PURPOSE AND EFFECT: Chapter 40A-4, F.A.C., Management and Storage of Surface Waters has been incorporated into the new Statewide Environmental Resource permitting Chapter 62-330, F.A.C. therefore the purpose of repealing this rule is to eliminate redundant rules and the effect will only be to eliminate redundancy the same level of protection will still be required in the design of dams in the Northwest Florida Area.

SUMMARY: The rule chapter is now contained in Chapter 62-330, F.A.C., and this redundant rule will be repealed in its entirety.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

Based on an analysis performed by the District and because the substance of rule chapter is contained in FDEP's SWERP Rule Chapter 62-330, F.A.C., (effective 10/1/2013, the

proposed rule repeal are not expected to require legislative ratification.)

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: When FDEP's Adopted the Statewide Environmental Based on an analysis performed by the District and because the substance of rule chapter is contained in FDEP's SWERP Rule Chapter 62-330, F.A.C., (effective 10/1/2013, the proposed rule repeal are not expected to require legislative ratification.)

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

40A-4.011 Policy and Purpose.

~~(1) The purpose of these rules is to implement the expressed water policy of the Northwest Florida Water Management District and the State of Florida to assure that activities relating to the management and storage of surface waters will not be harmful to the water resources and will provide for the safety of life and property within the District. This chapter should be read in conjunction with Chapter 373, F.S. Permits are required to construct, alter, or abandon certain dams, impoundments, reservoir, appurtenant works, or works in the District. The following constitutes an expression of the overall objectives of the District with regard to its permitting powers.~~

~~(a) It shall be an overall objective of the District to insure that the dam, impoundment, reservoir, appurtenant work, or works under permit do not create a hazardous condition which might threaten lives or property.~~

~~(b) It shall be an overall objective of the District to insure that the waters of the State are not depleted, restricted, or otherwise impaired by artificial means unless permitted by the District.~~

~~(2) Provision is made for the correction of unsafe dams or other works, and the District has the authority to make repairs if the owner fails to do so in a reasonable time. Approval of an application to construct does not grant the right to use water or to deny water to downstream owners. Water use permitting will be handled through Chapter 40A 2, F.A.C., to be published. The establishment of rigid construction criteria is not intended to be a part of these rules. Safety must be evaluated in the light of peculiarities and local conditions at a particular dam or other structure and in recognition of the many factors involved, some of which may not be precisely known.~~

40A-4.021 Definitions.

~~When appearing in this chapter or in any rule, regulation, or order adopted pursuant thereto, the following terms shall mean:~~

~~(1) “Agriculture” includes forestry.~~

~~(2) “District” means the Northwest Florida Water Management District.~~

~~(3) “Department” means the Department of Environmental Protection.~~

~~Rulemaking Authority 373.044, 373.113, 373.414, 373.416, 373.418, 373.426, 403.813 FS. Law Implemented 373.418, 373.413 FS. History—New 4-14-80, Formerly 16G-4.02, Amended 7-1-98, Repealed _____.~~

40A-4.041 Permit Required.

~~(1) General Permit. This subsection provides thresholds for a general permit to construct, alter, abandon or remove any dam, impoundment, reservoir, appurtenant work, or works within the District boundaries. Unless exempted by Statute or District rule, a general permit must be obtained prior to construction, alteration, abandonment, or removal of any dam, impoundment, reservoir, appurtenant work, or works which:~~

~~(a) Impounds or may impound water by utilizing a dam which is or will be at least 10 feet but less than 25 feet in height from the natural bed of the stream or watercourse at the downstream toe of the barrier as determined by the District, or from the lowest elevation of the outside limit of the barrier to the maximum elevation of the barrier; or~~

~~(b) Has or will have an impounding capacity of at least 50 acre feet, but less than 100 acre feet;~~

~~(2) Individual Permit. Unless expressly exempted by Statute or District rule, an individual permit shall be required to construct, alter, abandon, or remove any dam, impoundment, reservoir, appurtenant work, or works which:~~

~~(a) Impounds or may impound or divert water and:~~

~~1. Utilizes a dam which is or will be 25 feet or more in height from the natural bed of the stream or watercourse at the downstream toe of the dam, as determined by the District, or from the lowest elevation of the outside limit of the barrier to the maximum elevation of the dam; or~~

