**NOTICE TO CONSTRUCTION MANAGERS:**

The University of Florida Board of Trustees announces that CM-At-Risk services will be required for the project listed below:

Project: UF-380, School of Business Building (Gainesville, FL)

The project consists of the construction of a new 52,000 gross square foot classroom building for the Warrington College of Business Administration to support its undergraduate programs, plus site development and utilities infrastructure.

The detailed scope of work is outlined in the Facilities Program, along with project-specific background, goals, and requirements.

The overall project budget is approximately \$21,400,000, with an estimated construction budget of \$16.9M, and the goal is to complete and occupy the facility by or before June 2014. Minimum Gold LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is mandatory. Design and construction documents will be created using Building Information Modeling (BIM) software, and the CM is expected to use these models and participate in the creation of record (“as built”) models for the Owner’s use.

The contract for construction management services will consist of two phases, pre-construction and construction. Pre-construction services will begin at the Program Verification / Conceptual Schematic Design stage and will include production of cost studies and estimates; value engineering; analysis of the design documents for constructability, coordination, detailing, materials, and systems; development and maintenance of the construction schedule; production of detailed jobsite management plans; development of strategies for the procurement of trade contracts; development of waste management and other sustainability strategies; and development of a Guaranteed Maximum Price (GMP) proposal based on 100% Construction or Bid Documents. If the GMP proposal is accepted and executed, the construction phase will be implemented. In this phase, the construction manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for phase one of the contract, or failure to agree on the GMP may result in termination of the contract.

Applicants will be evaluated on the basis of their past performance, experience, personnel, references, bonding capacity, safety record, workload, ability, approach, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida. Joint venture applications will not be considered.

Applicants desiring to provide construction management services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the CMQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant’s understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific “CM Qualifications Supplement” (CMQS) proposal. Applications on any other form will not be considered.
4. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff.
5. Proof of the applicant’s corporate status in Florida (if applicable) and a copy of the applicant’s current contracting license from the appropriate governing board.
6. Proof of applicant’s bonding capacity and liability insurance coverage.
7. Proof of the applicant’s Experience Modification Rating (EMR) safety rating.

As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected construction manager must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific CMQS forms, instructions, Project Fact Sheet, facilities program, UF Design Services Guide, UF Design and Construction Standards, standard University of Florida Agreement for CM Services, and other project and process information – can be found on the Facilities Planning & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Facilities Planning & Construction office by 3:00 p.m. local time on Tuesday, June 5, 2012. Facsimile (FAX) submittals are not acceptable and will not be considered.

**NOTICE TO PROFESSIONAL CONSULTANTS:**

The University of Florida Board of Trustees announces that Professional Services in the discipline of architecture and engineering will be required for the project listed below:

Project: UF-368, Reitz Union Expansion & Renovation (Gainesville, FL)

The project consists of the expansion and renovation of the J. Wayne Reitz Union (JWRU) in the heart of campus at the University of Florida. The project will demolish the existing colonnade building, build approximately 100,000 GSF in this location and renovate roughly 50,000 GSF in the existing building. The JWRU was constructed in 1967 when there were only 19,000 students and 150 student clubs. UF currently has approximately 50,000 students and over 900 registered clubs and organizations without any significant expansion to the student space.

The estimated construction budget is approximately \$47,000,000, including demolition, site improvements, window replacement, emergency shelter requirements and utility infrastructure improvement. The project will be delivered using the Construction Manager method and construction shall be phased with demolition, new construction and renovation. Platinum LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is mandatory.

The selected firm will provide program verification, design, construction documents and construction administration services for the referenced project. Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.

Blanket design professional liability insurance will be required from the architect and structural engineering sub-consultant for this project and will be provided as a part of Basic Services.

Applicants will be evaluated on the basis of their past performance, experience, personnel, design ability, references, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant and its landscape architectural and engineering consultants must possess current design licenses from the appropriate governing board and be properly registered to practice its profession in the State of Florida. If the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida.

The proposed team should not include a MEP/FP engineer. UF will be selecting the MEP/FP Engineer with the Architect through a separate RFQ process after the Architect is selected. The selected MEP/FP Engineer will become a full member of the design team and the Architect's contract will be amended to

include the MEP/FP firm. The selected MEP/FP Engineer will be coordinated by the Architect, billed through the Architect and a consultant to the Architect.

Applicants desiring to provide professional services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the PQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, design intent, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. A completed, project-specific "Professional Qualifications Supplement" (PQS) proposal with signed certification. Applications on any other form will not be considered.
3. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff (applicant and consultants).
4. Proof of the applicant's corporate status in Florida (if applicable) and copies of current licenses for applicant and all engineering and landscape architecture consultants from the appropriate governing board.
5. Proof of the applicant's and structural and civil engineering consultants' ability to be insured for the level of professional liability coverage demanded for this project.

As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected professional must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific PQS forms, instructions, Project Fact Sheet, facilities program, UF Design Services Guide, UF Design and Construction Standards, standard University of Florida Owner-Professional agreement, and other project and process information – can be found on the Facilities Planning & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Facilities Planning & Construction office by 3:00 p.m. local time, on Thursday June 7, 2012. Facsimile (FAX) submittals are not acceptable and will not be considered.

#### NOTICE TO CONSTRUCTION MANAGERS

The University of Florida Board of Trustees announces that CM-At-Risk services will be required for the project listed below:

Project: UF-286, The Harrell Medical Education Building (Main Campus)

The project consists of a four story approximately 90,000 GSF facility that will provide current and innovative teaching laboratories and support facilities which respond to the latest trends toward small-group learning, the use of simulators and standardized patients for professional development and assessment, state of the art information technology, and access to information in a wireless environment. Space will be provided to allow for distance learning opportunities for the urban campus in Jacksonville and other sites as required.

