NOTICE TO PROFESSIONAL CONSULTANTS

University of South Florida Polytechnic announces that Professional Services in the discipline of Campus Area Development, Infrastructure Engineering and Landscape Architecture will be required for the project listed below:

PROJECT NUMBER: 554

PROJECT AND LOCATION: USF Polytechnic – Campus Infrastructure, University of South Florida Polytechnic, Lakeland, Florida.

PROJECT DESCRIPTION:

The interdisciplinary USF Polytechnic – Campus Infrastructure includes development of the new 171 acre campus pending adoption of the 2010 Master Plan Update and will primarily provide the settings and backbone for multi-user interdisciplinary shared core facilities. The plan includes four miles of roadway, five miles of pedestrian pathway, five acres of parking, three acres of plazas, and a thirty eight acre water feature. Utilities include: sanitary sewer, storm water, potable water, chilled water, hot water, electrical power, site lighting, information technology,

Polytechnic ideals are strongly oriented toward interdisciplinary, collaborative relationships – between faculty members, support staff, student support, and others. The concept of a commons is strongly evocative of these interactions; the co-location and interweaving of faculty members across disciplines, for example, encourages and facilitates the dynamic exchange of ideas so critical for interdisciplinary efforts. The close physical proximity of faculty, staff and students creates a collection of “critical masses,” providing constant opportunities for productive interaction.

The Campus Infrastructure is the realization of a multi-phased Master Plan which creates an integrated, fully-engaged university campus environment at a highly visible location on Interstate 4 midway along the 80 miles between the Tampa Bay and Orlando megalopolis areas. In addition to serving the needs of its tri-county service area, this university is intended to be a destination campus with a vibrant residential and campus life component. Given this location, the USF Polytechnic seeks to implement the iconic design for the development area.

The construction budget is estimated to be approximately \$27M including site development, infrastructure and landscape. Project development, including professional services, is contingent upon availability of funds. The project may require design in a phased approach to accommodate funding stream. When additional funding is realized, the USF Polytechnic has the option to incorporate additional scope/funding under this contract including completion of pedestrian/safety bridges. The construction delivery method will be Construction Management.

The selected firm should provide planning, design, construction documents, construction administration and warranty services for the project in coordination with the 2010 USF Polytechnic Campus 10 Year Master Plan Update and USF standards for design and construction. USF Polytechnic is seeking to secure the services of a consultant team with extensive experience in innovative campus area development design. All disciplines required for the design should be provided for this project under the contract with the selected firms; including campus area development, infrastructure, engineering, landscape architecture and any specialty

consultants. Consultant services for design expertise unique to the innovative needs of a polytechnic interdisciplinary teaching and research environment may be provided by specialty design consultants with a preference for inclusion of signature campus area designers. Firm submittals should include descriptions of experience and knowledge of Sustainable Design and Hurricane Hardening. The design and construction administration services provided by the selected team shall facilitate the project needs, and accomplish those needs within the mandatory project schedule in order to meet occupancy requirements for the first buildings. The selected firm will be required to provide computer drawings according to the standards of the University of South Florida, including computer record drawings reflecting as-built conditions to facilitate the University's space management program. Blanket professional liability insurance will be required for this project in the amount of \$3,000,000, and will be provided as a part of Basic Services. It is the University's responsibility to negotiate a fair, competitive, and reasonable compensation per Section 287.055, F.S. A fair, competitive and reasonable compensation shall be evaluated based upon the following information: (1) Compensation on similar projects; (2) other compensation reference data; and (3) after approval of the ranking, proposals requested from the short-listed firms based upon a scope of services document to be provided at the time of negotiations. Selection of finalists for interview will be made on the basis of professional qualifications of the proposed design team, including experience and ability to meet the project requirements and the goals and objectives of USF Polytechnic's Strategic Plan; past experience; award-winning design ability, especially in developing iconic and/or signature facilities; volume of work; and distance from project. The distance factor for this project will provide a maximum of one point difference in scoring for location between in-state and out-of-state applicants. As part of the University of South Florida's Strategic Plan, the university made a commitment to foster a diverse community distinguished by a shared purpose, collaboration, open and timely communication, mutual respect, trust, and inclusiveness. The University of South Florida is an equal opportunity institution, and, as such, strongly encourages the lawful use of certified Minority and Women-owned Business Enterprises ("MBEs") in the provision of design and construction-related services by providing a fair and equal opportunity to compete for, or for participation in, design and/or construction-related services. The plans and specifications for the University of South Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes. As required by Section 287.133, Florida Statutes, a consultant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected consultant should warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or