~~2. Has or will have an impounding capacity of 100 acre-foot or more; or~~

~~(b) Removes water directly from a water body having an impounding capacity of 100 acre feet or more by means of dikes, levees, fills, or canals; or~~

~~(c) Reroutes, restricts, or alters the rate of flow of a stream or other watercourse from a point where the watershed upstream from such point drains an area exceeding 5 square miles.~~

~~(3) The Board may impose on any permit granted under subsections (1) and (2) such reasonable conditions as are necessary to assure that the permitted construction, alteration, abandonment, or removal will be consistent with the overall objective of the District as published in Chapter 373, F.S.; Rules of the District; or the Water Resources Management Plan.~~

~~(4) The Governing Board may accept the permit of any unit of local government in lieu of any permit required in this chapter if such permit is issued under requirements comparable or more stringent than those published in this chapter.~~

~~Rulemaking Authority 373.044, 373.113, 373.118, 373.406, 373.418, 380.06(9) FS. Law Implemented 373.413, 373.416, 373.426 FS. History—New 4-14-80, Amended 2-1-82, Formerly 16G-4.04, Amended 7-1-98, Repealed _____.~~

40A-4.051 Exemptions.

~~The following are exemptions in addition to those contained in Section 373.406, F.S.:~~

~~(1) No permit shall be required for the construction, alteration, abandonment, or removal of any dam, impoundment, reservoir, appurtenant work, or works if such construction:~~

~~(a) Impounds or may impound water by a dam which is or will be less than 10 feet in height from the natural bed of the stream or watercourse at the downward toe of the dam as determined by the District, or from the lowest elevation of the outside limit of the dam to the maximum elevation of the dam; and~~

~~(b) Has or will have an impounding capacity of less than 50 acre feet.~~

~~(2) No permit shall be required for dams which are five feet or less in height, regardless of storage capacity.~~

~~(3) Nothing in this chapter shall be construed to affect the right of any natural person to capture, discharge, and use water for the purposes permitted by law.~~

~~(4) Nothing in this chapter shall be construed to affect the right of any person engaged in the occupation of agriculture, floriculture, or horticulture to alter the topography of any tract of land for purposes consistent with the practices of such occupation; provided, however, such alteration may not be for the sole purpose of impounding or obstructing surface waters.~~

~~(5) Nothing in this chapter shall be construed to be applicable to construction, operation, or maintenance of any closed system.~~

~~Rulemaking Authority 373.044, 373.113, 373.418 FS. Law Implemented 373.406, 373.413, 373.416, 373.426, 403.813 FS. History—New 4-14-80, Formerly 16G-4.05, Amended 7-1-98, Repealed _____.~~

40A-4.091 Processing of Permits.

~~(1) The application for a permit under these rules shall be submitted to the District on SAJ Form 983, "Joint Application Department of the Army/Florida Department of Environmental Protection for Activities in Waters of the State of Florida." Forms may be obtained from the Department or from the District.~~

~~(2) The permit application for an Individual Permit shall be reviewed on behalf of the District by a professional engineer, registered in the State of Florida. The District shall request any additional information and notify the applicant of any errors or omissions required to complete the processing of any application within 30 days following receipt of the application. A copy of all such requests will be provided to the Department. The District shall take action upon any permit application within 90 days following receipt of all requested information from the applicant.~~

~~(3) The issuance of a permit is dependent upon:~~

~~(a) The application being in the proper form and containing the required information;~~

~~(b) The proposed construction, alteration, or abandonment being in accordance with applicable laws, rules, and orders; and~~

~~The work accomplished being consistent with the overall objectives of the District, the Department, and the Legislature as published in Chapter 373, F.S.; the Florida Administrative Code; or the Water Resources Management Plan. In determining whether a permit is to be issued pursuant to this Chapter, the Board shall not consider whether permits from other agencies of the State or local government have been obtained or are required.~~

~~(4) District action on an application shall result in one of the following:~~

~~(a) Permit is approved to construct, alter, or abandon any dam, impoundment, reservoir, appurtenant work, or works of the District;~~

~~(b) Permit is approved as in (a) above except that certain conditions are imposed in the construction of the facility; or~~

~~(c) Permit is disapproved due to:~~

~~1. Incomplete application;~~

~~2. Design not being consistent with generally accepted engineering practices (an example of an accepted reference is Design of Small Dams, U. S. Department of Interior, Bureau of Reclamation, Second Edition, 1973), as applied to local conditions; or~~

