Section I

Notice of Development of Proposed Rules and Negotiated Rulemaking

DEPARTMENT OF ENVIRONMENTAL PROTECTION

RULE NO.: RULE TITLE:

62-342.700 Financial Responsibility

PURPOSE AND EFFECT: The purpose of this rule development is to amend the existing rule to allow mitigation banks established under Part IV of Chapter 373, F.S., to use certain forms of insurance as a means of demonstrating the financial responsibility required pursuant to Section 373.4136(1)(i), F.S. The effect of this rule development would be to establish an additional mechanism for demonstrating the required "financial responsibility for the construction, operation, and long-term management of a mitigation bank" in rule, in accordance with Section 373.4136(11)(a), F.S.

SUBJECT AREA TO BE ADDRESSED: Rule 62-342.700, F.A.C., will be amended to allow mitigation banks to use certain forms of insurance as a means of demonstrating financial responsibility. Other mechanisms of demonstrating financial responsibility currently authorized in the rule (i.e., surety bond, performance bond, trust fund, standby trust fund and irrevocable letter of credit) would remain unaffected.

RULEMAKING AUTHORITY: 373.4131, 373.4136(11) FS. LAW IMPLEMENTED: 373.4131, 373.4135, 373.4136 FS.

IF REQUESTED IN WRITING AND NOT DEEMED UNNECESSARY BY THE AGENCY HEAD, A RULE DEVELOPMENT WORKSHOP WILL BE NOTICED IN THE NEXT AVAILABLE FLORIDA ADMINISTRATIVE REGISTER.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT, IF AVAILABLE, IS: Alice Heathcock, Florida Department of Environmental Protection, 2600 Blair Stone Road, MS 2500, Tallahassee, FL 32399-2400, telephone: (850)245-8483, e-mail: alice.heathcock@dep.state.fl.us or facsimile: (850)245-8499. (OGC NO. 15-0140)

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS NOT AVAILABLE

DEPARTMENT OF CHILDREN AND FAMILIES

Mental Health Program

RULE NOS.: RULE TITLES: 65E-12.103 Definitions

65E-12.104 Licensing Procedure

65E-12.106 Common Minimum Program Standards

PURPOSE AND EFFECT: The purpose of the proposed rule is to update existing licensure requirements and practice standards for Crisis Stabilization Units and Short-Term Residential Treatment Programs. The effect will be the simplification of the regulatory process and a decrease in the administrative burden for entities licensed to provide crisis stabilization services and operate short-term residential treatment programs.

SUBJECT AREA TO BE ADDRESSED: The proposed rule addresses public mental health crisis stabilization units and short-term residential treatment programs.

RULEMAKING AUTHORITY: 381.0035(4), 394.461, 394.879(1), (2) FS.

LAW IMPLEMENTED: 381.0035, 386.041, 394.455, 394.457, 394.4572, 394.459, 394.463, 394.465, 394.66, 394.67, 394.77, 394.875, 394.876, 394.878, 394.903, 394.907, 415.103, 458.347, 464.003, 464.012, 465.003 FS.

IF REQUESTED IN WRITING AND NOT DEEMED UNNECESSARY BY THE AGENCY HEAD, A RULE DEVELOPMENT WORKSHOP WILL BE NOTICED IN THE NEXT AVAILABLE FLORIDA ADMINISTRATIVE REGISTER.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 2 days before the workshop/meeting by contacting: Krystle Cacci, Policy Analyst, 1317 Winewood Boulevard, Building 6, Tallahassee, Florida 32399-0700, (850)717-4437, Krystle.Cacci@myflfamilies.com. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT, IF AVAILABLE, IS: Krystle Cacci, Policy Analyst, 1317 Winewood Boulevard, Building 6, Tallahassee, Florida 32399-0700, (850)717-4437, Krystle.Cacci@myflfamilies.com

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS AVAILABLE AT NO CHARGE FROM THE CONTACT PERSON LISTED ABOVE.

Section II Proposed Rules

AGENCY FOR STATE TECHNOLOGY

RULE NOS.: RULE TITLES:

74-1.001 Purpose and Applicability; Definitions 74-1.002 Risk and Complexity Assessment

74-1.003 Initiation 74-1.004 Planning 74-1.005 Execution

74-1.006 Monitoring and Controlling

74-1.007 Closeout

74-1.008 Compliance with the Florida Information

Technology Project Management and

Oversight Standards

74-1.009 Agency for State Technology Oversight

PURPOSE AND EFFECT: The purpose of this rule is to implement the provisions of Section 282.0051(3), F.S., establishing project management and oversight standards with which state agencies must comply when implementing information technology projects.

