The Pre-Disaster Mitigation (PDM) program is a nation-wide competitive grant program that was created to assist State and local governments, including Indian Tribe governments, with the implementation of cost-effective hazard mitigation activities prior to disasters. The intent of this program is to reduce overall risk to people and property, while also minimizing the cost of disaster recovery.

Proposed hazard mitigation projects must primarily focus on natural hazards but also may address hazards caused by manmade forces. Funding is restricted to a maximum Federal share of \$3 million per project sub-application. The Federal share will cover 75% of the project cost. Sub-applicants are required to provide the remaining 25% in matching funds. All project submissions must have a Benefit Cost Analysis of 1 or greater.

Eligible Sub-Applicants:

The following entities are eligible to apply for assistance: State-level agencies including State institutions (i.e., State hospitals or universities); Federally-recognized Indian tribal governments; local governments, including State-recognized tribes, authorized tribal organizations, and Alaska Native villages; public colleges and universities; and tribal colleges and universities. Private non-profit (PNP) organizations and private colleges and universities are not eligible Sub-Applicants; however, an eligible, relevant State agency or local governments may as the Sub-Applicant for assistance to benefit the private entity.

Sub-applicants may request up to 10% of the funds requested for their mitigation project sub-application for information dissemination activities (public awareness and education) regarding cost-effective mitigation technologies. These activities may include marketing and outreach (i.e., brochures, videos) and must relate directly to the project sub-application. Any information dissemination activities should be identified as separate line items in the Cost.

Sub-applicants may include a maximum of 5% of the total funds requested (Federal and non-Federal shares) for their project sub-application for management costs to support the project. Sub-applicant cost activities must be consistent with the Office of Management and Budget Circular A-87.
