**Section II
Proposed Rules**

WATER MANAGEMENT DISTRICTS

Southwest Florida Water Management District

RULE NO.: 40D-1.608 RULE TITLE: Permit Fee Reduction for Certain Counties and Municipalities

PURPOSE AND EFFECT: The purpose of this rulemaking is to amend Rule 40D-1.608, F.A.C., to clarify requirements for entities requesting a permit fee reduction pursuant to Section 218.075, F.S. The effect will be to simplify the rule and facilitate fee reductions when requested.

SUMMARY: The proposed amendments delete an outdated list of population requirements for the exemption as well as a list of factors, any one of which a permit applicant may rely upon to demonstrate financial hardship, that duplicates the list found in the statute. Finally, the rule deletes some unnecessary procedural requirements.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: There are no costs to the regulated public as a result of

the proposed amendments. Therefore, this rulemaking will not result in any adverse economic impacts or regulatory cost increases that require legislative ratification.

A SERC was not prepared because this rulemaking effort essentially deletes language that is already contained in Section 218.075, F.S., and the rule references Section 218.075, F.S. After repeal, the applicant will be required to submit documentation certifying that the applicant is eligible for a reduced fee pursuant to Section 218.075, F.S. The certification may be in the form of a letter explaining the applicant’s eligibility. Compliance is not expected to increase permittee costs significantly enough to broach the 1-year, \$200,000 regulatory cost threshold. None of the affected entities are small businesses.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

~~40D-1.608 Permit Fee Reduction for Certain Counties, and Municipalities, and Other Authorized Entities.~~

~~(1) A permit applicant requesting a permit fee reduction pursuant to Section 218.075, F.S., shall submit, at the time of application for a permit, documentation that the population requirements of the statute have been met and: The following entities shall be eligible for permit fee reduction:~~

~~(a) Certification, as required by Section 218.075, F.S., that the cost of a permit processing fee constitutes a fiscal hardship; or Counties within the District with a population of 50,000 or less;~~

~~(b) Documentation demonstrating the environmental need for the proposed project or activity. Municipalities within the District with a population of 25,000 or less; and~~

~~(c) Any county or municipality not included within a metropolitan statistical area.~~

~~(2) Normally applicable permit application fees will apply when the fee is less than \$100.00. In order for a county or municipality which is described in one of the above categories to qualify for a permit fee reduction, the governing body of the county or municipality must submit and certify that the fee reduction is necessary due to fiscal hardship.~~

~~(3) The submission of a certification pursuant to Section 218.075, F.S., and this section shall be a factor in determining whether the permit applicant can provide reasonable assurance of conditions of issuance for an environmental resource permit with required mitigation. The governing body shall certify to the District, with supporting documentation, that the fiscal hardship is due to at least one of the following factors:~~

~~(a) Per capita taxable value is less than the statewide average for the current fiscal year;~~

~~(b) Percentage of assessed property value exempt from ad valorem taxation is higher than the statewide average for the current fiscal year;~~

~~(c) Any condition specified in Section 218.503, F.S., that determines a state of financial emergency;~~

~~(d) Ad valorem operating millage rate for the current fiscal year is greater than 8 mills; or~~

~~(e) A financial condition documented in annual financial statements at the end of the current fiscal year which indicates an inability to pay the permit fee during that fiscal year.~~

~~(4) Upon receipt of the above certification, with the supporting documentation, the District shall review and determine the fee is reduced to \$100.00 for the proposed activity.~~

~~(5) The certification shall be submitted at the time of application for a permit pursuant to Chapter 40D-2, 40D-4, 40D-40 or 40D-400, F.A.C.~~

~~(6) Unless at the time of submittal of an application either the appropriate fee or a certification pursuant to this section is submitted, the application shall be subject to denial.~~

~~(7) The submission of a certification pursuant to this section shall be a factor in determining whether the county or municipality can provide reasonable assurance of conditions of issuance for an environmental resource permit with required mitigation.~~

64B8-15.002 Introduction.

~~(1) In 1986, Florida enacted legislation governing the certification of foreign medical schools. The intent of the Legislature is best expressed in Section 458.314(1), Florida Statutes (1986 Supp.), in which the Legislature recognized the need to ensure that graduates of foreign medical schools who have received an education which is reasonably comparable to that of similar accredited institutions in the United States and which adequately prepares its students for the practice of medicine shall be subject to the same licensure requirements as graduates of accredited medical schools or colleges. The stated purpose of the legislation is to provide for the evaluation of foreign medical schools and the certification of those foreign medical schools which provide an education which is reasonably comparable to that of similar accredited institutions in the United States and which adequately prepare their students for the practice of medicine.~~

(2) In order to determine reasonable comparability between the medical education programs of foreign medical schools seeking certification and accredited medical schools in the United States, the Department shall employ the standards published by the Liaison Committee on Medical Education (LCME), known as Functions and Structure Structures of a Medical School, (May 2012) which is hereby incorporated by reference and available at http://www.lcme.org/functions.pdf . ~~have served~~ as a basis for the development of standards for Florida's certification program. Portions of the LCME standards which are primarily applicable in the United States have been eliminated or modified where appropriate.

~~(3) In the United States medical education leading to the degree of Doctor of Medicine (M.D.) is evaluated by the LCME, a committee of the Association of American Medical Colleges and the American Medical Association. The LCME is recognized by the U.S. Department of Education as the accrediting agency for programs of medical education leading to the first professional degree in the United States. The LCME has 18 members including both physicians and non-physicians; medical students and a representative of the Committee for the Accreditation of Canadian Medical Schools.~~

(4) ~~The LCME publishes guidelines for the structure and functions of a medical school which are designed to allow flexibility among schools while requiring that each meets defined basic standards. The LCME has the authority and responsibility to evaluate the quality of each educational program and to withhold or withdraw accreditation from any school which in its judgment fails to meet minimum standards.~~

~~(5) The standards which Florida has developed are known as Florida Standards for Certification of Foreign Medical Education Programs (Florida Standards). Florida has also developed a Florida Medical Education Data Base, adapted from the LCME Medical Education Data Base, designed to elicit from the school the basic information necessary to form a preliminary judgment concerning foreign medical education programs.~~

~~(6) To the extent the standards herein are consistent with LCME standards, interpretations given the standards by the LCME shall be relied upon.~~

RULE TITLE: Inmate Substance Abuse Testing
NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 38, No. 72, November 15, 2012 issue of the Florida Administrative Register.