SUMMARY: The proposed rulemaking adopts new rules that establish Rules 74-1.001 through 74-1.009, F.A.C. as the Florida Information Technology Project Management and Oversight Standards, and provides project management and standards that state agencies must comply with when implementing information technology projects.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: the economic review conducted by the Agency.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 282.0051(18) FS.

LAW IMPLEMENTED: 282.0051 FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: April 27, 2015, 2:00 p.m.

PLACE: Via telephone conference call at: 1(888)670-3525,

participant pass code is: 889 868 0249

For anyone wishing to attend in person: First District Court of Appeal, 2000 Drayton Drive, Room 1183, Tallahassee, Florida 32399

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Shelley McCabe at (850)412-6057 or at shelley.mccabe@ast.myflorida.com

THE FULL TEXT OF THE PROPOSED RULE IS:

74-1.001 Purpose and Applicability; Definitions.

(1) Purpose and Applicability

(a) Rules 74-1.001, F.A.C., through 74-1.009, F.A.C., will be known as the Florida Information Technology Project Management and Oversight Standards.

(b) The purpose of this Rule is to:

Establish project management and oversight standards when implementing information technology (IT) projects. These standards are documented in Rule 74-1.002, F.A.C., through 74.1.008, F.A.C. State Agencies must comply with these standards when implementing IT projects, and Cabinet Agencies are required to either adopt these standards or adopt alternative standards based on best practices and industry standards. However, in accordance with Section 282.00515, F.S., for projects that have a total cost of \$25 million or more and that impacts one or more other agencies, Cabinet Agencies must adopt the standards documented in Rule 74-1.002, F.A.C., through 74.1-008, F.A.C.

Establish oversight standards that the Agency for State Technology (AST) will use for oversight of IT projects. These standards apply to IT projects of State Agencies that have a total cost of \$10 million or more and that are funded in the General Appropriations Act or any other law; and IT projects of Cabinet Agencies with a total cost of \$25 million or more and that impact one or more other agencies. (Per Sections 282.0051(4) and 282.0051(15) (a) (b), F.S.). These standards are documented in Rule 74-1.009, F.A.C.

(c) Operations and Maintenance (O&M) activities intended to support an existing product or service to keep it in conformance with its originally intended specifications are exempt from these standards.

(d) These standards, per Section 282.0051(3), F.S., also address:

Performance measurements and metrics that objectively reflect the status of an IT project based on a defined and documented project schedule, cost, and scope.

Methodologies for calculating acceptable variances in the projected versus actual schedule, cost, and scope of an IT project.

Reporting requirements, including requirements designed to alert all defined stakeholders that an IT project has exceeded acceptable variances.

Content, format, and frequency of project updates.

- (e) In 2016, AST will begin conducting annual assessments to determine Agency compliance with the the Florida Information Technology Project Management and Oversight Standards set forth in Rule 74.1.008, F.A.C., (Per Section 282.0051(10), F.S.).
- (f) State Agencies and Cabinet Agencies will incorporate the Florida Information Technology Project Management and Oversight Standards set forth in this rule in competitive solicitations and procurement documents or contract agreements for IT projects.
 - (2) Definitions.
 - (a) The following terms are defined:
- 1. Action Item A documented event, task, activity, or action that needs to take place. Action Items are discrete units that are assigned to a single person for tracking and reporting until resolution.
- 2. Agency(ies) For purposes of this Rule means State Agencies, Cabinet Agencies that do not adopt alternative project management standards based on best practices and industry standards pursuant to section 282.00515, F.S., and Cabinet Agencies with IT projects that have a total project cost of \$25 million or more and that impact one or more other Agencies.
 - 3. AST Agency for State Technology.
- 4. Baselined Schedule The agency-approved version of the project schedule that can be changed only through formal change control procedures. This document is used as a basis for Earned Value Analysis.
- <u>5. Cabinet Agency(ies) The Department of Legal Affairs, the Department of Agriculture and Consumer Services, and the Department of Financial Services.</u>
- 6. Change Control a formal process used to ensure that changes to a project (such as documents, deliverables, or baselines) are introduced and approved in a controlled and coordinated manner.
- 7. Complexity Technological and management characteristics of the project and the potential impacts, both positive and negative, that these characteristics could have on the project's risks.
- 8. Corrective Action Plan A plan that illustrates corrective actions required to bring the project back within established schedule, cost, and scope parameters.
- 9. Cost Performance Index (CPI) A ratio that represents project efficiency in terms of how much a project is actually spending compared to the planned spending as of a specific date.

