DEPARTMENT OF FINANCIAL SERVICES

NOTICE IS HEREBY GIVEN THAT the Florida Department of Financial Services hereby gives notice that, on June 21, 2010, it has issued an order disposing of the petition for declaratory statement filed by Safety-Net Hospital Alternative Risk Pool, LLC. on March 12, 2010. The following is a summary of the agency’s disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 36, No. 13, of the April 2, 2010, Florida Administrative Weekly, and Vol. 36, No. 17, of the April 30, 2010, Florida Administrative Weekly. The Petition sought the agency’s opinion as to the applicability of Sections 626.932 and 626.9325, Florida Statutes, as it applies to the Petitioner. The Petition found that if the Petitioner otherwise meets the requirements of Sections 395.106(1)(a)-(d), Florida Statutes, the Petitioner would be deemed to satisfy the statutory requirements to be an “alliance” pursuant to Section 395.106, Florida Statutes, and as such, for the reasons stated in the Petition, would be exempt from the surplus lines taxes and costs provisions of Sections 626.932 and 626.9325, Florida Statutes, contained in the Florida Insurance Code.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Regina Keenan, Division of Legal Services, Department of Financial Services, 200 East Gaines Street, Tallahassee, Florida 32399-0333, (850)413-4236.

Invitation to Bid – ITB 11-01
Boiler Addition for Building 5

The University of North Florida – Board of Trustees, a public body corporate, announces that contractor services for a Boiler Addition to the Building 5 Central Plant will be required for the University of North Florida, 1 UNF Drive, Jacksonville, FL 32224.

The University of North Florida is seeking bids from qualified contractors to provide an additional 250HP natural gas hot water boiler and the associated 800 GPM/15 HP primary hot water pump to be located in the Building 5 boiler room. This project will include two secondary hot water pumps to be replaced with two new higher capacity 1200 GPM/100 HP pumps and the variable frequency drives. The work includes relocating two existing chemical shot feeders from the north wall to the west wall along with modifying an existing louver opening to provide the required amount of open free area. The demolition scope includes the removal of a large interior concrete wall that currently separates the boiler room and a storage space on the north end. This will serve to create the clearance for the new boiler. All supporting electrical, plumbing and miscellaneous architectural work is included in the scope of work along with the replacement phasing and natural gas tie-in procedure.

Contractors desiring to be considered must have current demonstrable experience and certifications at the time of bid opening in accordance with the specifications in the ITB 11-01 bid documents.
