~~If the verification or information is difficult for the person to obtain, the eligibility specialist must provide assistance in obtaining the verification or information when requested or when it appears necessary.~~ If the applicant does not provide required verifications or information, ~~as applicable~~, by the deadline date, the application will be denied, unless the applicant

requests an extension or there are extenuating circumstances justifying an additional extension. The eligibility specialist makes the decision of whether to grant the request for extension. When the applicant provides all required information or verification, ~~as applicable~~, the eligibility specialist determines eligibility for the public assistance programs. If the eligibility criteria are met, benefits are authorized.

(d) In accordance with 42 C.F.R. §435.911, unusual circumstances that might affect the timely processing of Medicaid applications include applicant delay, physician delay and emergency delay as defined below. Unusual circumstances are non-agency processing delays, and the calendar time passing during such delay(s) does not count as part of the 90-day time standard for determining the timeliness of Medicaid eligibility decisions based on disability.

1. Applicant delay is the time attributed to the applicant who ~~does not fails to~~ keep any scheduled appointment or ~~to~~ provide requested and required eligibility information or verification. Applicant delay begins the date the applicant does not keep a Department scheduled appointment with either the Department or health professionals and ends the date the applicant keeps that appointment as rescheduled; or, the date the applicant does not ~~provide bring~~ requested and required information ~~for to~~ the initial interview and ends the date the applicant provides the information to the Department. The "Are You Disabled and Applying for Medicaid?" brochure, CF/PI 165-107, 06/2008, incorporated by reference, describes requested and required information for eligibility determination.

2. through 3. No change.

~~upon which the applicant/recipient and eligibility specialist mutually agree.~~ The applicant/recipient or their authorized/designated representative must keep the interview appointment or make arrangements with the eligibility specialist prior to the appointment time to reschedule the missed appointment, if necessary.

(4) If an applicant or recipient ~~does not fails to~~ keep an appointment without arranging another time with the eligibility specialist; ~~or does not fails or refuses to~~ sign and date the applications described in subsection (1); ~~fails or refuses to submit a periodic report;~~ or ~~does not fails or refuses to~~ submit required documentation or verification the Department will deny benefits as it cannot establish eligibility.

(5) The Department can may substantiate, verify or document information provided by the applicant/recipient as part of each determination of eligibility. For any program, when there is a question about the validity of the information provided, the Department will ask for additional documentation or verification as required. The term verification is used generically to represent this process.

 RULE TITLE: Visual Services

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 36, No. 5, February 5, 2010 issue of the Florida Administrative Weekly.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The Agency has determined that this rule will have an impact on small business. A SERC has been prepared by the Agency. Changes mandated by the 2009

Florida Legislature resulted in reductions to visual services to adults. Enrolled visual services providers, and recipients ages 21 and older requiring medically necessary eyeglass frames and lenses will be affected by the rule. It is estimated there will be no cost to the Agency, and no transactional costs are likely to be incurred by individuals and local government entities. The impact on small business will be a result of the reduction in services for businesses enrolled as Visual Services providers that provide services to adult recipients.

DEPARTMENT OF LAW ENFORCEMENT

NOTICE IS HEREBY GIVEN THAT on March 12, 2010, the Criminal Justice Standards and Training Commission, received a petition for a temporary waiver of paragraph 11B-21.005(8)(a), F.A.C., from Director William Wall and the Sarasota Criminal Justice Academy. The Petitioner wishes to waive that requirement of rule which mandates that training schools operate on a 12-month calendar for all full-time instructional positions. The Petitioner operates under the umbrella of the Sarasota County Technical Institute. The Institute has made budget cuts in compliance with the reduction of workforce education training monies. budget cuts require the various components of the Institute to reduce their instructional staff from 12-month to 11-month contracts. Petitioner states that it has no option but to comply. Petitioner, therefore, requests that the Commission waive that portion of paragraph 11B-21.005(8)(a), F.A.C., which requires training school instructional staff to operate on 12-month, full-time contracts.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 323202, (850)410-7676.

NOTICE IS HEREBY GIVEN THAT on March 9, 2010, the Board of Pharmacy has issued an order.

The Order is on the Petition for Variance or Waiver filed on November 10, 2009, by Vivekanand Y. Aher. Petitioner was seeking a variance or waiver of Rule 64B16-26.2031, Florida Administrative Code, entitled "Licensure by Examination; Foreign Pharmacy Graduates." The Notice of Petition published on December 24, 2009, in Vol. 35, No. 51, of the Florida Administrative Weekly.

The Board of Pharmacy considered the Petition at a duly-noticed public telephonic meeting held on January 19, 2010. The Board's Order denied the petition finding that Petitioner had failed to establish that the purpose of the underlying statute, Section 465.007, Florida Statutes, would be met by granting a variance or waiver from Rule 64B16-26.2031, F.A.C. The Board further finds that the Petitioner had not established that applying the requirements of the aforementioned rule to Petitioner's circumstances would violate principles of fairness and impose substantial hardship.