- <u>10. Earned Value An approach to measuring project</u> performance that is based on comparing actual progress against planned progress as of a specific date.
- 11. Earned Value Analysis An approach to measuring project performance that is based on comparing actual progress against planned progress.
- 12. Independent Verification and Validation (IV&V) –A review of the project plans and other project artifacts by an independent third party. The primary objective of an IV&V is to provide an objective assessment of products and processes throughout the project management lifecycle. In addition, IV&V will facilitate early detection and correction of errors, enhance management insight into risks, and ensure compliance with project performance, schedule, and budget requirements. The IV&V entity must have no technical, managerial, or financial interest in the project (or Agency) and will not have any responsibility for, or participation in, any other aspect of the project.
- 13. Information Technology Equipment, hardware, software, firmware, programs, systems, networks, infrastructure, media, and related material used to automatically, electronically, and wirelessly collect, receive, access, transmit, display, store, record, retrieve, analyze, evaluate, process, classify, manipulate, manage, assimilate, control, communicate, exchange, convert, converge, interface, switch, or disseminate information of any kind or form as defined in Section 282.0041 (11), F.S..
- 14. Issue A significant, certain occurrence impacting planned project execution that the project team must identify and address. An issue must be resolved as soon as possible; otherwise, it will have detrimental effects on the project.
- 15. PMP® Certified Project Manager Project Management Professional (PMP®) is a certification administered by the Project Management Institute that demonstrates experience, education, and competency to lead and direct projects.
- 16. Project An endeavor that has a defined start and end point; is undertaken to create or modify a unique product, service, or result; and has specific objectives that, when attained, signify completion as defined in Section 282.0041 (16), F.S.
- 17. Project Change Something that is outside the documented and approved project scope or is a change to baselined project requirements, project schedule, or project cost (including resource effort). A project change requires approval, by project governance, for additional resources, funding, or modifications to the project schedule.
- 18. Project Governance Project governance is an oversight process aligned with (but separate from) the Agency management structure. Project governance provides the project manager, project team, project sponsor(s), and all

- stakeholders with structure, processes, decision-making models, and tools to ensure the successful management of the project and delivery of the product. It includes a framework for making project decisions (including project change control and deliverable acceptance) and defining roles, responsibilities, and accountabilities for the success of the project.
- 19. Project Life Cycle (PLC) The project life cycle encompasses all the project management activities of the project grouped by the standard PLC phases of Initiation, Planning, Execution, Monitoring and Control, Execution, and Closure.
- 20. Project Oversight Independent review and analysis of an information technology project that provides information on the project's scope, completion timeframes, and budget and that identifies and quantifies issues or risks affecting the successful and timely completion of the project as defined in Section 282.0041 (17), F.S.
- 21. Project Management Plan The document that defines how the Agency will execute, monitor, control, and close the project.
- 22. Project Schedule A listing of a project's milestones, activities, and deliverables, with work estimates and start and finish dates. These estimates include budget and resource allocation, as well as task sequencing and dependencies.
- 23. Project Sponsor The State Agency senior management role that approves the allocation of resources for an endeavor, develops a common vision, provides ongoing commitment to the project, and continually assesses success.
- 24. Project Variance A quantifiable or qualitative deviation from an approved baseline or expected value. AST will use Cost Performance Index (CPI) and Schedule Performance Index (SPI) calculations and budget and scope variance analysis to determine the degree of project variance between project baselines and actual project performance.
- 25. Risk An uncertain event or condition which may or may not happen and uncertainties caused by ambiguity or a lack of information. A Risk could have a negative or positive impact on one or more project objectives.
- 26. Risk Manager An individual responsible for managing a project's risk, such as conducting risk management planning, risk identification, analysis, response planning, and tracking of risks and mitigation throughout the project.
- 27. Schedule Performance Index (SPI) A ratio that represents how efficiently a project is progressing compared to the project's planned progress.
- <u>28. Scope Baseline Documented scope and objectives</u> set forth in the agency-approved project plan document.

- 29. Scope Variance Deviation from the documented objectives and scope set forth in the agency-approved project plan documents.
- <u>30. Scope Variance Analysis An approach to measuring</u> project performance that is based on comparing actual scope against planned scope.
- 31. Significant Change Significant Change are those changes that will modify a project's approved cost, schedule, or scope, either by themselves or cumulatively, by more than 10%.
- 32. Stakeholder A person, group, organization, or state agency involved in or affected by a course of action as defined in Section 282.0041 (21), F.S.
- 33. State Agency(ies) Any official, officer, commission, board, authority, council, committee, or department of the executive branch of state government; the Justice Administrative Commission; and the Public Service Commission. The term does not include university boards of trustees or state universities. The term does not include the Department of Legal Affairs, the Department of Agriculture and Consumer Services, or the Department of Financial Services as defined in Section 282.0041 (23), F.S. (See Cabinet Agency(ies))
- 34. Trend a series of at least three data points indicating movement upward or downward.
- 35. Work Breakdown Structure (WBS) A hierarchical and deliverable-oriented decomposition of a project into smaller components. The WBS is a framework for overall planning and is the basis for dividing work into definable increments from which schedule, cost, and scope can be defined.
- <u>Rulemaking Authority § 282.0051(3), Fla. Stat. (2014). Law Implemented § 282.0041, 282.0051 Fla. Stat. (2014).</u>

74-1.002 Risk and Complexity Assessment.

