When caring for school-age children, child care personnel shall remain responsible for the supervision of the children in care, shall be capable of responding to emergencies, and are accountable for children at all times, including when children are separated from their groups.

(b) During nap time, supervision requires that staff be in close proximity, within sight and hearing of all the children. All other staff required to meet the staff-to-child ratio shall be within the same building on the same floor, and must be readily accessible and available to be summoned to ensure the safety of the children. Nap time supervision, as described in this section, does not include supervision of children up to 24 months of age, who must be directly supervised at all times.

(c) No person shall be an operator, owner, or employee of a child care facility while using or under the influence of narcotics, alcohol, or other drugs that impair an individual's ability to provide supervision and safe child care.

2. If a child care facility uses a swimming pool that exceeds three feet in depth or uses beach or lake areas for water activities, the child care facility must provide one person with a certified lifeguard certificate or equivalent unless a certified lifeguard is on duty and present when any children are in the swimming area. In situations where the child care facility provides a person with a certified lifeguard certificate or equivalent, that person can also serve as the additional adult to meet the requirement in subparagraph (d)1., above.

3. A telephone or other means of instant communication shall be available to staff responsible for children during all field trips. Cellular phones, two-way radio devices, citizen band radios, and other means of instant communication are acceptable.

(6) Transportation. For the purpose of this section, vehicles refer to those that are owned, operated or regularly used by the child care facility and vehicles that provide transportation through a contract or agreement with an outside entity. Parents' personal vehicles used during field trips are excluded from meeting the requirements in paragraphs 65C-22.001(6)(a)2., (b) and (c), F.A.C.

b. Conduct a physical inspection and visual sweep of the vehicle to ensure that no child is left in the vehicle; and

c. Sign, date and record the driver's log immediately, verifying that all children were accounted for, and that the visual sweep was conducted.

3. Upon arrival at the destination, a second staff member shall:

a. Conduct a physical inspection and visual sweep of the vehicle to ensure that no child is left in the vehicle; and

The date, time and location of the field trip must be posted in a conspicuous location at least two working days prior to each field trip. Written parental permission must be obtained in the form of a general permission slip. If special circumstances arise where notification of an event cannot be posted for two working days, individual permission slips must be obtained from the custodial

However, child care facility personnel are responsible for ensuring that attendance records are complete and accurate. Such records shall be maintained for a minimum of four months. Attendance forms used for Voluntary Pre-Kindergarten or School Readiness may be used if applicable.

a. The capacity, as calculated by the licensing authority for each room, must be posted in a conspicuous location within the room.

b. When common or multi-purpose areas are used for dining or occasional large group assembly activities and special events, the applicable 20 or 35 square feet requirement of usable space for each child does not apply for that period of time only; however, the facility must maintain minimum square footage per child in accordance with the requirements of the local fire authority.

4. Shelves or storage for toys and other materials shall be considered as usable indoor floor space if accessible to children.

5. A school-age child care program may request in writing permission from the licensing authority to operate under an exception to usable indoor floor space as specified in paragraph (3)(i), above. 7. The outdoor play area shall have and maintain safe and adequate fencing or walls a minimum of four feet in height. Fencing, including gates, must be continuous and shall not have gaps that would allow children to exit the outdoor play area. The base of the fence must remain at ground level, and be free from erosion or build-up to prevent inside or outside access by children or animals.

8. A school-age child care program may request in writing permission from the licensing authority to operate under an exception to outdoor floor space as specified above. The written request must include an explanation of why the exception is necessary as well as an alternate plan for inclusion of fine and gross motor skills opportunities.
