RULE NO.: RULE TITLE:

61G20-3.015 Equivalence of Standards

PURPOSE AND EFFECT: The purpose and effect is to review standards for equivalency to those referenced in the Florida Building Code and authorize the use of the alternative standards for Florida Product Approval.

SUMMARY: Statute permits the Commission to determine the equivalency of standards not specifically adopted within the Building Code for purposes of state product approval. The rule is amended to recognize the equivalency of the standards identified.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Commission conducted an analysis of the proposed rule’s potential economic impact and determined that it did not exceed any of the criteria established in Section 120.541(2)(a), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

The Florida Department of Health hereby gives notice: on February 17, 2014, the Department of Health issued an order in response to a petition for an emergency waiver filed on January 17, 2014, by Bruce Stowe, representing Roth Global Plastics, Inc., regarding the “Repair Adding Posts in Existing Tank”.