- (1) The Agency will perform Risk & Complexity Assessments (R&C Assessments) for information technology (IT) projects to evaluate the risk and complexity factors for each IT project. The purpose of the assessments is to determine the minimum level of project management control necessary to manage a given project in order to reduce risk and increase the probability of success.
- (2) These assessments align projects by risk and complexity levels into one (1) of four (4) Risk and Complexity (R&C) Categories, which determine the amount of project management control required. The following diagram indicates the distribution of risk and complexity levels into the R&C Category:

			Complexity	<u>/</u>
		Low	<u>Medium</u>	<u>High</u>
	<u>Low</u>	1	1	<u>2</u>
Risk	Medium	<u>2</u>	<u>2</u>	<u>3</u>
	<u>High</u>	<u>3</u>	<u>3</u>	<u>4</u>

- (a) Category 4 represents High Risk and High Complexity projects.
- (b) Category 3 represents High Risk and Medium Complexity projects, High Risk and Low Complexity projects, or Medium Risk and High Complexity projects.
- (c) Category 2 represents Medium Risk and Medium Complexity projects, Medium Risk and Low Complexity projects, or Low Risk and High Complexity projects.
- (d) Category 1 represents Low Risk and Medium Complexity projects or Low Risk and Low Complexity projects.
- (e) Specific lifecycle phase requirements for each category are identified in Rules 74-1.003, F.A.C. Initiation, 74-1.004, F.A.C. Planning, 74-1.005, F.A.C. Execution, 74-1.006, F.A.C. Monitoring and Controlling, and 74-1.007, F.A.C. Closure.
- (3) The R&C Assessments are conducted using Form AST-F-0505A, AST Risk & Complexity Assessment Workbook. This workbook is used by Agencies to determine the cumulative R&C Category designation. The R&C Assessment Workbook is divided into seven (7) separate assessment worksheets which are conducted at four (4) key points in the project management life cycle. Form AST-0505A, AST Risk & Complexity Assessment Workbook, is hereby incorporated by reference in this Rule. Form AST-0505A can be found on the AST web site at: http://www.ast.myflorida.com/.
- (a) The Agency must complete a Pre-Charter R&C Assessment (consisting of a Risk worksheet and a Complexity worksheet) at the start of the Initiation phase of the project. During this assessment, the Agency will review priorities and business need, assess the project, and analyze factors that might impact project success. The resulting R&C Category establishes the project management control requirements to be applied during the project Initiation phase. (See Rule 74-1.003, F.A.C. Initiation)
- (b) The Agency must complete an Initiation Gate R&C Assessment at the end of the Initiation phase following completion of project Initation documentation. During this assessment, the Agency will review Initiation documents, validate or amend the previous R&C assessment findings, and complete the Initiation Gate R&C Assessment

(consisting of a Risk worksheet and a Complexity worksheet). This assessment will confirm or adjust the project's cumulative risk & complexity level and resulting R&C Category, examine the effectiveness of Initiation phase activities, and set requirements for the project Planning phase. (See Rule 74-1.004, F.A.C. - Planning)

- (c) The Agency must complete a Planning Gate R&C Assessment at the end of the Planning phase, following completion of project planning documentation. During this assessment, the Agency will review project documents, validate or amend the previous R&C assessment findings, and complete the Planning Gate R&C Assessment (consisting of a Risk worksheet and a Complexity worksheet). This assessment will confirm or adjust the project's cumulative risk and complexity level and resulting R&C Category, examine the effectiveness of Planning phase activities, and set requirements for the project Execution and Monitoring and Controlling phases. (See Rule 74-1.005, F.A.C. Execution and 74-1.006, F.A.C. Monitoring and Control)
- (d) The Agency must complete an Event-Driven R&C Assessment if the project experiences a significant change, or cumulative changes (in cost, schedule, or scope) from the project baseline. During this assessment, the Agency will review the change control request(s) and project documentation. The Agency will also review, validate or amend the previous R&C assessment findings, and complete the Event-Driven R&C Assessment (consisting of a Risk worksheet). This assessment will confirm or adjust the project's cumulative risk & complexity level and resulting R&C Category and determine if review and amendment to project management baselines are needed.

