RULE NO.:	RULE TITLE:
5N-1.132	Firearms Training
5N-1.134	Firearms Instructor's Training Manual and Certificate of Firearms Proficiency for Statewide Firearm License Schools or Training Facilities, License Application; Exemptions

PURPOSE AND EFFECT: This proposed rulemaking updates firearms instruction requirements, and codifies in new Rule 5N-1.132, F.A.C., guidelines for Class “G” licensee initial firearms qualification, subsequent requalification, and qualification for other types and calibers of firearms. The proposed new rule incorporates a Firearms Training Manual Student Handbook and an Instructor’s Guide, and a revised version of the Certificate of Firearms Proficiency for Statewide Firearm License. The effect of this proposed rulemaking will be to improve firearms training and provide clear guidelines for applicants and licensees.

SUMMARY: Proposed rule amendments update firearms training for Class “G” applicants and licensees by requiring use of and incorporating, both a Firearms Training Manual Student Handbook and a Firearms Training Manual Instructor Guide. Firearms training will focus on the laws governing firearms ownership and possession, legal aspects of liability, and use of deadly force, as well as the mechanical operation and safe handling of a firearm. Also proposed is new Rule 5N-1.132, F.A.C., which codifies guidelines for Class “G” firearms initial qualification, requalification, and qualification for other types and calibers of firearms, and Class “K” instructor requirements. Finally, a revised version of the Certificate of Firearms Proficiency for Statewide Firearm License is incorporated into the proposed new rule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the

aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Department’s analysis of the adverse impact or potential regulatory costs of this proposed new rule indicated that the rule does not meet the statutory threshold for ratification by the legislature as the rule imposes no additional costs on licensees. Instead, the rule provides an updated instructional methodology and clear guidelines regarding qualification for use of a firearm during the course of chapter 493, FS, regulated activities.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 493.6103, 493.6105(5), 493.6115(8), 493.6304(3), 493.6406(3), FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: John Roberts, Government Analyst I, Department of Agriculture and Consumer Services, Division of Licensing, P.O. Box 5708, Tallahassee, Florida 32314, (850) 245-5441, John.Roberts@freshfromflorida.com.

THE FULL TEXT OF THE PROPOSED RULE IS:

5N-1.132 Firearms Training

(1) Initial Firearms Qualification.

(a) Except as provided in section 493.6105(5)(a), F.S., in order to initially qualify for a Class “G” Statewide Firearms License, an applicant must successfully complete 28 hours of range and classroom training taught by a Class “K” firearms instructor. The initial 28-hour firearms course qualifies a Class “G” applicant to use the calibers of revolvers or semiautomatic handguns specified in section 493.6115(6), F.S., that the applicant will use when performing duties regulated under Chapter 493, F.S. A licensee may carry only the specific type and caliber of firearm with which he or she has completed a successful course of training.

(b) As proof of successful completion of firearms training, each Class “G” applicant must submit the original white page from the Certificate of Firearms Proficiency for Statewide Firearms License, provided by his or her Class “K” firearms instructor upon completion of firearms training, to the Division of Licensing at any of the addresses listed in Rule

5N-1.100, F.A.C., of this rule chapter, along with his or her license application.

(2) Annual Firearms Requalification Training and Reporting Requirement.

(a) Each Class “G” license is valid for and subject to renewal every two years. During each 12-month period of the two-year term of the license, including the first 12-month period after the license was initially issued to the license holder, in order to remain eligible to continue to carry a Class “G” license, a Class “G” licensee must successfully complete 4 hours of range and classroom training taught by a Class “K” firearms instructor. Annual requalification training must be specific to each type and caliber of revolver or semiautomatic pistol the licensee carries while performing regulated duties.

(b) Each Class “G” licensee shall provide proof of successful completion of annual requalification training by submitting the original white page from the Certificate of Firearms Proficiency for Statewide Firearms License to the Division of Licensing at any of the addresses listed in Rule 5N-1.100, F.A.C., of this rule. These forms must be submitted each year on or before the month and day that appears on the face of the license as the expiration date.

1. A Class “G” licensee who successfully completes the 4-hour requalification training during the first 12-month period of the two-year term of the license, but who fails to provide proof to the division of having completed the training within the first-year reporting period, will have his or her Class “G” license automatically suspended until such time as the licensee provides proof of having timely received the completed training.

2. A Class “G” licensee who fails to take or to successfully complete the 4-hour annual requalification training during the first 12-month period of the two-year term of the license, will have his or her Class “G” license automatically suspended, and will be required to submit proof of successful completion of another 28 hours of range and classroom training as required at the time of initial licensure, in order for his or her license to be reinstated.

3. A Class “G” licensee who fails to take or to successfully complete the 4-hour annual requalification training during the second 12-month period of the two-year term of the license, will be required to submit proof of successful completion of another 28 hours of range and classroom training as required at the time of initial licensure, before his or her license will be renewed.