consultant in excess of \$25,000 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

INSTRUCTIONS:

Firms desiring to apply to provide professional services shall submit one (1) original submittal and eight (8) bound copies consisting of the information as required in the "Submittal Requirements" of the Project Fact Sheet including a letter of interest, a completed "USF Professional Qualifications Supplement (PQS)" dated August 2008 for the USF Polytechnic – Campus Infrastructure and any required or additional information within the proposal limits. ORLANDO-ORANGE COUNTY EXPRESSWAY AUTHORITY

LETTER OF INTEREST CONSTRUCTION
 MANAGEMENT CONSULTANT SERVICES 000700
 NOTICE TO PROFESSIONAL CONSULTANTS
 ORLANDO-ORANGE COUNTY EXPRESSWAY
 AUTHORITY
 REQUEST FOR LETTERS OF INTEREST
 CONSTRUCTION MANAGEMENT CONSULTANT
 SERVICES
 CONTRACT NO. 000700

The Orlando-Orange County Expressway Authority (Authority) requires a Construction Management Consultant (CMC) to provide the services associated with the construction of major roadway and bridge construction projects along S.R. 408, S.R. 417, S.R. 414, S.R. 429 and S.R. 528. Consideration will be given to only those firms who are qualified pursuant to law and who have been prequalified by FDOT to perform the indicated Types of Work.

TYPES OF WORK: Group 11, Engineering Contract Administration and Management.

DESCRIPTION: The CMC will assist staff with providing oversight, management and independent assurance of the services provided by Construction Engineering and Inspection (CEI) consultant hired by the Authority for each project or group of projects. Those services and the CMC’s responsibilities related to each include, but are not necessarily limited to:

1. Construction Contract Administration
 The CMC will review and further develop the Authority’s Construction Contract Administration Procedure, including the Construction Contract Administration Guide, for use and implementation by each CEI.
2. Geotechnical and Materials
 The CMC will monitor the effectiveness and documentation of the CEI’s verification testing procedures and contractor’s adherence to their Quality Control Plan including suitability and conformance with the contract. The CMC will also provide referee sampling and testing.
3. Cost and Scheduling
 The CMC will evaluate costs and maintain current specifications and scheduling information. The CMC will review estimates and invoices submitted by the CEI and make recommendations to the Authority.
4. Utility/Environmental Coordination
 The CMC will act as liaison between environmental permitting agencies and the Authority, the GEC, the Engineer of Record, the CEI and the Construction

Contractors; provide oversight and make recommendations, as necessary, to the Authority and CEI for utility relocation construction; provide support to the CEI for the investigation, handling and disposal of hazardous materials.

5. Claims/Disputes Evaluation and Resolution

The CMC will verify that each CEI is familiar with the Authority's Claims/Disputes Resolution Procedure included in the Construction Contract for individual projects; participate as and when requested by the Authority in the Disputes Resolution Process and in any arbitration proceedings arising from unresolved disputes.

6. Independent Assurance of Required Quality Control Procedures

The CMC will provide independent assurance that the CEI's quality assurance procedures are implemented and properly applied; verify CEI enforcement of quality control procedures when required quality is not being met by the Construction Contractor. The CMC will review contract amendments to contracts with consultants and contractors.