<u>Rulemaking Authority § 282.0051(3), Fla. Stat. (2014). Law Implemented § 282.0041, 282.0051 Fla. Stat. (2014).</u>

74-1.003 Initiation

- (1) Project Initiation is the first phase in the project management lifecycle. In the Initiation phase, information technology projects are transitioned from ideas to a viable project proposal (through the Agency's project request process) for consideration and approval by the Agency's management.
- (2) The Agency must complete the Pre-Charter Risk and Complexity (R&C) Assessment for the project (see 74-1.002, F.A.C. Risk and Complexity Assessment). This assessment will provide the project risk and complexity levels and resulting R&C Category, which will define the management control activities required for the Initiation phase.
- (3) The following matrix lists Initation phase activities and documents required for the project based on its R&C Category as determined by the Pre-Charter R&C Assessment.

- (4) If an individual document listed in the matrix below is not required for a given R&C Category, the Agency is still expected to conduct the planning activity and summarize the results in the Project Charter.
- (5) Specific document templates are not prescribed any project documentation that contains the information specified in the requirements below is acceptable.

(6) The Agency must complete the Initiation Gate R&C Assessment (see 74-1.002, F.A.C. - Risk and Complexity Assessment). This Assessment will confirm or adjust the project's risk and complexity levels and the resulting R&C Category, validate Initiation management control requirements, and set management control requirements for the subsequent Planning Phase.

<u>Rulemaking Authority § 282.0051(3), Fla. Stat. (2014). Law Implemented § 282.0041, 282.0051 Fla. Stat. (2014).</u>

74-1.004 Planning.

(1) In the Planning phase, the Agency develops and approves detailed project planning documents.

- (2) The following matrix lists planning activities and documents required for the project based on the project's Risk and Complexity (R&C) Category.
- (a) Specific document templates are not prescribed any project documentation that contains the information specified in the requirements below is acceptable.
- (b) This documentation, whether created separately or combined as a single document, constitutes the Project Management Plan.
- (3) If an individual document listed in the matrix below is not required for a given R&C Category, the Agency is still expected to conduct the planning activity and summarize the results in the Project Plan Summary.

(4) The Agency must complete the Planning Gate R&C Assessment at the end of the Planning Phase (see 74-1.002, F.A.C. - Risk and Complexity Assessment). This Assessment will confirm or adjust the project's risk and complexity levels and the resulting R&C Category, validate Planning management control requirements, and set management control requirements for the subsequent Execution and Monitoring and Controlling phases.

Rulemaking Authority § 282.0051(3), Fla. Stat. (2014). Law Implemented § 282.0041, 282.0051 Fla. Stat. (2014).

74-1.005 Execution.

- (1) The Execution phase involves carrying out and managing all the activities described in the Project Management Plan.
- (2) The majority of Execution phase activities and documentation will be associated with the Agency's specific Systems Development Life Cycle (SDLC) process and requirements.

(3) All changes to the approved and baselined Project Management Plan (project schedule, cost, or scope) must follow the Agency's project change control and governance processes.

Operations and Maintenan ce (O&M) Plan	Develop an O&M Plan prior to the scheduled completio n of the project's Execution phase. Obtain concurren ce from financial, informatio n technolog y, and operationa l managers on their readiness to support the system from a budgetary, staffing, technolog y, and operationa l perspectiv e after go- live.	Requ ired	Requ ired	Require d	Required

(4) Agency project management activities required during the Execution phase are further described in 74-1.006, F.A.C. - Monitoring and Controlling.

Rulemaking Authority § 282.0051(3), Fla. Stat. (2014). Law Implemented § 282.0041, 282.0051 Fla. Stat. (2014).

74-1.006 Monitoring and Controlling.

(1) Project Monitoring and Controlling spans all phases of the project and involves the regular review of project status in order to identify variances from approved project schedule, cost, and scope.

Risk & Complexity Category

MONITORING AND

- (2) Risk and Complexity (R&C) Category 4 and 3
 Projects will use Earned Value analysis to ensure that the schedule provides an accurate representation of project status.

 (a) Schedule Performance Index (SPI)
- 1. SPI is a measure of schedule efficiency expressed as a ratio of Earned Value (EV) to Planned Value (PV): SPI = EV/PV, where Earned Value is the measure of work performed expressed in terms of the budget amount authorized for that work, and Planned Value is the authorized budget assigned to scheduled work. Planned Value corresponds to the approved baseline budget.
- 2. A SPI value of less than 1.0 indicates that less work was completed, in a given time frame, than was planned.
- 3. A SPI value greater than 1.0 indicates that more work was completed, in a given time frame, than was planned.
 - (a) Cost Performance Index (CPI)
- 1. CPI is a measure of cost efficiency of budgeted resources for the work completed. CPI is expressed as a ratio of Earned Value (EV) to Actual Cost (AC): CPI = EV/AC, where Earned Value is the measure of work performed expressed in terms of the budget amount authorized for that work, and Actual Cost is the realized cost incurred for the work performed on an activity or set of activities during a specific time period.
- 2. A CPI value of less than 1.0 indicates a cost overrun for work completed, in a given time frame.
- 3. A CPI value greater than 1.0 indicates a cost underrun of performance to date.
- (3) The following matrix details Monitoring and Controlling documentation and activities required for the project based on the project's R&C Category.

the Project		
Charter.		