~~3. Does not meet the standards and requirements set forth in Rule 40A-4.301, F.A.C.~~

~~(d) Notice of Intent to Deny.~~

~~1. The District shall issue a Notice of Intent to Deny when it determines that an application for a permit fails to meet the requirements of Chapter 373, F.S., or any rule, order, or standard adopted pursuant thereto. A copy of the Intent to Deny will be furnished to the Department in the same mailing as the notification to the applicant.~~

~~2. The notice of Intent to Deny shall:~~

~~a. State the grounds for denial;~~

~~b. Be served in writing upon the applicant at his last known address by registered or certified mail with a copy to the Department; and~~

~~c. Inform the applicant of a right to hearing pursuant to Section 120.57, F.S.~~

~~3. In the event the applicant or other affected parties are dissatisfied with the action of the District as described under this section, the applicant receiving a Notice of Intent to Deny may request a hearing by filing a written petition to the District within 21 days of receipt of the notice. The hearing shall be conducted pursuant to Chapter 120, F.S., and Chapter 40A-1, F.A.C.~~

40A-4.101 Content of Application.

~~(1) Permit applications under provisions of subsection 40A-4.041(2), F.A.C., shall include:~~

~~(a) Name and address of the applicant;~~

~~(b) Name and address of the owner or owners of the land upon which the construction, alteration, or abandonment is to take place;~~

~~(c) Location of the work, including a location map;~~

~~(d) Plans and specifications as prepared or approved by a professional engineer registered in the State of Florida, or by the U.S. Department of Agriculture Natural Resources Conservation Service;~~

~~(e) Plans and specific procedures for operating and maintaining the proposed dam, impoundment, reservoir, appurtenant work, or works including operating during floods and droughts; and~~

~~(f) Name and address of person who prepared the plans and specifications.~~

~~(2) Applications for General Permits under provisions of subsection 40A 4.041(1), F.A.C., shall be filed with the Department on forms provided by the Department or District, and shall include, as a minimum:~~

- ~~(a) Name and address of applicant;~~
- ~~(b) Name and address of owner or owners of the land upon which the construction, alteration, or abandonment is to take place;~~
- ~~(c) Location and scope of work, including a location map, and any plans and specifications prepared for the project.~~

~~(3) In situations where unusual topographic or geologic conditions or safety hazards exist, the District shall require the applicant, under subsections (1) and (2) above, to submit other pertinent information deemed necessary for evaluating the application.~~

40A-4.142 Headgates, Valves, and Measuring Devices.

~~(1) The owner of any dam, impoundment, reservoir, appurtenant work, or works subject to this chapter may be required, after notice and hearing by the Governing Board, to install and maintain a substantial and serviceable headgate or valve at the point where the water is discharged or diverted, and shall, if required by the Governing Board, install a measuring device which will adequately measure the water at a point designated by the Governing Board for the purpose of investigating any hydrological effects of the structure.~~

~~(2) If any owner shall not have constructed or installed such headgate, valve, or such measuring device within 60 days after the Governing Board has ordered its construction, the Governing Board shall have constructed or installed such headgate, valve, or measuring device, and the costs of installing the headgate, valve, or measuring device shall be a lien against the owner's land upon which such installation takes place until the Governing Board is reimbursed, with reasonable interest and attorney's fees, for its costs.~~

~~(3) No person shall alter or tamper with a measuring device so as to cause it to register other than the actual amount of water diverted, discharged, or taken. Violation of this subsection shall be a misdemeanor in the second degree, punishable under Section 775.083(1), F.S.~~

~~(4) For the purpose of safety and maintenance, any new dams, impoundments, or appurtenant works meeting the requirements of Rule 40A 4.041, F.A.C., may be required to have installed and maintained a substantial and serviceable headgate or valve at the point where the water is diverted or discharged.~~

40A-4.301 Conditions for Issuance of Permits.