7. Plans Constructability Review

The CMC will review construction phasing, maintenance of traffic, detour sequencing, equipment clearances, appropriate dimensions and tolerances for projects requested by the Authority.

8. Minor Project Scoping and Document Preparation

The CMC will assist staff in the identification of minor projects required to fulfill the obligations of the Authority or when required to augment larger projects to meet the intended functionality of the completed system. Work will include preparing a detailed description of the work, preparing sketches required to depict and quantify the work, identifying the units of measure and computation of quantities that identify the work, prepare cost estimates, and hold scope meetings with perspective bidders.

LETTERS OF INTEREST SUBMITTAL REQUIREMENTS AND EVALUATION: Consultants wishing to be considered shall submit six (6) sets of a Letter of Interest package and one (1) digital copy of the entire package in "pdf" format. The letter shall be a maximum of ten (10) pages exclusive of attachments and resumes and shall be divided as follows:

Section 1. Similar Project Experience: Provide CEI and/or CMC project experience on no more than three current/completed projects within the past 5 years. Indicate project name, location, services provided and accurate reference names with phone numbers. All references may be checked.

Section 2. Project Approach: Provide a narrative describing the firm's approach to delivering the CMC services. In addition to the narrative, provide a proposed project organization chart including subconsultant personnel; a matrix summarizing proposed personnel experience on similar projects including registrations/certifications; detailed resumes identifying relevant experience on similar projects. Resumes shall include no more than three client/owner references for all proposed personnel for the past 5 years and availability date for each individual.

Section 3. Prequalification Documentation: Provide copies of FDOT certifications in the work groups identified above and Florida Department of Professional Regulation registration for prime consultant and subconsultants.

Section 4. Current and Projected Workload: Indicate ability of staff proposed for assignment and indicate, as a percentage, the current/projected workload of current staff. Indicate the total number of firm's professional, technical and administrative personnel by discipline, location and office responsible for administering the contract.

Section 5. Project Team – Identify anticipated subconsultants and the roles that each will play in providing the required services. Resumes should be provided for subconsultants that may be involved in key roles;

Section 6. Office Location – The office assigned responsibility and its physical address shall be identified. It is required that the consultant have or establish an office and key staff located within the Orlando area which includes Orange, Seminole, Lake and Osceola counties.

Failure to submit any of the above required information may be cause for rejection of the package as non-responsive.

The Authority's Evaluation Committee will evaluate and score the Letters of Interest and qualifications information received. Scoring of the submittals will be as follows: Similar Project Experience – 25 points; Project Approach – 30 points; Prequalification Documentation – 10 points; Project Team – 25 points; Office Location – 10 points.

As part of its evaluation process, the Committee will also consider the consultant's willingness to meet time requirements, consultant's projected workload, and consultant's use of Minority/Women Owned Businesses.

CODE OF ETHICS: All consultants selected to work with the Authority are required to comply with the Authority's Code of Ethics, a copy of which may be viewed on the Authority's web site at www.ocea.com.

CONFLICT OF INTEREST: If selected, the consultant, during the term of its agreement with the Authority, will not be eligible to pursue any advertised construction engineering and inspection projects for the Authority as either a prime or subconsultant. Additionally, consultants who are the Engineer

CANAVERAL PORT AUTHORITY

PROFESSIONAL SERVICES NOTICE-CONSULTING SERVICES FOR BUILDING OFFICIAL/INSPECTOR (#RFQ-10-004)

The CANAVERAL PORT AUTHORITY (CPA) is requesting technical proposals and qualifications from consulting firms interested in providing CONSULTING SERVICES FOR BUILDING OFFICIAL/INSPECTOR on a continuing basis. These services will be acquired in compliance with the Consultants Competitive Negotiation Act, Section 287.055, Florida Statutes.