- (4) The Agency must archive all agency and third-party project documentation or artifacts.
- (5) The Agency will ensure that system operations are transitioned to the appropriate support and operational entities in conformance with the Operations and Maintenance Plan.

 Rulemaking Authority § 282.0051(3), Fla. Stat. (2014). Law Implemented § 282.0041, 282.0051 Fla. Stat. (2014).
- <u>74-1.008 Compliance with the Florida Information</u> <u>Technology Project Management and Oversight Standards.</u>
- (1) Agencies as defined in Rule 74-1.001, F.A.C., must comply with the Florida Information Technology Project Management and Oversight Standards.
- (2) The Florida Information Technology Project Management Standards set forth in Rule 74-1.001 through 74-1.008, F.A.C. will be applied to existing Agency information technology projects based on their current project management lifecycle phase as of July 1, 2015.
- 1. Projects that have not been approved for Initiation by the Agency must implement all sections of the standards set forth in this Rule.
- 2. Projects that are in the Planning phase will undergo a Planning Gate Risk and Complexity Assessment upon completion of their detailed plans and will be subject to the project management control requirements of the standards set forth in this Rule from that point. (See 74-1.002, F.A.C. Risk and Complexity Assessment and 74-1.004, F.A.C. Planning.)
- 3. Projects that are in the Execution phase will continue to operate under the specific Agency's project management procedures, unless a significant Change Request is submitted.
- (3) Agency for State Technology (AST) will annually assess Agency compliance with the standards set forth in this Rule pursuant to Section 282.0051(10), F.S.
- (a) AST will assess compliance with the standards set forth in this Rule via assessments of a subset of the Agency's IT projects.
- (b) The Agency will provide the documentation or other artifacts required by the standards set forth in this Rule for AST assessment.
- (c) AST will provide results of this compliance assessment to the Agency, the Executive Office of the Governor, the President of the Senate, and the Speaker of the House.

- (4) Agencies may request a waiver from compliance with the standards set forth in this Rule as defined in Section 120.542, F.S.
- (5) Agencies may request alternative compliance with Rule 74-1.003, F.A.C., through Rule 74-1.007, F.A.C., if the Agency has developed equivalent information technology project management and oversight processes and procedures.
- (a) The Agency Head will make an alternative compliance request to AST. The request must include a detailed document (with any necessary reference or template materials) that maps the Agency's current information technology project management and oversight processes and procedures to the specific requirements of the Florida Information Technology Project Management and Oversight Standards set forth in Rule 74-1.003, F.A.C., through Rule 74-1.007, F.A.C.
- (b) AST will review the Agency's request to determine if the Agency's project management and oversight processes and procedures are in compliance with or exceed the standards set forth in Rule 74-1.003, F.A.C., through Rule 74-1.007, F.A.C.
- (c) AST will report its findings for alternative compliance to the requesting Agency within 20 business days of receipt of the request.
- 1. If AST determines the Agency's current information technology project management and oversight processes and procedures meet the requirements of the standards set forth in Rule 74-1.00, F.A.C., through Rule 74-1.007, F.A.C., the AST will acknowledge alternative compliance to the Agency.
- 2. If AST determines the Agency's current information technology project management and oversight processes and procedures do not, in part or all, meet the requirements of the standards set forth in Rule 74-1.003, F.A.C., through Rule 74-1.007, F.A.C., AST will identify those sections of the Agency's current processes that will be allowed alternative compliance, and the remainder of the Agency's efforts must adhere to the standards set forth in Rule 74-1.003, F.A.C., through Rule 74-1.007, F.A.C..
- (a) Agencies receiving alternative compliance status are subject to the compliance assessment process described in (2) above.
- <u>Rulemaking Authority § 282.0051(3), Fla. Stat. (2014). Law Implemented § 282.0041, 282.0051 Fla. Stat. (2014).</u>
 - 74-1.009 Agency for State Technology (AST) Oversight.
- (1) Section 282.0051(4), F.S., requires AST oversight on Agency information technology projects that have total project costs of \$10 million or more and that are funded in the General Appropriations Act or any other law.
- (2) Section 282.0051(15), F.S., requires AST oversight on Cabinet Agency information technology projects with a total project cost of \$25 million or more and that impacts one or more other agencies.