~~(1) The issuance of a permit pursuant to this chapter shall not bind the Governing Board to issue any other permit which may be required under the provisions of Chapter 373, F.S., nor does issuance of a permit under this Chapter grant the right to use water or deny water to downstream owners.~~

~~(2) Issuance of a permit will be denied if the proposed activity:~~

~~(a) Will cause the flow of a stream or other watercourse to be lowered below the minimum flow established by the Governing Board;~~

~~(b) Will cause the level of the potentiometric surface to be lowered below the minimum level established by the Governing Board;~~

~~(c) Will cause the level of the surface of water in any lake or other impoundment to be lowered below the minimum level established by the Governing Board or raised to a level that will be harmful to the people, property, or water resources of this area;~~

- ~~(d) Will significantly induce salt water encroachment;~~
- ~~(e) Will cause the water table to be lowered so that lake stages or vegetation will be adversely affected on lands other than those owned, leased, or otherwise controlled by the applicant;~~
- ~~(f) Will cause an increased flow such that it will endanger downstream property in times of flood with respect to state or frequency; or~~
- ~~(g) Is contrary to the provisions of Chapter 373, F.S.~~
- ~~(3) The Governing Board may condition the granting of a permit so as to require:~~
 - ~~(a) Dates that construction, alteration, removal, and operation are to be commenced or completed, with notification of such commencement and completion to be given in writing postmarked no later than five days thereafter;~~
 - ~~(b) Reports of operations and maintenance on forms to be provided which shall be submitted within the times prescribed;~~
 - ~~(c) Installation of monitoring facilities;~~
 - ~~(d) Prescribed operating procedures and schedules; and~~
 - ~~(e) Other such reasonable conditions as are necessary to assure that the permitted construction, removal, alteration, or operation will not conflict with the provisions of Chapter 373, F.S.~~

40A-4.321 Duration of Permit.

~~Except as otherwise provided in Rule 40A 4.331, F.A.C., permits issued under authority of this chapter shall be permanent. The sale or conveyance of such facility, or the land on which the same is located, shall in no way affect the validity of the permit, as long as the use remains the same, provided that the owner in whose name the permit was granted notifies the Board of such change of ownership within thirty (30) days of transfer.~~

40A-4.331 Revocation and Modification of Permits.

~~(1) The Governing Board may revoke or modify a permit at any time if it determines that a dam, impoundment, appurtenant work, or works has become a danger to the public health or safety or if its operation is in violation of any regulation or order of the District, or the conditions of the permit.~~

~~(2) Before any such revocation or modification, the Governing Board shall give written notification thereof by registered or certified mail to the permit holder with a copy to the Department. Such notification shall contain a statement of~~

~~the reasons why the revocation or modification is proposed and a reference to any applicable District objective, regulation, order, or permit condition. An affected party may file a written petition for a hearing no later than 14 days after notice of proposed revocation or modification is served for a hearing. No permit shall be revoked or modified before the permit holder is afforded an opportunity for a hearing before the Governing Board.~~

~~(3) If the Executive Director determines that the danger to the public is imminent, he may order a temporary suspension of the construction, alteration, or operation of the facility until the hearing is concluded, or he may take such action as authorized under Rule 40A 4.481, F.A.C.~~

~~(4) The Governing Board may revoke a permit permanently and in whole with written consent of the permittee and concurrence of the Department.~~

AGENCY FOR HEALTH CARE ADMINISTRATION

Medicaid

RULE NO.: RULE TITLE:

59G-4.050 Community Behavioral Health Services

PURPOSE AND EFFECT: The purpose of the amendment to Rule 59G-4.050, F.A.C., is to incorporate by reference the Florida Medicaid Community Behavioral Health Services Coverage and Limitations Handbook, _____.

SUMMARY: The handbook is being revised to remove the enrollment requirement for Medicaid behavioral health providers to have an active contract with the Substance Abuse and Mental Health (SAMH) circuit or regional office for the location in which the provider renders services. This handbook adds descriptions and policy for the Medicaid behavioral health managed care plans. In addition, this handbook modifies various staff qualifications, policy requirements for community behavioral health services, and updates forms and fiscal agent information. The policies for behavioral health overlay, comprehensive behavioral health assessment, therapeutic group care, and specialized therapeutic foster care services are being removed from this handbook.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: A checklist was prepared by the Agency to determine the need for a SERC. Based on this information at the time of the analysis and pursuant to Section 120.541, Florida Statutes, the rule will not require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

| RULE NOS.: | RULE TITLES: |
| 68B-61.002 | Definitions |
| 68B-61.004 | Bag Limits |
| 68B-61.009 | License Requirements |