A copy of the Order may be obtained by contacting: Rebecca Poston, R.Ph., Executive Director, Board of Pharmacy, 4052 Bald Cypress Way, Bin #C04, Tallahassee, Florida 32399-3254.

NOTICE IS HEREBY GIVEN THAT the Department of Financial Services, Division of State Fire Marshal, has received the petition for declaratory statement from Eric A. Neilinger, Petitioner. The petition seeks the agency's opinion as to the applicability of Florida Fire Prevention Code 2007 edition NFPA 1 section 1.10.9.1, as it applies to the petitioner.

Miami Dade county fire appeal board excludes licensed fire alarm contractors from appealing rejections of plans or installation. Pursuant to their submittal for appeal the following is extracted from their process: It is required that the application be filed by the owners of the property which is the subject of the application, the owner or attorney must be present at the hearing. This is in direct conflict with the FFPC, not allowing due process for all effected people. As a licensed fire alarm contractor, we design and build systems based on code requirements. It is our responsibility to the owners to install a code compliant system. When AHJs ask for more than the code required that is clearly documented, we must be able to have an avenue to appeal this process without having to go directly to the state. State Fire Marshal requires a local appeal process to be used prior to appealing to the state Fire Marshal office. Question: Can the local Fire Appeals board exclude other affected parties from the local appeal process, and can the locally affected party, in this case a licensed fire alarm contractor bypass the local board and submit the state for a declaratory statement.

A copy of the Petition for Declaratory Statement may be obtained by contacting: Lesley Mendelson, Assistant General Counsel, 200 East Gaines Street, Tallahassee, Florida 32399-0340, (850)413-3604 or (850)413-4238; Fax: (850)922-1235 or (850)488-0697 (please advise if you would like it mailed or faxed to you and please include your phone number on your request in case any question arises), or by e-mail: Lesley.Mendelson@myfloridacfo.com.

A copy of the Petition for Declaratory Statement may be obtained by contacting: Regina Keenan, Division of Legal Services, Department of Financial Services, 200 East Gaines Street, Tallahassee, Florida 32399-0333, (850)413-4236.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notices for the Department of Environmental Protection between December 28, 2001 and June 30, 2006, go to <http://www.dep.state.fl.us/> under the link or button titled "Official Notices."

On March 12, 2010 the Department of Environmental Protection received a determination from DeSoto County that the Florida Power & Light, DeSoto Solar Energy Center Siting Application No.: PA10-56, OGC Case No.: 10-0797, DOAH Case No.: 10-0543EPP, is consistent with existing local land use plans and zoning ordinances in DeSoto County pursuant to the Florida Electrical Power Plant Siting Act, Section 403.50665, F.S. A copy of the determination of compliance is available for review in the office of: Michael P. Halpin, P.E., Siting Coordination Office, Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #48, Tallahassee, Florida 32399-3000, (850)245-2002. Pursuant to Section 403.50665(4), F.S., if any substantially affected person wishes to dispute DeSoto County's determination that the proposed DeSoto Solar Energy Center Project is consistent with DeSoto County's existing land use plans and zoning ordinances, he or she must file a petition with the Department within 21 days after the publication of notice of the local government's determination. If a hearing is requested, the provisions of Section 403.508(1), F.S., shall apply. Should a land use hearing be held, the notice of land use hearing will be published as per the provisions of Section 403.5115, F.S. Pursuant to Section 403.508(1), F.S., the sole issue for determination at a land use hearing shall be whether or not the proposed site is consistent and in compliance with existing

land use plans and zoning ordinances. If the administrative law judge concludes that the proposed site is not consistent or in compliance with existing land use plans and zoning ordinances, the administrative law judge shall receive at the hearing evidence on, and address in the recommended order, any changes to or approvals or variances under the applicable land use plans or zoning ordinances which will render the proposed site consistent and in compliance with the local land use plans and zoning ordinances. A person whose substantial interests are affected by the proposed determination of consistency may petition for an administrative hearing in accordance with Section 403.5066(4), F.S. The petition must be filed with the: Department's Agency Clerk, Office of General Counsel, Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, (850)245-2241, Fax: (850)245-2303. The petition should contain: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the determination; (c) A statement of how and when each petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact; if there are none, the petitioner shall so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the proposed action; and (g) A statement of the relief sought by the petitioner. A petition that does not dispute the material facts shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, Florida Administrative Code.

The Department of Environmental Protection has determined that Mulberry's proposed wastewater management facilities will not have a significant adverse impact on the environment.

The total project cost is estimated at \$4,800,000. The project is expected to qualify for a State Revolving Fund loan composed of federal and state matching funds.

A full copy of the Florida Categorical Exclusion Notice can be obtained by writing: Bryan Goff, Bureau of Water Facilities Funding, Department of Environmental Protection, 2600 Blair Stone Road, MS #3505, Tallahassee, Florida 32399-2400 or by calling (850)245-8358.
