DEPARTMENT OF LAW ENFORCEMENT

NOTICE IS HEREBY GIVEN that on April 11, 2011, the Criminal Justice Standards and Training Commission, received a petition for a permanent waiver of subsection 11B-27.00212(14), F.A.C., from Ocean Ridge Police Department on behalf of 21 officers named in the petition. Subsection 11B-27.00212(14), F.A.C., requires officers to requalify with a firearm every two years on a course of fire mandated by Commission rule. The petition supports the requested waiver by stating that the officers did successfully complete the course of fire, however, the instructor who supervised the mandatory shoots was not fully certified as a CJSTC firearms instructor at the time of the officers' requalifications. Petitioner states that the 21 officers will suffer a substantial hardship if their certifications are rendered inactive as a result of this situation. Petitioner further states that it would violate the principles of fairness to fail to recognize that the 21 officers affected by this situation did successfully complete the requirement simply because their instructor had failed to comply with all administrative aspects of firearms instructor certification.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 32302 or by telephoning (850)410-7676.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

The Department of Environmental Protection hereby gives notice that on April 8, 2011, the Department of Environmental Protection issued a Final Order granting a petition for variance to Southeastern Guide Dogs, Inc. The petition for variance was received on February 23, 2011, seeking a variance from Rule 62-550.310, F.A.C., to allow for exceedance of the sodium maximum contaminant level (MCL). The petition was assigned OGC Case No. 11-0422. Notice of receipt of this petition was published in the Florida Administrative Weekly on March 18, 2011. No public comment was received. The variance does not relieve the Petitioner from meeting other contaminant MCLs or excuse the system from monitoring and reporting sodium or other inorganics as required by rule.