PURPOSE AND EFFECT: The purpose of these rules is to create a new rule chapter in 68B, Florida Administrative Code (FAC) for blue runner and, in the absence of a federal management plan, assume management authority for the species in federal waters. Currently, there are no specific regulations for blue runner in state waters. However, general statewide regulations such as license requirements and gear restrictions presently apply for blue runner harvest. In addition, F.S. 379.361 defines "commercial quantities" for species that do not have specific bag limits as greater than 100 pounds per person per day. Therefore, the current daily recreational bag limit for blue runner in state waters is 100 pounds. The new rules will establish a statewide recreational bag limit of 100 fish, clarify that there is no commercial bag limit, clarify that an SPL is required to harvest blue runner for commercial purposes, and extend regulations into adjacent federal waters in cases where no federal management plan exists. There is no federal management plan for blue runner in federal waters of the Gulf of Mexico. The South Atlantic Fishery Management Council (SAFMC) recently approved an amendment to remove blue runner from the SAFMC federal snapper-grouper fishery management plan (FMP). The SAFMC approved this amendment, in part, based on the fact that the FWC agreed to manage blue runner harvest in federal waters of the Atlantic. Pending approval of this amendment by the U.S. Secretary of Commerce, blue runner will no longer be managed in any federal waters off Florida. These rules would allow the state of Florida to regulate harvest of blue runner from Gulf federal waters immediately upon implementation of the rule and from Atlantic federal waters upon removal of blue runner from the SAFMC federal FMP.

The effect of these rules would be to establish a recreational bag limit in state waters, clarify commercial requirements, and extend the regulations into adjacent federal waters. These rule amendments will also help to prevent the loss of income for commercial fishermen that have historically harvested blue runner from federal waters of the Atlantic as bycatch without a federal snapper grouper permit and allow commercial fishermen to use gears that are currently prohibited under the federal FMP.

SUMMARY: The new rule chapter would define "blue runner" as any fish, or part of a fish, of the species *Caranx crysos*. The new rule chapter would also establish a recreational daily bag limit of 100 fish, instead of the current limit (100 pounds) found in F.S. The new rules would extend this bag limit into federal waters off Florida, and also require a Saltwater Products License (SPL) in order to harvest quantities of blue runner greater than the recreational bag limit or for commercial purposes from federal waters.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The proposed rule would create a new rule chapter in 68B, FAC, and no regulatory costs are anticipated.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

DEPARTMENT OF EDUCATION

Florida International University

The Florida International University (FIU) and the City of Sweetwater (Sweetwater) announces a public meeting to which all persons are invited.

DATE AND TIME: Friday, October 25, 2013, 5:30 p.m. – 8:30 p.m.

PLACE: FIU Classroom PG5-155 (enter at south side of Market Station-Parking Garage 5). Address: 885 SW 109th Avenue, Miami, FL 33199 (SE corner of SW 8th Street/US 41 and SW 109th Ave.)

GENERAL SUBJECT MATTER TO BE CONSIDERED:

Project Name: University City Prosperity Project. The Florida International University (FIU) and the City of Sweetwater (Sweetwater) will be hosting a Public Meeting to discuss the proposed University City pedestrian-oriented transit access

improvements along SW 109th Avenue from SW 8th Street to SW 6th Street in Sweetwater, FL, Miami-Dade County and across US 41/SW 8th Street into FIU's Modesto A. Maidique Campus (Maidique Campus) to a proposed community transit stop located adjacent to the Engineering & Computer Science (ECS), Owa Ehan (OE), and Wertheim Conservatory (WC) buildings and an Advanced Intermodal and Multimodal Station (AIMS) located in and adjacent to the proposed Parking Garage 6 (PG6) located east of the Red Parking Garage (PGR). Please see <http://campusmaps.fiu.edu/mmc-map.pdf> for the campus map and building locations.

Project Description: US DOT TIGER funds will be used to support an innovative package of technology, sidewalk, streetscaping, and transit improvements to connect Sweetwater with FIU. One of the principle uses of these TIGER and matching funds will be to construct a new signature, pedestrian-oriented bridge over a busy arterial road (US 41/SW 8th Street at the intersection with SW 109th Avenue). These improvements collectively are designed to increase access to jobs, create safe transit, and link two portions of FIU's campuses that are currently disconnected. The improvements are expected to support economic growth of FIU as a major public research university and adjacent City of Sweetwater. See 2013 UniversityCity TIGER Proposal and Award Documents at <http://cake.fiu.edu/TIGER2013/> and UniversityCity summaries provided at <http://cake.fiu.edu/#UniversityCity>.

