PURPOSE AND EFFECT: The St. Johns River Water Management District (SJRWMD) gives notice that it is initiating rulemaking to amend its rules consistent with Sections 373.4131 and 373.4131, F.S., became effective on July 1, 2012, and requires the Department of Environmental Protection (DEP) in coordination with the five water management districts (WMDs) to develop statewide environmental permitting (ERP) rules. These rules are to rely primarily upon existing rules of the DEP and WMDs, but may be revised as necessary to achieve a more consistent, effective, and streamlined approach in the state's ERP program. To implement Section 373.4131(1), F.S., DEP has initiated rulemaking to revise Chapter 62-330, F.A.C. Some examples of provisions that DEP has proposed to include in the proposed rulemaking for Chapter 62-330, F.A.C. are: permitting thresholds; permit exemptions; types of permits; application and notice content and submittal procedures; conditions for issuance; and formal determinations of the landward extent of wetlands and other surface waters. As part of its rulemaking, DEP also intends to incorporate by reference documents to be known as an Applicant's Handbook. Two volumes of the Applicant's Handbook will apply in each WMD: (1) one volume that will include general and environmental procedures, and forms that will apply statewide; and (2) a second volume, specific to, and adopted by, the WMD that will set forth design and performance standards for stormwater quality and quantity, and include drainage basin designations and basin-specific rules within the WMD. DEP's proposed rulemaking for Chapter 62-330, F.A.C. will include provisions currently addressed in SJRWMD's Chapters 40C-1, 40C-4, 40C-40, 40C-42, and 40C-400, and will necessitate amendments to SJRWMD Chapters 40C-1, 40C-4, 40C-41, 40C-42 and 40C-44, F.A.C., and its existing Applicant's Handbooks. Therefore, the purpose of this rule development is to revise SJRWMD's rules consistent with DEP's adoption of statewide ERP rules in Chapter 62-330, F.A.C.

SUBJECT AREA TO BE ADDRESSED: Among other things, this rule development will cover the revision of SJRWMD rules by rule amendment or development as needed to accomplish the establishment of statewide ERP rules on the following subjects: (1) permitting thresholds, (2) permit exemptions, (3) types of permits, (4) permit duration (5) permit modifications and transfers, (6) reporting forms and operational requirements, (7) application submittal and review procedures, (8) conditions for issuance, (9) formal

determinations of the landward extent of wetlands and other surface waters, (10) general permit conditions, (11) fee categories, and (12) other rules for which conforming amendments may be needed along with any rule changes made in the subject areas above.

PURPOSE AND EFFECT: The St. Johns River Water Management District (SJRWMD) gives notice that it is initiating rulemaking to amend its rules consistent with Sections 373.4131 and 373.4131, F.S., became effective on July 1, 2012, and requires the Department of Environmental Protection (DEP) in coordination with the five water management districts (WMDs) to develop statewide environmental permitting (ERP) rules. These rules are to rely primarily upon existing rules of the DEP and WMDs, but may be revised as necessary to achieve a more consistent, effective, and streamlined approach in the state's ERP program. To

implement Section 373.4131(1), F.S., DEP has initiated rulemaking to revise Chapter 62-330, F.A.C. Some examples of provisions that DEP has proposed to include in the proposed rulemaking for Chapter 62-330, F.A.C., are: permitting thresholds; permit exemptions; types of permits; application and notice content and submittal procedures; conditions for issuance; and formal determinations of the landward extent of wetlands and other surface waters. As part of its rulemaking, DEP also intends to incorporate by reference documents to be known as an Applicant's Handbook. Two volumes of the Applicant's Handbook will apply in each WMD: (1) one volume that will include general and environmental procedures, and forms that will apply statewide; and (2) a second volume, specific to, and adopted by, the WMD that will set forth design and performance standards for stormwater quality and quantity, and include drainage basin designations and basin-specific rules within the WMD. DEP's proposed rulemaking for Chapter 62-330, F.A.C. will include provisions currently addressed in SJRWMD's Chapters 40C-1, 40C-4, 40C-40, 40C-42, and 40C-400, and will necessitate amendments to SJRWMD Chapters 40C-1, 40C-4, 40C-41, 40C-42 and 40C-44, F.A.C., and its existing Applicant's Handbooks. Therefore, the purpose of this rule development is to revise SJRWMD's rules consistent with DEP's adoption of statewide ERP rules in Chapter 62-330, F.A.C.

SUBJECT AREA TO BE ADDRESSED: Among other things, this rule development will cover the revision of SJRWMD rules by rule amendment or development as needed to accomplish the establishment of statewide ERP rules on the following subjects: (1) permitting thresholds, (2) permit exemptions, (3) types of permits, (4) permit duration (5) permit modifications and transfers, (6) reporting forms and operational requirements, (7) application submittal and review procedures, (8) conditions for issuance, (9) formal determinations of the landward extent of wetlands and other surface waters, (10) general permit conditions, (11) fee categories, and (12) other rules for which conforming amendments may be needed along with any rule changes made in the subject areas above.