- (3) Agencies will participate and assist AST in oversight of a project as follows:
- (a) The Agency and AST will cooperate to establish agreed-upon project oversight parameters (including schedule, cost, and scope) that will serve as the basis against which all project variances will be measured.
- 1. The project oversight parameters must be reviewed and approved by the Agency Project Sponsor (or designee), the Agency Project Manager, and the AST Project Assurance Manager.
- 2. The project oversight parameters may be revised during the life of the project based upon completion of the Agency's formal change control and governance process. Revision to the parameters must be reviewed and approved by the Agency Project Sponsor (or designee), the Agency Project Manager, and the AST Project Assurance Manager.
- (b) The Agency will provide the project's Risk Management Plan to AST within 15 business days of the approval of the project oversight parameters. AST will review the plan and provide comment(s) to the Agency within 15 business days.
- (c) The Agency will update the project schedule weekly and provide the updated schedule to AST. AST will review the project schedule weekly and will identify and track trends in Schedule Performance Index and Cost Performance Index.
- (d) The Agency will update project documentation (schedule, spend plan, scope, risk and issues) at the end of each month and provide these documents to the AST no later than the 10th day of the following month.
- (e) AST will review and document the project's progress on a monthly basis. The purpose of the review is to determine schedule, cost, and scope variances, and assess project risk and issues.
- 1. If the monthly review indicates that the project exceeds acceptable variance ranges (measured against project parameters) in schedule, cost, or scope, AST will perform a diagnostic risk assessment, which will result in preliminary findings and recommendations for project corrective action.
- 2. The Agency will respond in writing to AST's findings and recommendations within 5 business days of receipt of the findings. This response will include a corrective action plan for bringing the project back within acceptable variance ranges.
- 3. AST will review the preliminary findings, recommendations, and corrective action plan with the Agency.
- 4. AST will finalize the monthly review document (including a summary of the risk assessment, recommendations and the corrective action plan) for review by the Agency and AST management.

- (4) AST will report quarterly to the Executive Office of the Governor, the President of the Senate, and the Speaker of the House of Representatives on any information technology project that AST identifies as high-risk due to the project exceeding acceptable variance ranges (pursuant to Section 282.0051 (4), F.S.). Following the same process as the monthly review described in (3)(e) above, the quarterly report will include a discussion of the risk assessment, including fiscal risks associated with proceeding to the next stage of the project, and a recommendation for corrective actions required, up to and including suspension or termination of the project.
- (5) Any project meeting the criteria for AST oversight must adhere to the requirements of a Risk and Complexity (R&C) Category 4 project.
- (6) The Agency must use a PMP® Certified Project Manager for any project meeting the criteria for AST oversight. If the Agency designates a third party or vendor project manager, the Agency must also designate an Agency employee in a Project Manager role that is ultimately responsible for the execution of the project effort and that serves as the primary point of contact for AST.
- (7) Independent Verification and Validation (IV&V) must be employed for any project that meets the criteria for AST oversight.
- (a) The Agency will include IV&V activities as part of the major milestones listed in the Project Charter developed during the Project Initiation phase and in the Work Breakdown Structure and Schedule detailed in the Planning phase.
- (b) The Agency will include funding for IV&V in the project budget and spend plan(s).
- (c) IV&V contractors will report directly to the AST on any project that meets the critera for AST oversight. The AST will ensure the appropriate distribution of IV&V artifacts to all project stakeholders.

DATES AND TIMES: January 23, 2015, 8:30 a.m.; April 24, 2015, 8:30 a.m.; July 24, 2015, 8:30 a.m.; October 23, 2015, 8:30 a.m.

PLACE: Joseph P. D'Alessandro Office Complex, 2295 Victoria Avenue, Room 307, Fort Myers, FL

GENERAL SUBJECT MATTER TO BE CONSIDERED: Ongoing Lee County Alliance business.

A copy of the agenda may be obtained by contacting: Stephanie Jones at (239)895-0257.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 5 days before the workshop/meeting by contacting: Stephanie Jones at (239)895-0257. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

DEPARTMENT OF ECONOMIC OPPORTUNITY

Division of Community Development

The Department of Economic Opportunity announces a public meeting to which all persons are invited.

DATE AND TIME: Tuesday, April 28, 2015, 9:30 a.m. – 10:30 a.m.