The total project budget is \$44,447,700.00, including site improvements, underground utilities, fees, surveys & tests, total building commissioning, furnishings & equipment, and contingencies. (Gold) LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is a mandatory Minimum. The project will actively pursue the Living Building Challenge and Net Zero effect.

The contract for construction management services will consist of two phases, pre-construction and construction. Pre-construction services will begin at the Conceptual Schematic Design stage and will include production of cost studies and estimates; value engineering; analysis of the design documents for constructability, coordination, detailing, materials, and systems; development and maintenance of the construction schedule; production of detailed jobsite management plans; development of strategies for the procurement of trade contracts; development of waste management strategies; and development of a Guaranteed Maximum Price (GMP) proposal based on 100% Construction Documents. If the GMP proposal is accepted and executed, the construction phase will be implemented. In this phase, the construction manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for phase one of the contract,

or failure to arrive at an acceptable GMP budget within the time provided in the agreement, may result in the termination of the construction manager's contract.

Applicants will be evaluated on the basis of their past performance, experience, personnel, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida.

#### NOTICE TO PROFESSIONAL CONSULTANTS

The Florida International University Board of Trustees announces that Professional Services in the discipline of Construction Cost Estimating/Construction Scheduling will be required for Continuing Services projects at FIU.

Project Location: Modesto A. Maidique Campus (MMC), Biscayne Bay Campus (BBC), Engineering Center (EC), and Wolfsonian Museum & Annex.

Project Description: This is a Continuing Services Contract to provide cost estimating/scheduling services for Capital Projects, including conceptual or detailed estimating, precedent analysis, cost management strategies, cost modeling, scheduling, value engineering, life cycle cost analysis, constructability analysis, alternative methods and materials analysis, and workforce utilization studies. Services may be required for all phases of project development including budgeting, programming, design, construction documents, construction, and project close out. Services noted above may be required for the purpose of evaluating contractor's construction claims. The above mentioned consulting services may be requested for any type of capital project provided that the total consulting fee for any individual project is \$200,000 or less.

Term of Contract: Any contract resulting from the selection of a professional consultant (or consultants) to provide these services shall require the consultant to be available on an as-needed basis for the Fiscal Year, July 1 – June 30. One (1) contract will be awarded. This contract will be awarded for an initial period of one-year with Owner's option to renew the contract, at its sole discretion, for additional one-year periods, however, in no event to exceed a total of five successive years.

#### Instructions:

Firms desiring to apply for consideration shall submit a letter of application. The letter of application should have attached:

1. A completed "Florida International University Professional Qualifications Supplement (FIUPQS)." The official FIUPQS forms must be downloaded from the project web site at <http://facilities.fiu.edu/projects/CostEstSchConsultant2012.htm> Applications on any other form will not be considered.

2. A copy of the applicant's current Professional Registration Certificate from the appropriate Governing board. An applicant must be properly registered at the time of application to practice its profession in the State of Florida. If the applicant is a corporation, it must be properly chartered by the Florida Department of State to operate in Florida.

Submit Five (5) bound copies of the required proposal data and one CD copy in Adobe Acrobat PDF format of the requested qualifications to: Selection Committee, Florida International University, Facilities Planning, Campus Support complex, 11555 S.W. 17th St., Room CSC142, Modesto A. Maidique Campus, Miami, Florida 33199.

Applications that do not comply with the above instructions will not be considered. Application material will not be returned. The University reserves the right to suspend or discontinue the selection process at any time and to return or reject any or all submissions of qualifications without obligation to the respondent.

GENERAL REQUIREMENTS: The plans and specifications prepared by the consultant are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes. As required by Section 287.133, Florida Statutes, a consultant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected consultant must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

FIU HAS CREATED STANDARD CONTRACT FORMS AND STANDARD INSURANCE REQUIREMENTS APPLICABLE TO A/E'S FOR A/E SERVICES TO PROVIDE FOR AN EFFICIENT AND EFFECTIVE PROCESS. THESE FORMS ARE AVAILABLE FOR REVIEW AND CAN BE FOUND AT <http://facilities.fiu.edu/formsandstandards.htm>.

ALL APPLICANTS SHOULD REVIEW THE APPLICABLE FIU CONTRACT FORM AND STANDARD INSURANCE REQUIREMENTS CAREFULLY PRIOR TO MAKING A DECISION AS TO WHETHER OR NOT TO RESPOND TO THIS ADVERTISEMENT.

A Project Fact Sheet, describing the selection process schedule for this Project and additional information regarding the Project scope, may be obtained from the project web site <http://facilities.fiu.edu/projects/CostEstSchConsultant2012.htm>.

In order to minimize the possibility of unethical pressures or influences on the recommendations of the Selection Committee, direct contact with the committee members is not permitted. Requests for meetings by individual firms will not be granted. Committee members and selection schedule milestone dates can be found in the Project Fact Sheet.

Any question or explanation desired by an applicant regarding the project or any part of the process must be requested in writing to [griffith@fiu.edu](mailto:griffith@fiu.edu). Responses to questions and requests for information will be posted on the project web site. An effort will be made to respond to all applicant questions; however, the University is not obligated to and may choose not to answer every question. The last day questions or inquiries will be considered prior to final interviews for this project is Friday, July 6, 2012 at 12:00 p.m..

Should a change in schedule become necessary, updated information will be posted on the project web site <http://facilities.fiu.edu/projects/CostEstSchConsultant2012.htm>. All future notices will be posted on the web site. Applicants should check the web site daily.