Food & Refreshments: For the convenience of participants desiring to purchase food prior to the meeting, the Market Station Food Court, adjacent to PG5-155, will remain open until 5:30 pm. No food or refreshments are allowed in Classroom PG5-155.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons with disabilities who require special accommodations under the Americans with Disabilities Act (ADA) or persons who require translation services (free of charge) should contact Kenneth Jessell, TIGER/University City Prosperity Project Institutional Lead at (305)348-1776 or mmunozre@fiu.edu at least seven (7) days prior to the workshop.

AVISO DE AUDIENCIA PUBLICA

Nombre del Proyecto: Ciudad Universitaria Proyecto de Prosperidad

Florida International University (FIU) y la Ciudad de Sweetwater (Sweetwater) llevarán a cabo una reunión pública para discutir las propuestas de la Ciudad Universitaria orientadas a mejorar el acceso al tránsito para los peatones en

la SW 109 Avenida entre la SW 8 Calle a SW 6 Calle en Sweetwater, FL, Condado

de Miami-Dade y al otro lado de la US 41/SW 8 Calle entrando al Recinto Modesto A. Maidique de FIU, y una propuesta para una parada de tránsito localizada adyacente a los edificios Engineering y Computer Science (ECS), Owa Ehan (OE), y Wertheim Conservatory (WC), y una estación nombrada Advanced Intermodal y Multimodal Station (AIMS) dentro de y adyacente al propuesto garaje de estacionamiento 6, Parking Garage 6 (PG6) localizado al este del garaje de estacionamiento Red Parking Garage (PGR). Por favor referirse al siguiente enlace <http://campusmaps.fiu.edu/mmc-map.pdf> para el mapa del campus y localizaciones de los edificios.

Descripción del Proyecto

Los fondos US DOT TIGER serán usados para apoyar un paquete innovador de tecnología, aceras, paisaje urbano y mejoras de tránsito para conectar Sweetwater con FIU. Uno de los usos principales de los fondos TIGER y fondos complementarios es para construir un nuevo puente orientado a peatones sobre una calle sumamente transitada y arterial (US 41/8 Calle en la intersección con SW 109 Avenida). Estas mejoras son diseñadas para colectivamente crear acceso a trabajos, crear tránsito seguro, y unir dos áreas del recinto de FIU que están actualmente desconectados. Se espera que las mejoras apoyen el crecimiento económico de FIU como una gran universidad de investigación pública y la adyacente Ciudad de Sweetwater. Ver la propuesta para UniversityCity TIGER 2013 y los documentos de subvención en <http://cake.fiu.edu/TIGER2013/> y resúmenes acerca de UniversityCity en <http://cake.fiu.edu/#UniversityCity>.

**Notice of Petitions and Dispositions
Regarding Declaratory Statements**

PUBLIC SERVICE COMMISSION

RULE NO.: RULE TITLE:

25-6.04365 Nuclear Decommissioning

NOTICE IS HEREBY GIVEN that the Florida Public Service Commission has issued an order disposing of the petition for declaratory statement filed by Duke Energy Florida, Inc. (DEF) on July 30, 2013. The following is a summary of the agency's disposition of the petition:

The Commission granted, in part, and denied, in part, DEF's Petition for Declaratory Statement. Applying the Commission's Nuclear Decommissioning Orders and Rule 25-6.04365, F.A.C., Nuclear Decommissioning, the Commission affirmed that funds accumulated in the DEF Nuclear Decommissioning Trust Fund must be allocated among Nuclear Regulatory Commission (NRC) License Termination, Spent Fuel Management, and Site Restoration pursuant to the percentage assigned to each category in the most current Nuclear Decommissioning Study, or update, filed with and relied upon by the Commission pursuant to Rule 25-6.04365, F.A.C. However, the Commission found that the second issue raised by DEF regarding a requirement that DEF obtain prior approval by the Commission for payment of Spent Fuel Management and Site Restoration funds for NRC License Termination Costs was a hypothetical and thus was not proper for a declaratory statement. Final Order No. PSC-13-0452-FOF-EI was issued October 9, 2013, in Docket No. 130207-EI.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Anne Cole, Director, Office of Commission Clerk, 2540 Shumard Oak Blvd., Tallahassee, FL 32399-0850, clerk@psc.state.fl.us, (850)413-6770.