(3) Qualification with Other Types and Calibers of Approved Firearms.

(a) A Class “G” licensee whose job duties require him or her to carry a firearm of a type and caliber different from or in addition to the firearm upon which he or she is qualified, must take a 4-hour training class specific to that firearm type and

caliber.

(b) In addition to completing the annual requalification training required to remain eligible for the Class “G” license as addressed in (2) of this rule, a licensee who has also qualified to carry other types and calibers of approved firearms under this paragraph must complete annual requalifying training for each type and caliber of firearm he or she carries while performing regulated activities. Proof of successful completion of such training shall be submitted to the Division as specified in paragraph (2)(b) above. A separate Certificate of Firearms Proficiency for Statewide Firearms License must be submitted to the Division for each type and caliber of firearm that the licensee will be carrying while performing regulate activities.

(c) A Class “G” license will not be suspended based on a licensee’s failure to requalify for a secondary firearm as long as the licensee has successfully completed annual requalification training for the type and caliber of revolver or semiautomatic pistol for which he or she has been qualified as their primary firearm. Failure to successfully requalify for a licensee’s secondary firearm will result in the licensee’s inability to utilize the secondary firearm until such time as he or she submits proof of successful annual requalification for the secondary firearm.

(4) Firearms Instruction.

(a) Firearms Training Manual Student Handbook and Study Guide. All Class “G” applicants seeking initial firearms qualification, and all Class “G” licensees seeking either annual requalification training or training to carry other types and calibers of firearms, must utilize the instruction material contained in the Firearms Training Manual Student Handbook and Study Guide, FDACS P-02079, effective 06/2016, which is hereby incorporated by reference and can be obtained at: <https://www.flrules.org/Gateway/reference.asp?No=Ref-> , or from the Division of Licensing at the addresses listed in Rule 5N-1.100, F.A.C., of this chapter.

(b) Firearms Training Manual Instructor’s Guide. In coordination with the Firearms Training Manual Student Handbook and Study Guide incorporated in (4)(a), above, all Class “K” licensed firearms instructors must utilize the instruction requirements and materials contained in the Firearms Training Manual Instructor’s Guide, FDACS P-02078, effective 06/2016, which is hereby incorporated by reference and can be obtained at: <https://www.flrules.org/Gateway/reference.asp?No=Ref> , or from the Division of Licensing at the addresses listed in Rule 5N-1.100, F.A.C., of this chapter.

(c) Firearms instructors may use audio/video material as an instructional aide when teaching the classroom portion of the firearms training course, however, in no case shall an instructor rely solely on the use of audio/video material.

Firearms instruction must be presented as live, in-person classes where the firearms instructor is present to allow for necessary student teacher interaction when teaching students to use firearms.

(d) Certificate of Firearms Proficiency for Statewide Firearms License.

1. The Certificate of Firearms Proficiency for Statewide Firearm License shall be used by each firearms instructor to document successful completion of either a 28-hour or 4-hour firearms proficiency course, and to provide the Division necessary information regarding a student's eligibility for a Class "G" firearms license. The Certificate of Firearms Proficiency for Statewide Firearm License, FDACS-16005 revised 06/16, is hereby incorporated by reference. A sample of the Certificate of Firearms Proficiency can be viewed at <https://www.flrules.org/Gateway/reference.asp?No=Ref>

. Firearms instructors may obtain originals of the Certificate of Firearms Proficiency for Statewide Firearm License from the Division of Licensing at the addresses listed in Rule 5N-1.100, F.A.C., of this rule chapter.

2. When a student completes a 28-hour or 4-hour firearms proficiency course, the Class "K" firearms instructor administering the course must ensure the triplicate Certificate of Firearms Proficiency for Statewide Firearm License is accurately completed, and have the student sign and date the Certificate. The Class "K" instructor administering the course shall provide to each Class "G" student the original white and pink pages from the Certificate. The instructor shall retain the Certificate's yellow page in his or her records as indicated in paragraph (4)(c) of this rule.

3. Students who lose or damage the original white or pink page of their Certificate of Firearms Proficiency for Statewide Firearms License, should contact their instructor for a duplicate original page. An instructor issuing a duplicate Certificate to a student, must write "Duplicate" in the Certificate's comment section.

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 41 No. 126, June 30, 2015 issue of the Florida Administrative Register.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The agency has determined that these rules, independently, will not have an adverse impact on small business or likely increase, directly or indirectly, regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of this rule. Three statements of estimated regulatory cost have been prepared by the agency. The agency has determined that these proposed rules are not expected to require legislative ratification based on the statements of estimated regulatory costs. Any person who wishes to provide information regarding the statements of estimated regulatory costs or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice. Copies of the statements of regulatory costs may be acquired by contacting the division at bryan.barber@myfloridalicense.com or calling (850)717-1761.

61D-2.024:

The rule is not likely to directly or indirectly have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of \$1 million in the aggregate within 5 years after implementation of the rule.