SCOPE OF WORK

Canaveral Port Authority is seeking qualified professional firms for Building Official/Inspector services to provide structural plan check, plumbing plan check, electrical plan check, calculation of system development charges, coordination of building functions with planning/code enforcement, and all building, plumbing, mechanical, electrical, sewer, and water inspection services, including the annual inspection of all buildings located on port property. The consultant will also be expected to ensure that building occurs in compliance with final orders and review code enforcement and affirmative maintenance issues as they arise. Meeting attendance by a representative of the consultant may be required at Tenant and/or CPA construction projects as needed. The consultant shall provide the following fully-qualified staff, on an on-call basis, within 24 hours of a written, authorized request, to support the operations of the Canaveral Port Authority Tenant Relations Department:

- a. Certified Building Official
- b. Plans Examiner (certified in Building, Fire, Mechanical, Plumbing, Fuel, Gas & Electrical Codes, Florida Building Code 2007 edition with supplements, and Accessibility Code ICC/ANSI 2003 Edition)
- c. Commercial Building Inspector
- d. Commercial Electrical Inspector
- e. Commercial Plumbing Inspector
- f. Commercial Mechanical Inspector

The Building Official shall work under the general supervision and direction of the Deputy Executive Director Chief Engineer or such other person as may be designated by the Chief Engineer. Inspection and plan review personnel shall work

under the direct supervision of the Building Official. Functioning as the Port Canaveral Building Official, the consultant shall execute duties in accordance with all applicable State and local laws, regulations and ordinances; and shall maintain records as such.

The consultant may provide additional plan review services, as requested by the Port and shall be responsible for supplying staff with codebooks and other basic professional references.

The consultant's personnel shall perform the services as an independent contractor, and shall not be employee's of the Port. Professional and personal conduct of contract staff on duty within the Port shall conform to the Port's standards of employee performance and conduct.

The consultant shall provide the inspection staff with all of the tools and equipment required to properly conduct inspection of building construction sites for compliance with the applicable building, electrical, gas, plumbing and mechanical codes.

It is the responsibility of the consultant to ensure that inspection staff has the safety devices and clothing required to meet OSHA requirements. The Port may not accept staff not so equipped.

All contract staff shall be certified in their respective expertise and profession by the State of Florida.

MINIMUM CRITERIA

As a pre-requisite for consideration for this contract, respective firms shall possess the following:

- a. At least 5 years of experience on projects described in the Scope of Services;
- b. Evidence of professional certification and registration by the State of Florida (in all disciplines as listed above);
- c. Professional liability insurance in the amount of \$1,000,000; and
- d. An office within reasonable proximity to the Port with adequate staff to address Port response times.

PROPOSAL CONTENT

Each responding firm shall provide six (6) copies of their proposal and one (1) CD (containing complete proposal in pdf format), giving detailed information on the following:

- 1. Firm history, location, capabilities, areas of expertise (including port experience) etc.
- 2. GSA Standard Form 330 or equivalent;
- 3. Previous experience with providing similar services in the recent past. Include a brief description of the work and individuals to be contacted with telephone numbers.
- 4. A list of services which would not be performed in-house and a list of sub-consultants which would provide services for the firm.

- 5. A schedule of current commitments and the degree of completion of each.
- 6. An organizational chart and other information which will be useful in evaluating the proposal service.
- 7. Outline of methodology for implementation of the proposed scope of work.
- 8. Resumes of Key individuals to be involved in the various aspects of the project and an explanation of each individual's role in the project.
- 9. Location of the office where work involved in performance with this contract will be performed.

TERM OF CONTRACT

The CPA desires a continuing contract for the consulting firm for a period of five (5) years, renewable each year on its anniversary. At the end of the five-year period, the Contract shall be re-advertised in accordance with Florida Statutes. The selected firm will be required to perform all contract services under a standard CPA continuing services contract, a sample of which may be requested by contacting: Karen Pappas, Purchasing Manager, Canaveral Port Authority by email kpappas@portcanaveral.com or via phone at (321)783-7831, ext. 219. All notices will be posted on our website – <http://www.portcanaveral.org/general/bids.php>.