Town of Otter Creek

The Florida Department of Environmental Protection (FDEP) has determined that the Town of Otter Creek's project involving construction of a potable water transmission main, and storage, pumping and treatment facilities will not adversely affect the environment. The total estimated project cost is \$3,063,300. The project may qualify for a State Revolving Fund (SRF) loan composed of federal and state funds. FDEP will consider public comments about the environmental impacts of the proposed project that are postmarked or delivered at the address below within 30 days of this notice. A full copy of the FCEN can be obtained by writing to: Brian Moody, SRF Program, FDEP, 2600 Blair Stone Road, MS #3505, Tallahassee, Florida 32399-2400, calling (850)245-7546 or emailing Brian.Moody@dep.state.fl.us.

DEPARTMENT OF ECONOMIC OPPORTUNITY
 Division of Community Development
 Final Order No.: DEO-13-107
 In re: A LAND DEVELOPMENT REGULATION
 ADOPTED BY MONROE COUNTY, FLORIDA,
 ORDINANCE NO. 025-2013

FINAL ORDER
APPROVING MONROE COUNTY ORDINANCE
NO. 025-2013

The Department of Economic Opportunity (“Department”) hereby issues its Final Order, pursuant to §§ 380.05(6) and 380.0552(9), Fla. Stat., approving land development regulations adopted by Monroe County, Florida, Ordinance No. 025-2013 (the “Ordinance”).

FINDINGS OF FACT

The Florida Keys Area is designated by § 380.0552, Fla. Stat., as an area of critical state concern. Monroe County is a local government within the Florida Keys Area.

The Ordinance was adopted by Monroe County on July 17, 2013, and rendered to the Department on August 26, 2013.

The Ordinance amends Section 130-160 of the Land Development Code, entitled “Transferrable Development Rights,” to provide that transferrable development rights shall come from Conservation (C), Mainland Native (MN), Native Areas (N), Offshore Island (OS), Parks and Refuge, or Sparsely Settled land use designations or contain specified habitat types, but not both. The Ordinance also amends Section 130-160(a)(4) to provide that the assignment of transferrable development rights to receiver sites designated Tier I shall be discouraged instead of prohibited.

CONCLUSIONS OF LAW

The Department is required to approve or reject land development regulations that are adopted by any local government in an area of critical state concern. §§ 380.05(6) and (11) and § 380.0552(9), Fla. Stat. Monroe County is a local government in the Florida Keys Area of Critical State Concern.

“Land development regulations” include local zoning, subdivision, building, and other regulations controlling the development of land. § 380.031(8), Fla. Stat. The regulations adopted by the Ordinance are land development regulations.

All land development regulations enacted, amended, or rescinded within an area of critical state concern must be consistent with the principles for guiding development for that area. §§ 380.05(6) and 380.0552(9), Fla. Stat. The Principles for Guiding Development for the Florida Keys Area of Critical State Concern are set forth in § 380.0552(7), Fla. Stat.

The Ordinance is consistent with the Principles for Guiding Development as a whole, and specifically furthers the following Principles:

(b) Protecting shoreline and marine resources, including mangroves, coral reef formations, seagrass beds, wetlands, fish and wildlife and their habitat.

(c) Protecting upland resources, tropical biological communities, freshwater wetlands, native tropical vegetation, dune ridges and beaches, wildlife, and their habitat.

(f) Enhancing natural scenic resources, promoting the aesthetic benefits of the natural environment, and ensuring that development is compatible with the unique historic character of the Florida Keys.

The Ordinance is consistent with Future Land Use Element Objective 101.11 and Policy 101.13.4, and with Coastal and Conservation Element Policy 204.2.1, in the Monroe County Comprehensive Plan.

WHEREFORE, IT IS ORDERED that Monroe County Ordinance No. 025-2013 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern and is hereby APPROVED.

This Order becomes effective 21 days after publication in the Florida Administrative Register unless a petition is timely filed as described in the Notice of Administrative Rights below.

DONE AND ORDERED in Tallahassee, Florida.