PLACE: Lee County Department of Human Services, Conference Room 102, 2440 Thompson Street, Fort Myers, Florida 33901

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Florida Department of Economic Opportunity (DEO) is seeking a public entity or nonprofit corporation to administer the Weatherization Assistance Program (WAP) in Lee County. Entities interested in contracting with DEO to provide these services should be present at this public meeting in order to be informed of the qualifications, application requirements, and deadline for submitting applications.

Selection of an entity (or entities) will be based on its experience and performance in weatherization or housing renovation activities; in assisting all eligible low-income persons in the applied for geographic area to be served; and its capacity to undertake a timely and effective weatherization program. Preference will be given to any community action agencies or other public or nonprofit entities which have, or are currently administering, an effective DEO funded WAP.

An application will consist of the entity's following qualities as outlined in the U.S. Department of Energy 10 CFR Part 440.15, Subgrantees:

- (1) The extent to which past or current weatherization or other housing renovation programs achieved or are achieving goals in a timely fashion.
- (2) The quality of work performed (monitoring or performance reports).
- (3) The number, qualifications, and experience of the staff members.
- (4) The ability to secure volunteers, train participants and public service employment workers.
- (5) The capacity to maintain compliance with administration and financial management requirements.

DEO will review the submitted applications and make a decision regarding each applicant's eligibility to provide WAP services. Recommendations will then be prepared by DEO's staff for subsequent consideration and approval or disapproval by DEO's Executive Director.

A copy of the agenda may be obtained by contacting: Mr. Norm Gempel, Manager, Weatherization Assistance Program, Florida Department of Economic Opportunity, 107 East Madison Street, MSC 400, Tallahassee, Florida 32399-4120, phone: (850)717-8467, fax: (850)488-2488, email: Norm.Gempel@deo.myflorida.com.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 5 days before the workshop/meeting by contacting: Mr. Norm Gempel, Manager, Weatherization Assistance Program, Florida Department of Economic Opportunity, 107 East Madison Street, MSC 400, Tallahassee, Florida 32399-4120, phone: (850)717-8467, fax: (850)488-2488, email: Norm.Gempel@deo.myflorida.com. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

HOLT COMMUNICATIONS, INC.

The South Florida Regional Transportation Authority (SFRTA) announces a hearing to which all persons are invited.

DATE AND TIME: Wednesday, April 29, 2015, 6:00 p.m.

PLACE: City of Fort Lauderdale City Hall, Commission Chambers, First Floor, 100 N. Andrews Avenue, Fort Lauderdale, Florida 33301

GENERAL SUBJECT MATTER TO BE CONSIDERED: The South Florida Regional Transportation Authority (SFRTA), in partnership with Broward County, the Fort Lauderdale Downtown Development Authority, the City of Fort Lauderdale, Florida Department of Transportation and Broward Metropolitan Planning Organization, will conduct a Public Hearing for the Wave Modern Streetcar. This Public Hearing is being conducted to give interested persons an opportunity to provide input regarding the location, conceptual design, social, economic and environmental effects of the proposed impacts. The proposed improvement involves the construction of a new streetcar system in Downtown Fort Lauderdale. The project would extend approximately 2.8 miles from S 17th Street and S Andrews Avenue, adjacent to Broward General Medical Center, running north to NE 6th Street and NE 3rd Avenue. The north-south alignment of the project would primarily be along Andrews Avenue, Brickell Avenue, and E 3rd Avenue. The Public Hearing will begin as an open house at 6 p.m. with a formal presentation at 6:15 p.m., followed by a public comment period.

The draft project documents and other information will be available for public review beginning Wednesday, April 8 through Monday, May 11 on the project website at www.wavestreetcar.com; the Broward County Main Library at 100 S. Andrews Avenue, Fort Lauderdale, Florida 33301 on Mondays, Thursdays and Fridays from 10:00 a.m. to 6:00 p.m. and on Tuesdays and Wednesdays from 12:00 Noon to 8:00 p.m.; and also at the City of Fort Lauderdale Transportation & Mobility Building, 290 NE 3 Avenue, Fort Lauderdale, Florida 33301 on weekdays between the hours of 8:00 a.m. and 4:00 p.m. Persons wishing to submit written statements or other exhibits, in place of or in addition to oral statements, may do so at the Public Hearing or by sending them to Barbara Handrahan of SFRTA at 800 NW 33rd Street, Pompano Beach, Florida 33064 or by email: handrahanb@sfrta.fl.gov. All exhibits or statements postmarked on or before Monday, May 11, will become a part of the Public Hearing record.

A copy of the agenda may be obtained by contacting: Barbara Handrahan of SFRTA at 800 NW 33rd Street, Pompano Beach, Florida 33064 or by email: handrahanb@sfrta.fl.gov.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least seven (7) days before the workshop/meeting by contacting: Barbara Handrahan at the address or email address listed above or by telephone: (954)788-7974. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).