This rule is not likely to directly or indirectly have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after implementation of the rule.

The rule is not likely to directly or indirectly increase regulatory costs, including transactional costs, in excess of \$1 million in the aggregate within 5 years after implementation of the rule.

The number of individuals and entities likely to be required to comply with the rule is no individuals and 39 entities, as there are currently 39 entities with pari-mutuel wagering permits issued by the division to conduct pari-mutuel wagering on greyhound or horse races.

Generally, the types of individuals likely to be affected by the rule are the holders of pari-mutuel wagering permits issued by the division to conduct pari-mutuel wagering on greyhound or horse races.

The department will not incur costs for implementing or enforcing the proposed rule.

State or local governments will not incur costs for implementing or enforcing the proposed rule.

There is likely to be no increase in transactional costs incurred by individuals and entities, including local government entities, required to comply with the requirements of the proposed rule.

There will be no impact on small businesses as a result of this rule.

There will be no impact on small counties or small cities as a result of this rule.

There is no additional information that the agency has determined may be useful.

- The proposed alternative rule would permit quarter horse racing to include barrel and flag drop racing at qualified permitholders' facilities, would permit qualified permitholders to conduct live races without pari-mutuel wagering where the cost to regulate pari-mutuel wagering on the races exceeds the revenue generated by live races at the permitholder's facility, and would permit qualified permitholders to request minor changes to racing dates. The division rejected this proposed alternative rule in favor of the proposed rule as barrel and flag drop racing are not contemplated by statute, because the proposed alternative rule does not provide the same authenticity and reliability to the betting public, and because the proposed alternative rule does not offer the same level of protection to the racing horses and participants.

61D-2.025:

The rule is not likely to directly or indirectly have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of \$1 million in the aggregate within 5 years after implementation of the rule.

This rule is not likely to directly or indirectly have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons

doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after implementation of the rule.

The rule is not likely to directly or indirectly increase regulatory costs, including transactional costs, in excess of \$1 million in the aggregate within 5 years after implementation of the rule.

The number of individuals and entities likely to be required to comply with the rule is no individuals and 39 entities, as there are currently 39 entities with pari-mutuel wagering permits issued by the division to conduct pari-mutuel wagering on greyhound or horse races.

Generally, the types of individuals likely to be affected by the rule are the holders of pari-mutuel wagering permits issued by the division to conduct pari-mutuel wagering on greyhound or horse races.

The department will not incur costs for implementing or enforcing the proposed rule.

State or local governments will not incur costs for implementing or enforcing the proposed rule.

There is likely to be minimal or no increase in transactional costs incurred by individuals and entities, including local government entities, required to comply with the requirements of subsections (1), (3), (4), (5), (6), (7), and (8) of the proposed rule. There is likely to be an approximately \$63,000 increase in transactional costs incurred by individuals and entities, including local government entities, required to comply with the requirements of subsection (2) of the proposed rule.

There will be no impact on small businesses as a result of this rule.

There will be no impact on small counties or small cities as a result of this rule.

There is no additional information that the agency has determined may be useful.

The proposed alternative rule would permit quarter horse racing to include barrel and flag drop racing at qualified permitholders' facilities, would permit qualified permitholders to conduct live races without pari-mutuel wagering where the cost to regulate pari-mutuel wagering on the races exceeds the revenue generated by live races at the permitholder's facility, and would permit qualified permitholders to request minor changes to racing dates. The division rejected this proposed alternative rule in favor of the proposed rule as barrel and flag drop racing are not contemplated by statute, because the proposed alternative rule does not provide the same authenticity and reliability to the betting public, and because the proposed alternative rule does not offer the same level of protection to the racing horses and participants.

61D-2.027:

The number of individuals and entities likely to be required to comply with the rule is no individuals and 50 entities, as there are currently 39 entities with pari-mutuel wagering permits issued by the division to conduct pari-mutuel wagering on greyhound or horse races and 11 entities with pari-mutuel wagering permits issued by the division to conduct jai alai.

Generally, the types of individuals likely to be affected by the rule are the holders of pari-mutuel wagering permits issued by the division to conduct pari-mutuel wagering on greyhound or horse races and the holders of pari-mutuel wagering permits issued by the division to conduct jai alai.

The department will not incur costs for implementing or enforcing the proposed rule.

State or local governments will not incur costs for implementing or enforcing the proposed rule.

There is likely to be minimal or no increase in transactional costs incurred by individuals and entities, including local government entities, required to comply with the requirements of the proposed rule.

There will be no impact on small businesses as a result of this rule.

There will be no impact on small counties or small cities as a result of this rule.

proposed alternative rule does not provide the same authenticity and reliability to the betting public, and because the proposed alternative rule does not offer the same level of protection to the racing horses and participants.

This correction does not affect the substance of the rule as it appeared in the Florida Administrative Register as outlined above.
